## **Weyerhaeuser Foundation Supports Savannah Technical College**

*Gift to support furniture and equipment at Crossroads*

SAVANNAH – A group of Weyerhaeuser officials, led by Bob Grygotis, Vice President/Mill Manager at the Port Wentworth location, were on campus last week to present a check to College President C.B. Rathburn supporting the purchase of furniture and equipment at the college's Crossroads Technology Campus. (**group photo attached**)

"We're very grateful for the generosity of Weyerhaeuser Foundation," said Rathburn. "Our Crossroads campus is building momentum and will continue to grow. Our industry partners have stepped forward in a number of important ways."

In presenting the gift, Grygotis noted "We're very pleased with Savannah Technical College and are delighted to provide the necessary support for student learning. We will be looking to build in-house expertise in a number of critical skills, particularly in our maintenance area." A number of Weyerhaeuser employees have been students of the college's Industrial Systems Technology program.
