President Love
Savannah Technical College
5717 White Bluff Road
Savannah, GA 31499

Dear President Love:

Thank you for submitting the 2014-2015 Hazard Communication Program Plan for your college. Your HCPP has been approved without need for revisions. Please note that an updated Hazardous Chemical Inventory has already been submitted for the July 1, 2014 deadline for your college. We appreciate the hard work and dedication you and your staff have shown.

If you have questions or need further information concerning applicable requirements, please contact me at (404) 679-1666 or lbeck@tcsg.edu.

Sincerely,

Lisa Anne Beck
Emergency Manager

(Please forward a copy to your College Hazard Communication Program Plan Coordinator, Gary Strickland)

ATTACHMENT B: TCSG Hazard Communication Program Plan (HCPP) Model

Hazard Communication Program Plan

INTRODUCTION

The State Board of the Technical College System of Georgia (SBTCSG), along with its work units and technical colleges, is committed to providing a safe and healthful environment for its employees, students, volunteers, visitors, vendors and contractors. SBTCSG Policy II.D. Emergency Preparedness, Health, Safety and Security compels technical colleges and work units to ensure that information about the dangers of all hazardous chemicals used by (insert name of work unit or technical college) are known by all affected employees. The following Hazard Communication Program Plan (HCPP) has been established to inform employees and students of the hazardous properties of chemicals with which they work or study, of safe handling procedures and of measures to take to protect employees and students from these chemicals. In addition, this HCPP will inform employees of the contents of the Occupational Safety and Health Administration (OSHA) Hazard Communications Standard, 29 CFR 1910.1200 (along with the Georgia Public Employee Hazardous Chemical Protection and Right to Know Act of 1988 O.C.G.A. §45-22-1 to §45-22-12 as well as the Georgia Public Employee Hazardous Chemicals Protection and Right to Know Rules, 300-3-19-01 et seq.)

This program applies to all work operations in our work unit or technical college where you may be exposed to hazardous chemicals under normal working conditions or during an emergency situation. All organizational units in (insert technical college/work unit name) will participate in the HCPP. Copies of the Hazard Communication Program Plan are available in Human Resources for review by any interested employee. The Director of Facilities is the HCPP/Right to Know Coordinator, with overall responsibility for the program, including ensuring it is maintained, reviewed and updated at least annually to ensure compliance and protection for employees.

This Hazard Communication Program Plan includes the following topics:

- container labeling
- safety data sheets
- employee training and information
- hazardous non-routine tasks
- informing other employers/contractors
- lists of hazardous chemicals
- chemicals in unlabeled pipes
- program availability

I. CONTAINER LABELING

The Director of Facilities will verify that all containers received for use will be clearly labeled as to the contents, note the appropriate hazard warning, and list the manufacturer's name and address.

The Director in each section will ensure that all secondary containers are labeled with either an extra copy of the original manufacturer's label or with labels marked with the identity and the appropriate hazard warning. For help with labeling, see The Director of Facilities

The Director of Facilities will review the company labeling procedures every 12 months and will update labels as required.

II. SAFETY DATA SHEETS

The Director of Facilities is responsible for establishing and monitoring the technical college or work unit SDS program. He or she will ensure that procedures are developed to obtain the necessary SDSs and will review incoming SDSs for new or significant health and safety information. He/she will see that any new information is communicated to affected employees. The procedure below will be followed when an SDS is not received at the time of initial shipment:

MSDS Online, which is contracted to handle the digital storage and collection of all STC SDS will be contacted with the needed information so as to gather the required SDS for the chemical/product in question.

Copies of SDSs for all hazardous chemicals to which employees are exposed or are potentially exposed will be kept in the Operations office of the Savannah Campus as well as online.

SDSs will be readily available to all employees during each work shift. If an SDS is not available, contact The Director of Facilities.

SDSs will be readily available to employees in each work area using the following format:

Online at MSDS Online at : <https://msdsmanagement.msdsonline.com/company/9C162D06-0F6A-4279-930E-54F6B72EAE1E>

When revised SDSs are received, the following procedures will be followed to replace old SDSs: Revised SDSs will be sent to MSDS Online to scan and add to the appropriate folder(s).

III. EMPLOYEE TRAINING AND INFORMATION

Human resources is responsible for the Hazard Communication Program Plan training and will ensure that all program elements are carried out.

Everyone who works with or is potentially exposed to hazardous chemicals will receive initial training on the hazard communication standard and this HCPP before starting work and refresher training annually. Each new employee will attend training that includes the following content:

- an overview of the OSHA Hazard Communication Standard
- the hazardous chemicals present at his/her work area
- the physical and health risks of the hazardous chemicals
- symptoms of overexposure
- how to determine the presence or release of hazardous chemicals in the work area
- how to reduce or prevent exposure to hazardous chemicals through use of control procedures, work practices and personal protective equipment
- steps the company has taken to reduce or prevent exposure to hazardous chemicals
- procedures to follow if employees are overexposed to hazardous chemicals
- how to read labels and SDSs to obtain hazard information
- location(s) of the SDS file and written Hazard Communication Program Plan

Prior to introducing a new chemical hazard into any organizational unit, each employee in that organizational unit will be given information and training as outlined above for the new chemical hazard. The training format will be as follows:

The training format is an online training session followed by a test which must be passed with a score of 80% or better.

IV.HAZARDOUS NON-ROUTINE TASKS

Periodically, employees are required to perform non-routine tasks that are hazardous. Examples of non-routine tasks are: confined space entry, tank cleaning, and painting reactor vessels. Prior to starting work on such projects, each affected employee will be given information by their immediate supervisor about the hazardous chemicals he or she may encounter during such activity. This information will include specific chemical hazards, protective and safety measures the employee should use, and steps Savannah Technical College is taking to reduce the hazards, including ventilation, respirators, the presence of another employee (buddy systems), and emergency procedures.

V.INFORMING OTHER EMPLOYERS/CONTRACTORS

It is the responsibility of the facilities Director to provide other employers and contractors with information about hazardous chemicals that their employees may be exposed to on a job site and suggested precautions for employees. It is the responsibility of the Facilities Director to obtain information about hazardous chemicals used by other employers to which employees of this technical college or work unit may be exposed.

Other employers and contractors will be provided with SDSs for hazardous chemicals generated by the operations of this technical college or work unit in the following manner:

In addition to providing a copy of an SDS to other employers, other employers will be informed of necessary precautionary measures to protect employees exposed to operations performed by this technical college or work unit.

Also, other employers will be informed of the hazard labels used by this technical college or work unit. If symbolic or numerical labeling systems are used, the other employees will be provided with information to understand the labels used for hazardous chemicals for which their employees may have exposure.

VI.LISTS OF HAZARDOUS CHEMICALS

A list of all known hazardous chemicals used by our employees and students is attached to this plan. This list includes the name of the chemical, the manufacturer, the work/study area in which the chemical is used, dates of use, and quantity used. Further information on each chemical may be obtained from the SDSs, located online at :

<https://msdsmanagement.msdonline.com/company/9C162D06-0F6A-4279-930E-54F6B72EAE1E>

When new chemicals are received, this list is updated (including date the chemicals were introduced) within 30 days. To ensure any new chemical is added in a timely manner, the following procedures shall be followed:

MSDS Online updates our inventoried SDSs on a monthly basis.

The hazardous chemical inventory is compiled by The Director of Facilities and maintained by MSDS Online.

Include here the chemical list developed during the inventory. This list should be arranged to be able to cross-reference it with the SDS file and the labels on containers. Additional useful information, such as the manufacturer's telephone number, an emergency number, scientific name, CAS number, the associated task, etc., can be included.

VIII.PROGRAM AVAILABILTY

A copy of this program will be made available, upon request, to employees, to students and their representatives.

Product Summary Report for All Products assign

Department	Division	Product Status in Location	Product Name
Air Conditioning		Active	"SUVA" 410A
Air Conditioning		Active	"SUVA" HP81 (R402B)
Air Conditioning		Active	Acetylene
Air Conditioning		Active	Aerosol Electrical Contact Cleaner
Air Conditioning		Active	BRITE-10 BC
Air Conditioning		Active	CHEVRON FM Penetrating oil Aerosol
Air Conditioning		Active	CHEVRON FM Penetrating oil Aerosol
Air Conditioning		Active	DT-2 DETERGENT TABS
Air Conditioning		Active	Foamtrol AF2050
Air Conditioning		Active	GENERAL FLUX H 64050
Air Conditioning		Active	Genetron 22
Air Conditioning		Active	High Strength surface cleaner
Air Conditioning		Active	Hydro-Balance Hydro-Kleen Concentrate
Air Conditioning		Active	LEAK LOCK
Air Conditioning		Active	Nitrogen

Air Conditioning	Active	OOPS! WATERBASED LATEX PAINT REMOVER
Air Conditioning	Active	Oxygen
Air Conditioning	Active	PROPANE
Air Conditioning	Active	Propane - odorized
Air Conditioning	Active	Quick Seal Pipe Repair
Air Conditioning	Active	RectorSeal Tru-Blu
Air Conditioning	Active	SAFETY SILV 50 BRAZING ALLOYS CADMIUM FREE
Air Conditioning	Active	SILVALOY 45
Air Conditioning	Active	STAIN BLASTER G, 15380
Air Conditioning	Active	STAY BRITE SOLDERS
Air Conditioning	Active	Thermo Trap
Air Conditioning	Active	TYPE AK-3 INDICATOR 14.7 OZ (ACID TEST KIT)
Air Conditioning	Active	Vacuum Pump Oil
Air Conditioning	Active	White Board Cleaning Solution
Allied Health	Active	"ELVAX" RESINS ALL IN SYNONYM LIST VAX012
Allied Health	Active	3M ESPE CAVIT/ CAVIT-W/ CAVIT-G

Allied Health	Active	3M Espe Ketac-Fil Plus Aplicap, Ketac-Fil Plus Aplicap/Ketac Fil Plus Powder, Ketac-Fil Plus Aplicap/Ketac Fil Plus Liquid
Allied Health	Active	7523 3M ESPE SCOTCHBOND ETCHANT DELIVERY SYSTEM
Allied Health	Active	Air Techniques DEVELOPER & FIXER - KIT
Allied Health	Active	Air Techniques DEVELOPER & FIXER- KIT
Allied Health	Active	AMMONIA INHALANT SOLUTION
Allied Health	Active	A-Putty Super Hydro Regular Set
Allied Health	Active	BANICIDE 2%
Allied Health	Active	BIOCIDE
Allied Health	Active	Bite Registration (SF/Set, F/Set, Reg/Set)
Allied Health	Active	Bitestone, Hard Rock, Microstone, Orthodontic Plaster, Quickstone
Allied Health	Active	CAULK TRAY ADHESIVE
Allied Health	Active	CAVICIDE Surface Disinfectant/Decontaminant Cleaner
Allied Health	Active	CAVICIDE Surface Disinfectant/Decontaminant Cleaner

Allied Health	Active	ChemSorb (WYK Safety Sorbent)
Allied Health	Active	CLOROX LIQUID BLEACH
Allied Health	Active	COE STERIL Concentrate
Allied Health	Active	COE-PAK BASE ALL
Allied Health	Active	Coe-Pak Retarder
Allied Health	Active	Denstone, Labstone, Tru-Stone, Die-Stone, Die-Keen, Milestone, Indic Die Stone, Lab Plaster, Model Plaster, 0-67, Orthodontic Plaster, Mounting Stone
Allied Health	Active	Dental Dam (All Colors)
Allied Health	Active	DisCide-TB
Allied Health	Active	DisClens Towlettes
Allied Health	Active	DURELON liquid
Allied Health	Active	DURELON powder
Allied Health	Active	DURELON powder, DURELON liquid - KIT
Allied Health	Active	DYCAL BASE PASTE
Allied Health	Active	DYCAL CATALYST PASTE
Allied Health	Active	Embrace Wetbond Pit and Fissure Sealant
Allied Health	Active	EXPRESS VINYL POLYSILOXANE HYDROPHILIC IMPRESSION MATERIAL, LIGHT BODY - REGULAR SET #7302H

Allied Health	Active	EXPRESS VINYL POLYSILOXANE IMPRESSION MATERIAL STD PUTTY #7312
Allied Health	Active	Fastray Liquid
Allied Health	Active	Fastray Powder
Allied Health	Active	FLECKS CEMENT LIQUID
Allied Health	Active	Flecks Cement Powder
Allied Health	Active	Fluoride Foam
Allied Health	Active	Formula 200 plus Cleaner 2 - KIT
Allied Health	Active	Formula 2000
Allied Health	Active	FORMULA 2000 - Component 1, FORMULA 2000 - Component 2 - KIT
Allied Health	Active	Formula 2000 - Component 2
Allied Health	Active	FUJI LINING LC LIQUID
Allied Health	Active	FUJI LINING LC POWER
Allied Health	Active	IRM liquid
Allied Health	Active	IRM POWDER & LIQUID - KIT
Allied Health	Active	IRM POWDER Zinc oxide Eugenol
Allied Health	Active	Jeltrate
Allied Health	Active	JET ACRYLIC LIQUID
Allied Health	Active	Jet Acrylic Liquid, Ortho-Jet Acrylic Liquid

Allied Health	Active	JET ACRYLIC POWDER - JET TOOTH SHADE, JET DENTURE REPAIR, ORTHO-JET, ORTHO-JET BCA, JET SET-4
Allied Health	Active	KETAC-BOND liquid
Allied Health	Active	KETAC-BOND powder
Allied Health	Active	Ketac-Cem Radiopaque Liquid
Allied Health	Active	Ketac-Cem Radiopaque Powder
Allied Health	Active	KODAK READYMATIC Dental CHEMPACK, Developer
Allied Health	Active	KODAK READYMATIC Dental CHEMPACK, Fixer
Allied Health	Active	Labstone
Allied Health	Active	Lidocaine HCl 2.0% and Epinephrine 1:50,000 Injection
Allied Health	Active	Mepivacaine hydrochloride 3% Injection
Allied Health	Active	Mercury
Allied Health	Active	Methyl Methacrylate; monomer (inhibited)
Allied Health	Active	Model Plaster
Allied Health	Active	Modern Materials - Modem Pink, Shur Wax X-Hard, Shur Wax, Utility Wax, Boxing Wax, Yellow Bite Wax, Periphery, CoprWax, White Check Bite Wafers, Yellow Check Bite Wafers
Allied Health	Active	ORANGE SOLVENT

Allied Health	Active	Ortho Liquid
Allied Health	Active	Patterson Dental Etchant Gel
Allied Health	Active	PD Care 2.5% Glutaraldehyde
Allied Health	Active	PD Care Dual Enzyme Detergent
Allied Health	Active	PERI-PRO CHEMISTRY - KIT
Allied Health	Active	Peri-Pro Developer, Peri-Pro Fixer - KIT
Allied Health	Active	Permlastic (Base)
Allied Health	Active	Permlastic (Catalyst)
Allied Health	Active	PINE-SOL BRAND CLEANER
Allied Health	Active	President heavy body
Allied Health	Active	President light body
Allied Health	Active	Prisma Universal Bond 3 - Primer
Allied Health	Active	Protemp II Base Pastes
Allied Health	Active	Pumice
Allied Health	Active	RAMITEC base paste
Allied Health	Active	RAMITEC Catalyst
Allied Health	Active	Reflection VPS - KIT
Allied Health	Active	Reprosil
Allied Health	Active	SCHEIN ALGINATE IMPRESSION MATERIAL
Allied Health	Active	Septocaine
Allied Health	Active	SPECIAL TRAY LIQUID

Allied Health	Active	SPECIAL TRAY POWDER
Allied Health	Active	Spray 2000
Allied Health	Active	Spray 2000 Plus
Allied Health	Active	SUPERBITE PASTE
Allied Health	Active	SURFACE DISINFECTANT SPRAY
Allied Health	Active	Temp-Bond Ne (Non-Eugenol) Accelerator
Allied Health	Active	TOOTH CONDITIONER GEL
Allied Health	Active	Traid Air Barrier Coating (ABC)
Allied Health	Active	TREMSEAL S WHITE
Allied Health	Active	TRIAD Model Release Agent
Allied Health	Active	Triad Reline Material (Original-Flow)
Allied Health	Active	Triad VLC Bonding Agent
Allied Health	Active	Triad VLC Custom Tray Material
Allied Health	Active	Triad VLC Provisional Material
Allied Health	Active	Trim, Trim II, Trim Tints
Allied Health	Active	Trim/Trim II/Trim Tints/Trim VW Powders
Allied Health	Active	Trim/TrimII Liquid
Allied Health	Active	Turco Plaudit/Pelton & Crane Omni Cleaner
Allied Health	Active	Tylok-Plus Radiopaque Polycarboxylate Cement

Allied Health	Active	ULTRA CLOROX REGULAR BLEACH
Allied Health	Active	Valiant Ph.D., Valiant Ph.D. XT, Valiant Ph.D. EXT, Valiant Snap Set Alloy ALS
Allied Health	Active	Vinyl Addition Bite Registration Paste
Allied Health	Active	Zinc Cement Liquid Improved
