8. Students must possess a current CPR and First Aid card at the time of submitting application to the Surgical Technology program. (Can be obtained in ALHS 1040 course)

9. Transfer credits from other institutions will be included in the Grade Point Average (GPA) calculation.

10. A minimum GPA of 3.0 is required for entry into the Surgical Technology program. An Adjusted GPA is calculated only on those courses required for entrance into the Surgical Technology program. When a course is taken more than once, the most current attempt will be used. Each letter grade has a point value (i.e., A=4, B=3, C=2, D=1, F=0). The grade points for each course are determined by multiplying the number of points a grade is worth times the number of credit hours the course carries. The Adjusted GPA is calculated by adding the total grade point values for courses and dividing the total number of credits attempted for each course calculated. Transfer credits will be included in the GPA calculation where applicable.

11. All Health Science Core and Occupational classes must be within 5 years of application to the Surgical Technology program.

12. COMP 1000 must be less than 7 years old at the time of graduation.

13. Applications are accepted each February for fall semester start of the Surgical Technology program. Students may not have completed the Health Care Assistant TCC- Central Sterile Processing Specialization at the time of application but are expected to have successfully completed the program prior to starting the Surgical Technology program.

Note:

Students may be required to successfully pass a criminal background check and drug screen analysis before placement in clinical settings.
