WELCOME FROM THE PRESIDENT

Let me be among the first to welcome you to Savannah Technical College. I encourage you to spend some time looking through our catalog. I am certain that you will find something that attracts your interest.

At Savannah Technical College, we offer more than one hundred associate degree, diploma and certificate programs ranging from our Associate of Science in Dental Hygiene to Commercial Truck Driving and many programs in between. Our classes are convenient – offered day, evening and online – so it's easy to fit education into your busy schedule. Whether you are exploring new career options, brushing up on your skills to advance in the workplace or pursuing skills that have long interested you, you can find just what you're looking for at our locations in Chatham County, Effingham County and Liberty County.

Our faculty members have proven expertise in their fields. You will benefit from our close relationships with employers throughout our region. In our classrooms and labs, you will gain the hands-on experiences that will ensure your success in the workplace after graduation - we guarantee it! We proudly partner with area businesses to create successful workforce development programs that benefit our students and the Community.

Savannah Technical College is a great value and is easily affordable. With a variety of financial assistance programs available, you can get started today. For many Georgia residents, military personnel and their dependents, the HOPE Scholarship and HOPE Grant assist with the cost of tuition. Federal Pell grants, VA, active duty military education and training assistance, direct student loans, private scholarships and college Work Study are other options for financial assistance.

You can get started now on a bright, new future. I encourage you to stop by the campus nearest you. I know that you will like what you see at Savannah Technical College.

We look forward to welcoming you to campus.

Dr. Kathy S. Love

President

GENERAL INFORMATION

Mission, Vision and Core Values Mission Statement

Savannah Technical College, a unit of the Technical College System of Georgia, is a public, two-year college that provides world class education, skills training and lifelong learning opportunities through the delivery of associate degrees, diplomas, technical certificates of credit and non-credit economic development programs and adult education. The College is committed to meeting the dynamic education, academic, and workforce development needs of individuals, employers and communities throughout the Coastal Empire with market-driven, environmentally-conscious education offered in the classroom, laboratory, community, and online.

Vision Statement

Savannah Technical College will continue to be the premier provider of world class education, skills training, and lifelong learning for success in a global economy with our guiding principles of quality, integrity and sustainability.

Core Values

Savannah Technical College values quality, integrity and sustainability in all we do as individuals and as a teaching and learning community. We are committed to creating an environment that promotes behaviors and decisions to advance our mission and vision for success.

Quality

We will demonstrate that we value:

- Excellence by consistently meeting or exceeding the needs and expectations of our stakeholders, ourselves and our accrediting bodies.
- High academic standards by expecting the best of our students and ourselves.
- Creativity by being innovative and fostering new ideas.
- Learning by continuously improving our learning environment.
- Exceptional performance by recognizing and rewarding excellence in our students, faculty, staff and community.
- Professionalism by expecting and producing work and work environments of the highest quality.
- Vision by being forward thinking.

Integrity

Demonstrate the value of:

- Honesty by speaking and acting truthfully.
- Commitment by doing what we say we'll do.
- Collaborative involvement by providing for and encouraging shared governance.
- Teamwork by respecting the talents, feelings and contributions of all.
- Candor by offering and welcoming constructive assessment and suggestions for improvement.
- Fiscal responsibility by honoring our role as stewards of the public trust through efficient and effective use of our resources.
- Accountability by being responsible to stakeholders for our actions.

Sustainability

Demonstrate the value of:

- The environment by respecting and maintaining our physical resources and incorporating emergent technology in program content, delivery methods, and institutional administration.
- Mutual respect by building relationships that acknowledge the essential dignity of each individual.
- Diversity by valuing all races, genders, cultures, backgrounds, lifestyles, and abilities.
- Creating and sustaining an intellectually stimulating environment for our collective growth.
- Renewal by pursuing personal and professional development

History of Savannah Technical College

1929: The Opportunity School started through the sponsorship of the Savannah Chamber of Commerce. The original location was on Wright Square at Bull and State Streets in the building that would become the Wright Square Post Office.

1930: The school outgrew its first quarters and moved to the second and third floors above McCrory's at Bull and Broughton streets. Courses were offered in general continuing education, distributive education and shop for boys. At the close of the 1930-1931 year, 466 students were enrolled.

1937: An Evening Trade Extension program started at the Savannah High and Cuyler Street schools and was later transferred to Beach High School.

1938: The school moved to the old Sunday School Building of the Independent Presbyterian Church at Bull and Hull Streets. During World War II, in addition to the regular business education classes, war production and shop classes were offered at the Bay Street location.

1959: Chatham County voters approve a \$750,000 Bond issue to match state construction funds for two area vocational-technical schools. In a joint venture between the Chatham County Board of Education and the State Board of Education, the school combined with the Harris Area Trade School to become the Savannah Area Vocational-Technical School.

1967: The Savannah Area Vocational-Technical School was officially dedicated to serve the five-county area of Chatham, Bryan, Effingham, Liberty, and Long counties.

1973: Plans were drawn up and the Savannah Chatham County Board of Education acquired 37.5 acres of surplus property from Hunter Army Airfield to construct a consolidated vocational-technical postsecondary school.

1978: Ground breaking ceremonies were held.

1981: Construction was completed at an approximate cost of nine million dollars. Regular classes started summer quarter and adult evening classes started that fall.

1984: The Savannah Tech Foundation and Advisory Council were created to raise money for scholarships, endowments and research grants. A 22,000 square foot building was renamed and dedicated the West Chatham Technology Center as a "Quick Start" Industrial Training Center to train employees for new and existing industries.

1989: Diploma programs for military personnel were established through the Army Education Center at Fort Stewart, Hinesville with 53 students.

1990: Fall Quarter, Savannah-Chatham County Board of Education and the Georgia Department of Technical and Adult Education approved an official name change to Savannah Technical Institute.

1991: The Commission on Colleges of the Southern Association of Colleges and Schools (SACS) granted accreditation to award associate degrees and diplomas.

1995: The office located at the Army Education Center at Fort Stewart closed, moving operations to General Screven Way in Hinesville.

1997: Savannah Technical Institute came under the governance of the State Board of Technical and Adult Education on July 1, 1997 as the fifth largest of 33 technical institutes.

2000: On July 6, Governor Roy Barnes officially announced the name change to Savannah Technical College. The mission continues to focus on contributing to the economic, educational, and community development of Bryan, Chatham, Effingham and Liberty counties by providing quality technical education, continuing education, customized business and industry training, and adult literacy education.

2002: Savannah Technical College was recognized as the third fastest-growing two-year college of its size in the country by Community College Week. Enrollment climbed to more than 3,500 students.

2003: An era of unparalleled growth continued as construction was completed on two new state of the art instructional facilities on the Savannah campus, the Crossroads Technology Campus opened in Savannah, and construction began on a new Liberty

2004: The Liberty Campus opened on Airport Road at Technology Drive in Hinesville. The Savannah Technical College Foundation honored former Governor Zell Miller with the first annual Opportunity Award.

2005: Savannah Technical College regional economic impact determined to be \$87.5M annually; Savannah Technical College received the Georgia Focus Recognition Award for organizational performance.

2006: New facilities opened on the Savannah Campus - an expanded Campus Shop and a new One Stop Student Success Center brings new services to students. Enrollment at Liberty Campus set records; overall enrollment pushed 6,000.

2007: Crossroads Technology Campus opens eight new state-of-the-art wireless classrooms; the 11,716 square foot Effingham Campus opens. College's accreditation through the Commission on Colleges of the Southern Association of Colleges and Schools was reaffirmed.

2009: Construction began on a 55,000 square foot academic building.

2010: New Academic Commons building is completed and opened for classes. Savannah Technical College named by Community College magazine as one of the top 25 fastest-growing 2-year colleges of its size in the country, placing 22 among colleges serving between 5,000 and 9,999 students.

2011: Student Enrichment Center completed on the Savannah Campus, funded in part through private gifts to the Savannah Technical College Foundation. The 19,312 sq. ft. building includes 12 classrooms, self-paced labs and tutoring facilities. The College also transitioned from the quarter system to the semester system in the fall of 2011. The College adds Fire Science to program curriculum. The College broke ground on a 29,152-square-foot Aviation Training Center at the Crossroads Campus that will have a 5,000-square-foot hangar plus labs and classrooms. The College, along with the entire Technical College System of Georgia, transitioned all credit programs from the quarter system to the semester system effective fall semester.

2012: The Culinary Arts Department Head Chef Jean Vendeville was selected as the TCSG 2012 Instructor of the Year. The College signed an articulation agreement with Georgia Southern University and announces a new 74-credit hour associate of science degree in Logistics Management, which will transfer completely to GSU. The College opened a Dental Hygiene Facility at the Savannah Campus that includes 7,745 square feet of renovated space and 6,407 square feet of new construction. The College developed new programs for Sustainable Technologies and Culinary Baking and Pastry Arts.

2013: The Aviation Training Center was completed and all aviation-related programs were relocated to the Crossroads Campus. The College began the FAA certification process which would enable the offering of Airframe and Power plant programs. Savannah Technical College opens newly remodeled Cosmetology and Barbering suites at the Liberty Campus. The College purchases first Alternative Fuel Vehicle (AFV) for instruction at Savannah Campus. The College signs partnership agreement with Armstrong Atlantic State University to ensure a seamless educational pathway for criminal justice students between two institutions of higher education.

2014: The American Culinary Federation (ACF) awarded STC Department Chair for Culinary Arts Chef Jean Yves Vendeville the 2014 Chef Educator of the Year Award. The College established the Center for Traditional Craft, a new initiative for its Historic Preservation department. The Center is organized in three distinct but intertwined components; education, research, and community outreach. Criminal Justice Associate of Science was approved with pathway to Armstrong BS. Fire Science students may expand their first responder training with Emergency Medical Services (EMS) certifications thanks to a Firefighter/EMS diploma.

2015: The Savannah Technical College Foundation announced a \$10 million major gifts campaign to support the College. The "Where Opportunity Meets Excellence" Campaign showcases the College's excellence in instruction through opportunities it provides students. The College added Industrial Systems and Machine Tool programs to its Liberty Campus. Ashley Young, a STC Practical Nursing graduate who works in the in-patient surgery center, was named 2015 Nurse of the Year by Memorial Hospital. The College was named #4 in the U.S. Best for Vets: Career & Technical Colleges by Military Times and opened a Veteran's Service Center at the Savannah

campus, featuring resources and a staff to assist veterans with enrollment, financial aid and military benefits. The Landings Military Family Relief Fund donated \$20,000 to create the Landings Military Spouse Academic Assistance Fund. The Savannah Campus installed a large digital marquee sign, which was designed by STC Drafting Graduate Michelle Methot.

Institutional Overview

Savannah Technical College, the region's leading provider of market-driven, quality technical and adult education, has been meeting the needs of its community for more than three-quarters of a century. Building on a tradition of partnership, pride and service, the College serves almost 8,000 credit students each year in nearly 150 different instructional programs. Credit programs are offered in the fields of Business and Technology, Public Service, Industrial Technology, Aviation Technology, and Health Sciences. Over 5,000 additional students enroll in the College's Adult Education classes, industry-specific training, and continuing education.

Working closely with its business partners, the College develops programs that are designed to meet the changing needs of the regional economy with the flexibility and creativity necessary to sustain the workforce of the future. Each year, the College measures the retention, graduation, and job placement rates of all credit programs. This annual analysis allows the College to ensure the quality and necessity of the program offerings.

Through its commitment to quality, service and responsiveness to its community, Savannah Technical College will remain an integral force in the future growth and development of southeast Georgia.

Perkins Funds

The Carl D. Perkins Strengthening Career and Technical Education for the 21st Century Act (Perkins V) was originally authorized in 1984, and most recently reauthorized in 2018. The purpose of Perkins V is to provide individuals with the academic and technical skills needed to succeed in a knowledge and skills-based economy. Perkins supports career and technical education that prepares its students for postsecondary education and the careers of their choice. Federal resources help ensure that career and technical programs are academically rigorous and up-to-date with the needs of business and industry. Perkins funds are used for the following types of activities:

1. Provide career exploration and career development activities.
2. Provide professional development for faculty, school leaders, administrators, specialized instructional support personnel, career guidance and academic counselors.
3. Provide within career and technical education the skills necessary to pursue careers in high-skills, high-wage, or in-demand industry sectors or occupations.
4. Support integration of academic skills into career and technical education programs and programs to study.
5. Plan and carry out elements that support the implementation of career and technical education programs and programs of study that result in increasing student achievement.
6. Develop and implement evaluations of the activities carried out with Perkins V funding.

Warranty of Degree, Diploma, and Technical Certificate of Credit Graduates

The Technical College System of Georgia guarantees employers that graduates of State Technical Colleges shall possess skills and knowledge as prescribed by State Curriculum Standards.

Should any graduate employee within two years of graduation be deemed lacking in said skills, that student shall be retrained in any State Technical College at no charge for instructional costs to either the student or the employer.

The employer or graduate should contact the Vice President for Academic Affairs at Savannah Technical College to obtain more information or to file a warranty claim.

Library Resources

The Savannah Technical College libraries support the academic and research needs of the students and faculty with facilities at the Savannah, Liberty, and Effingham campuses. Library resources are bookmarked in computer labs at the Crossroads and Aviation Campuses. Together, the holdings include approximately 37,000 books, 3300 DVDs/VHS tapes, relevant periodicals, 550,000 eBooks, and through GALILEO (Georgia Library Learning Online), over 15,000 full-text periodicals. The library works closely with the faculty in collection development to keep library holdings current to the different programs of study needs. The libraries also provide student computer labs for use in study, projects, and research. Moreover, the computers have different instructional programs that are used by students for assignments or extra study. Library resources move freely between the three campuses in response to student and faculty requests. In addition, the libraries support the needs of a diverse distance education student population. The Savannah and Liberty Campus libraries are staffed with degreed professional librarians who teach bibliographic instruction and research methods to many

classes. In addition, these trained professionals work individually with students providing assistance with assignments, projects, and research. The libraries are open days and evenings for easy student accessibility.

Accreditations

Savannah Technical College is accredited by the [Southern Association of Colleges and Schools Commission on Colleges](http://www.sacscoc.org) (SACSCOC) to award associate degrees, diplomas and technical certificates of credit. Questions about the accreditation of Savannah Technical College may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

All questions about admission, enrollment, job placement, and related matters should be directed to an appropriate office at Savannah Technical College.

Program accreditations are listed below:

PROGRAM:

Automotive Technology

ACCREDITING AGENCY:

The Automotive Technology programs, including Automatic Transmission and Transaxle, Brakes, Electrical/Electronic Systems, Engine Performance, Engine Repair, Heating and Air Conditioning, Manual Drive Train and Axles, and Suspension and Steering, are ASE certified as recommended by the National Automotive Technicians Education Foundation (NATEF). The NATEF can be contacted at 703-669-6650, or by writing to the National Automotive Technicians Education Foundation, 101 Blue Seal Drive, SE, Suite 101, Leesburg, VA, 20175.

Culinary Institute of Savannah

The Culinary Arts Associate of Applied Science degree and diploma programs are accredited by the American Culinary Federation Education Foundations Accrediting Commission (ACFEFAC). Comments regarding this program's accreditation, write to the American Culinary Federation Education Foundation, Attn: Assistant Director of Accreditation, 180 Center Place Way, St. Augustine, FL 32095.

Shared Governance

Savannah Technical College believes and practices shared governance through the establishment and operation of a number of college-wide committees that contribute to the quality of instruction, student success, public safety and facilities and other important areas. The following Governance Committees have been established for 2020-21:

College Faculty Senate
President's Council
SACSCOC Reaffirmation Team

Savannah Technical College Foundation

The Savannah Technical College Foundation raises private funds to support the College's mission to enhance learning, workforce and economic development in Bryan, Chatham, Effingham and Liberty counties. The Foundation focuses its efforts on securing private gifts and grants to enhance student access and program quality by seeking donors and patrons for support of scholarships, expansion of instruction and technology at all campus locations through corporate, private foundation and individual solicitations.

STUDENT AFFAIRS

Office of Admissions

Admission to Savannah Technical College is a multi-step process which consists of evaluation of prior academic experience and assessment for postsecondary readiness of eligible applicants. The ability of a student to succeed in a program at Savannah Technical College is greatly determined by the math and language skills possessed by that student. Savannah Technical College is committed to assisting each student to achieve at their maximum potential. All students applying for diploma, degree, or certificate programs must be assessed prior to acceptance to a program of study at Savannah Technical College. Students will then be admitted in accordance with the academic standards applicable to that program.

In accordance with the Statement of Equal Opportunity, the Technical College System of Georgia and Savannah Technical College will not discriminate in admissions.

Savannah Technical College must verify lawful presence in the United States of every successfully admitted student applying for Georgia resident tuition status as required by state and federal immigration laws with the exception of dually enrolled students who are also enrolled in a secondary institution. Students are classified as out-of-state or foreign until their lawful presence verification requirements are met.

The college catalog is effective with the beginning of Fall Semester and the start of a new academic year. Students must adhere to the catalog of enrollment. If a student does not enroll at Savannah Technical College for two semesters or more, the student must satisfy the program requirements as approved by the college at the time the student re-enrolls. If program requirements change during a period in which a student is continuously enrolled (no interruption), the student has the option of satisfying the new program requirements, as amended, or completing those described in the catalog when the student first declared their major. In cases where programs are revised and a course is no longer available, an appropriate substitution may be made.

Savannah Technical College personnel will not engage in any unfair, deceptive or abusive marketing practices for the purpose of recruiting students to the College. Other than employee salaries, Savannah Technical College does not provide employees, students, or other persons with any gratuity, favor, discount, hospitality, loan, transportation, meals, or items of any monetary value to any individual or entity for the purpose of securing enrollments of any student to the college. Savannah Technical College personnel will not engage in unsolicited contacts of persons for the purpose of recruitment or enrollment, to include contacting them by phone call, text, email, social media, or by any other means.

Military Friendly College

Savannah Technical College, a Military Friendly Institution, is committed to members of the military and veteran population. We respect the service of our military personnel, veterans and dependents. STC promises an environment of support for this very special population. We offer many services to insure successful completion of a degree, diploma or certification. Those services include supportive academic advising, transitional guidance, military and veteran benefits processing, and a Veteran and Military services center. The commitment does not end at graduation as we offer career services and veteran job fairs and workshops to transition graduates.

Service members are given the option of completing their program requirements at the time of enrollment with at least one year beyond the program's standard length. Service members should identify themselves as such when meeting with their program academic advisor. If the Service member requires additional assistance with a program completion plan, they should contact the Office of the Registrar.

Savannah Technical College also exists to serve Active Duty Service members and their dependents. The College recommends that Service members and/or dependents considering enrolling in Savannah Technical College consult their Educational Service Officer (ESO) prior to doing so.

Eligible Applicants

Individuals 16 years of age or older or dually enrolled high school students in the 10th, 11th or 12th grades who seek access to quality instruction at the postsecondary level are eligible for admissions. Programs may have a safety or license mandate of an age older than 16 years of age. Consult with the department head to determine the minimum age requirement specific to program.

Required Academic Criteria

To be admitted to Savannah Technical College, applicants must satisfy one of the six academic readiness paths below:

1. High school graduates must submit an official high school transcript (including graduation date) that reflects the student has met the attendance, academic, and/or assessment requirements for the state's board of education or equivalent agency.
 - Secondary schools must be accredited by an agency included on the TCSG approved accreditation agency list.
 - Applicant with diplomas from secondary schools located outside the United States must have their transcripts evaluated for equivalency by an approved outside evaluation organization.
 - High school Certificates of Attendance or other certificates, credentials, or documents where the student did not complete all required coursework or testing required for a high school diploma in that state are not recognized for admission purposes.
2. Submission of an official transcript reflecting the student has passed an examination the state recognizes as the equivalent of a high school diploma (e.g. GED).
3. Submission of an official transcript from each of one or more previously attended postsecondary institutions (accredited by an accepted accrediting agency) reflecting the successful completion (C or Better) of a minimum of 30 semester or 45 quarter credit hours of coursework at the degree level.
 - a. Applicants who were home schooled in the state of Georgia and did not attend a recognized accredited program must submit:
 - i. Certificate of Attendance form from the local superintendent's office or a Declaration of Intent to utilize a Home Study program form the Georgia Department of Education verifying that the parent or legal guardian complied with the requirements of home study program as referenced in O.C.G. A 20-2-690
4. Annual progress reports or a final transcript for the equivalent of the homeschooled student's junior and senior years (the final progress report of transcript must include the graduation date).
5. Applicants who were homeschooled outside the state of Georgia and did not attend a recognized accredited program must submit:
 - a. Annual progress reports or a final transcript for the equivalent of the home-schooled student's junior and senior years (the final progress report or transcript must include the graduation date); AND
 - b. One of the following:
 - SAT or ACT scores that meet or exceed the TCSG system and college minimum score requirements for program readiness.
 - ACCUPLACER placement scores that meet or exceed the TCSG and Savannah Technical College minimum score requirements of program readiness.
 - Students are allowed to test three times:
 - Initial test.
 - A student's first retest attempt (2nd attempt total) is free, no retest fee is required.
 - A student's second retest attempt (3rd attempt total) will require payment of the retest fee (\$15).
 - Student is then required to wait 6 months to test again.
6. Service members of the U.S. Air Force, Army, Coast Guard, Marines, or Navy may submit an official copy of their DD Form 214 indicating high school graduate or equivalent. Since the minimum requirement for enlistment in each of the services is a high school diploma or GED, applicants may also submit a Joint Service Transcript or official orders showing active service.
7. The President of Savannah Technical College may waive the GED/high school diploma requirement for those secondary students or those pursuing a GED who are otherwise eligible to enroll in a specific program of study.

Assessment of Program Readiness

1. Savannah Technical utilizes the ACCUPLACER or COMPANION which is the Technical College System of Georgia (TCSG) approved assessment instruments when evaluating students' readiness for degree, diploma and certificate programs. In place of the approved TCSG approved assessment instrument (ACCUPLACER) the Savannah Technical College may use the following assessments:
 - General Education Development (GED) scores of 165 or higher on English or Math subjects
 - ACT, PACT, SAT, or PSAT, scores that meet program score requirements
 - Georgia Millstones for Reading and Writing only with a score of 525 or higher
 - Georgia High School English Language Scores of 235 for Reading and Writing

Official transcripts from a regionally or nationally accredited postsecondary institution recognized by the United States Department of Education documenting equivalent program-level English and math coursework successfully completed (C or better) may be used in lieu of completing the corresponding portion of the TCSG approved assessment instrument(s).

Admission Status

New Applicant

Applicants who have had no previous college or university credit and desire to earn course credit, a diploma, degree, or certificate from Savannah Technical College are considered beginning students and must:

- Submit a completed admissions application online (www.savannahtech.edu) or to the Admissions Office.
- Pay a non-refundable \$25.00 application fee. Submitting an application will create a \$25.00 charge regardless of enrollment status.
- Submit an official high school diploma or official GED Transcript with scores (in a sealed envelope or sent electronically directly from the high school). The applicant must request official transcripts be mailed directly to the Admissions Office or hand delivered in a sealed envelope. Applicants may submit documentation of one of the academic readiness paths defined under the Required Academic Criteria.
- Submit an official evaluation from an approved agency if the high school coursework was completed outside of the United States.
- Schedule the Accuplacer placement exam or submit satisfactory SAT or ACT scores. The ACCUPLACER test includes Writing, Reading, Arithmetic, Quantitative Reasoning, and/or Advanced Algebra. Its purpose is to determine if a prospective student needs additional basic skills courses before beginning a planned program of study. Contact the Testing Center for the most recent testing schedule.
- Attend an in-person Information session to assist in navigating Admissions and Financial Aid. Complete the Free Application for Federal Student Aid (FAFSA) online (if seeking financial assistance) at www.fafsa.ed.gov or complete the HOPE Grant/Scholarship Application at www.GAfutures.org. Savannah Technical College's school code is **005618** for the FAFSA. Students must apply at least two weeks before the start of the semester to have financial aid in place by the beginning of the semester.

Accepted applicants are strongly encouraged to attend an in-person orientation session held on the Liberty, Effingham or Savannah Campus. Online orientation is available for those unable to attend in-person.

Former Students/Readmit Applicant

Students not enrolled at Savannah Technical College for more than two semesters:

- Submit a completed admissions application online (www.savannahtech.edu) or to the Admissions Office. A \$10.00 readmit fee is required from former credit seeking students who have been away from the college for more than two semesters.
- Meet Savannah Technical College's current admissions requirements at the time of readmission.
- If last enrollment date is more than five years, the student may have to re-submit transcripts from colleges and/or high school.

Re-admittance for U.S. Military Service Members

The College realizes that service members may be required to temporarily interrupt their studies due to service requirements. Service members should provide a copy of their military orders or other official documentation to each instructor or to the Registrar when they are alerted of service requirements that will require them to be absent from classes. Early submission of orders or related documentation allows the College to better serve the service member during their absence and prepare for their return to classes.

Upon presentation of aforementioned orders or documents, military members may request withdrawal from classes and the College will take appropriate actions to withdraw them without academic penalty. The service member who intends to return to the College within two semesters will not be withdrawn from his or her program of study and will be allowed to enroll in program courses upon his or her return to the College and resume studies toward completion of award. A service member who returns to the College after two semesters would be required to apply for readmission to the College and would be readmitted to the same program of study. A service member with an anticipated service-related interruption of 30 days or less could choose to remain enrolled in his or her courses during that period of time. That service member will receive a grade of Incomplete (I) and will be allowed to complete course requirements upon his or her return to the College. The service member would not be required to apply for readmission to the College and would be encouraged to complete his or her program of study.

Transfer Students

Applicants who have attended a postsecondary institution (college/university) and wish to enroll in a credit program at Savannah Technical College must:

- Submit a completed admissions application online (www.savannahtech.edu) or to the Admissions Office.
- Pay a one-time non-refundable \$25.00 application fee. Submitting an application will create a \$25.00 charge regardless of enrollment status.
- Submit an official evaluation from an approved agency if the college coursework was completed outside of the United States.
- Submit an official high school transcript or GED scores (in a sealed envelope). High School Transcripts are not required for applicants who provide an official transcript with a minimum of 30 semester credit hours or 45 quarter hours from a regionally accredited institution.
- Meet test score requirements for the chosen program of study. Placement scores may be waived if the applicant earns a grade of "C" or higher in College Algebra (or Quantitative Skills and Reasoning) and English Composition and Rhetoric courses from a regionally accredited college/university.

Transient Students

Applicants enrolled at another college who wish to enroll at Savannah Technical College on a temporary basis are classified as a transient student. Savannah Technical College does not authorize financial aid for transient students; therefore, applicants will be required to pay all fees. Transient students must:

- Submit a completed admissions application online (www.savannahtech.edu) or to the Admissions Office.
- Pay a non-refundable \$25.00 application fee. Submitting an application will create a \$25.00 charge regardless of enrollment status.
- Submit a transient agreement letter or approved transient form from the applicant's home school Registrar's Office verifying that the student is in good academic standing. The letter/form must list the course(s) for which the student is eligible to enroll.
- Submit a current transient agreement letter/form for each term of enrollment.

Applicants enrolled in Technical College System of Georgia institutions are eligible to apply for online courses through Georgia Virtual Technical College (GVTC). Visit www.gvtc.org for application details and schedule.

Adult Education Students

STC offers an opportunity for eligible adult education students, who have not yet earned a high school diploma or GED, to get a faster start to their career and educational goals. Students may enroll in "eligible career pathway programs" after meeting certain eligibility requirements that are outlined by the school's GED Transition Specialist. Students must complete the admissions process and successfully complete the Next Generation Accuplacer Test in one sitting with a passing score of the following: Reading – 233; Writing – 235; Arithmetic – 230. Students can also be admitted based upon TABE scores or other alternative placement measures.

Admissions Categories

Minimum admissions requirements shall be established for each program. Students shall be admitted to Savannah Technical College in one of the following categories: Regular; Provisional, Special, Pending, or Transient.

Regular Admit

Students who meet all requirements for admission into a selected program and are eligible to take all courses in the program curriculum are granted regular admission status.

Provisional Admit

Students who do not meet all requirements for regular admission into a selected program are granted provisional admission status. Provisionally admitted students may take learning support classes and certain specified occupational courses as long as class pre-and co-requisites are satisfied. All certificate, diploma, and associate degree program students initially admitted on a provisional basis must have met regular admission status by either completing necessary learning support classes or successfully completing the appropriate level math and English courses. Students admitted into Basic Entry-Level Workforce Certificates may progress from those certificate program to the associated diploma courses as regular admit as long as all coursework in the certificate is successfully completed. Applicant admitted provisionally will not be granted an award of a certificate, diploma or associate degree classified as a Provisional Admitted student.

Students who have successfully completed the diploma version of a Savannah Technical College degree program and who want to continue into the associate degree will be admitted provisionally to that program of study. However, they would be in regular admit status if they have either passed the Elementary Algebra and College Level Math portion of the ACCUPLACER test or received a grade of C or better in College Algebra or Quantitative Skills and Reasoning course. We consider successful completion of ENGL 1010 or other diploma level ENGL as program ready for college level ENGL 1101, etc.

Special Admit

Applicants who wish to take credit coursework, but are not seeking a certificate, diploma or associate degree are granted Special Admit status. Applicants that enroll as a special admit may apply up to a maximum of 17 semester credit hours into a specific program after achieving regular admit status. The number of hours taken as a special admit student does not waive the regular admission process. Students with this status are not eligible for financial aid. Students must submit a completed application for admission and documentation of lawful presence if seeking in-state tuition rate; pay a non-refundable \$25.00 application fee; and provide documentation of proof of meeting specific Savannah Technical College prerequisite requirements. A college transcript and testing may be required based on the course prerequisites. Special Admit students may enroll in classes only on a space available basis.

Transient

Applicants enrolled at another college who wish to enroll at Savannah Technical College on a temporary basis are classified as a transient student. Applicants must submit a Transient Agreement letter/form from their home institution verifying applicant is in good academic standing and must list the courses the student is eligible to take. A current Transient Agreement Letter/form is required for each term of enrollment. Transient students are not eligible for federal financial aid (i.e. Pell, SEOG, or Federal Work Study) through Savannah Technical College.

Enrollment Options for High School Students

Dual Enrollment

Dual Enrollment allows qualified high school students to maximize their education and career training by taking courses that earn college and high school credit at the same time! Students may choose to enroll fully into a degree, diploma, or technical certificate of credit (TCC) program, or they may choose to just take a few courses. Courses are taught on college campuses, some high school campuses, online and hybrid (a blend of online and in-person classes).

Eligibility

Starting in 10th grade, students are eligible to take occupational or CTAE courses through Dual Enrollment funding. Junior and senior level (11th and 12th grade) students are eligible to take core/general education, as well as occupational courses. Dual enrollment funding will pay for a maximum of 30 semester hours. Once a student exceeds 30 semester hours, traditional HOPE Grant/Career Grant funding may be awarded. Students who are not eligible for Financial Aid to cover their Dual Enrollment courses are responsible for paying all tuition and any required fees. *Additional program-specific fees for occupational courses may be charged.

Coursework

Occupational and core courses approved for the Dual Enrollment program can be found on the GA Futures website. Courses may be taught face-to-face on the college campus, at the high school campus, online, hybrid, or via distance education. Students will be allowed to take up to 15 credit hours per semester at each college they attend. Students can enroll in Savannah Technical College courses during Fall, Spring, or Summer Semesters.

Application Process

High school students wishing to enroll in the Dual Enrollment program must:

- Meet with their high school guidance counselor to gain approval to participate in the Dual Enrollment program.
- After gaining approval from their high school to participate in the program, Dual Enrollment students will be asked to complete a Savannah Technical College (STC) Dual Enrollment Application packet which will include all of the required forms needed to participate in the program and meet with STC's High School Coordinator.
- The application fee for all Dual Enrollment students is waived.
- Take the required placement test or submit valid ACT or SAT scores or other accepted academic readiness documentation.
- Students must meet the required test scores for the program in which they are enrolling.
- Students must log onto the GAFutures.org website to apply for the Dual Enrollment funding. The application for funding must be approved by the high school counselor and the approved courses added prior to the start of the semester the class is scheduled. Students will not be allowed to start class until Dual Enrollment funding is completed. The High School Coordinator of STC or designee will update the Dual Enrollment funding application in the GAFutures Surfer with the corresponding STC courses. Savannah Technical College's Financial Aid office will apply the aid to the STC financial aid account and invoice GAFutures. Dual Enrollment students must complete the online Dual Enrollment funding application each semester they are enrolled at the college and failure to do so will result in them being billed.

Tuition, Fees, and Books

Tuition and most fees are covered by Dual Enrollment for every eligible student in the program. Books may also be loaned to the Dual Enrollment students at no charge to the students. Because students are eligible to participate in almost all STC programs, they may be responsible for course-specific fees in some program areas; however, most STC programs do not require such fees. Students should speak to the High School Coordinator to find out specifics about course related fees.

Joint Enrollment

Another enrollment option for high school students is called Joint Enrollment. Joint Enrollment provides high school students the opportunity to take courses at Savannah Technical College and receive college credit ONLY for the courses that they take at the college. Joint Enrollment students usually attend college classes in the afternoon or evening after they have attended high school an entire school day. Joint Enrollment students are allowed to take academic core and occupational program courses for any technical certificate or diploma program in which they are eligible. Eighty percent (80%) of the tuition will be paid by the HOPE Grant for Georgia residents. Hours taken through Joint Enrollment count against a student's HOPE Grant and Scholarship credit hour caps.

Articulated Course Credit

Articulated course credit creates a "seamless" transition for high school students to bridge over to technical college programs of study while reducing duplication of work. Within 18 months of the student's high school graduation date, the student must meet all the college admissions requirements, including submission of an official high school transcript for articulated course evaluation. Students will also have to pass a subject test or assessment to receive technical college course credit. The type of subject test and passing score is determined by STC. Credit by articulation will appear on a student's college transcript as a grade of "AC." It will count toward college graduation requirements, but will not be calculated into the student's institutional GPA and may not transfer to other colleges/universities should the student decide to later transfer from Savannah Technical College.

International Student Admission Requirements

1. Submit a completed International Student Application with the \$25.00 non-refundable application fee in U.S. currency by credit card, money order or check drawn on a U.S. bank payable to Savannah Technical College by the appropriate admission deadline.
2. Submit a photocopy of the student's passport photo page.
3. Applicants must submit an evaluation of education completed outside of the United States of America. College transcripts from U.S. colleges may be mailed from those institutions. All documents must be received by the application deadline. Applicants with a college degree are not required to submit a high school evaluation. All international transcripts must be evaluated by an approved evaluation service. High school transcripts should be evaluated by the document-by-document evaluation method and university transcripts should be evaluated by the course-by-course method. Contact the Student Affairs Office for more information on evaluation requirements. Savannah Technical College accepts evaluations from members of these organizations:
 - National Association of Credential Evaluation Services (NACES): <http://www.naces.org/members.html>
 - Association of International Credential Evaluators, Inc. (AICE): <http://www.aice-eval.org/>
4. Submit original financial documentation. The school estimates it will cost \$26,411 USD to study at Savannah Technical College for one academic year. One academic year equals two academic semesters or nine months.

Estimated costs for one academic year:

Tuition and Fees	\$10,222 USD
Books, Supplies, and Transportation	\$ 2,775 USD
Room and Board (including personal expenses)	\$11,439 USD

The student or sponsor must provide a financial document verifying a minimum of \$24,436 USD. Financial documentation must be dated within the last three months. If a student plans to bring dependents (spouse, children) to the U.S, the financial document must show an additional \$2,500 USD for each dependent. Contact the Student Affairs office for more information on financial document requirements.

5. Submit the completed International Student Sponsor Form. If the document is not in the English language, a certified translation must be submitted with the document.
6. Savannah Technical College will not accept faxed or photocopied documents unless otherwise stated.

International Transfer Students

In addition to the above mentioned documents, international students who are currently attending a college or university in the U.S. must submit the following:

1. Photocopy of current I-20
2. Photocopy of current visa
3. Photocopy of current I-94 or I-94 print out from www.cbp.gov
4. Official transcript of all coursework completed at current school
5. International Student Transfer Form

International Students Seeking a Change to F1 or M1 Status

In addition to the above mentioned documents, international students who are seeking a change to F1 or M1 status must submit the following:

1. Photocopy of current visa
2. Photocopy of current I-94 or I-94 print out from www.cbp.gov
3. If you are currently in J1/J2 status, then please submit a photocopy of DS-2019

Obtaining a Student Visa

When an international student has been accepted by the College, the College will issue a form I-20 to the student. In order to complete the visa application process, follow these steps:

1. Obtain Form I-20 and a letter of acceptance from the school.
2. Pay SEVIS I-901 fee. Fee must be paid prior to the visa appointment with the U.S. Embassy. For payment options and further information, visit <http://www.fmjfee.com/index.html>. Student is required to bring a copy of the SEVIS fee payment receipt (showing proof of payment) to the visa interview.
3. Find the U.S. Embassy closest to your home at http://travel.state.gov/travel/abroad_embassies.html. Check the consulate's website to see if there are any special instructions for the consulate you will be visiting.
4. Make an appointment with the embassy for the visa interview.
5. The visa application process will differ for transfer and change of status students. International students with admissions questions may contact the International Student Advisor at international@savannahtech.edu.

Residency Information

A student's legal residence shall determine the tuition rate paid by the student.

- Students who are Georgia residents shall pay tuition and fees prescribed by the State Board for in-state students.
- Out-of-State students will be assessed tuition at a rate two times that charged Georgia residents.
- Non-Citizen students will be assessed tuition at a rate four times that charged Georgia residents.

Savannah Technical College must verify lawful presence in the United States of every successfully admitted student applying for Georgia resident tuition status as required by state and federal immigration laws. Students are classified as out-of-state or international rate until the lawful presence verification requirement is met. Verification procedures shall comply with O.C.G.A. 50-36-1.

Savannah Technical College shall require students to identify his or her country of lawful residence on the admissions application and shall require submission of other information necessary to make a determination of the student's legal domicile for tuition-rate and student advisement purposes.

Georgia Residency

Dependent Students

- A dependent student meets the Georgia residency requirements if his or her parent has established and maintained domicile in the State of Georgia for at least 12 consecutive months immediately preceding the first day of classes of the school term for which the student is seeking in-state tuition, and
- Such student graduated from an eligible high school located in the State of Georgia; or
- The parent claimed the student as a dependent on the parent's most recent federal income tax return.
- A dependent student meets the Georgia residency requirements if a United States court-appointed legal guardian has established and maintained domicile in the State of Georgia for at least 12 consecutive months immediately preceding the first day of classes of the school term for which the student is seeking in-state tuition, provided that the appointment was not made to avoid payment of out-of-state tuition.

Independent Students

An independent student meets the Georgia residency requirements if he or she has established and maintained domicile in the State of Georgia for at least 12 consecutive months immediately preceding the first day of classes of the school term for which the student is seeking in-state tuition.

- It is presumed that no independent student shall have gained or acquired Georgia residency while attending a TCSG college without clear evidence of having established a domicile in the State of Georgia for purposes other than attending a TCSG college.

Retaining Georgia Residency

- Dependent Students: If the Parent or United States court-appointed Legal Guardian of a dependent student who was correctly determined to meet Georgia residency requirements for the purposes of this procedure and the related policies, establishes domicile outside the State of Georgia, such student shall continue to retain his or her status as a Georgia resident as long as such student remains continuously enrolled in a TCSG college.
- Independent Students: If an independent student who was correctly determined to meet Georgia residency requirements temporarily relocates outside the State of Georgia, but returns to the State of Georgia within 12 months, such student shall retain his or her status as a Georgia resident, for purposes of in-state tuition.

Eligibility for Out of State Tuition Exemptions:

Students in the following classifications are eligible for Out of State Tuition Exemption. These exemptions do not affect the student's eligibility for the HOPE Scholarship or Grant, except for exemptions for military personnel and their dependents as provided for in the Georgia Student Finance Commission regulations:

- Employees, their spouses, and their children who move to Georgia for employment with a new or expanding industry defined in OCGA 20-4-40;
- Full-time employees, of the Technical College System of Georgia, their spouses, and dependent children;
- Full-time teachers in a Georgia public school, a military base, or a public postsecondary college, their spouses, and dependent children;
- United States military personnel stationed in Georgia and on active duty and their dependents living in Georgia;
- United States military personnel, spouses and dependent children reassigned outside Georgia, who remain continuously enrolled and on active military status;
- United States military personnel and their dependents that are Domiciled in Georgia, but are stationed outside the State;
- Students who are Domiciled in Beaufort or Jasper South Carolina counties and are enrolled at Savannah Technical College;

- Career consular officers and their dependents that are citizens of the foreign nation which their respective governments represent. This exemption shall apply only to those consular offices whose nations operate on the principle of educational reciprocity with the United States.
- Members of a uniformed military service of the United States of who, within thirty-six (36) months of separation from such service, enroll in an academic program and demonstrate intent to become domiciled in Georgia. This exemption may also be granted to their spouses and dependent children. This exemption also applies to recipients of transferred GI Bill benefits who within thirty-six (36) months of the transferor's separation from the uniformed military service of the United States enroll in an academic program and demonstrate an intent to become domiciled in Georgia. An individual or former service member so described retains the exemption if enrolled at the expiration of the thirty-six-month window and remains continuously enrolled (other than regularly scheduled breaks) and using educational benefits, even if the student enrolls in multiple programs.
- Students using transferred GI Bill with the transferor is on active duty who demonstrate and intent to become domiciled in Georgia and students using the Marine Gunnery John David Fry Scholarship who demonstrate an intent to become domiciled in Georgia.
- Students who are described as covered individuals in 38 U.S. C. 3679©.
- Students who are participating in a Dual Enrollment program.

Notwithstanding any provision in this procedure, no person who is unlawfully present in the United States shall be eligible for any exemption of the tuition differential.

Verification of Lawful Presence in the United States

Effective January 1, 2012, all students applying for in-state tuition must provide validation of lawful presence in the United States. The following documents will serve as proof of lawful presence in the United States and documentation will be required before students are eligible for consideration of in-state tuition:

- A current Driver's License issued by the State of Georgia after January 1, 2008
- A current ID issued by the State of Georgia after January 1, 2008
- A current Driver's License or ID issued by a state that verifies immigration status and only issues to persons lawfully present in the United States.
- See list of compliant states at: http://law.ga.gov/sites/law.ga.gov/files/related_files/site_page/List%20of%20States.pdf
- A certified U.S. Birth Certificate showing the student was born in the U.S. or a U.S. territory (photocopy is not acceptable)
- An approved completed FAFSA for the current financial aid year
- A current, valid Permanent Resident Card (USCIS form 1-151 or 1-551)
- A current, valid military identification card for active duty soldiers or veterans
- A U.S. Certificate of Birth Abroad issued by the Department of State (DS-1350) or a Consular Report of Birth Abroad (FS-240)
- A current U.S. Passport
- A U.S. Certificate of Citizenship (USCIS form N-560 or N-561)
- A U.S. Certificate of Naturalization (USCIS form N-550 or N-570)

Any student who cannot be verified as lawfully present in the United States is not eligible to be considered for in-state tuition, regardless of how long he or she has lived in Georgia. In addition to being lawfully present in the United States, students must meet the in-state tuition requirements as outlined in TCSG Board Policy and Procedure V.B.3 to warrant an in-state classification. Students that are initially classified as out-of-state and successfully petition to have their residency changed to in-state also have to meet the verification requirement.

Audit Students

A student may choose to audit a class rather than take it for credit. By auditing the class, the student is allowed to attend class without meeting admission requirements and without receiving a grade or credit. Exceptions are off-campus clinical courses and courses with additional admissions requirements. Students who audit a class must pay the regular tuition, admission and registration fees. Students are not permitted to change from audit to credit. Audit classes do not count toward a financial aid recipient's enrollment status.

Transfer Credit Information

Transfer Policy

In order to ensure that students are able to receive the maximum credit for prior learning experiences, Savannah Technical College commits to evaluate prior learning and award course credit based upon previous experience, formal or informal, resulting in advanced standing within a diploma/degree program of study.

Transfer Credit

Traditional – Course credit may be awarded for courses completed with a “C” or better from a college, university, military, or other postsecondary institution accredited by a regional or national accrediting agency recognized by the U.S. Department of Education. Full credit will be awarded for courses, subject to the assuring that accreditation requirements are met.

Applicants who have been admitted to the College or current students may request transfer credit that was earned at other institutions by following these procedures:

1. Submit to the Office of Admissions an official academic transcript from each postsecondary institution from which credit was earned at least thirty (30) days prior to the academic term of enrollment. An official transcript is one sent directly from a postsecondary education institution to Savannah Technical College or hand delivered in a sealed envelope with the official seal of the college.
2. The official transcript will be forwarded to the Registrar for credit evaluation. The Registrar will also confer with appropriate Academic Department Head during evaluation process when additional course information is needed. Content of the course must conform to TCSG published Standards and Guides.
3. The Registrar will enter the official transfer grade in the student's official student record. The Vice President for Student Affairs has the final decision on the acceptance of transfer credit. Transfer credit will be posted in the student's record as a grade of “TRB, TRC, or TRM” which is not calculated into the grade point average.
4. The student who requested transfer credit will be notified of results after the transfer grade has been posted or denied.

Transcripts from outside of the U.S. must be processed by a recommended international educational credential agency. All documents written in foreign languages must be sent to a translation service that will then forward the evaluation to Savannah Technical College. Articulated credit awarded should be indicated on transcript/permanent records by use of the letters “AC”.

Residence Requirements for Degree/Diploma

Students must complete a minimum of 25% of the course work contained in a program of study in order to receive the award from Savannah Technical College. Some health occupation students must complete more than the 25% of credit hours in their program of study.

High School Articulation

Within two years of high school graduation, students who have completed high school courses that have been articulated with the College may receive college credit upon successful completion of competency validation examinations. Statewide and local articulation and curriculum alignment agreements are in place to meet the needs of the community. Local and statewide articulation agreements serve students by facilitating the smooth transition of students from secondary to postsecondary technical colleges, encouraging postsecondary education and eliminating undue entrance delays, duplication of course content and/or loss of credit. Articulation agreements are signed and a copy stored in the High School Coordinator's Office.

A high school graduate can transfer articulated courses from high school into Savannah Technical College if all the following criteria are met:

1. Student must enroll in Savannah Technical College within 24 months of graduation to receive articulated credit.
2. Student must meet the admissions requirements of Savannah Technical College.
3. Student will be allowed to transfer credit to Savannah Technical College for each articulated course in accordance with the articulation agreement between Savannah Technical College and the school from which he/she graduated.
4. Student must make a grade of 70 or higher in a high school course listed on the articulation agreement and pass an exemption exam for the specific program.
5. Student must have an official transcript (in a sealed envelope) and documentation of the articulated credit submitted directly to the Registrar's Office at Savannah Technical College.
6. Articulated credit awarded should be indicated on transcript/permanent records by use of the letters “AC”

Standardized Exam Credit

Credit may be awarded for nationally normed exams such as CLEP, International Baccalaureate, and Advanced Placement Exams. STC will award credit based on nationally normed exams. Credit should be awarded based on score recommendations of the Council on College Level Services. Advanced Placement Exams Credit will be awarded to students who have taken appropriate courses (determined equivalent to courses offered at a Technical College) in high school and achieve a score of 3 or more on the Advanced Placement Examination. The Advanced Placement Examinations are offered by the College Entrance Examination Board.

Military Training Credit

Whenever applicable, credit for training received in the Armed Forces will be awarded. The training should be certified by the Guide to the Evaluation of Education Experiences in the Armed Services, published by the American Council on Education or by the official catalog of the Community College of the Air Force or some similar document. Credit will be given when training experience meets required competencies of courses offered at the institution.

Military Credit

Credit may be awarded for education/training experiences in the Armed Services. Such experiences must be certified by the American Council on Education (identified in the Council's publication, Guide to the Evaluation of Educational Experiences in the Armed Services). Credit will be given on the basis of individual evaluation. Creditable military experiences must closely correspond to courses in the Savannah Technical College curriculum in content and competencies. For additional information, contact the Registrar.

Joint Service Transcript (JST)

The Joint Service Transcript is an official transcript that converts documented military training into college credit by matching the curriculum from a U.S. military training school with curriculum standards from the American Council on Education (ACE). STC will evaluate each JST and assign credit appropriate to student's program of study. The JST must be sent directly to our registrar. To request a free copy of your JST, visit the [Official JST website](#).

Articulation Agreements

College/University	Articulated Program of Study
Georgia Southern University (Armstrong)	Criminal Justice (AS) Accounting (AAS) Information Technology (AS)

St. Leo University	Business Administration Technology (AAS)
University of Phoenix	Business Management (AAS)
Valdosta State University	Bachelor of Applied Science Degree Technical Studies/Human Capital Performance Bachelor of Science Degree Organizational Leadership
Chatham County Public Schools	High School Diploma

Note:

The Technical College System of Georgia also has Articulation Agreements that can be found at the following link:
http://teched.tcsgeorgia.edu/aa_articulation_agreements.php.

STC Exemption Exams

For students with previous knowledge and skill acquired through experience or other means, credit may be obtained for courses by demonstrating mastery of the subject through written and/or performance exams. Exemption examinations are available in many courses at Savannah Technical College and can be taken only one time. Payment must be made prior to taking the exemption exams. Charges for the exemption exam are non-refundable and are not covered by financial aid. Students must make a passing

70 or better on the exemption exam to receive credit. Exemption exams cannot be taken for current courses or for courses previously taken. Savannah Technical College will charge a per credit hour fee, not to exceed 25 percent of tuition for the course to administer an examination exam. No fee shall be charged to students taking an exam to validate articulated credit from high school. Exemption exam credit awarded will use of the letters "EX" on transcript/permanent records.

STC Course Expiration

Unless specified, courses taken at STC or transferred in from another institution have no time limit. Specific occupational courses, however, may be subject to expiration if course content and competencies have changed significantly. This is for the protection of the student so that they are not set up for failure in more advanced classes.

There is a sixty (60) month time limit to transfer computer concepts and computer lecture courses. Unless otherwise stated, all time limits are from the date the course ended to the first day in the semester in which the courses will transfer. Students may appeal through the appropriate Academic Dean to the Vice President of Academic Affairs.

For variation from the above, the final decision rests with the Vice President for Academic Affairs.

STC Transient Students

An STC student who wishes to pursue coursework at another college may do so with approval of the Registrar's Office. To obtain approval, currently enrolled students must meet the following requirements for transient permission:

- Complete a Transient Student Request form found online at: <http://www.savannahtech.edu/wp-content/uploads/sites/6/2013/11/Transient-Student-Request-Form.pdf>
- Course(s) must not be offered at Savannah Technical College, or else student must request an exception from the Vice President of Student Affairs.
- Student must be currently enrolled and in good academic standing.
- Course(s) requested must be part of student's current program of study.
- Student must have satisfied all pre-requisites for the requested course(s).
- Students receiving financial aid or VA benefits must seek advice from Financial Aid Office.

Savannah Technical College students are eligible to apply for online courses through Georgia Virtual Technical College (GVTC) as a transient student. Visit www.gvtc.org for application details and schedule.

STC Course Substitutions (Internal)

- ENGL 1101 will substitute for ENGL 1010
- Only a college-level (i.e. 1100+) Business Communications course or a 1105 Technical Communications will substitute for ENGL1012
- MATH 1103, MATH 1111 or MATH 1101 will substitute for MATH 1012, MATH 1013, or MATH 1011. (MATH 1111, MATH 1101 or MATH 1103 meets the Area III requirement for associate degree general education core)
- MATH 1013 will substitute for MATH 1012
- MATH 1012 will substitute for MATH 1011
- PSYC 1101 will substitute for PSYC 1010
- EMPL 1000 will not substitute for any MKTG course
- EMPL 1000 will not substitute for PSYC 1010
- (EMPL 1000 is only 2 credit hours)

Any requests for course substitution beyond those listed above should be forwarded by the Academic Dean to the Vice President for Academic Affairs for approval.

Transfer Guidelines (External)

All core classes will transfer in at the highest level – even if the student is not seeking an associate degree. The student is responsible for providing an official transcript for credit courses to be considered for transfer. A course letter grade of a C or better must be achieved to be considered for transfer. Credit hours assigned to transferred courses are the same as credit hours awarded at the sending institution when credits do not exceed the number of credit hours assigned for equivalent courses at STC. The maximum hours of credit given shall not exceed the number of hours awarded for the same course at STC. Any college-level English Composition course greater than 1101 may substitute for ENG 1101; Speech, Public Speaking, etc. will substitute for Speech credit.

Transfer Credit to another Institution

Transfer credit, credit transfer, or advanced standing are the terms used by colleges and universities for the procedure of granting credit to a student for educational experiences or courses. It is important for students to work closely with another institution's Office of Student Services/Admissions in determining which courses are acceptable. Savannah Technical College does not guarantee course transfer.

Change of Information

In order for all student records to be maintained in proper order, students must inform the Admissions Office and his/her advisor of any change in name, mailing address, email address or telephone number. Change of Information forms are available in Student Affairs and must be completed and returned as soon as the change occurs.

Student Records – Family Educational Rights and Privacy Act (Ferpa)

The Registrar is responsible for the accurate and confidential maintenance of student records. Transcripts of educational records will contain only academic status information. Disciplinary action may be recorded in cases where it affects the student's eligibility to register. Disciplinary and counseling files will be maintained separately from academic records and will not be available to unauthorized persons.

The Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, affords students certain rights with respect to their education records. They are:

- The right to inspect and review the student's records within 45 days of the day the school receives a request for access. Students should submit written requests to the Registrar that identify the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected.
- The right to request the amendment of the student's education records that the student believes is inaccurate or misleading. Students may ask the school to amend a record that they believe is inaccurate or misleading. They should write the Registrar, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the school decides not to amend a record as requested by the student, the school will notify the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to

school officials with legitimate educational interests. A school official is a person employed by the school in an administrative, supervisory, academic or research, or support staff position (including law enforcement personnel and health staff); a person or company with whom the school has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Directors or Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the school discloses education records to officials of another school in which a student seeks or intends to enroll.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by Savannah Technical College to comply with requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, DC 20202-4605

Directory Information

In accordance with FERPA, the Office of the Registrar for Savannah Technical College may release the following student information as directory information:

1. Full name of student
2. Program of Study
3. Dates of attendance
4. Degrees, diplomas, certificate awards and dates received
5. Participation in student organizations and activities

FERPA Objection

Any adult student or minor student's parent who objects to the release of this directory information under FERPA should file an objection in writing clearly stating what directory information should not be released to third parties. FERPA Objection Forms must be completed and submitted to the Office of the Registrar by the first day of the semester.

FERPA Notification

Students are notified of their right to inspect, review, and amend their education records under FERPA laws each semester. Notifications are sent to the STC student email address and available in print form upon request to the Student Affairs Office.

Gramm-Leach-Bliley Act

The Financial Services Modernization Act of 1999, also known as the Gramm-Leach-Bliley Act or GLB Act, includes provisions to protect consumers' personal information held by financial institutions, including postsecondary institutions. The GLB Act requires that schools have in place an information security program to ensure the security and confidentiality of customer information, protect against anticipated threats to the security or integrity of such information, and guard against the unauthorized access to or use of such information. There are three principal parts to the privacy requirements: The Financial Privacy Rule, Safeguards Rule and pretexting provisions. Savannah Technical College complies with the Gramm-Leach-Bliley Act. Additional information on the GLB Act can found at <http://business.ftc.gov/privacy-and-security/gramm-leach-bliley-act>.

Solomon Amendment

Another federal law, known as the Solomon Amendment, requires Savannah Technical College to release student recruitment information to military recruiters. Student recruitment information is defined as:

1. Name
2. Address
3. Age
4. Program of Study
5. Date(s) of attendance
6. Degrees, diplomas, certificates awarded

Objection

If you do not wish to have student recruitment information released to third parties, you may file a FERPA Objection in the Office of the Registrar.

Third-Party Access

Parents of students termed “dependent” for income tax purposes also have access to the student’s educational records. As verification of the student’s dependent status, the requesting parent(s) will need to provide a copy of the most recent tax return to the Registrar. Except in the case of dependent students, parents have no access to the records of students in postsecondary institutions.

Financial Aid

Financial aid is available to eligible students enrolled in Savannah Technical College. The information in this section will outline how to apply, eligibility requirements, and the types of financial aid available. Also included here are the requirements to maintain eligibility for federal and state financial aid.

To apply for federal and state financial aid, students should complete the Free Application for Federal Student Aid (FAFSA) form at least four weeks prior to the start of the term of enrollment. To complete the FAFSA, log on to www.studentaid.gov. Students and parents of dependent students are required to use an FSA ID. The FSA ID is made up of a username and password and is used to confirm the student’s and parent’s identity when accessing financial aid information and electronically signing the FAFSA form.

When completing the FAFSA be sure to include the school code for Savannah Technical College (005618) and the results will be sent to the school electronically. If assistance is needed to complete the online application, students may visit the Student Affairs One Stop Center at a local campus and a financial aid representative will assist. Student may call the Financial Aid Office at 912.443.4795 (Savannah/Crossroads); 912.408.3024, ext. 6006/6007 (Liberty); 912.443. 4110 (Effingham).

2020- 2021 Cost of Attendance

The following estimated cost of attendance assumes full-time (12-credits) enrollment for two consecutive semesters – Fall 2020/Spring 2021:

Cost of Attendance	In-State Dependent	In-State Independent	Out of State Dependent	Out of State Independent
<u>Tuition</u> (12 credit hours)	\$2,400	\$2,400	\$4,800	\$4,800
<u>Fees</u>	\$622	\$622	\$622	\$622
Estimated Books and Supplies	\$1,416	\$1,416	\$1,416	\$1,416
Estimated Room and Board	\$ 3006	\$9,981	\$ 3006	\$9,981

Estimated Misc. Personal Expenses	\$1,458	\$1,458	\$1,458	\$1,458
Estimated Transportation	\$1,359	\$1,359	\$1,359	\$1,359
Total	\$10,261	\$17,236	\$12,661	\$19,636

Financial Assistance

Savannah Technical College has several types of financial assistance to help qualifying students pay for their education. Scholarships and grants are funded through federal and state government sources as well as local resources. State Loans are available to students who qualify. Students may also be eligible for assistance through other outside resources such as Military and Veteran's Education Benefit Programs (including MyCAA, Tuition Assistance Chapter 30, 31, 33, 35, 1606/1607), and Workforce Innovation and Opportunities Act (WIOA) programs through the Coastal Workforce Development Board.

All financial aid programs operate on an award year basis that begins July 1 and ends June 30. Students must reapply each year in order to continue receiving financial aid.

Eligibility Requirements

To qualify for most types of financial aid, students must:

1. Be enrolled as a regular or provisional student in an eligible Technical Certificate of Credit, Diploma, or Associate Degree Program;
2. Be a U.S. citizen or eligible non-citizen;
3. Have earned a high school diploma or equivalent (GED); or be enrolled in a career pathway under Ability to Benefit (ATB). To be eligible as career pathway for ATB, the program of study must be documented as helping individuals enter or advance within a specific occupation or occupational cluster that aligns with the needs of regional industries.
4. Be registered with Selective Service, if required;
5. Not be in default on a federal student loan or owe a refund on a previously received grant;
6. Agree to use any funds received only for educationally related purposes;
7. Maintain satisfactory academic progress in accordance with Savannah Technical College policy;
8. Certify that they will not engage in the unlawful manufacture, distribution, possession, or use of a controlled substance while receiving financial aid;
9. Not be recently convicted on felony drug related charges;
10. Meet other program requirements.

Types of Financial Aid Available

Federal Pell Grant — <http://www.studentaid.ed.gov>

A federally funded grant to help students, who have not already earned a bachelor's degree, pay for their education after high school. The amount a student receives will depend on the Expected Family Contribution (EFC), which is based on the results of the Free Application for Federal Student Aid (FAFSA) form, the number of credit hours for which a student is registered, the cost of attendance, program eligibility and the size of the federal appropriations. Federal regulations limit the lifetime amount a student may receive in Pell Grant funding to a maximum of six-years/ 12 semesters as a full-time student or 600%.

Federal Work-Study (FWS)

A Federal Work Study Student is considered a temporary employee and must work no more than nineteen (19) hours per week when enrolled as a student during any academic term. The individual must be pursuing a course of study (i.e. enrolled and regularly attending

classes in pursuit of an educational credential) and his/her services as an employee must be incident to and for the purposes of pursuing the course of study (TCSG Procedure 4.1.4p, Categories of Employment).

Federal Work Study Hiring Procedure:

1. Students who are interested in applying for a federal work study position with the College will report to Assistant Director of Financial Aid.
2. Assistant Director of Financial Aid will check student eligibility for the program.
3. Assistant Director of Financial Aid will provide Criminal Background Check form to eligible FWS applicant for completion.
4. FWS submits completed Criminal Background Check Form to FAS
5. The HR Department will complete the Criminal Background Check and inform Assistant Director of Financial Aid of the results.
6. A FWS applicant with favorable Criminal Background results will be referred to a designated supervisor for an interview.
7. Assistant Director of Financial Aid will issue FWS New Hire Packet to the applicant. If the applicant requires instructions on completing the documents within the packet, specific instructions on completing the I-9 form and personal identifications required to satisfy federal requirements related to the form the applicant is referred to HR department.
8. Assistant Director of Financial Aid forwards the completed packet to the Vice President for Student Affairs and the division VP for their signatures.
9. The VP for Student Affairs will forward the packet to the Assistant Director of Financial Aid who will forward it to the Executive Director of the HR Department for processing.
10. Executive Director of HR will inform the Assistant Director of Financial Aid of receipt and final processing of FWS packet.
11. Supervisor will inform FWS applicant of the hiring status and conduct work place orientation for the new FWS hire.
12. Student employees will submit electronic monthly time sheets on the Employee Self Service system to be approved by their supervisor and submitted to the Payroll Office weekly by the 15th of each month.
13. The Financial Aid Office and Payroll Office maintain a record of hours worked and salary information on each student employee.

Federal Supplemental Educational Opportunity Grant (FSEOG) — <http://www.studentaid.gov>

A federally funded grant program administered by the college that provides assistance for students with demonstrated financial need based on the Expected Family Contribution (EFC) as determined by the FAFSA form. The amount for which a student is eligible each semester may range from \$100 to \$2,700 depending on the funding available. Priority is given to Pell Grant recipients who have the lowest expected family contribution (EFC) and who are enrolled for at least 4 credit hours each semester.

Federal Direct Stafford Loans — <http://www.studentaid.gov>

Savannah Technical College no longer participates in the Federal Direct Loan program. Students with prior Direct Loans are still obligated to repay those loans and will be eligible for in-school deferments while enrolled at least half-time. For details on deferment, forbearance, and repayment options consult with your loan servicer.

Georgia's Helping Outstanding Pupils Educationally (HOPE) Grant — <http://www.GAfutures.org>.

The purpose of the HOPE Grant Program is to encourage Georgians to obtain technical training in order to increase the knowledge and skills of Georgia's workforce. The HOPE Grant Program provides grant assistance to residents of Georgia pursuing Certificates or Diplomas at Georgia's public postsecondary institutions.

General Eligibility Requirements

- Must be a legal resident of Georgia for 12 consecutive months preceding the first day of classes of the school term for which the HOPE Grant is sought prior to Fall Term 2011; after Fall Term 2011, must be a legal resident of Georgia for 24 months.
- Must be enrolled in an eligible postsecondary institution.
- Must be a U.S. Citizen or an Eligible Non-Citizen for 12 consecutive months preceding the first day of classes for the school term which the HOPE Grant is sought.
- Must not be in default on a Federal Title IV or State of Georgia educational loan, nor owe a refund on a Federal Title IV or State of Georgia student financial aid program.
- Must be in compliance with the United States Selective Service System requirements.
- Must maintain Satisfactory Academic Progress, as defined by the institution.

Specific Requirements for Diploma or Certificate Programs

- Must meet cumulative grade point average (GPA) requirement of 2.0 after attempting the 30 and 60 semester credit hour checkpoints.
- Eligible students may receive the HOPE Grant for up to a total of 63 semester credit hours, provided they make satisfactory progress and have a 2.0 in the semester they attempt the 30th and 60th hour.

HOPE Career Grant “(formerly Strategic Industries Workforce Development Grant)” (SIWDG) — <http://www.GAfutures.org>

State of Georgia student financial aid program that provides grant assistance to Georgia Residents seeking Certificates or Diplomas in designated Commission approved programs of study. The SIWDG for State approved high demand programs is \$500 for enrollment in 9+ credit hours; \$250 3-8 credits; \$125 < 3 credits.

Commercial Truck Driving SIWDG is a one-time \$1,000 award for enrollment in a minimum of 9 credits.

Zell Miller Grant: <http://www.GAfutures.org>.

The Zell Miller Grant Program provides grant assistance to residents of Georgia pursuing Certificates or Diplomas at Georgia’s public eligible postsecondary institutions. The Zell Miller Grant Program does not include a high school academic requirement; however, recipients are required to have a minimum postsecondary cumulative grade point average of 3.5 at the end of each term.

Georgia’s Helping Outstanding Pupils Educationally (HOPE) Scholarship — <http://www.GAfutures.org>.

HOPE Scholarship is a state tuition assistance program funded by the Lottery for Education and will pay a tuition amount determined by the Commission for eligible students.

General Eligibility Requirements

- Must be a legal resident of Georgia for 12 consecutive months immediately prior to the first day of classes of the school term for which the HOPE Scholarship is sought prior to Fall Term 2011; after Fall Term 2011, must be a legal resident of Georgia for 24 months.
- Must be enrolled in a degree program at an eligible postsecondary institution.
- Must be a U.S. Citizen or an Eligible Non-Citizen for 12 consecutive months immediately prior to the first day of classes for the school term for which the HOPE Grant is sought.
- Must not be in default on a Federal Title IV or State of Georgia educational loan, nor owe a refund on a Federal Title IV or State of Georgia student financial aid program.
- Must be in compliance with the United States Selective Service System requirements.
- Must maintain Satisfactory Academic Progress, as defined by the institution.

Specific Requirements for Entering Freshmen Enrolling in Degree Programs

- Must be a 1993 or later graduate of an eligible Georgia high school.
- Must have met curriculum requirements and earned at least a 3.0 cumulative GPA in a college preparatory track or a 3.2 for all other tracks.
- Eligible students may receive the scholarship for up to 127 semester credit hours, provided they make satisfactory academic progress and have a 3.0 cumulative GPA in the semester that they are attempting to complete the 30th, 60th, and 90th hour.

HOPE Scholarship for All Other Degree-Seeking Students

Students who graduated from high school prior to 1993, or students not academically eligible for the HOPE Scholarship immediately after high school graduation, may (within the seven years immediately following graduation) be eligible for the HOPE Scholarship if a cumulative GPA of 3.0 or higher is obtained after attempting 30, 60, or 90 credit hours of study in a degree program. Hours attempted in a certificate or diploma program which do not transfer into a degree program will not meet the requirement. All students must complete

an Evaluation for HOPE Scholars form to be considered for HOPE Scholarship for enrollment in a degree program. Contact the Financial Aid Office to obtain a copy of the form.

HOPE General Education Development Diploma (GED) Program — <http://www.GAfutures.org>.

HOPE GED is a state grant awarded for a one-time non-renewable payment of \$500 to Georgia GED test takers who pass the GED exam after July 30, 1993. After passing the GED exam, graduates will receive a voucher from Georgia Student Finance Commission (GSFC) for \$500 in the mail. Graduates must enroll and attend classes in order to use their voucher. The voucher must be signed and brought to the Financial Aid Office.

General Eligibility Requirements:

- Must be a legal resident of Georgia for 12 months prior to Fall Term 2011; after Fall Term 2011, must be a legal resident of Georgia for 24 months.
- Must be a U.S. Citizen or Permanent Resident Alien.
- Must not be in default on a Federal student loan and/or owe a refund on a Federal Title IV aid program.
- Must be in compliance with United States Selective Service System requirements. Not required to be meeting postsecondary institution's Satisfactory Academic Progress policy.

Zell Miller Scholarship Program — <http://www.GAfutures.org>.

A merit based scholarship program with specific academic and grade point average eligibility requirements designed to encourage the academic achievement of Georgia's high school students and Georgians seeking degrees from postsecondary institutions in Georgia. Zell Miller Scholarship will pay a tuition amount determined by the Commission for eligible students.

General Eligibility Requirements

- Must be a legal resident of Georgia for 12 consecutive months preceding the first day of classes of the school term for which the HOPE Scholarship is sought prior to Fall Term 2011; after Fall Term 2011, must be a legal resident of Georgia for 24 months.
- Must be enrolled in an eligible postsecondary institution.
- Must be a U.S. Citizen or an Eligible Non-Citizen for 12 consecutive months preceding the first day of classes for the school term for which the HOPE Grant is sought.
- Must not be in default on a Federal Title IV or State of Georgia educational loan, nor owe a refund on a Federal Title IV or State of Georgia student financial aid program.
- Must be in compliance with the United States Selective Service System requirements.
- Must maintain Satisfactory Academic Progress, as defined by the institution.
- Must be in compliance with the Georgia Drug-Free Postsecondary Education Act of 1990.

Specific Requirements

- Graduate from an eligible high school with a minimum of 3.70 Cumulative Grade Point Average on a 4.00 scale as calculated by GSFC.
- Receive a minimum score of 1200 combined critical reading and math on a single administration of the SAT at the time of high school graduation or receive a composite scale score of 26 on a single administration of the ACT at the time of high school.

Georgia's Helping Educate Reservists and their Offspring (HERO) Scholarship — <http://www.GAfutures.org>.

A state funded award created to provide financial aid to students seeking a postsecondary education, who are current members of the Georgia National Guard and U.S. Military Reserves who have served in a combat zone. The children of such service men and women and their surviving spouses are also eligible to receive the scholarship. Recipients may receive up to \$2,000 per academic year or \$1,000 per semester for any two semesters (fall, spring, or summer). The award amount is subject to change during the award year. A student must be a Georgia resident in order to receive the HOPE HERO. No student shall receive payment for more than two semesters or three quarters for an Award Year. For eligibility criteria and official program regulations, please visit the Paying for College tab at <http://www.GAfutures.org>.

Dual Enrollment- <http://www.GAfutures.org>

Dual Enrollment is for students at eligible high schools that wish to take college level coursework for credit towards both high school and college graduation requirements. The program is available fall, spring, and summer semesters.

General Eligibility Requirements:

To be eligible for the Dual Enrollment program, a student must:

1. Be approved by the high school or home study program to participate in the program;
2. Be enrolled in the ninth, tenth, eleventh or twelfth grade of a private or public high school in Georgia or a home study program within the State of Georgia operated in accordance with O.C.G.A. §20-2-690(c);
3. Apply and be admitted to an eligible, participating USG, TCSG or Private postsecondary institution as a dual credit enrollment student;
4. Be enrolled in courses listed in the approved Dual Enrollment Course Directory;
5. Maintain satisfactory academic progress as defined by the eligible postsecondary institution and abide by the all policies and procedures required by the college.

Award Amount

Students, who meet all eligibility requirements, will receive a student-specific award amount to be applied toward tuition, mandatory fees and a book allowance. Aid is paid to the postsecondary institution.

Student Access Loan Program (SAL) — <http://www.GAfutures.org>

Georgia Student Finance Authority offers the Student Access Loan (SAL) Program for eligible students attending an eligible USG (University System of Georgia), Private or TCSG (Technical College System of Georgia) postsecondary institution in Georgia. The SAL is a 1% fixed rate loan, designed to assist undergraduate and technical college students who have a gap in meeting their educational costs. In addition to the eligibility criteria of the SAL Program, Eligible Postsecondary Institutions have the authority to implement institutional policies to decline eligibility of the student for SAL. Therefore, Effective Fall 2017 Savannah Technical reserves the right to decline eligibility of a student for SAL, or reduce the requested loan amount, for one of the following, but not limited to:

1. Previous academic history including poor academic performance
2. Unusual enrollment history (UEH)
3. Total Amount of previous debt
4. Direct costs such as tuition fees, books, etc.
5. Loans will not be disbursed to students that are on financial aid warning.
6. Loans will not be certified for students who have not matriculated at least one term, have not completed program coursework beyond any required learning support and have a GPA of less than 2.5 in their current program of study.
7. Loans will not be certified for students that are provisionally admitted.

Student Eligibility

In order to receive the Student Access Loan, students must:

- Be considered a Georgia resident and United States citizen or eligible non-citizen.
- Complete a valid Free Application for Federal Student Aid (FAFSA) in order to apply for this program.
- Maintain Satisfactory Academic Progress (SAP) in accordance with the SAP policy at their college or university.
- Must be enrolled in an eligible Georgia postsecondary institution.
- Meet all eligibility requirements.
- Students enrolled at an eligible TCSG (Technical College System of Georgia) postsecondary institution
- Applicants must have first applied for and exhausted other student financial aid options including federal, state and private scholarship and grant programs and Veterans Education Benefits.

Student Access Loans Additional Information

- Interest rate structure for loans received on or after July 1, 2014:
- Fixed rate of 1% while in school and out of school as long as the loan remains in good standing.

- A monthly Keep in Touch (KIT) Payment of \$10.00 is required after the first disbursement is received. The monthly KIT Payment is required while in school at least half-time and while in grace period.
- Any scheduled disbursements for a current year loan will be canceled and forfeited if the applicant is delinquent on KIT payments for the current or previous year SAL.
- Repayment is a maximum of fifteen (15) years with a minimum payment of \$50.00 for loans received on or after July 1, 2015.
- The minimum loan amount is \$300.
- The maximum term loan amount is \$1,500.
- The maximum loan limit is \$3,000 per year and up to a maximum of \$12,000 over a college lifetime.
- Origination Fee - A non-refundable fee of 5% of the loan amount, but not more than \$50.00, is deducted from the first disbursement of the loan.
- The program is also designed to provide loan discharge to those TCSG students who graduate with a minimum 3.5 cumulative Grade Point Average in program of study for which the loan was received.
- Selection Information
- The first selection of applications will be Current HOPE and Zell Miller Scholarship recipients in a random selection based on funds available. Any following selections of applications will be a random selection of the remaining applications based on funds available.
- Selection does not guarantee approval and applicants may or may not be selected each application year.
- SAL is an annual process which includes application, selection, certification, approval, and disbursement.
- Applications are only collected in pre-designated application cycle periods. See the application link below for dates and information.
- If you apply for this loan, you understand that this is a private education loan that must be repaid and cannot be combined or consolidated with federal loans.
- Borrow smart! When applying for a loan, request only the amount of funds needed for your educational costs and that you can repay.
- STC may decline the loan or certify for a reduced amount based on financial aid status.
- Loan disbursements are sent directly to STC and are not transferable.

Realizing Educational Achievement Can Happen (REACH) Program — <http://www.GAfutures.org>

The purpose of the REACH Program is to increase academic persistence and achievement of Georgia's middle and high school students and to increase college access and success for Georgia's low-income and underserved populations. Private and public donations fund the scholarships.

Student Eligibility Requirements, General Requirements

- A student must be a United States Citizen or an Eligible Non-Citizen for twelve (12) consecutive months immediately prior to the first day of classes of the Spring semester which precedes the academic year during which such student will first become a REACH Scholar.
- A student must be enrolled at an Eligible Middle School or an Eligible High School.
- A student must qualify for the Free or Reduced Lunch Program.

Other Financial Resources

Veterans Assistance (VA) — <http://www.gibill.va.gov>

Credit programs at Savannah Technical College are approved for Veterans Affairs Educational Benefits. Students eligible for Veterans Affairs Educational Benefits should contact the Financial Aid Office or visit our website at <http://www.savannahtech.edu/portals/military>. Application forms and assistance in filing for education benefits is available from the Financial Aid Office.

Veterans must attend scheduled classes and be in good academic standing to receive benefits. Benefit payments will not be made for courses from which the student does not continue to attend. Receiving Veterans Affairs Education Benefits does not prevent a student from applying or receiving other forms of financial aid. For specific questions regarding individual eligibility, contact the VA Atlanta Regional Processing Office at 1.800.827.1000.

All students receiving benefits through chapter 31 and 33 are entitled to attend classes once the school has received your Certificate of Eligibility, Statement of

Benefits obtained from the Department of Veterans Affairs' (VA) website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes. Savannah Technical College will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33.

In order to receive this entitlement, students must complete the following actions:

1. Submit a certificate of eligibility for entitlement to educational assistance no later than the first day of class to our Military Outreach Department.
2. Submit a new student Personal Information Sheet and DD214 (if you are the Veteran) to the Military Outreach Department.
3. Provide additional information as necessary to the Certifying Official, preferably in person if you are a new student.
4. Additional payment or fees for the amount that is the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement.

All students receiving benefits through Chapter 35, 1606, and 30 must pay their tuition and fees up front no later than the first day of classes.

Private Loan Information (Savannah Technical College no longer participates in the Private Loan program.)

Financial Aid Technician or Veteran Affairs (VA) School Certifying Official for U.S. Military Service Members will provide in-person advice and access to online private loan counseling through FASTChoice. The entrance counseling will consist of the following components:

1. Definition of Private Loans.
2. Overview Interest Rates.
3. Repayment Terms and Options.
4. Private Loan Comparison. FASTChoice is a private loan comparison tool to assist Service Members in making the educational loan choice that is best for them. FASTChoice provides a side-by-side comparison of the lenders, loan terms, interest rates, and repayment options.
5. Private Loans Information detailing the private educational loan options on FASTChoice website and in print. Website information provides loan options for private loans for short-term and two-year programs of study.
6. Private Loan Entrance counseling will be provided prior to dispersing private student loans

Workforce Innovation and Opportunity Act (WIOA) - <http://worksourcecoastal.org/>

The Workforce Innovation & Opportunity Act provides federal funding to assist with educational costs related to high-demand job training. Funding is available for Required Training Expenses and approved Support Services including: Uniforms, Transportation and Childcare Expenses. Eligibility is based on a variety of factors, including, but not limited to, the following:

Individual Eligibility:

- 18 years of age or older
- Are registered for Selective Services (Males Born after December 31, 1959)
- Have a HS Diploma or GED
- Have applied for HOPE Scholarship and PELL Grant through FAFSA for educational programs
- Able to enroll in coursework as a Full-Time Student and can complete your program in 2 years or less
- Must be a legal Resident of the following Counties: Bryan, Bulloch, Camden, Chatham, Effingham, Glynn, Liberty, Long, McIntosh and Screven.

Vocational Rehabilitation - <http://gvs.georgia.gov>

The Vocational Rehabilitation Division provides services to help eligible persons with disabilities prepare for, start and maintain competitive employment, thus becoming productive and independent citizens in their communities. VR provides a wide range of services to help individuals with disabilities prepare for meaningful work. The services received are arranged for and provided based on individual needs, so the length of time it takes to prepare for employment is different for each person, as are the services provided.

STC Foundation Scholarships - <http://www.savannahtech.edu/about-stc/foundation/scholarships/>

The Foundation awards a wide range of scholarships to students in all the academic divisions and do not need to be repaid. Eligibility may depend on financial need, academic achievement or community service in any combination.

Outside Scholarships/Other Resources – <http://www.savannahtech.edu/financial-aid/types-of-financial-aid/outside-sources/>

Various civic, social, professional and other organizations provide scholarships for deserving students. In most cases, scholarships are awarded based upon academic performance, financial need and availability of funds. Contact the Financial Aid Office for more information.

See Methods of Payment section for NelNet Payment Plan information.

How to Apply for Federal Financial Aid

Students interested in federal financial aid and enrolling in federally approved programs of study must complete the Free Application for Federal Student Aid (FAFSA) form. Students must use their legal name as it appears on their social security card. Using a different name may result in a delay in processing. Savannah Technical College's Title-IV School Code is 005618. Instructions on how to complete the online FAFSA application are available online at www.studentaid.gov. Students may contact the Financial Aid Office for more information and assistance when completing the form.

Once the FAFSA application is completed online, the Central Processing Center (CPS) will determine preliminary eligibility for financial aid. A Student Aid Report (SAR) will be emailed to the student and a copy sent electronically to the college within 3-5 business days. The student should review the Student Aid Report (SAR) to verify the accuracy of the submitted information.

If a FAFSA has been submitted and processed, there is no need to submit a separate application for the State Aid programs (HOPE, Zell, HOPE Career Grant). This is due to the Federal and State Processing Centers sharing information. Determination of eligibility will be made once all required forms and documents are received and processed.

How to Apply for State Aid

Students interested in State Aid ONLY or are enrolled in non-Pell eligible programs must complete the Georgia Student Finance Application (GSFAPPS) online at https://apps.gafutures.org/gsfa/gsfapps_index_ng.cfm. This application, as well as any other required forms, must be completed, submitted, and processed before a determination of eligibility can be made by the Financial Aid Office. If a student's schedule or major changes after registration, the financial aid award is subject to change.

Verification

Students who complete the Free Application for Federal Student Aid (FAFSA) may be selected by the Department of Education for a process called verification. If selected, the student must provide documentation verifying that certain items of the FAFSA are accurate. Documentation may include, but is not limited to:

1. Official copies of student and parent (if dependent) or spouse (if independent) Federal IRS Tax Return Transcript must be obtained from the IRS or a signed copy/EIN of your Federal Tax Return.
2. W2 Document.
3. Proof of Low or No Income.
4. Proof of Social Security Benefits, or other benefits received.
5. Copy of divorce or separation documentation.
6. Birth Certificate.
7. Other documents that provide proof of income or asset value.

A student's application that is selected for verification will be placed in a pending status and will receive no further processing until all requested materials have been received and processed by the Financial Aid Office. Students are notified at their STC student email if additional documentation is required.

To ensure financial aid is secured, students should submit all required financial aid documentation by the priority financial aid deadline. The financial aid office will continue to process all documentation in the order received. Students may need to make other arrangements to pay tuition and fees out of pocket until financial aid eligibility may be determined.

Financial Aid Awards

Eligibility for financial aid is based on the results of the FAFSA, cost of attendance, financial need, enrollment in an eligible program of study, scheduled enrollment (full-time/part-time), satisfactory academic progress, and the funding available. Once all required documentation is received, processed, and eligibility determined, the financial aid office sends an Award Notification email to the student's Savannah Tech student email address. Students may also track and view their financial aid and processing status through BANNER web self-service.

Financial Aid Disbursement

All federal and state financial aid is paid to the college approximately two (2) weeks after the start of the semester and applied to student accounts based on enrollment and eligibility at the time of disbursement. Federal and state financial aid is applied first toward tuition and fees each semester. If the amount of financial aid exceeds the direct cost of tuition and fees, any excess financial aid will be made available to the student approximately (4) four weeks after the start of the term. Excess financial aid is sent to the student in the form of a paper check.

Savannah Technical College allows Pell Grant eligible students with excess financial aid to purchase books and supplies in the Campus Shop the first day of class through the 10th day of the term.

Savannah Technical College Refund Policy

Savannah Technical College offers a six-day No Harm No Foul period allowing students seven calendar days from the start of the semester to withdraw without penalty and receive a 100% refund. Any payments received will be returned to the student and any financial aid received will be refunded to the appropriate financial aid program. No refund of tuition or fees will be made after the sixth calendar day of the semester. Examples of refund calculations are available in the Financial Aid Office.

Refunds of Tuition and Fees

1. Students who withdraw from a course by the end of the sixth calendar day of the term shall receive a 100% refund of applicable tuition and refundable fees, excluding the application fee. Exceptions may be allowed for customized courses that do not follow the college's standard academic calendar.
2. Students who withdraw from a course after the sixth day of the term shall receive no refund.
3. Students who withdraw after the sixth calendar day of the term and receive federal financial aid, financial aid awards will be prorated in compliance with the return of Title IV process outlined in the Federal Refund policy.

Federal Refund Policy for Students Who Withdraw (Return of Title IV Aid)

Students who find it necessary to withdraw from all courses during a semester and are receiving assistance from Title IV programs (Federal Pell Grant, SEOG), will be subject to the Return of Title IV Aid refund policy. This policy is based on federal regulations and requires the college to calculate the amount of financial aid earned based on the number of calendar days in the semester and the number of calendar days completed (based on last date of attendance). Students who withdraw after the 60% point of the semester earn 100% of the financial aid and no refunds are required. Students who complete less than 60% will earn only a portion of the financial aid. The unearned portion will be refunded to the source of financial assistance.

The federal aid earned is first used to pay the tuition, fees, and Campus Shop charges the student has deferred to their Title IV aid account. If any funds remain after deducting these charges, the excess will be sent to the student. If the amount of federal aid earned is insufficient to cover these charges, the student is liable for these charges.

Campus Shop Refund Policy

College ID is required to purchase or return textbooks or merchandise.

All Financial Aid purchases/refunds/exchanges must be made during the open Financial Aid period at the beginning of the term.

1. Refunds/exchanges on textbooks purchased with cash/check/credit card/debit card are only processed within 8 days from the date of purchase.
2. Original receipt is required for refunds or exchanges on unopened/original condition textbooks. Exchanges or returns will not be allowed for books when the shrink wrap has been removed or disks and access codes have been opened. Allow 4-6 weeks for processing with a check purchase.
3. Refunds will not be made on supplies, general merchandise, backpacks, clothing or candy/snacks/drinks.
4. Refunds will be made on required books ONLY with evidence of withdrawal from the course (drop slip), the original receipt, and materials in original condition.

5. Rented textbooks must be returned no later than the last day of the term to avoid non-return charges.

Satisfactory Academic Progress

Federal and state regulations require students meet minimum academic requirements to remain eligible for financial aid each semester. In order to maintain financial aid eligibility at Savannah Technical College, students must meet minimum cumulative Grade Point Average (GPA) and completion rate requirements as well as successfully complete, within a maximum timeframe, all coursework required for completion of the chosen program of study.

Savannah Technical College requires:

- Grade Point Average – must maintain an overall grade point average of 2.0 (grade of “C” or higher) within the current program of study and
- Completion Rate – must complete with a grade of “C” or higher at least two-thirds of all credit hours attempted within the current program of study (passed credit divided by attempted credit hours. For the purpose of calculation, 66.666...% is rounded to 67%) and
- 150% Maximum Timeframe – must complete program of study within 150% maximum timeframe. Multiply the number of credits required to graduate from your program X 1.5 = maximum attempted credits allowed.

Students are expected to know and understand the SAP policy. The Financial Aid Office will notify students of their status via their Savannah Tech student email address. Students are not excused from financial aid warning or suspension status nor are they exempt from appealing in a timely manner if they do not receive notification because they did not check their student email. Students may log into their BANNER Web account at any time to check the financial aid SAP status.

Grades and Completion Rate

Satisfactory Academic Progress is evaluated after grades are issued each semester. Only credits and grades of a student’s current program, and only the highest grade and credits of a repeated course will be included in the Satisfactory Academic Progress determination. When two or more courses meet the same requirement in the program of study, only the highest grade and credit will be used in the SAP calculation.

- Grade Point Average
 - Students must maintain an overall grade point average of 2.0 (grade of “C” or higher) within the current program of study.
 - Grades of “A”, “B”, and “C” are considered successfully completed while grades of “D”, “F”, and “WF” will negatively affect the grade point average. If a course has been retaken, only the highest grade is used in the calculation.
 - Transfer courses that count toward the student’s program are not included in the GPA calculation.
 - Learning Support courses, and ESOL courses are not included in computing GPA.
- Completion Rate and Maximum Time Frame
 - Students must successfully complete two-thirds of credit hours attempted within their program of study and complete their program of study within 1.5 times the normal length of the program.
 - Grades of “U”, “W”, “D”, and “F” are not considered satisfactory grades and are included in the total credit hours attempted.
 - If a course has been retaken, only the credits from the highest grade are used in the calculation
 - Grades of “TR%”, “EX”, “AU”, and “AC” are included in the total hours attempted and applied towards the completion rate and maximum timeframe.
 - Incomplete grades, “I,” are not included in computing completion rate or maximum time frame. Grades submitted after the end of semester SAP evaluation will be included in the subsequent end of semester evaluation.
 - Learning Support grades are not included in the Satisfactory Academic Progress calculation, however there is a maximum time frame of 30 attempted credits for Learning Support courses.
 - ESOL courses are excluded from Completion Rate calculations.
 - Transfer credits from other schools accepted and applied toward program requirements by Savannah Technical College will be counted toward completion as both hours attempted and hours successfully completed.
 - A transfer student is considered to be making satisfactory academic progress during the first semester of enrollment at the institution.
 - Students required to enroll in Learning Support courses may receive federal aid for up to a maximum of 30 attempted semester credits of Learning Support courses.

Satisfactory Academic Progress (SAP) Reset

If a student is not making satisfactory academic progress but has changed program of study, the student can be reset and only those courses in the new program will be included in SAP determination. A student can “re-set” academic progress by changing majors a maximum of two times. This Reset procedure is accomplished at the end of each semester once grades are posted.

Maximum Time Frame (150% Standard)

Students must complete their program of study within 1.5 (150%) times the normal length of a program of study. This includes all credit hours attempted whether they are completed or passed and includes accepted transfer credit. If courses have been retaken, or if two or more courses satisfy the same requirement in the program of study, only the credit from highest grade will be counted in the calculation. For example, if a program of study is 36 credit hours, the maximum timeframe to complete the program and receive financial aid is 54 attempted credit hours ($36 \times 1.5 = 54$). The maximum timeframe will vary depending upon the length of the program of study. Students required to enroll in Learning Support courses may receive federal aid for up to a maximum of 30 attempted semester credits of Learning Support courses.

Financial Aid Warning

Students who do not meet the minimum program GPA or cumulative GPA or fail to complete a minimum of two-thirds of attempted credits that count towards the program of study at the end of a semester will automatically be placed on financial aid warning for the subsequent semester of enrollment. During the one semester warning period, students remain eligible for federal and state financial aid and must improve their academic standing in order to meet the minimum requirements. An appeal is not required for this status. Students will be notified at their STC student email and in writing when placed on warning status.

Financial Aid Suspension

Failure to meet the minimum 2.0 GPA or two-thirds course completion requirements by the end of the financial aid warning period will result in the suspension of federal and state financial aid eligibility. Students placed on financial aid suspension will not be eligible for federal or state financial aid until the program GPA of 2.0 is met or a minimum of two-thirds of attempted credits that count towards the program of study have been successfully completed. Students will be notified at their STC student email and in writing when aid eligibility has been suspended. Students have the right to appeal the suspension and request reinstatement of financial aid eligibility if extenuating circumstances prevented them from being successful.

Savannah Technical College Satisfactory Academic Progress (SAP) Recalculation Re-Set Policy effective (FY 2018-2019) –Re-set recalculation consistent with Title IV of the Higher Education Act. As allowed under Volume 1, Chapter 1, Federal Student Aid Handbook, March 2017, it is our policy that for students who change majors, credits and grades that do not count toward the new major will not be included in the satisfactory progress determination.

STC SAP Procedure recalculates SAP for students who fail to meet grade point average, pace standard, and/or time frame, but who have changed programs of study (major) within the confines of the STC Policy and Procedure. Specifically, credits and grades which were earned in prior programs of study and do not count toward the new program of study will not be included in determining students' SAP. A student can “re-set” academic progress by changing majors a maximum of two times.

Appeal of Financial Aid Suspension

If financial aid is suspended, students have the right to petition the Financial Aid Appeals Committee for reinstatement of federal and state financial aid eligibility. Students must submit to the Financial Aid Office, by the published deadlines, a completed/signed Appeal of Financial Aid Suspension form, a written statement describing the basis for the appeal including all supporting documentation (i.e., death of a relative, an injury or illness of the student, or other special circumstances). Requests for appeal without a letter of explanation and supporting documentation will not be considered and automatically denied.

For those students who have exceeded the 150% maximum timeframe, in addition to the appeal form and written statement, students must submit an Advising Checklist outlining the coursework remaining and timeline for completion. Requests for appeal without a letter of explanation and/or Advising Checklist will not be considered and automatically denied. The Financial Aid Appeals Committee will consider each appeal on a case-by-case basis. Notification of the committee's decision will be sent to the student's Savannah Tech student email and a letter mailed to the most current address on file.

Financial Aid Probation

If an appeal is approved by the committee, a student's federal and state financial aid eligibility will be reinstated on a probationary basis for up to two semesters; extensions for 150% maximum timeframe may be extended up to three semesters. Progress will be monitored after grades are posted each semester of enrollment. An appeal or extension approved by the committee may require that certain GPA and completion rate conditions are met in order for a student to remain eligible for federal and state financial aid during the probationary period of enrollment. Students will be notified at STC student email and in writing by regular mail of the conditions and length of their financial aid probation. The Financial Aid Office will continue to monitor each recipient's academic progress to ensure that the conditions of the probationary status are successfully completed.

Failure to meet the conditions of the probationary status will result in immediate suspension for the subsequent term of enrollment. Suspension notifications are sent to the STC student email and in writing by regular mail.

Denied Appeals

Students for whom an appeal for financial aid reinstatement is denied may continue enrollment at Savannah Technical College at their own expense with academic approval from the Dean of their program of study. Students may make payment online or at the Cashier's Office located in the Campus Shop.

If the financial aid appeal is denied by the Appeals Committee and the student feels they have extenuating circumstances that were not considered by the committee, they may submit a second level appeal to the Vice President for Student Affairs. The decision of the Vice President for Student Affairs is final and may not be appealed.

Regaining Eligibility

Students who have not exceeded the 150% maximum timeframe will automatically regain eligibility once they achieve an overall GPA of 2.0 and have a minimum two-thirds completion rate.

Students who have not exceeded the 150% maximum timeframe and were denied reinstatement may re-appeal after completing with a grade of B or higher a minimum of six (6) credits at their own expense. Once the six credits are successfully completed, a student may submit a new appeal for the subsequent semester of enrollment. The new appeal will be evaluated on a case-by-case basis.

Students who have exceeded the 150% maximum timeframe and the appeal for extension is denied cannot regain eligibility for the same program of study. Student will need to change program of study to reset the maximum timeframe or find an alternative source of funding.

Gainful Employment

The U.S. Department of Education (DOE) requires public and proprietary institutions to report certain information about students who are enrolled in Title IV (i.e., Pell Grant, FSEOG, and Federal Direct Stafford Loans) eligible educational programs that lead to gainful employment in a recognized occupation (GE programs). Those regulations also provide that institutions must disclose to prospective students certain information about the institution's GE programs. Each DOE approved Diploma and Certificate Program at Savannah Technical College has specific, unique information pertaining to gainful employment. Gainful Employment information is available on the website for each DOE approved Diploma and Certificate program.

For All Programs We Are Required to Disclose:

- U.S. Department of Labor's Standard Occupational Classification (SOC) codes which are the anticipated occupations that the program prepares students to enter, along with links to occupational profiles on the U.S. Department of Labor's O*NET web site or its successor.
- The total tuition and fees the institution charges a student for completing the program within the normal time.
- The typical costs for books and supplies, and the cost of room and board.
- The median loan debt incurred by students who completed the program (Federal student loan debt, Private loan debt, and Institutional financing plan debt).
- Program completion in normal time.
- The on-time graduation rate for students completing the program.

Learn more at <http://www.savannahtech.edu/about-stc/gainful-employment/>

Completion/Graduation Rate

The U.S. Department of Education requires all colleges who receive federal Title IV funding to make available to current and prospective student's information about retention, graduation, transfer-out, and placement rates each academic year. Information is disclosed each semester to current students, faculty, and staff and are available on the STC website at <https://www.savannahtech.edu/about-savannah-technical-college/student-consumer-information>

Retention rates are based on first-time, certificate or degree seeking students each academic year. This information is reported each year and is available through the Department of Education College Navigator.

Graduation and Transfer-Out rates track the progress of students who began their studies as full-time, first-time degree or certificate-seeking students to see if they graduated or transferred-out within the 150% of "normal time" for completing the program in which they are enrolled. This information is also reported each year and is available through the Department of Education College Navigator.

Placement rates are based on the unduplicated graduates and their latest placement record for the academic year. The rates are calculated by the Technical College System of Georgia Data Center. The total placement rate is based on graduates employed in field, military, employed in related field, employed in unrelated field, employed in field and continuing education, employed in related field and continuing education, employed in unrelated field and continuing education, and continuing education. Placed in field includes those employed in field, military, employed in related field, employed in field and continuing education, employed in related field and continuing education.

Unduplicated Graduates & Placement Rates by Academic Year	Total Placement Rate	Placed in Field
AY 2014	96.39%	86.40%
AY 2015	99.6%	89.1%
AY 2016	100%	92.13%
AY 2017	99.77%	93.11%
AY 2018	99.48%	93.73%

Student Rights and Responsibilities

Student Rights

You have the right to ask Savannah Technical College:

1. The names of its accrediting and licensing organizations. You also have the right to ask for a copy of the documents describing the institution's accreditation or licensing.
2. About its programs, it's instructional, laboratory, or other physical facilities, and its faculty, what the cost of attending is, and what its policy is on refunds to students who drop out.
3. What financial assistance is available, including information on all Federal, State, local, private and institutional aid programs?
4. Who the financial aid personnel are, where they are located, and how to contact them for information?
5. What the procedures and deadlines are for submitting applications for each available financial aid program?
6. How it selects financial aid recipients.
7. How and when you will receive your financial aid.
8. To explain each type and amount of assistance in your financial aid package.
9. To reconsider the aid package offered if you believe a mistake has been made, or if your enrollment or financial circumstances have changed.
10. How the school determines whether you are making satisfactory progress and what happens if you are not.
11. What special facilities and services are available to the handicapped?

Student Responsibilities

It is your responsibility to:

1. Review and consider all information about the college's programs before you enroll.
2. Pay special attention to your application for financial aid, complete it accurately and submit it on time to the right place. Errors can delay or prevent your receiving aid.
3. Know all the deadlines for applying and reapplying for aid and be sure to meet them. Provide all documentation, corrections, signatures and/or new information requested by either the Financial Aid Office or the agency (processing center) to which you submitted your application.
4. Notify the school of any information on your application that has changed since you applied for financial aid.
5. Read and understand all forms you are asked to sign.
6. Notify the Financial Aid Office of any change in your name, address or attendance status.
7. Understand the college's refund policy.

Tuition and Fees

Savannah Technical college students will be charged tuition and related fees. Tuition for courses in curricula leading to a certificate, diploma or associate degree shall be charged on a uniform basis among all technical colleges unless specifically exempted by State Board Policy. The State Board shall annually review and establish tuition charged by all technical colleges.

Fee Waivers

The Commissioner of the Technical College System of Georgia grants presidents or their designee the authority to waive fees, with the exception of the "instructional and support technology fee." However, the presidents have the authority to waive the "instructional and support technology fee" for all dually enrolled or jointly enrolled high school students.

Transient

For transient students enrolled in more than one Technical College during the same term, only the home Technical College shall charge the instructional support and technology fee. If the transient student is not attending the home college, the college that the student registered at first will charge the fee. The student is responsible for providing proof of payment to the remaining colleges they are registered at. In this case, the home college will not charge the fee. All other Transient Students shall pay the instructional support and technology fee.

All other mandatory and non-mandatory fees may be waived by the President provided written documentation to support such waivers is maintained by the College.

For U.S. Active Duty Military, Military Reserve and Georgia National Guard Combat Veterans

Active Duty Military assigned within the state of Georgia are eligible for fee waiver. Additionally, Military Reserves or Georgia National Guard who were deployed on or after September 11, 2001 for a consecutive active duty period of one hundred and eighty-one (181) days in a location designated by the U.S. Department of Defense as combat zones, or who received full disability as a result of injuries received in such combat zone or were evacuated from such combat zone due to severe injuries during any period of time while on active service are also eligible for a fee waiver. Eligible participants must meet the admissions requirements of the applicable TCSG college and be accepted for admission.

Additionally, eligible participants must meet the admissions requirements of the applicable TCSG college and be accepted for admission.

Upon request, eligible participants shall receive an exemption of all mandatory fees charged by TCSG colleges for a term for which all students are required to make payment.

Students receiving this exemption shall be eligible to use the services and facilities these fees are used to provide. This benefit shall not apply to housing, food service, any other elective fees, special fees, or other user fees and charges (e.g., application fees).

Senior Citizen Waivers

Upon request, Georgia students sixty-two (62) years of age or older who are otherwise qualified may attend technical colleges, for credit courses only, without charge or payment of the standard tuition rate on a space available basis. These students must pay all fees. Students must wait until the first day of the term to register.

Eligibility for In-State Tuition Waivers

Students in the following classifications are eligible for in-state tuition waivers. These waivers do not affect the student's eligibility for the HOPE Scholarship or Grant, except for waivers for military personnel and their dependents as provided for in the GSFC regulations:

1. Employees and their children who move to Georgia for employment with a new or expanding industry as defined in OCGA 20-4-40;
2. Full-time employees of the Technical College System of Georgia, their spouses, and dependent children;
3. Full-time teachers in a public school, a military base, or a public postsecondary college, their spouses, and dependent children;
4. United States military personnel stationed in Georgia and on active duty and their dependents living in Georgia;
5. United States military personnel, spouses and dependent children reassigned outside Georgia, who remain continuously enrolled and on active military status;
6. United States military personnel and their dependents that are domiciled in Georgia, but are stationed outside the United States;
7. Students who are domiciled in out-of-state counties bordering on Georgia counties and who are enrolled in Savannah Technical College with a local reciprocity agreement;
8. Career consular officers and their dependents that are citizens of the foreign nation which their consular office represents, and who are living in Georgia under orders of their respective governments. This waiver shall apply only to those consular officers whose nations operate on the principle of educational reciprocity with the United States.

The STC President has the authority to exempt up to 36 months of tuition and fees toward the award of an associate's degree, diplomas, or certificates, for military members awarded the Purple Heart or higher combat decoration (Bronze star with valor, Silver Star, Coast Guard Cross, Navy Cross, Air Force Cross, Distinguished Service Cross, or Medal of Honor), their spouses, or their legal dependents up to 26 years of age. In order to qualify, students must first exercise all potential financial aid options available (Pell, VA benefits, Hope grant, etc.). Mandatory and non-course related fees not covered for MOWR students must be exempted. Course related fees and supplies, not including book(s), may be assessed.

Notwithstanding any provision in this policy, no person who is unlawfully present in the United States shall be eligible for any exemption of the tuition and applicable fees.

TUITION AND FEE SCHEDULE – FALL 2020

7 ASSOCIATE DEGREE, DIPLOMA, OR CERTIFICATE

Methods of Payment

Savannah Technical College will accept payment in the form of cash, personal checks/debit cards with proper identification and credit cards (VISA, American Express, Discover, MasterCard) for tuition, fees, services, books, or class supplies.

Company checks or credit/debit cards are accepted for fee payments. Checks must be payable for the exact amount due. Two party checks and postdated checks will not be accepted.

When a bank refuses a personal check the college will charge a service fee in the amount of \$30.00 plus the amount of any fee charged to the College by the bank. Students will be notified by certified mail of a dishonored check and given ten (10) days to satisfy this debt. If payment in the form of cash, credit/debit card, postal money order, or cashier's check is not made within ten (10) days, the College will place an administrative hold on the student's accounts and records. Please note: until the debt is paid, the student will not be issued semester grade reports, transcripts, or any other student records. He/she will not be allowed to register, graduate, or receive College services and may be dropped or withdrawn from classes.

Nelnet Payment Plan

Tuition and Fee Payment Plan Savannah Technical College is offering a way for you to pay your tuition and fees in interest-free monthly installments.

Cost to Participate

The nonrefundable enrollment fee is \$30, \$35, or \$40 each semester (through ACH or credit/debit card). This non-refundable fee may vary each semester based on the number of payments.

The payment plan offers 2, 3, and 4 monthly payment installments depending on when you sign up. The amount of the down payment also varies depending on when you sign up and the number of payments. Payments may be made through an automated bank

payment (ACH) or credit/debit cards. Payments will be drafted on the fifth of each month and will continue until the balance is paid in full.

If a credit/debit card is used rather than an automatic bank payment (ACH), a convenience fee will be assessed in addition to the enrollment fee. There will also be a \$30 fee per transaction if payments are returned. More Information

Institutional Information

Cost of Attendance (COA) is a budget determined by the institution to estimate the cost of education for the academic year (Fall/Spring). The COA includes:

- Direct costs are those items for which the school will bill you directly. For example, tuition. The tuition and fees used here are based on full-time enrollment (minimum of 12 credits per semester) for fall and spring semesters. Individual tuition and fees may vary based on course load.
- Indirect costs include estimated living expenses (room and board), books and supplies, transportation, child care, personal and miscellaneous expenses while you are enrolled in school. Indirect costs for living expenses are estimated averages based on HUD Fair Market Rent documentation for the Savannah area and the IRS National Standard for food, clothing, and other items. Books and supplies are estimated based on typical full-time enrollment.

Students are expected to attend all classes for which they are registered. It is the student's responsibility to drop or withdraw from any course they are not attending. Students who do not establish attendance in at least one class session will be reported as a No Show for the course and if applicable, financial aid will be reduced accordingly.

Student Rights and Responsibility

Student Rights and Responsibilities

Savannah Technical College promotes a climate of academic honesty, critical investigation, strong work ethic, intellectual freedom and freedom of individual thoughts and expression consistent with the rights of others. Students have the rights to the following:

1. To be in an atmosphere that is conducive to learning and to attend Savannah Technical College's educational programs, course offerings, and activities on campus or any activity sponsored by Savannah Technical College off campus in accordance with its policies and procedures.
2. To obtain the necessary knowledge, skills, and abilities in order to gain initial employment, maintain advanced levels of competence or acquire new levels of competence by participating in programs, course offerings, and activities in accordance with Savannah Technical College policies and procedures.
3. To develop intellectual, personal, and social values.
4. To "due process" procedures.
5. To participate in College approved student organizations in accordance with Savannah Technical College policies and procedures.
6. To be admitted to Savannah Technical College without discrimination in any respect.
7. To have academic and disciplinary records kept confidential subject to existing laws. No official records of students are available to unauthorized persons without the expressed written consent of the student involved except under legal compulsion.
8. To be informed of student's right-to-know information required by federal requirements.

Student Conduct

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of this academic community, students are encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for knowledge.

Freedom to teach and freedom to learn are inseparable facets of academic conditions in the classroom, on the campus, other college sites, and in the community. Students are expected to exercise their freedom with responsibility. As members of the academic community, students are subject to the obligations which accrue to them by virtue of this membership. As members of the larger community of which the College is a part, students are entitled to all rights and protection accorded them by the laws of the community.

By the same token, students are also subject to all laws, the enforcement of which is the responsibility of duly constituted authorities. When students violate laws, they may incur penalties prescribed by legal authorities. In such instances, College discipline will be initiated if the presence of the student on campus is considered a possible threat to persons or property, or if that person's presence may disrupt the educational process of the College. However, when a student's violation of the law also adversely affects the College's recognized educational objectives, or violates the College's Student Code of Conduct, the College will enforce its own regulations.

When students violate College regulations, they are subject to disciplinary action by the College whether or not their conduct violates the law.

It is the procedure of Savannah Technical College and the policy of the Technical College System of Georgia (TCSG) to provide technical and adult education programs for the people of Georgia. TCSG's technical colleges must provide opportunities for intellectual, emotional, social, and physical growth. Technical college students assume an obligation to act in a manner compatible with the fulfillment of the mission. The technical college community recognizes its responsibility to provide an atmosphere conducive to growth. With these principles in mind, the Technical College System of Georgia establishes this Student Code of Conduct.

Generally, technical college jurisdiction and discipline shall be limited to conduct which occurs on technical college premises, off-campus classes, activities or functions sponsored by the technical college, an examination or any other written or oral work

submitted for evaluation and/or a grade, or which otherwise adversely affects members of the technical college community and/or the pursuit of the technical college's objectives.

Definitions:

1. **Faculty Member:** any person hired by Savannah Technical College to conduct teaching, service, or research activities
2. **Hearing Body:** as defined in the Student Disciplinary Procedure.
3. **Member of the technical college community:** any person who is a student, faculty member, contractor, technical college official or any other person(s) involved with the technical college, involved in the community or employed by the technical college.
4. **Policy:** the written regulations of Savannah Technical College as found in, but not limited to, Savannah Technical College Catalog and TCSG Procedures Student Disciplinary Procedure 6.7.2p1 and Model Student Code of Conduct Procedure 6.7.2p2.
5. **Student:** all persons taking courses at Savannah Technical College, including full-time, part-time, dual enrollment, joint enrollment, non-credit, and credit. Persons who are not officially enrolled for a particular term but who have a continuing relationship with Savannah Technical College are also considered "students".
6. **System:** The Technical College System of Georgia (TCSG).
7. **Technical College Official:** any person employed by Savannah Technical College performing assigned administrative responsibilities on a part-time, full-time or adjunct basis.
8. **Premises:** all land, buildings, facilities, and other property in the possession of or owned, used, or controlled by Savannah Technical College (including adjacent streets and sidewalks).

Proscribed Conduct

Any student found to have committed the following types of misconduct is subject to the disciplinary sanctions outlined in the Student Disciplinary Policy and Procedure.

A. Academic Misconduct

Academic Misconduct includes, but is not limited to, the following:

1. Aiding and Abetting Academic Misconduct:
 - a. Knowingly helping, procuring, encouraging or otherwise assisting another person to engage in academic misconduct.
2. Cheating
 - a. Use and/or possession of unauthorized material or technology during an examination, or any other written or oral work submitted for evaluation and/or a grade, such as tape cassettes, notes, tests, calculators, computer programs, cell phones and/or smart phones, or other electronic devices.
 - b. Obtaining assistance with or answers to an examination or any other written or oral work submitted for evaluation and/or a grade from another person with or without that person's knowledge.
 - c. Furnishing assistance with or answers to an examination or any other written or oral work submitted for evaluation and/or a grade to another person.
 - d. Possessing, using, distributing or selling unauthorized copies of an examination, computer program, or any other written or oral work submitted for evaluation and/or a grade.
 - e. Representing as one's own an examination or any other written or oral work submitted for evaluation and/or a grade created by another person.
 - f. Taking an examination or any other written or oral work submitted for evaluation and/or a grade in place of another person.

- g. Obtaining unauthorized access to the computer files of another person or agency and/or altering or destroying those files.
 - h. Obtaining teacher edition text books, test banks, or other instructional materials that are only intended to be accessed by Savannah Technical College officials, college administrators, or faculty members.
3. Fabrication
 4. The falsification of any information or citation in an examination or any other written or oral work submitted for evaluation and/or a grade.
 5. Plagiarism
 - a. Submitting another's published or unpublished work in whole, in part or in paraphrase, as one's own without fully and properly crediting the author with footnotes, quotation marks, citations, or bibliographical reference.
 - b. Submitting as one's own original work, material obtained from an individual or agency without reference to the person or agency as the source of the material.
 - c. Submitting as one's own original work material that has been produced through unacknowledged collaboration with others without release in writing from collaborators.

B. Non-Academic Misconduct

Non-Academic Misconduct includes, but is not limited to, the following:

Behavior

- a. Indecent Conduct: Savannah Technical College prohibits disorderly, lewd, or indecent conduct, including public physical or verbal action; language commonly considered offensive (not limited to, but including profanity); or distribution of obscene or libelous written or electronic material.
- b. Violence: Savannah Technical College prohibits mental or physical abuse of any person (including sex offenses) on technical College premises or at technical college-sponsored or technical college-supervised functions, including verbal or physical actions which threaten or endanger the health or safety of any such persons. This includes fighting and/or other disruptive behavior, which includes any action or threat of action that endangers the peace, safety, or orderly function of Savannah Technical College, its facilities, or persons engaged in the business of the technical college.
- c. Harassment: Savannah Technical College prohibits any act, comment, behavior, or clothing which is of a sexually suggestive, harassing, offensive, or intimidating nature. Savannah Technical College also prohibits stalking, or behavior which in any way interferes with another student's rights or an employee's performance or creates an intimidating, hostile, or offensive environment. This also includes the display of or navigation to pornography and other inappropriate websites and materials and inappropriate behavior on social media and/or networking applications. If, in the opinion of Savannah Technical College officials, clothing and/or behavior (including the presence of gang colors, signs, and/or symbols) are threatening, intimidating, or offensive in nature, sanctions may be imposed immediately.
- d. Disruption: Savannah Technical College prohibits intentional obstruction or interruption of teaching, research, administration, disciplinary proceedings, or other technical college activities, including public service functions, and other duly authorized activities on Savannah Technical College premises or at technical college-sponsored activity sites.
- e. Failure to Comply: Failure to comply with directions of Savannah Technical College officials and/or failure to identify oneself to these persons when requested to do so.

Professionalism

Personal Appearance: Refer to Savannah Technical College Dress Code Policy.

1. Use of Technical College Property

- a. Theft and Damage: Savannah Technical College prohibits theft of, misuse of, or harm to College property, or theft of or damage to property of a member of the Savannah Technical College community or a campus visitor on College premises or at a College function.
- b. Occupation or Seizure: Savannah Technical College prohibits occupation or seizure in any manner of College property, College premises, or any portion thereof for a use inconsistent with prescribed, customary, or authorized use.
- c. Presence on College premises: Savannah Technical College prohibits unauthorized entry upon College premises; unauthorized entry into College premises or a portion thereof, which has been restricted in use; unauthorized presence in College premises after closing hours; or furnishing false information to gain entry upon College premises.
- d. Assembly: Savannah Technical College prohibits conducting or participating in an unauthorized gathering that threatens or causes injury to persons or property or that interferes with free access to College facilities or that is harmful, obstructive, or disruptive to the educational process or functions of the College.
- e. Fire Alarms: Savannah Technical College prohibits setting off a fire alarm or using or tampering with any fire safety equipment on College premises or at college-sponsored activity sites, except with reasonable belief in the need for such alarm or

equipment. In the event of a fire alarm sounding, students must evacuate the building unless otherwise directed by a College official.

- f. Obstruction: Savannah Technical College prohibits obstruction of the free flow of pedestrian or vehicular traffic on College premises or at College sponsored or supervised functions. Refer to Savannah Technical College Parking Policy and Regulations.

2. Drugs, Alcohol and Other Substances

Substances referred to under this policy include all illegal drugs, alcoholic beverages, and misused legal drugs (both prescription and over-the-counter).

- a. Alcohol: Students must comply with all state and federal laws regulating alcohol as well as TCSG Policy 3.3.6, Alcohol on Campus. Alcoholic beverages may not be served or sold at any student sponsored function. Students being in a state of intoxication on Savannah Technical College premises or at college-sponsored or supervised functions (including off-campus functions), internships, externships, practicum, clinical sites, co-operative or academic sponsored programs or activities or in a technical college-owned vehicle is prohibited.
- b. Controlled substances, illegal drugs and drug paraphernalia: Savannah Technical College prohibits possession, use, sale, or distribution of any controlled substance, illegal drugs, or drug paraphernalia except as expressly permitted by law. Any influence which may be attributed to the use of drugs or alcoholic beverages shall not in any way limit the responsibility of the individual for the conduct or consequences of his/her actions.
- c. Food: Savannah Technical College prohibits eating and/or drinking in classrooms, shops, and labs or other unauthorized areas on college premises, unless otherwise permitted by technical college officials.
- d. Tobacco: Savannah Technical College prohibits smoking, or using other forms of tobacco products in classrooms, shops, and labs or other unauthorized areas on college premises. Refer to the Savannah Technical College Tobacco Policy.

3. Use of Technology

- a. Damage and Destruction: Destruction of or harm to equipment, software, or data belonging to Savannah Technical College or to others is considered unacceptable usage. This may include altering, downloading, or installing software on College computers, tampering with computer hardware or software configurations, inserting personal drives/discs containing viruses, malware or other destructive software, improper access to the College's network, and/or disconnection of College computers or devices.
- b. Electronic Devices: Unless otherwise permitted by College officials, Savannah Technical College prohibits the use of electronic devices in classrooms, labs, and other instructional, event, or affiliated facilities on technical college premises. Such devices include, but are not limited to, cell phones, beepers, two-way radios, cameras, gaming devices, and other electronic devices, which may cause unnecessary disruption to the teaching/learning process on campus. The College also prohibits attaching personal electronic devices to College computers under any circumstances.
- c. Harassment: Savannah Technical College prohibits the use of computer technology to harass another student or College official with obscene, harassing or intimidating messages, communications, jokes, or material.
- d. Unacceptable Use: Savannah Technical College prohibits the use of computing facilities to interfere with the work of another student, faculty member or College official. This includes the unauthorized use of another individual's identification and password. Savannah Technical College prohibits any additional violation to the College's Acceptable Computer and Internet Use Policy.

4. Unauthorized Distribution of Copyrighted Materials is Against Federal Law

The unauthorized copying and distributing of copyrighted materials, including, but not limited to Peer-to-Peer (P2P) file sharing or other technologies by users of the Technical College System of Georgia (TCSG) networks and internet connected systems, is a violation of United States copyright law and may result in civil and criminal liability and prosecution.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its direction, also assess costs and attorney's fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense. For more information, please see the website of the U.S. Copyright Office at www.copyright.gov and FAQ's at <http://www.copyright.gov/help/faq/>.

TCSG Procedure 3.2.3p.

This procedure prohibits the unauthorized distribution of copyrighted materials via TCSG systems or networks. Maximum penalties under Georgia Law are a \$50,000 fine and 15 years of imprisonment, plus civil liability in addition to the potential federal penalties listed above.

Legal Alternatives for Downloading or Otherwise Acquiring Copyrighted Materials

For a list of legal alternative sites for downloading copyrighted materials, please visit the EDUCAUSE website at:

<http://www.educause.edu/legalcontent>.

5. Weapons

The Technical College System of Georgia is committed to providing employees, students, volunteers, visitors, vendors and contractors a safe and secure workplace and/or academic setting. The possession, carrying, or transportation of a firearm, weapon, or explosive compound/material in or on college buildings or property shall be governed by Georgia state law. All individuals are expected to comply with the related laws. Failure to follow laws pertaining to weapons is considered a violation of the Student Code of Conduct. Relevant Georgia laws to be aware of and compliant with include but may not be limited to:

- O.C.G.A. § 16-8-12(A)(6)(a)(iii)
- O.C.G.A. § 16-7-80
- O.C.G. A § 16-7-81
- O.C.G.A. § 16-7-85
- O.C.G.A. § 16-11-121
- O.C.G.A. § 16-11-125.1
- O.C.G.A. § 16-11-126
- O.C.G.A. § 16-11-127
- O.C.G.A. § 16-11-127.1
- O.C.G.A. § 16-11-129
- O.C.G.A. § 16-11-130
- O.C.G.A. § 16-11-133
- O.C.G.A. § 16-11-135
- O.C.G.A. § 16-11-137
- O.C.G.A. § 43-38-10

6. Gambling

The Technical College System of Georgia prohibits the violation of federal, state or local gambling laws on College premises or at College sponsored or supervised activities.

7. Parking

Savannah Technical College prohibits violation of College regulations regarding the operation and parking of motor vehicles on or around College premises (see section on General Policies and Procedures/Automobile Use).

8. Financial Irresponsibility

Savannah Technical College prohibits the theft or misappropriation of any college, student organization or other assets.

9. Violation of Technical College Procedures

Violation of Technical College System of Georgia policies or Savannah Technical College procedures rules or regulations including, but not limited to, rules imposed upon students who enroll in a particular class or program, internships, externships, practicum, clinical sites, co-operative, or any academic sponsored programs or activities, student organizations or students who reside in on-campus housing.

10. Aiding and Abetting

Savannah Technical College prohibits aiding, abetting, or procuring another person to do an activity which otherwise violates this Code of Conduct.

11. Falsification of Documentation

- A. Disciplinary proceedings may be instituted against a student who falsifies any documentation related to Savannah Technical College, either to the College or to others in the community, including, but not limited to, falsification of college transcripts; documents from other institutions to obtain credit from or admission to the College; college report cards or other grade reports; documentation related to a student's citizenship status; tests, homework, attendance records; signature of any College employee in his or her official capacity; signature of any employee of a clinical or internship site where the student is participating in an educational program associated with the College or records related to any clinical, internship or other academic activity associated with the College.

12. Violation of Law

- A. If a student is convicted or pleads Nolo Contendere to an on-campus or off-campus violation of federal, state, or local law, but has not been charged with any other violation of the Student Code of Conduct, disciplinary action may nevertheless be taken and sanctions imposed if the violation of federal, state or local law is detrimental to Savannah Technical College's vital interests and stated mission and purpose.
- b. Disciplinary proceedings may be instituted against a student charged with violation of a law that is also a violation of the Student Code of Conduct if both violations result from the same factual situation, without regard to criminal arrest and/or prosecution. Proceedings under this Student Code of Conduct may be carried out prior to, simultaneously with, or following criminal proceedings.
- c. When a student is charged by federal, state, or local authorities with a violation of law, Savannah Technical College will not request or agree to special consideration for that individual because of his/her status as a student. The College will cooperate fully with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of student violators. Individual students, acting in their personal capacities, remain free to interact with governmental representatives as they deem appropriate.

13. Abuse of the Student Judicial Process, including but not limited to

- a. Failure to obey the notification of the Vice President for Student Affairs or the College President's designee, Hearing Body, Appellate Board or Technical College Official.
- b. Falsification, distortion, or misrepresentation of information in a judicial proceeding.
- c. Disruption or interference with the orderly conduct of a disciplinary proceeding.
- d. Initiating a disciplinary proceeding knowingly without cause.
- e. Attempting to discourage an individual's proper participation in, or use of, the disciplinary process.
- f. Attempting to influence the impartiality of a member of a Hearing Body, or Appellate Board prior to, and/or during the course of, the disciplinary proceeding.
- g. Harassment (verbal or physical) and/or intimidation of a member of a Hearing Body, or Appellate Board prior to, during, and/or after a disciplinary proceeding.
- h. Failure to comply with the sanction(s) imposed under the Student Code.

Record Retention

Documents shall be held for no less than three (3) years after the graduation of the student or the date of the student's last attendance.

Note: In the interest of public safety and the well-being of all members of the College community, Savannah Technical College has adopted a zero-tolerance policy for the following infractions: alcohol, drugs, fighting with physical contact and vandalism. These offenses will result in immediate expulsion for a period of one year.

Interim Addendum to Student Code of Conduct

COVID-19 and Public Health-Informed Campus Policies

Savannah Technical College intends to perform its educational mission while protecting the health and safety of its students, faculty and staff, and minimizing the potential spread of the novel coronavirus, COVID-19, within the community.

Risks of COVID-19

In order to understand the risks that you face by returning to campus, you must understand that COVID-19 is a highly infectious, life-threatening disease declared by the World Health Organization to be a global pandemic. There is no vaccine for COVID-19 at this time.

COVID-19's highly contagious nature means that contact with others or contact with surfaces that have been exposed to the virus, may lead to infection. Additionally, individuals who may have been infected with COVID-19 may be asymptomatic for a period of time or may never exhibit symptoms at all.

Because of its highly contagious and sometimes "hidden" nature, it is very difficult to control the spread of COVID-19 on campus or to

determine whether, where, or how a specific individual may have been exposed to the disease. Savannah Technical College is taking steps recommended by public health authorities to minimize the risk of spreading this disease on our campus.

Savannah Technical College cannot and does not guarantee a COVID-19-free environment, and there remains a risk that you may contract COVID-19 if you come onto campus to live and/or attend classes. We are providing you with the following notice as well regarding the risk of contracting COVID-19 when you enter upon our campus:

Warning

Under Georgia law, there is no liability for an injury or death of an individual entering these premises if such injury or death results from the inherent risks of contracting COVID-19. You are assuming this risk by entering these premises.

In order to minimize the risks associated with COVID-19, the policies and guidelines below are incorporated into the Savannah Technical College Student Code of Conduct and are applicable to all students. Your compliance with these requirements is essential to assisting the college in minimizing the risks to you and other members of the community.

General Principles:

You are subject to all guidelines for individuals related to the COVID-19 pandemic established by the United States Centers for Disease Control and Prevention (CDC).

In addition, the State of Georgia has issued guidelines for personal behavior during the COVID-19 pandemic and you must comply with such guidelines at all times. You understand that both sets of these guidelines may change, and it is your responsibility to ensure that you understand and comply with these guidelines at all times.

From time to time the College may implement additional requirements restricting your behavior and you agree to comply with such requirements.

You understand that these conditions and limitations on your personal behavior are necessary in order to reduce the risk of transmitting and/or being infected by the COVID-19 virus and that your failure to comply with these responsibilities may jeopardize your health and safety, as well as the health and safety of others in the campus community, potentially causing severe illness and death.

Requirements:

Students will comply with governmental, state, and campus directives concerning maintaining required physical distancing (six feet) between themselves and other individuals on campus;

Students will use a face covering of their choosing that conforms to CDC guidelines anytime that they are in an indoor space where the College deems that social distancing is not practical, including but not limited to academic spaces and dining areas (except while eating) unless given different instructions by authorized college personnel;

Students will engage in frequent hand-washing and follow proper sneeze and cough etiquette, as recommended by the CDC;

Students understand and agree that they may be subject to regular testing for the COVID-19 virus and contact tracing, if testing and contact tracing is available, and they agree to submit to this testing and tracing, and the confidential reporting of the results to the College, without objection;

If students develop any symptom of COVID-19 as described by the CDC, they will immediately:

- Inform the College by notifying appropriate personnel;
- Remain off campus if not currently residing on campus;

If required by the College, agree to remain in self-quarantine for a time period determined by the College, in consultation with public health authorities.

The above conditions may change, and students agree to follow all college directives relating to COVID-19 and public health requirements.

Any failure to adhere to any of the above directives is a violation of the Code of Conduct that may result in sanctions, including but not limited to suspension or dismissal from the College.

Student Disciplinary Procedure

The Savannah Technical College administration reserves the right to maintain a safe and orderly educational environment for students and staff. Therefore, when (in the judgment of Savannah Technical College officials) a student's conduct disrupts or threatens to disrupt the college community, appropriate disciplinary action will be taken to restore and protect the atmosphere of collegiality and mutual respect on campus. This procedure is intended to provide an orderly protocol for handling student disciplinary cases in accordance with the principles of due process and justice.

This procedure is applicable to Savannah Technical College and all Technical Colleges associated with the Technical College System of Georgia.

1. **Academic Misconduct:** includes, but is not limited to, the definition found in the Student Code of Conduct, Article II, Paragraphs 1-4.
2. **Business Days:** weekdays that the Savannah Technical College administrative offices are open.
3. **Hearing Body:** any person or persons authorized by the President of the college to provide a hearing as provided in this procedure.
4. **Member of the Savannah Technical College Community:** any person who is a student, faculty member, or Savannah Technical College official or any other person(s) involved with the college community or employed by the college.
5. **Policy:** the written regulations of Savannah Technical College as found in, but not limited to, the Student Code of Conduct, Student Handbook, Savannah Technical College Catalog, the Savannah Technical College Policy Manual, and the Policy Manual approved by the State Board for the Technical College System of Georgia.
6. **Student:** all persons taking courses at Savannah Technical College, full-time, part-time, dual enrollment, joint enrollment, non-credit, and credit. Persons, who are not officially enrolled for a particular term but who have a continuing relationship with Savannah Technical College are considered "students."
7. **Student Organization:** any number of persons who have complied with the formal requirements for Savannah Technical College recognition.
8. **Technical College:** any college within the Technical College System of Georgia.
9. **Technical College Official:** any person employed by Savannah Technical College performing assigned administrative responsibilities on a part-time, full-time, or adjunct basis.
10. **Premises:** all land, buildings, facilities, and other property in the possession of or owned, used, or controlled by Savannah Technical College (including adjacent streets and sidewalks).

Student Code of Conduct Complaint Form (available on [Savannah Technical College website](#))

Disciplinary Sanction Appeal Form (available on [Savannah Technical College website](#))

A. Filing a Complaint

1. Any person may file a complaint with the Vice President for Student Affairs against any student for a violation of the Student Code of Conduct. The individual(s) initiating the action must complete a Student Code of Conduct Complaint Form, and forward it directly to the Vice President for Student Affairs or his/her designee.
2. Academic Misconduct may be handled using this procedure or a separate Academic Misconduct Procedure at the discretion of the President.
3. Investigation and Decision
 - a. Within five business days after the Student Code of Conduct Complaint Form (the "Complaint") is filed, the Vice President for Student Affairs or his/her designee shall complete a preliminary investigation of the incident and schedule a meeting with the student against whom the Complaint was filed in order to discuss the incident and the allegations. In the event that additional time is necessary, the student will be notified. After discussing the Complaint with the student, the Vice President for Student Affairs or his/her designee shall determine whether the student committed the alleged conduct, and whether the alleged conduct constitutes a violation of the Student Code of Conduct. The student shall have 5 business days from the date contacted by the Vice President for Student Affairs to schedule the meeting. This initial meeting may only be rescheduled one time. If the student fails to respond to the Vice President for Student Affairs within five (5) business days to schedule the meeting, reschedules the meeting more than once, or fails to appear at the meeting, the Vice President for Student Affairs will consider the available evidence without student input and make a determination.
 - b. In the event that a Complaint alleges violations of the Student Code of Conduct by more than one student, each student's disciplinary proceeding, as well as any appeals relating to that proceeding, shall be conducted individually.
 - c. If the Vice President for Student Affairs or his/her designee determines that the student has violated the Student Code of Conduct, he/she shall impose one or more disciplinary sanctions consistent with those described below. If the Vice President for Student Affairs or his/her designee determines that the alleged conduct did not occur or that the conduct was not a violation of the Student Code of Conduct, he/she shall not impose any disciplinary sanctions on the student and the investigation shall be closed.
 - d.

1. Violation of the Student Code of Conduct

- a. Based on the severity of the incident, the Vice President for Student Affairs may take one of two actions, no referral to Hearing Body or referral to Hearing Body
 - i. After a determination that a student has violated the Student Code of Conduct, the Vice President for Student Affairs or his/her designee may impose one or more of the following sanctions without referral to the Hearing Body. Notification shall be sent to the student and the person(s) who initially filed the complaint:
 - Restitution** – A student who has committed an offense against property may be required to reimburse Savannah Technical College or other owner for damage to or misappropriation of such property. Any such payment in restitution shall be limited to the actual cost of repair or replacement.
 - Reprimand** – A written reprimand may be given to any student. Such a reprimand does not restrict the student in any way, but it signifies to the student that he/she is in effect being given another chance to conduct himself/herself as a proper Member of the Savannah Technical College Community, and that any further violation may result in more serious sanctions.
 - Restriction** – A restriction upon a student's privileges for a period of time may be imposed. This restriction may include but is not limited to denial of the right to represent Savannah Technical College in any way, denial of use of facilities, alteration or revocation of parking privileges, or restrictions from participating in extracurricular activities.
 - Disciplinary Probation** – Continued enrollment of a student on probation may be conditioned upon adherence to specified terms. Any student placed on probation will be notified of the terms and length of probation in writing. Any conduct determined after due process to be in violation of these terms while on probation may result in the imposition of more serious disciplinary sanctions, as specified by the terms of probation.
 - Failing or lowered grade** – In cases of academic misconduct, the Vice President for Student Affairs or his/her designee will make a recommendation to the Vice President for Academic Affairs or his/her designee who may authorize the instructor to award a failing or lowered grade in the course, a loss of credit on the assignment or examination.
 - ii. After a determination that a student has violated the Student Code of conduct, the Vice President for Student Affairs or the technical college president's designee may recommend the imposition of one of the following sanctions if appropriate. The Vice President for Student Affairs' recommendation will be forwarded to the Hearing Body, which may impose one or more of the following sanctions, as well as those described in section VI.C.1 above, following a hearing. A copy of the written recommendation shall be provided to the student and the person filing the complaint.
 - Disciplinary Suspension** – If a student is suspended, he/she is separated from Savannah Technical College for a stated period of time. Conditions of reinstatement, if any, must be stated in the notice of suspension.
 - Disciplinary Expulsion** – Removal and exclusion from Savannah Technical College, College controlled facilities, programs, events, and activities. A record of the reason for the student's dismissal is maintained by the Vice President for Student Affairs or his/her designee. Students who have been dismissed from Savannah Technical College for any reason may apply in writing to the Vice President for Student Affairs for reinstatement twelve (12) months following the expulsion. If approval for reinstatement is granted, the student will be placed on disciplinary probation for a specified term. The probationary status may be removed at the end of the specified term at the discretion of the Vice President for Student Affairs or his/her designee.
 - System-Wide Expulsion** – Where a student has been expelled or suspended three times from the same or different colleges in the Technical College System of Georgia in the past seven years, the student may not be permitted to register at any college in the Technical College System of Georgia for a period of ten years after the most recent expulsion/suspension.

2. Violation of Federal, State, or Local Law

- a. If a student is convicted or pleads Nolo Contendere to an off-campus violation of federal, state, or local law but not with any other violation of the Student Code of Conduct, disciplinary action may be taken and sanctions imposed for misconduct that is detrimental to Savannah Technical College's vital interests and stated mission and purpose.
- b. Disciplinary proceedings may be instituted against a student charged with violation of a law that is also a violation of the Student Code of Conduct if both violations result from the same factual situation, without regard to criminal arrest and/or prosecution. Proceedings under this Student Code of Conduct may be carried out prior to, simultaneously with, or following criminal proceedings.
- c. When a student is charged by federal, state, or local authorities with a violation of law, Savannah Technical College will not request or agree to special consideration for that individual because of his/her status as a student. The College will cooperate fully with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of student violators. Individual students, acting in their personal capacities, remain free to interact with governmental representatives as they deem appropriate.

3. Interim Disciplinary Suspension

As a general rule, the status of a student accused of violations of the Student Code of Conduct should not be altered until a final determination is made regarding the charges against him/her. However, interim suspension may be imposed upon a finding by the Vice President for Student Affairs or his/her designee that the continued presence of the accused student on campus constitutes a potential or immediate threat to the safety and well-being of the accused student or any other member of the Savannah Technical College Community or its guests or that the continued presence of the student on campus creates a risk of substantial disruption of classroom or other College related activities. If an interim disciplinary suspension is imposed, the matter must be referred as soon as possible to the Hearing Body. The student need not request an appeal.

4. Conditions of Disciplinary Suspension and Expulsion

- a. A student who has been suspended or expelled from Savannah Technical College shall be denied all privileges afforded a student and shall be required to vacate College premises at a time determined by the Vice President for Student Affairs or his/her designee.
- b. In addition, after vacating Savannah Technical College premises, a suspended or expelled student may not enter upon the College premises at any time, for any purpose, in the absence of written permission from the Vice President for Student Affairs or his/her designee. A suspended or expelled student must contact the Vice President for Student Affairs or his/her designee for permission to enter the College premises for a limited, specified purpose.
- c. If the student seeks to submit a signed Disciplinary Sanction Appeal Form, the Vice President for Student Affairs or his/her designee must accept the form by mail or fax if he/she refuses the student's request to enter Savannah Technical College premises for that specified purpose.
- d. A scheduled appeal hearing before the Hearing Body shall be understood as expressed permission from the Vice President for Student Affairs or his/her designee for a student to enter the Savannah Technical College premises for the duration of that hearing

B. Mediation

1. At the discretion of the President, Savannah Technical College may adopt a mediation procedure to be utilized prior to the appeals set forth herein. Mediation may never be used in cases of alleged sexual misconduct.

C. Appeals Procedure

1. A student who wishes to appeal a disciplinary decision by the Vice President for Student Affairs or his/her designee regarding an assigned sanction of restitution, reprimand, restriction, disciplinary probation, or failing or lowered grade must file a written notice of appeal through the President's Office for review by the Hearing Body within five business days of notification of the decision. The person filing the initial complaint against the student must be notified of the hearing date.
2. If the Vice President for Student Affairs or the technical college president's designee recommended a sanction of disciplinary suspension, disciplinary expulsion, interim disciplinary suspension, or system-wide expulsion, the matter will be referred to the Hearing Body by the Vice President for Student Affairs. The student need not file a written notice of his or her desire to appear before the Hearing Body. The person filing the initial complaint shall also be given notification of the hearing.
3. The student will then have the right to appear in a hearing before a Hearing Body assigned by the President or his/her designee within 10 business days to present evidence and/or testimony. If the student has been placed on an interim disciplinary suspension, the hearing must be held as soon as possible, preferably within five days. The student has the right to be assisted by any single advisor he/she chooses at his/her own expense. The student is responsible for presenting his/her own case; and therefore, advisors are not permitted to speak or to participate directly in any hearing before a Hearing Body. The Hearing Body may consist of a single person or a group of people drawn from the Savannah Technical College community. There shall be a single verbatim record, such as a tape recording of all hearings before the Hearing Body. The official record shall be the property of Savannah Technical College. The standard of proof in all hearings shall be a preponderance of the evidence. The Chairperson of the Hearing Body shall notify the President and the Vice President for Student Affairs in writing of the Hearing Body's decision. The Savannah Technical College President or his/her designee will notify the student in writing of the Hearing Body's decision and the opportunity to appeal directly to the President.
4. The student shall have 5 business days after receiving written notification of the Hearing Body's decision from the President or his/her designee to request in writing an appeal with the Appellate Board. The student shall ensure that all relevant information is included with this request.
5. The Appellate Board review shall be in writing and shall only consider evidence currently in the record, new facts not brought up in earlier stages of the appeal shall not be considered. The Appellate Board shall deliver its decision to the student within 10 business days. The decision of the Appellate Board shall be final and binding.
6. If the student appeared before the Hearing Body to appeal the Vice President for Student Affairs or the technical college president's designee's sanction of restitution, reprimand, restriction, disciplinary probation, or failing or lowered grade, the Hearing Body's decision regarding the appeal is final. A copy of the Hearing Body's written decision will be provided to both the student and the person who filed the original complaint.

7. If the student appeared before the Hearing Body after the Vice President for Student Affairs or the technical college president's designee recommended disciplinary suspension, disciplinary expulsion, interim disciplinary suspension, or system-wide expulsion, the student shall have the opportunity to appeal directly to the technical college president.
8. If entitled to an appeal to the technical college president, the student shall have 5 business days after receiving written notification of the Hearing Body's decision to request in writing an appeal. The student shall ensure that all relevant information is included with this request. The person who filed the original complaint shall be notified of the student's appeal.
9. The president of the technical college or his/her designee's review shall be in writing and shall only consider evidence currently in the record, new facts not brought up in earlier stages of the appeal shall not be considered. The technical college president or his/her designee shall deliver the decision to the student and the person who filed the original complaint within 10 business days. The decision of the technical college president or his/her designee shall be final and binding.

D. Document Retention

The Vice President for Student Affairs or his/her designee shall retain a copy of all documents concerning complaints, investigations, administrative actions, and communications in relation to any incident that resulted in a disciplinary investigation of any kind against a student. The Vice President for Student Affairs or his/her designee will also retain records of any disciplinary appeals filed by the affected student, as well as the resulting record of appeal and decision submitted by the Hearing Body and Appellate Board. A record of the final decision must also be retained in the event that the decision is appealed to the President. All records specified in this section shall be retained for a period of five years.

student; records of any disciplinary appeals filed by the affected student, as well as the resulting record of appeal and decision submitted by the Hearing Body and the technical college president or his/her designee; and records of the final decision.

Grievances and Appeals Complaint Resolution

Savannah Technical College is committed to ensuring an environment for all members of the College Community including the general public that is fair, humane, and respectful; an environment that supports and rewards students and employees on the basis of relevant considerations, and an environment that is free from illegal or inappropriate conduct.

In an instance of perceived violation of College policies, standards of professional conduct or state or federal law, any member of the College Community may file a complaint, which shall be resolved as addressed in these policies and procedures. Individuals may follow an informal and/or formal process to reach resolution of the complaint. (At no time will the College policy contradict policy and procedure as determined by the Technical College System of Georgia [TCSG] as listed in the TCSG Policy and Procedures at www.tcsg.edu. If a contradiction is realized, the TCSG Policy will prevail).

Retaliation in any form against individuals bringing grievances is prohibited and will subject the offender to disciplinary action. An individual who initiates a fraudulent or bad faith claim or charge shall also be subject to disciplinary action.

Grade and Other Academic Appeals

A student may appeal a final grade or other academic decision in the following manner:

Step 1: The student may appeal in writing to the instructor, who awarded the grade or made the academic decision. Absent extraordinary circumstances, the appeal must be filed within two weeks from the date the student learned or reasonably should have learned of the grade or other action for which they are complaining.

Step 2: If the consultation with the instructor does not resolve the appeal, a student may appeal to the academic dean by filing a written request for review. Absent extraordinary circumstances, this request for review must be filed within four weeks from the date the student learned or reasonably should have learned of the grade or other action complained of.

Step 3: If the student is not satisfied with the decision of the academic dean, the student may appeal in writing to the Vice President for Academic Affairs. Absent extraordinary circumstances, this request for review must be filed within six weeks from the date the student learned or reasonably should have learned of the grade or other action complained of. The decision of the Vice President for Academic Affairs shall be final.

Student Grievances (non-academic complaint or appeal)

This procedure involves complaint resolution regarding application of policy or procedure, i.e. student advisement, improper disclosure of grades, unfair testing procedures, etc. This procedure does not address complaints related to harassment, discrimination, retaliation, or grade/attendance appeals. Issues which have a separate process for resolution (i.e. disciplinary sanctions, FERPA, financial aid, academic grades, etc.) are not considered as grievances and a student must take advantage of the process in place. A student who feels that a justified grievance exists and wishes to make an appeal must follow the following procedure.

Informal Complaint Procedure

A student has ten business days from the date of the incident being grieved to resolve their complaint informally by approaching their instructor, academic dean or any other staff or faculty member directly involved in the grieved incident. If this process does not result in a resolution of the grievance, the student may proceed to the formal grievance procedure.

Formal Complaint Procedure

Step 1: Within fifteen business days of the incident being grieved, the student must file a formal grievance in the Office of the Vice President for Student Affairs (VPSA) with the following information:

- a. Name
- b. Date
- c. Brief description of the incident being grieved
- d. Remedy requested
- e. Signed and informal remedy attempted by student and outcome

If the grievance is against the VPSA, the student shall file the grievance with the Office of the President.

Step 2: The VPSA, or his/her designee, will investigate the matter and supply a written response to the student within 15 business days. Note: If the grieved incident involves possible unlawful harassment/discrimination, the investigation will be handled pursuant to the Procedure: Unlawful Harassment and Discrimination of Students. If the grieved incident is closely related to an incident being processed through the disciplinary procedure, the disciplinary procedure will take precedence and the grievance will not be processed until after the disciplinary procedure has run its course. The VPSA, or his /her designee, shall be granted an additional fifteen business days to investigate the grievance upon notice to the student who filed the grievance.

Step 3: Appeal of Staff Response: If a student is unsatisfied with the response from the VPSA, the student may appeal the decision to the President of the College. The College staff has no right to appeal.

- a. A student shall file a written appeal to the President within five business days of receiving the response from the VPSA.
- b. The appeal will be decided based entirely on documents provided by the student and the administration; therefore, the student must ensure that he/she has provided all relevant documents with his/her appeal.
- c. At the President's sole discretion, grievance appeals will be held in one of the following two ways:
 - The President may review the information provided by the student and administration and make the final decision; or
 - The President may appoint a cross-functional committee comprised of five members, including one chair, to make the final decision.
- d. The decision of either the President or the cross-functional committee shall be made within ten business days of receipt by the President of the appeal.
- e. Whichever process is chosen by the President; the decision of the grievance appeal is final. Retaliation against a student for filing a grievance is strictly prohibited.

Equal Opportunity Complaint of Appeal

Savannah Technical College, in compliance with the rules and regulations pertaining to the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, Title IX barring sex discrimination, Title VI barring discrimination on the basis of race, color, or national origin and Title VII barring discrimination on the basis of race, color, religion, gender, or national origin has established this procedure whereby a complaint related to the violation, interpretation, or application of any of the laws may be quickly and smoothly resolved. Complaints regarding sexual harassment shall be handled in accordance with the procedure in the next section entitled Unlawful Harassment and Discrimination Complaints.

Informal Resolution Procedure

Claimant should contact the Counselor/Coordinator of Special Populations Services or Registrar as appropriate and his/her Academic Dean to resolve the complaint informally. If this process does not result in a resolution of the grievance, the student may need to proceed to the formal grievance procedure.

Formal Resolution Procedure

A formal complaint shall be in writing and shall set forth a statement of the facts, the Technical College policy, procedure or law allegedly violated and the specific remedy sought. Students shall utilize Savannah Technical College's Standardized Student Grievance form located on the STC Website or by hard copy from the Student Affairs Office.

The formal complaint normally shall be filed as follows:

1. If the complaint concerns a non-academic student issue, such as application of policy or procedure, student advisement, improper disclosure of grades, unfair testing procedures, etc., the complaint shall be filed with the Vice President for Student Affairs. If the complaint alleges sexual harassment, the complaint shall be filed with the Title IX Coordinator, 912.443.5708.

ADA/Disability complaints shall be filed with the Disability Coordinator listed by campus below:

- Savannah/Crossroads Campuses: Counselor/Coordinator of Special Populations - 912.443.5717
- Effingham Campus: Campus Dean for Student Affairs - 912.754.2879
- Liberty Campus: Campus Dean for Student Affairs - 912.408.3024

These individuals or their offices shall also continue to monitor and coordinate the complaint resolution.

2. Savannah Technical College shall forward the complaint to the appropriate Director for Step 1 resolution. For the sake of clarity, the term "Director" in this procedure shall mean the appropriate individual for referring such complaints. If the complaint is against the appropriate Director, Step 1 of the complaint procedure shall be by-passed and the grievance shall be filed with the appropriate Vice President.

3. If the complaint is against a Vice President Step 1 and Step 2 of the complaint procedure shall be by-passed and the Complaint shall be filed directly with the President.

4. If the complaint is against the President Step 1, Step 2, and Step 3 of the complaint procedure shall be by-passed and the complaint shall be filed in accordance with the Appeals procedure.

Hearings:

Step 1: Absent extraordinary circumstances, the Director to whom the complaint was forwarded shall, within five (5) business days, conduct a formal conference with the complainant, permitting her or him to provide any necessary information relevant to the complaint. The Director shall also meet with the respondent and conduct such additional investigation as he or she deems necessary. Absent extraordinary circumstances, a written recommendation shall be rendered within five (5) business days of the formal conference unless an extension is mutually agreed to by the parties. The recommendation shall be sent to the complainant and respondent. The written recommendation shall state the background information the rationale for the recommendation, and the recommended remedy (if any). No transcript or recording of the conference shall be made by either party. For monitoring purposes, a copy of the report shall be sent to the Department officer who received the initial complaint.

Step 2: If the complaint is not resolved at Step 1, the complainant or respondent may, within ten (10) business days of receipt of the Step 1 recommendation, appeal to the Vice President administratively responsible for the unit of the Department(s) in which the alleged policy violation(s) occurred. Absent extraordinary circumstances, the Vice President or President shall hold a hearing within fifteen (15) business days of receipt of the appeal or complaint. Absent extraordinary circumstances, a written recommendation shall be rendered within ten (10) business days of such hearing. The complainant and the respondent shall be afforded the opportunity to testify, to call witnesses and to introduce documentary evidence. No transcript or recording shall be made of the hearing. For monitoring purposes, a copy of the report shall be sent to the Technical College officer who received the initial complaint.

Step 3: In the event that the complaint is not resolved at Step 2, the complainant or respondent may file an appeal with the President, within ten (10) business days of the receipt of the recommendation.

Step 4: Absent extraordinary circumstances, the President shall, within five (5) business days refer the complainant or respondent to a Grievance Hearing Officer that is appointed by the President. The Step 3 hearing shall be held as soon as practicable and normally within twenty (20) business days of referral of the complaint to the Grievance Hearing Officer or by the President. The complainant and the respondent shall have the right to call witnesses, to testify and to present relevant documentary evidence. The complainant and the respondent shall have the right to cross-examine all witnesses. A tape recording of the proceeding shall be made and a copy shall be provided, at cost, to the complainant and to the respondent. Following the hearing, the Grievance Hearing Officer shall, absent extraordinary circumstances, render a report and recommendation to the President within twenty business days following the hearing. The report shall contain specific findings of fact and recommendations. Upon consideration of the report and recommendation, the President shall render a decision in writing and communicate the same to the complainant, the respondent, and to the TCSG monitoring officer.

Mediation:

At any point in the procedure, a grievance may be referred to mediation upon the concurrence of the parties. The Grievance Coordinator shall assist the parties in locating either an in-house or external mediator.

Unlawful Harassment and Discrimination of Students

It is the policy of Savannah Technical College that all students shall be provided an environment free of unlawful harassment, discrimination, and retaliation.

All students and employees are expressly prohibited from engaging in any form of harassing, discriminating, intimidating or retaliatory behavior or conduct in all interactions with each other, whether or not the interaction occurs during class or on or off campus. Visitors to campuses shall not engage in prohibited conduct and may be barred for such conduct if other corrective measures are ineffective. Allegations of unlawful harassment occurring at clinical sites to which students are assigned shall be investigated in accordance with this procedure.

Any individual who has engaged in prohibited behavior or conduct will be subject to disciplinary action up to and including expulsion or dismissal.

All students are encouraged to report any act of unlawful harassment, discrimination, retaliation and/or intimidation. Reports will be treated in an expeditious and confidential manner.

Savannah Technical College will not tolerate retaliation for having filed a good faith harassment and/or discrimination complaint or for having provided any information in an investigation. Any individual who retaliates against a complainant or witness in an investigation will be subject to disciplinary action, up to and including expulsion or dismissal.

Any individual who knowingly makes a false charge of harassment/discrimination or retaliation, or who is untruthful during an investigation may be subject to disciplinary action, up to and including expulsion or dismissal.

All work units and technical colleges associated with the Technical College System of Georgia.

State Board Policy 2.1.1. Statement of Equal Opportunity
Titles VI and VII of the Civil Rights Act of 1964
Age Discrimination Act of 1975
Rehabilitation Act of 1973, as amended
Americans with Disabilities Act of 1990
Americans with Disabilities Amendments Act (ADAAA) of 2008
Genetic Information Nondiscrimination Act (GINA) of 2008
Procedure: 6.5.3p Student Grievances

Definitions:

- A. Unlawful Harassment (Other Than Sexual Harassment): verbal or physical conduct that disparages or shows hostility or aversion toward an individual because of that person's race, color, religion, national origin, age, or disability and which:
1. Has the purpose or effect of creating an intimidating, hostile or offensive educational environment, or
 2. Has the purpose or effect of unreasonably interfering with an individual's educational performance.

Harassing conduct or behavior includes, but is not limited to, epithets, slurs, negative stereotyping, or threatening, intimidating or hostile acts that relate to race, color, religion, national origin, age or disability. This includes jokes or pranks that are hostile or demeaning with regard to race, color, religion, national origin, age or disability. Harassing conduct may also include written or graphic material that disparages or shows hostility or aversion toward an individual or group because of race, color, religion, gender, national origin, age, or disability, and that is displayed on walls, bulletin boards, computers, or other locations, or otherwise circulated in College Community in any format.

- B. Unlawful Discrimination: the denial of benefits or admission to the College or to any of its programs or activities, either academic or nonacademic, curricular or extracurricular, because of race, color, religion, age, gender, national origin, or disability.
- C. Unlawful Retaliation: unfavorable action taken, unfavorable condition created, or other action taken by a student or employee for the purpose of intimidation that is directed toward a student because the student initiated an allegation of unlawful harassment/retaliation or participated in an investigation of an allegation.
- D. Technical College System of Georgia: all work units and technical colleges under the governance of the State Board of the Technical College System of Georgia.
- E. Employees: any individual employed in a full or part time capacity in any TCSG work unit or technical college.
- F. Visitor: any third party (e.g. volunteer, vendor, contractor, member of the general public etc.) who conducts business or regularly interacts with a work unit or technical college.
- G. Clinical Site: any off-campus location to which students or faculty are assigned for completion of program requirements including labs, internships, or practicums.
- H. President: the chief executive officer responsible for the management and operation of the technical college where the accused violator is currently enrolled or employed.
- I. Human Resources Director: the highest ranking employee responsible for the human resources function at a technical college or TCSG work unit.
- J. Local Investigator: the individual(s) at the technical college who is responsible for the investigation of an unlawful harassment, discrimination and/or, retaliation complaint. Local investigators may be assigned based upon the subject matter of the complaint or their function within the organization.

- K. Compliance Officer: the individual designated by the Commissioner to coordinate TCSG compliance with Title IX of the Educational Amendments of 1972 and other state and federal laws governing unlawful discrimination and harassment.
- L. Section 504 Coordinator: an individual designated by the President of the College to ensure compliance with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 as Amended, and any other state and federal regulations governing disabilities; the responsibilities of the 504 Coordinator will include, but may not be limited to evaluating students requesting accommodations for a disability and ensuring equal access to facilities, services and programs.

Attachment 1: Policy 1.B. (see Statement of Equal Opportunity) Attachment 2: (see TCSG Usage Statement of Equal Opportunity)

Procedure

A. Administration and Implementation

1. Each college President shall designate one or more officials to serve as the Title IX Coordinator and the Section 504 Coordinator and ensure the designated officials have received appropriate training.
2. Contact information for the Title IX and Section 504 Coordinators and the Statement of Equal Opportunity should be permanently displayed on official bulletin boards and included in electronic or written college publications and academic materials as described in the TCSG Usage Statement of Equal Opportunity.
3. Instructors/administrators must take ongoing proactive steps to ensure educational opportunities (to include classrooms, clinics, labs, programs, etc.) and student activities (clubs, sports, etc.) are accessible and free from any type of unlawful discrimination or harassment. Implementation of this procedure, and will ensure that proactive or corrective measures have been taken to prevent unlawful discrimination, harassment, or retaliation.
4. The Compliance Officer will conduct training programs and monitor the colleges to ensure the correct administration and implementation of this procedure, and will ensure that proactive or corrective measures have been taken to prevent unlawful discrimination, harassment, or retaliation.

B. Reporting and Management Action

1. All students are encouraged to report events of unlawful harassment, discrimination, and/or retaliation against themselves or others, regardless of where the incident occurred. A student may choose to resolve any issues pertaining to unlawful discrimination, harassment, or retaliation informally or may proceed directly to the formal resolution process outlined in this procedure; however, allegations of sexual violence may not be processed informally and must immediately be reported and investigated in accordance with this procedure.
2. If a student filing a complaint requests anonymity or asks that the complaint not be pursued, the college must inform the student that its ability to respond may be limited, that retaliation for filing a complaint is prohibited and steps to prevent retaliation will be taken. The college should take all reasonable steps to investigate and respond to the complaint consistent with the request and pursue other steps to limit the effects of the alleged harassment and prevent recurrence.
3. Colleges may weigh a request considering the following factors: the seriousness of the alleged conduct, the complainant's age, whether there have been other harassment complaints about the same individual, and the alleged harasser's rights to receive information about the allegations if the information is maintained as an "education record" under FERPA. The college must inform the student if the request cannot be ensured.
4. Reports concerning unlawful harassment, discrimination or retaliation of students will be processed confidentially to the extent permitted by law; communications regarding complaints will be disseminated to others on a need-to-know basis to ensure that necessary steps are taken to protect the Community as a whole and that appropriate disciplinary measures or corrective actions are considered and taken.
5. Allegations or suspicions of unlawful discrimination, harassment or unlawful retaliation may be reported to Savannah Technical College's Vice President for Student Affairs, Section 504 Coordinator, the president, the Commissioner, or the Human Resources Director (should the complaint involve employees). Students may also email any complaints to unlawfulharassment@tcsq.edu.
6. Such reports can be expressed in writing, by telephone, or in person; individuals are, however, encouraged to express their complaints in writing to ensure all concerns are addressed.
7. If an allegation of unlawful harassment, discrimination or retaliation is made to an employee not designated to receive such reports, the employee must report the allegation as provided in section 6 above.
8. The Commissioner or president may suspend, transfer or reassign employees or students in order to prevent possible further harassment, discrimination, retaliation, to facilitate the investigation, or to implement corrective action under this procedure.
9. Any allegation of unlawful harassment, discrimination, or retaliation against employees must be reported to the Human Resources Director who may elect to conduct the investigation in conjunction with other local investigators.

C. Investigations

1. All complaints of unlawful harassment, discrimination or unlawful retaliation shall be investigated by local investigators thoroughly and expeditiously.
2. A complaining party will be notified if the complaint does not specify facts sufficient to allege unlawful discrimination, harassment or retaliation and that a formal investigation will not be conducted pursuant to this procedure. The complaining party may appeal the decision in writing to the president within five (5) business days of receiving the notice. The president's decision will be final.
3. Individuals designated to investigate, review or recommend corrective actions in response to allegations shall disclose to the president any relationship with the parties that could call into question their ability to be objective prior to taking any action with respect to the investigation. The president will reassign alternate individuals if necessary.
4. Investigations will be conducted by gathering relevant information and interviewing appropriate witnesses. Both the complaining party and the respondent (the parties) will be given equal opportunity to identify witnesses and offer evidence in person or in writing. Best efforts will be made to interview all witnesses identified by the parties.
5. The colleges will evaluate the information collected during the investigation and determine whether a preponderance of the information substantiates that unlawful discrimination, harassment, and/or retaliation has occurred.
6. Investigations and summary findings will be documented appropriately.

D. Corrective Actions

1. Savannah Technical College will take all reasonable steps to prevent unlawful retaliation against complainants and any other individuals participating in investigations under this procedure.
2. If unlawful discrimination, harassment or retaliation is determined to have occurred, the college, through the appropriate officials, shall implement steps to prevent a recurrence and to correct the discriminatory effects on the complaining party and others as appropriate. Steps may include, but are not limited to, mandating training or evaluation, disciplinary sanctions, policy implementation or reassignment of students or employees.
3. Should recommended disciplinary sanctions involve academic suspension, expulsion or dismissal from employment, students and staff will be afforded all rights of review or appeal provided for in the applicable disciplinary procedures.
4. Individuals who are responsible for conducting or reviewing investigations or proposing sanctions under this procedure should not also serve as reviewing officials or hearing officers in the appeal of sanctions arising from an investigation.

Even in the absence of sufficient evidence to substantiate a finding that unlawful discrimination, harassment, or retaliation has occurred, colleges are expected to address any inappropriate conduct and take all reasonable steps to prevent any future unlawful discrimination, harassment, or retaliation.

E. Reviews and Dispositions

1. The parties may request a review of the investigative findings within five (5) business days of receiving notice of the investigative results by submitting a written request to the president.
2. The President shall review all investigations conducted under this procedure and ensure that the appropriate corrective actions have been implemented.
3. Within 10 business days of receiving a request for a review of the investigative findings, the president will notify the parties in writing of his/her final determination. The notice will inform the parties they have a right to appeal the determination to the Technical College System of Georgia's Legal Services Office by submitting a written request within three (3) business days by regular mail or email to one of the following:

Technical College System of Georgia Office of Legal Services
1800 Century Place, N.E. Suite 400
Atlanta, Georgia 30345 OR
unlawfulharassment@tcsq.edu

4. The Office of Legal Services will convene a panel of at least three (3) individuals not employed by the requestor's college to review the investigative findings. The panel's decision is final and will conclude the processing of the complaint.

Record Retention

Documents relating to formal complaints including investigations, dispositions and the complaint itself shall be held for five (5) years after the graduation of the student or the date of the student's last attendance.

Unlawful Harassment and Discrimination Complaint

A. Reporting and Management Action

1. All students are encouraged to report events of unlawful harassment, discrimination, and/or unlawful retaliation against themselves or others. A student may attempt to resolve any issue arising under this policy informally.
 - a. Allegations or suspicions of unlawful harassment (excluding sexual harassment) or unlawful retaliation may be reported by the complainant to the Counselor/Coordinator of Special Populations Services at 912.443.5717. Complaints of sexual harassment should be reported to the Registrar, 912.443.5708. All other complaints of sexual harassment should be reported to the Vice President for Student Affairs, 912.443.5707.
 - b. Such reports can initially be expressed in writing, by telephone, or in person; however, the report will ultimately be required to be in writing on the Student Grievance form.
 - c. After an allegation is made to any of the above employees, that employee shall report the allegation to the President, or her designee, as soon as possible, not to exceed 48 hours.
2. Instructors/administrators who have reason to believe that unlawful harassment, discrimination, and/or retaliation may exist shall immediately inform the President or one of the persons listed above in 1(a).
3. The reporting individual should keep the information confidential unless release is approved, or unless final action has been approved pursuant to this procedure.
4. The President may suspend, transfer, or reassign personnel or students involved, in order to prevent possible further harassment, discrimination, retaliation or to facilitate the investigation. In emergency situations of a severe nature the President or her designee may take appropriate actions to protect the complainant/alleged victim and/or to deter the alleged violator from any further harassment of the complainant/alleged victim. If the alleged harasser is an employee, the President shall report all actions of this nature and any subsequent change in status or assignment to the Human Resources Director.
5. Unless otherwise authorized by the President in writing, no disciplinary action shall be taken against the alleged violator until an investigation has been completed, a written report has been issued and action has been taken in accordance with this procedure.
6. Any allegation of unlawful harassment, discrimination, or retaliation may be referred by the President to the TCSG System Office Human Resource Director or Legal Services for investigation. Investigations by the Human Resources Director may be done in conjunction with the local investigator at the President's request.
7. The System Office Human Resources Director/local investigator shall notify the President of the complaint and the pending investigation, unless otherwise directed by the Commissioner.

B. Investigations:

1. All complaints of unlawful harassment, discrimination, or unlawful retaliation shall be investigated thoroughly. The President or local investigator is encouraged to consult with the System Office Human Resources Director or Legal Services with any questions or concerns.
2. If a complaint does not specify facts sufficient to allege unlawful harassment or retaliation as prohibited by this procedure, the local investigator may determine that the allegations shall not be investigated. This will be done with joint approval by the local investigator and President. In the case of an investigation being performed by the Compliance Officer, this shall be done with the joint approval of the Assistant Commissioner of Technical Education and the Executive Director, Legal Services. This decision will be made within five business days of receiving the complaint. Immediately following the decision, notice will be given to the complainant, and the complainant shall have the same rights of appeal as set forth in the Appeal by Complainant section below.
3. Where a complaint is investigated, the investigation shall commence within five business days of receipt of the complaint.
4. 4 Investigations will be conducted by gathering relevant information and interviewing appropriate witnesses. All witnesses provided by the complainant will be interviewed.
5. The process from initial complaint to completed investigation should take no longer than 60 days. If additional time is needed, the complainant will be informed.
6. The local Investigator/Compliance Officer who conducts the investigation will present facts in a written report to the President.
7. Reports concerning the unlawful harassment, discrimination, or retaliation of students will be processed and handled confidentially to the extent permitted by law.

C. Review and Disposition:

1. After reviewing the final report, the President shall make a recommendation, based on a preponderance of the evidence, as to whether the facts support a finding that unlawful harassment, discrimination, or unlawful retaliation has occurred. The President shall make this recommendation within five business days of receipt of the completed investigation.
2. If the recommendation is that the facts do not support a finding of unlawful harassment, discrimination, or unlawful retaliation, and it is determined that no action should be taken, then the matter can be closed.
3. If the recommendation is that the facts do support a finding of unlawful harassment, discrimination, unlawful retaliation, or a policy violation, appropriate sanctions will be recommended and taken pursuant to the applicable disciplinary procedure (either student or employee).
4. The investigator will provide written notice to the complaining party and subject that the investigation is complete.

Notice should be given within five business days, provided a disciplinary action is to be initiated. No parties will be notified until all disciplinary actions are served.

D. Appeal by Complainant:

1. If the complainant wishes to appeal the recommendation by the President that the facts do not support a finding of unlawful harassment and/or discrimination, the complainant may do so in writing within five (5) business days of receiving notice of the President's recommendation.
2. The complainant must send the appeal by regular mail, facsimile, or email to the following:
Executive Director, Legal Services
1800 Century Place NE, Suite 400
Atlanta, Georgia 30345-4304
404.679.1615 (facsimile)
unlawfulharassment@tcsq.edu
3. The Executive Director of Legal Services will convene a diverse committee of at least three persons to review the investigative file to determine whether there are sufficient facts to support a finding of unlawful harassment/ retaliation/discrimination.
4. If the facts do support a finding of unlawful harassment/retaliation/discrimination, appropriate sanctions will be taken pursuant to the applicable disciplinary procedure.
5. If the facts do not support a finding of unlawful harassment/retaliation/discrimination, the matter will be closed.
6. The Executive Director of Legal Services will provide written notice to the complaining party and subject of the investigation within fifteen (15) business days of the receipt of the appeal.

Sexual Harassment and Misconduct

Purpose:

It is the purpose of this procedure to ensure that all students within Savannah Technical College (STC) are provided access to a safe educational environment free from any discrimination on the basis of sex. To that end, this procedure prohibits sex discrimination of any kind, including sexual harassment and sexual misconduct ("prohibited conduct"). Sexual misconduct includes, but is not limited to, domestic violence, sexual violence, dating violence, sexual assault, sexual exploitation, and stalking.

All students and employees are expressly prohibited from engaging in any form of prohibited conduct in all interactions with each other, whether or not the interaction occurs during class or on or off campus. Visitors to campuses also shall not engage in prohibited conduct, and may be barred from campus.

Any student or employee who has engaged in prohibited conduct will be subject to disciplinary action up to and including expulsion or dismissal. Nothing in this procedure shall be interpreted to interfere with any person's right to free speech as provided by the First Amendment to the Constitution of the United States of America.

STC strongly encourages all students and requires employees to report any instances of sexual harassment or sexual misconduct promptly and accurately. STC will not tolerate retaliation for having filed a good faith complaint or for having provided any information in an investigation. Any individual who retaliates against a complainant or witness in an investigation will be subject to disciplinary action, up to and including expulsion or dismissal.

Employee complaints of unlawful harassment or discrimination shall be conducted pursuant to the process outlined in the procedure governing Unlawful Harassment, Discrimination, and Retaliation in Employment.

Related Authority:

20 U.S.C. §§ 1681 et seq.
O.C.G.A. § 19-7-5
Violence Against Women Reauthorization Act of 2013
Campus Sexual Violence Elimination Act (Campus SaVE)
Titles VI and VII of the Civil Rights Act of 1964
Title IX of the Educational Amendments of 1972

Definitions:

Advisor: the person who will attend the Hearing with a Party and conduct the oral cross-examination of the other Party and Witnesses. This person may also offer advice and support from the time the Notice of Formal Complaint is issued and may attend any meetings involved in the investigatory process, but may not speak on behalf of the party during such meetings. The Advisor may be chosen by the Party and is permitted to be, but need not be, an attorney. If either Party is unable to select an Advisor, STC will furnish an Advisor

to the Party. The Advisors are intended to maintain Privacy and confidentiality to the extent permitted by law.

Affirmative Consent: affirmative, conscious, and voluntary agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that the person has the Affirmative Consent of the other or others to engage in the sexual activity. Lack of protest or resistance does not mean Affirmative Consent, nor does silence or incapacitation mean Affirmative Consent. Affirmative Consent also cannot be procured by duress or intimidation, or by the use of anesthetizing or intoxicating substances. Affirmative Consent must be ongoing throughout a sexual activity and can be revoked at any time. Affirmative Consent may be based on a condition(s), e.g., the use of a condom, and that condition(s) must continue to be met throughout an activity, unless there is mutual agreement to forego or change the condition. When there is no Affirmative Consent present during sexual activity, the activity at issue necessarily occurred “against the person’s will.”

Appeal Officer: the Commissioner of TCSG or his designee, who will review the Parties’ appeals and issue the Notice of Outcome of Appeal.

Clinical Site: any off-campus location to which students or faculty are assigned for completion of program requirements including labs, internships, or practicums.

Complainant: the Party to the process who has allegedly experienced the alleged Title IX Prohibited Conduct at issue.

Confidential Resource: a person who, by law, is exempted from the obligation to report an allegation of conduct that could constitute Title IX Prohibited Conduct to any entity, including the College’s Title IX Coordinator or law enforcement in circumstances in which the reported conduct could be a crime (except, as to law enforcement, if the Complainant is a minor or if there is a belief that there is an imminent threat of harm to self or others).

Confidentiality: exists in the context of laws that protect certain relationships, including those who provide services related to medical and clinical care, mental health providers, counselors, and ordained clergy. The law creates a privilege between certain health care providers, mental health care providers, attorneys, clergy, spouses, and others, with their patients, clients, parishioners, and spouses.

Court Order: any formal order issued by a state or federal court or authorized police officer that restricts a person’s access to another STC community member, such as an emergency, temporary or permanent restraining order.

Dating Violence: violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the Complainant, including sexual or physical abuse or the threat of such abuse, but excluding acts covered under the definition of Domestic Violence.

Decision-Maker: a professional appointed by the President experienced and trained in adjudicating matters of civil rights, sexual harassment and/or sexual violence and trained on this Title IX Procedure who will preside over the Hearing and will issue the Written Determination Regarding Responsibility

Domestic Violence: a felony or misdemeanor crime of violence committed: (i) by a current or former spouse or intimate partner of the Complainant; (ii) by a person with whom the Complainant shares a child in common; (iii) by a person who is cohabitating with, or has cohabitated with, the Complainant as a spouse or intimate partner; (iv) by a person similarly situated to a spouse of the Complainant under the domestic or family violence laws of Georgia; (v) by any other person against an adult or youth Complainant who is protected from that person’s acts under the domestic or family violence laws of Georgia. To categorize an incident as Domestic Violence, the relationship between the Respondent and the Complainant must be more than just two people living together as roommates. The people cohabitating must be current or former spouses or have an intimate relationship.

Duress: a direct or implied threat of force, violence, danger, hardship, or retribution that is enough to cause a reasonable person of ordinary sensitivity to do or submit to something that they would not otherwise do or submit to. When deciding whether the act was accomplished by duress, all the circumstances, including the age of the Complainant and their relationship to the Respondent, are relevant factors.

Employee: any individual employed in a full or part time capacity in any TCSG work unit or technical college.

Expert Witness: a Witness identified by a Party or the Title IX Office that has special expertise in a technical matter, such as forensic evidence.

Force: an act is accomplished by force if a person overcomes the other person’s will by use of physical force or induces reasonable fear of immediate bodily injury.

Formal Complaint: a document filed and signed by a Complainant or filed and signed by the Title IX Coordinator alleging Title IX Prohibited Conduct against a Respondent and requesting that TCSG investigate the allegations.

Hearing: a live hearing conducted with all Parties physically present in the same geographic location or with participants appearing virtually with technology enabling participants simultaneously to see and hear each other. During the Hearing, the Decision-Maker permits each Party’s Advisor to ask the other Party and Witnesses all relevant questions and follow-up questions, including those challenging credibility. A recording or transcript of the hearing will be made.

Hearing Coordinator: the person who manages Hearings under this Title IX Procedure.

Hearing File: the information collected during the Investigation that is deemed relevant to be considered by the Decision-Maker.

Hearing Schedule: a time-table specific to each matter that schedules key dates for the matter after it has been charged.

Human Resources Director: the highest ranking employee responsible for the human resources function at a technical college or TCSG work unit.

Incapacitation: a state where a person lacks the ability to voluntarily agree (that is, to give Affirmative Consent) to sexual activity because the person is asleep, unconscious, under the influence of an anesthetizing or intoxicating substance such that the person does not have control over their body, is otherwise unaware that sexual activity is occurring, or is unable to appreciate the nature and quality of the act. Incapacitation is not necessarily the same as legal intoxication.

Informal Resolution: a voluntary process that the Parties may consent to participate in, as described in Section IV.F.

Initial Report: a report of conduct that may constitute Title IX Prohibited Conduct, which may be made by any individual, even if not the person alleged to have experienced the conduct. An Initial Report is made prior to a Formal Complaint, and triggers the Title IX Coordinator's obligation to contact the Complainant and inform the Complainant of Supportive Measures, as described in Section IV.A.1.

Intimidation: includes any threatening statement or conduct made with the intent to prevent or dissuade any Party or Witness from reporting or participating in the Title IX Procedure. Intimidation also includes the use of implied threats to overcome a person's freedom of will to choose whether or not to participate in sexual activity or provide affirmative consent.

Investigation: the phase of the Title IX Procedure when the Parties are invited to provide evidence and identify Witnesses to the Investigator related to the allegations in the Notice of Formal Complaint.

Investigative Report: a formal written document that fairly summarizes the relevant evidence gathered during the Investigation, including the parties' responses to the preliminary report.

Investigator: the person assigned by TCSG to investigate Formal Complaints under this Title IX Procedure. The Investigator shall have been trained on all elements of an Investigation as required by federal and state law.

Menace: a threat, statement, or act showing intent to injure someone.

New Evidence: evidence that was not available at the time of the charge decision, could not have been available based on reasonable and diligent inquiry, and is relevant to the matter.

Nonforcible Sexual Violations: Any of the following acts:

1. Incest: nonforcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by Georgia law.
2. Statutory Intercourse Violation: nonforcible sexual intercourse with a person who is under the statutory age of consent of Georgia.

Notice of Charge: the formal notification issued by the Title IX Coordinator following an Investigation that the matter will be charged and will proceed to a Hearing.

Notice of Dismissal: the formal notification issued by the Title IX Coordinator following a determination that the matter does not meet the definitional or jurisdictional standards of Title IX and stating the reasons for dismissal.

Notice of Formal Complaint: the formal notification issued by the Title IX Coordinator that a Formal Complaint has been filed and including the details set forth in Section IV.C.1.

Notice of Outcome of Appeal: a written determination describing the Appeal Officer's final decision of a matter brought forward on appeal.

Party/Parties: the generic or collective term used to refer to Complainant(s) and Respondent(s).

Preponderance of the Evidence: the standard of proof used by the Investigator and the Decision-Maker. A finding by the Preponderance of the Evidence means that the credible evidence on one side outweighs the credible evidence on the other side, such that, as a whole, it is more likely than not that the alleged fact or conduct occurred. It does not mean that a greater number of Witnesses or documents is offered on one side or the other, but that the quality or significance of the evidence offered in support of one side is more convincing than the evidence in opposition.

President: the chief executive officer responsible for the management and operation of the technical college where the complainant and/or accused violator are enrolled or employed.

Privacy: means that information related to a complaint will be shared with only a limited number of TCSG employees who “need to know” in order to assist in the assessment, investigation, and resolution of the report. All employees who are responsible for TCSG’s response to Title IX Prohibited Conduct receive specific training and guidance about sharing and safeguarding private information in accordance with state and federal law. The privacy of student education records will be protected in accordance with the Family Educational Rights and Privacy Act (“FERPA”), and the privacy of employee records will be protected in accordance with Georgia law and TCSG policy.

Rebuttal Evidence: evidence presented to contradict other evidence in the Hearing File, which could not have been reasonably anticipated by a Party to be relevant information at the time of the investigation.

Remedies: individualized measures implemented after a Hearing or as part of an Informal Resolution that are designed to restore or preserve equal access to College Programs or Activities, and may include Supportive Measures, but need not be non-disciplinary or non-punitive and need not avoid burdening the Respondent.

Respondent: the person alleged to have engaged in Title IX Prohibited Conduct.

Retaliation: includes, but is not limited to, adverse action related to employment, academic opportunities, participation in TCSG and/or College programs or activities, or similar punitive action taken against an individual because that person has made an Initial Report or Formal Complaint, responded to a Formal Complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or Hearing.

Sanctions: individualized measures implemented after a Hearing that may be disciplinary in nature.

Sexual Assault: any of the following acts:

1. Rape: penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the Complainant.
2. Sodomy: oral or anal sexual intercourse with another person:
 - forcibly and/or against that person’s will; OR
 - not forcibly or against the person’s will (non-consensually) in instances where the Complainant is incapable of giving consent because of age or because of temporary or permanent mental or physical incapacity.
3. Sexual Assault with an Object: to use an object or instrument to penetrate, however slightly, the genital or anal opening of the body of another person:
 - forcibly and/or against that person’s will; OR
 - not forcibly or against the person’s will (non-consensually) in instances where the Complainant is incapable of giving consent because of age or because of temporary or permanent mental or physical incapacity.
4. Fondling: the touching of the private body parts of another person (buttocks, groin, breasts) for the purpose of sexual gratification:
 - forcibly and/or against that person’s will (non-consensually); OR
 - not forcibly or against the person’s will in instances where the Complainant is incapable of giving consent because of age or because of temporary or permanent mental or physical incapacity.

Stalking: engaging in a course of conduct directed at a specific person that would cause a reasonable person to: (i) fear for the person’s safety or the safety of others; or (ii) suffer substantial emotional distress. Course of conduct means two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person’s property. Reasonable person means a reasonable person under similar circumstances and with similar identities to the Complainant. Substantial emotional distress means significant mental suffering or anguish that may but does not necessarily require medical or other professional treatment or counseling.

Supportive Measures: non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the Complainant or the Respondent before or after the filing of a Formal Complaint or where no Formal Complaint has been filed. Such measures are designed to restore or preserve equal access to TCSG Programs or Activities without unreasonably burdening the other Party, including measures designed to protect the safety of all Parties or the TCSG educational environment, or deter sexual harassment. Supportive measures may include extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures.

Title IX Prohibited Conduct: the collective term used in this Title IX Procedure to refer to the conduct described in the definitions for Title IX Sexual Harassment, Sexual Assault, Dating Violence, Domestic Violence, and Stalking.

Title IX Sexual Harassment: conduct, on the basis of sex that satisfies one or more of the following:

1. unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it denies a person equal educational access.
2. an employee of the college conditioning the provision of an aid, benefit, or service of the college on an individual’s participation in unwelcome sexual conduct.

TCSG Compliance Officer: the individual designated by the Deputy Commissioner to coordinate TCSG compliance with Title IX of the Educational Amendments of 1972 and other state and federal laws governing unlawful discrimination and harassment and educational access by disabled individuals.

TCSG Program or Activity: locations, events, or circumstances over which TCSG and/or the College exercised substantial control over both the alleged Respondent and the context in which the Title IX Prohibited Conduct occurs, and also includes any building owned or controlled by a student organization that is officially recognized by TCSG and/or the College.
Technical College System of Georgia: all work units and technical colleges under the governance of the State Board of the Technical College System of Georgia.

Title IX Coordinator: an individual designated by the president of the college to ensure compliance with Title IX of the Educational Amendments of 1972, 20 U.S.C. §§ 1681 et seq., and related federal regulations. The Title IX Coordinator may also be assigned the responsibility for compliance with other state and federal civil rights laws that prohibit discrimination in programs or activities that receive federal financial assistance from the U.S. Department of Education.

Violence: the use of physical force to cause harm or injury.

Visitor: any third party (e.g. volunteer, vendor, contractor, member of the general public etc.) who conducts business or regularly interacts with a work unit or technical college.

Witness: a person asked to give information or a statement under this Title IX Procedure.

Written Determination Regarding Responsibility: the formal written notification issued by the Decision-Maker after a Hearing that includes: (i) identification of the allegations potentially constituting Title IX Prohibited Conduct; (ii) a description of the procedural steps taken from the receipt of the Formal Complaint through the determination, including any notifications to the Parties, interviews with Parties and Witnesses, site visits, methods used to gather other evidence, and Hearing held; (iii) findings of fact; (iv) conclusions about whether the alleged Title IX Prohibited Conduct occurred, applying the definitions set forth in this Title IX Procedure to the facts; (v) the rationale for the result as to each allegation; (vi) any disciplinary Sanctions imposed on the Respondent; (vii) whether Remedies or Supportive Measures will be provided to the Complainant; and (viii) information about how to file an appeal.

Procedure:

A. Administration and Implementation

1. Each college president shall designate one or more officials to serve as the Title IX Coordinator and post contact information for the coordinator and the TCSG's Statement of Equal Opportunity in electronic or written college publications and academic materials as described in the TCSG Usage for Statement of Equal Opportunity (e.g. bulletin boards, the college website, catalogs, student and employee handbooks, orientation materials, and flyers). The college president will ensure the designated officials have received appropriate training.
2. Instructors/administrators must take ongoing proactive steps to ensure educational opportunities (to include classrooms, clinics, labs, programs, etc.) and student activities (clubs, sports, etc.) are accessible and free from any type of sex discrimination or harassment.
3. The Compliance Officer will coordinate training programs and monitor the colleges to ensure the correct administration and implementation of this procedure, and will ensure that proactive or corrective measures have been taken to prevent sex discrimination and sexual misconduct. The training materials will be posted on the college's website or made available for members of the public to inspect.
4. Colleges are required to provide sexual harassment and sexual violence prevention training to students and employees and to provide programs for ongoing awareness training as required by VAWA and the Clery Act. As of the effective date of this procedure, colleges have been provided the Haven training modules for this purpose and are required to incorporate the training in new student and employee orientation activities.
5. Each technical college shall publish a list of local sources for counseling, support and advocacy in conjunction with the publishing of this procedure. (See attachment for sample format) Individuals who report sexual violence, sexual assault, stalking or dating/domestic violence will be provided with and/or referred to the list of resources.

B. Reporting and Management Action

1. All students are encouraged to report incidents of sex discrimination and sexual misconduct against themselves or others to the Title IX Coordinator at the technical college. The Title IX regulations define "sexual harassment" to include three types of misconduct on the basis of sex which jeopardize the equal access to education that Title IX is designed to protect. These types of misconduct include: any instance of quid pro quo harassment by a TCSG and/or College employee; any conduct on the basis of sex that in the view of a reasonable person is so severe and pervasive and objectively offensive that it effectively denies a person equal access to a TCSG and/or College education program or activity; and any instance of sexual assault, dating violence, domestic violence, or stalking (collectively "Title IX Prohibited Conduct," as defined in this Procedure). Students may find contact information for the Title IX Coordinator on the technical college website, and in the student handbook and college catalog. Complaints may also be emailed to unlawfulharassment@tcsgeu.edu.

2. To utilize this procedure, a Complainant must file a Formal Complaint which is defined herein as a document filed and signed by a Complainant or filed and signed by the Title IX Coordinator alleging Title IX Prohibited Conduct against a Respondent and requesting that TCSG investigate the allegations.
3. Any allegation of sex discrimination, sexual misconduct or retaliation against employees must be reported to the Human Resources Director and the Title IX Coordinator.
4. All allegations of sex discrimination and sexual misconduct on one of TCSG's college campuses or clinical locations must be reported to the Title IX Coordinator regardless of whether the allegations involve students or employees. All students, faculty, staff, and others participating in TCSG and/or College programs and activities in the United States are subject to this Title IX Procedure. If the allegations do not fall within the jurisdiction under this procedure, they may be referred and processed under the student code of conduct procedure.
5. Students have the right to file (or not to file) a criminal complaint for sexual violence with the local law enforcement authorities before, during, or after filing a complaint with the college. The investigation under this procedure shall not be unreasonably delayed to await the outcome of any criminal investigation. Sexual violence reports made to the Title IX Coordinator will be investigated and adjudicated separately from any criminal complaints. A student may request that the Title IX Coordinator and/or the Investigator assist the student with notifying local law enforcement authorities. If a technical college's campus law enforcement receives a complaint alleging sexual harassment and/or sexual misconduct as defined in this procedure, the Title IX Coordinator for the college shall be immediately notified so that appropriate action may be taken by the Title IX Coordinator regarding the complaint.
6. If a student filing a complaint alleging sexual misconduct requests confidentiality, anonymity or asks that the complaint not be pursued, the college must inform the complainant that its ability to respond may be limited, that retaliation for filing a complaint is prohibited, and that steps to prevent harassment and retaliation will be taken. Consistent with the request, all reasonable steps to investigate and respond to the complaint should be made and other steps to limit the effects or recurrence of the alleged misconduct will be taken.
 - a. Regardless of a student's request for confidentiality, anonymity of a complaint, or a request that a complaint not be pursued, if the complaint includes allegations of sexual assault, sexual violence, domestic violence, dating violence, or stalking, the Title IX Coordinator must report the incident to campus law enforcement for inclusion in the college's Annual Security Report ("ASR"). The complainant should be informed that their name will not be disclosed to campus law enforcement if they have requested confidentiality during the processing of the complaint.
7. Colleges may weigh a request for confidentiality, anonymity or a request they not pursue a complaint considering the following factors: the seriousness of the alleged conduct, the complainant's age, and the respondent's right to receive information about the allegations if the information is maintained as an "education record" under FERPA. The college must inform the complainant if the request cannot be granted and the reasons for the denial.
8. Reports concerning all prohibited conduct referenced in this procedure will be processed confidentially to the extent permitted by law; communications regarding complaints will be disseminated to others on a need-to-know basis to ensure that necessary steps are taken to protect the community as a whole and that appropriate corrective actions are considered and taken.
9. If an allegation of sex discrimination or sexual misconduct is made to an employee not designated to receive such reports, the employee receiving the complaint must report the allegation to the Title IX Coordinator. The College must take corrective actions to stop harassment to which it has notice, prevent recurrence of the harassment, and remedy the effects on the complainant promptly and effectively. The College will be deemed to have notice if a responsible employee knew, or in the exercise of reasonable care should have known, about the harassment. A responsible employee includes any employee who has the authority to take action to redress the harassment, who has a duty to report the harassment to the Title IX Coordinator, or who a student could reasonably believe has this authority or responsibility, including instructors and staff at the college.
10. Allegations of any sexual conduct involving individuals under the age of 18 must also be reported as an allegation of child abuse as outlined in O.C.G.A. § 19-7-5.
11. Supportive measures must be offered to the complainant by the college president or the Title IX Coordinator or his/her designee before the final outcome of an investigation and until final resolution of the allegations if failure to take the interim measures would constitute an immediate threat to the safety and well-being of the complainant, the respondent, or other members of the college, or to ensure equal access to the college's programs and activities. Supportive measures may include: adjustments to academic workload (including extending deadlines); adjustment to class or work schedules; no contact orders; and suspensions, transfers or reassignments in order to prevent further harassment, discrimination, sexual violence or retaliation, to facilitate the investigation, or to implement preventive or corrective actions under this procedure; informal resolutions or discretionary dismissals
12. Discretionary Dismissal.
 - a. TCSG and/or the College may dismiss the Formal Complaint if:
 - i. the Respondent is no longer enrolled or employed by TCSG and/or the College;
 - ii. specific circumstances prevent TCSG and/or the College from gathering sufficient evidence to reach a

- determination; or
- iii. the Complainant informs the Title IX Coordinator in writing that the Complainant desires to withdraw the Formal Complaint or allegations therein.
- b. A Complainant may notify the Title IX Coordinator at any time that the Complainant does not wish to proceed with the Investigation and/or Hearing process. If such a request is received, the Title IX Coordinator will inform the Complainant that the TCSG and/or the College's ability to respond to the allegation may be limited if the allegations are withdrawn.
- c. The Title IX Coordinator will consider the relevant factors in reaching a determination as to whether to terminate the Investigation and/or Hearing process. In the event that the Title IX Coordinator determines that the Investigation will continue, the Title IX Coordinator will notify the Complainant of that determination. The Title IX Coordinator will include in that notification a statement that the Complainant is not required to participate in the Investigation and/or Hearing process but that the process will continue. In the event that the Title IX Coordinator determines that the Investigation will be terminated, both Parties will be notified.

C. Investigations

1. All complaints of prohibited conduct under this procedure will be reported immediately to the Investigator who will be responsible for conducting the investigation in a fair, prompt, and impartial manner.
2. The Investigator shall disclose to the TCSG Compliance Officer any relationship with the parties that could call into question his/her ability to be objective prior to taking any action with respect to the investigation. The TCSG Compliance Officer will reassign alternate individuals if necessary.
3. The Investigator shall send written notice to both parties of the allegations upon receipt of a formal complaint.
4. Either the complaining party or the respondent may challenge the Investigator or designee to recommend corrective action on the grounds of personal bias by submitting a written statement to the TCSG Compliance Officer setting forth the basis for the challenge no later than 3 business days after the party reasonably should have known of the alleged bias. The TCSG Compliance Officer will determine whether to sustain or deny the challenge.
5. The investigation should be completed within 45 business days of the receipt of the complaint by the Investigator. The investigator will notify the parties and the Title IX Coordinator, in writing (typically by email), if extraordinary circumstances exist requiring additional time.
6. The parties will be notified within 5 business days of receipt of the complaint by the Investigator if the complaint does not specify facts sufficient to allege sex discrimination, harassment, sexual violence or retaliation, or if the allegations of sexual misconduct did not occur in the college's education program or activity against the complaining party while he or she was located in the United States, and that a formal investigation will not be conducted pursuant to this procedure, although a referral and investigation may be made by the Title IX Coordinator as to some or all of the matter for consideration under other applicable TCSG policy or procedure, if any. The complaining party may appeal the decision in writing to the president within 5 business days of receiving the notice. The president's decision will be final.
7. Individuals designated to investigate or recommend corrective actions in response to allegations of sexual misconduct will be trained annually to conduct investigations in a manner that protects the safety of complainants, promotes fairness of the process and accountability.
8. Investigations will be conducted by gathering relevant information and interviewing appropriate witnesses.
 - a. It is important that all parties preserve any documents or other evidence which may pertain to the investigation.
 - b. Any medically related evidence is best preserved by trained medical personnel.
 - c. Students are encouraged to seek medical services both for treatment and preservation of any medical evidence.
9. Both the complaining party and the respondent (the parties) will be given equal opportunity to identify witnesses and offer evidence in person or in writing. Best efforts will be made to interview all witnesses identified by the parties. If a witness identified by either party is not interviewed during the investigation, an explanation for the decision not to interview the witness should be documented in the investigatory report. Both parties will be given timely notice of meetings at which one or the other or both parties may be present. Both the complaining party and the respondent may be accompanied by an advisor of his or her choice during any meetings involved in the investigatory process in which the advisee is also eligible to be present. However, the advisor may not speak on behalf of the party.
10. Any evidence collected during the investigation should be maintained in accordance with the record retention requirements below. Personally-identifiable information, including, but not limited to home address, telephone number, student ID or social security number should not be maintained in investigative records.
11. A report of investigation will be provided to the college's Title IX Coordinator within five (5) business days of completion of the investigation. The Title IX Coordinator will provide both parties simultaneously with a copy of the report and any supporting evidence. The parties shall be given ten (10) calendar days from receipt of the report to respond to the report and the supporting evidence, which must be considered by the Investigator before finalizing the report. Any information prohibited from

disclosure by law or policy will be redacted from any documents prior to distribution. With regard to complaints of sexual misconduct, disclosures made to comply with the Violence Against Women Reauthorization Act ("VAWA") do not constitute a violation of FERPA.

12. If the Investigator determines that all or some of the allegations made in the complaint are substantiated and that the conduct at issue constitutes a violation of this or other applicable procedure, the Title IX Coordinator shall forward the report to the appropriate officials at the college for further action in accordance with the provisions below and the college's Student Code of Conduct and Disciplinary Procedure or the Positive Discipline Procedure for employees.

D. Hearings

1. Format of Hearing:
 - a. Hearings may be conducted with all Parties physically present in the same geographic location or, at the discretion of the Decision-Maker, any or all Parties, Witnesses, and other participants may appear at the live Hearing virtually, with technology enabling participants simultaneously to see and hear each other.
 - b. At the request of either Party, TCSG will provide for the Hearing to occur with the Parties located in separate rooms with technology enabling the decision-maker(s) and Parties to simultaneously see and hear the Party or the Witness answering questions.
2. Recording of Hearing:
 - a. Hearings will be transcribed or recorded through audio or audiovisual means, and TCSG and/or the College will make the transcript or recording available to the Parties for inspection and review upon request.
3. Role of Advisor:
 - a. If a Party does not have an Advisor present at the Hearing, TCSG and/or the College will provide, without fee or charge to that Party, an Advisor of TCSG and/or the College's choice, who may be, but is not required to be, an attorney, to conduct cross-examination on behalf of that Party.
4. Role of the Decision-Maker:
 - a. The Decision-Maker will:
 - i. be a professional appointed by the TCSG Commissioner who is experienced and trained in adjudicating matters of civil rights, sexual harassment and/or sexual violence and trained on this Title IX Procedure;
 - ii. preside over the Hearing and will issue the Written Determination Regarding Responsibility;
 - iii. be identified to the Parties before the Hearing at least three calendar days prior to the Hearing.
 - b. Conflict of Interest:
 - i. No person who has a conflict of interest may serve as the Decision-Maker.
 - ii. A conflict of interest exists if the Decision-Maker has prior involvement in or knowledge of the allegations at issue in the case, has a personal relationship with one of the Parties or Witnesses, or has some other source of bias.
 - iii. Either Party may assert, in writing, that a Decision-Maker has a conflict of interest.
 - iv. A request to recuse a Decision-Maker based on a conflict must be submitted to the Hearing Coordinator within 1 business day's receipt of the name of the Decision-Maker.
 - v. A determination will be made by the Commissioner or his designee whether a Decision-Maker has a conflict of interest, and if so that Decision-Maker will be replaced by an alternate.
 - c. At the Hearing, the Decision-Maker will:
 - i. Permit Cross-examination. At the Hearing, the Decision-Maker will permit each Party's Advisor to ask the other Party and any Witnesses all relevant questions and follow-up questions, including those challenging credibility. Such cross-examination at the Hearing must be conducted directly, orally, and in real time by the Party's Advisor of choice and never by a Party personally. The Parties may, however, jointly agree in advance to waive oral cross-examination and instead submit written cross-examination to the Decision-Maker to conduct the examination. Even if the Parties so agree, the Parties are still required to have a Advisor present at the Hearing. The Decision-Maker has discretion to otherwise restrict the extent to which Advisor may participate in the proceedings.
 - ii. Determine Relevance of Questions. Only relevant cross-examination and other questions may be asked of a Party or Witness. Before a Complainant, Respondent, or Witness answers a cross-examination or other question, the Decision-Maker must first determine whether the question is relevant and explain any decision to exclude a question as not relevant.
 - iii. Provide Rape Shield Protections for Complainants. The Decision-Maker will prohibit any questions and evidence about the Complainant's sexual predisposition or prior sexual behavior as not relevant, unless such questions and evidence about the Complainant's prior sexual behavior are offered to prove that someone other than the Respondent committed the conduct alleged by the Complainant, or if the questions and evidence concern specific incidents of the Complainant's prior sexual behavior with respect to the Respondent and are offered to prove consent.
 - iv. Exclude Statements, as Relevant, in Reaching a Determination Regarding Responsibility. If a Party or Witness does not submit to cross-examination at the live Hearing, the Decision-Maker must not rely on any statement of that Party or Witness in reaching a determination regarding responsibility. The Decision-Maker cannot draw an inference about the determination regarding responsibility based solely on a Party's or Witness's absence from the live Hearing or refusal to answer cross-examination or other questions.

5. Hearing Process:

- a. The Investigator will be available to answer any questions from the Decision-Maker about the Investigation.
- b. The Decision-Maker may meet with the Parties and Witnesses for the purpose of making findings of fact.
- c. The Parties and Witnesses may not speak to matters beyond the scope of the Hearing File (for example, by raising potential misconduct allegations that go beyond the scope of the charged conduct).
- d. Parties and Witnesses must not disclose or reference information to the Decision-Maker that was excluded from the Hearing File.
- e. The Decision-Maker may ask questions of the Parties and/or Witnesses.
- f. Parties are permitted to listen to Witnesses as they are speaking to the Decision-Maker. The Decision-Maker is not obligated to speak to all Witnesses.
- g. Written Determination Regarding Responsibility:
 - i. The Decision-Maker shall issue a Written Determination Regarding Responsibility within 10 business days of the hearing, applying the Preponderance of the Evidence standard (as required by Georgia law), which shall include:
 - identification of the allegations potentially constituting Title IX Prohibited Conduct;
 - a description of the procedural steps taken from the receipt of the Formal Complaint through the determination, including any notifications to the Parties, interviews with Parties and Witnesses, site visits, methods used to gather other evidence, and Hearings held;
 - findings of fact;
 - conclusions about whether the alleged Title IX Prohibited Conduct occurred, applying the definitions set forth in this Title IX Procedure to the facts;
 - the rationale for the result as to each allegation;
 - any disciplinary Sanctions imposed on the Respondent;
 - whether Remedies or Supportive Measures will be provided to the Complainant; and
 - information about how to file an appeal.
 - ii. Sanctions:
 - The Decision-Maker may ask the Parties to submit Sanctions statements at the conclusion of the Hearing.
 - The Decision-Maker may also consult with TCSG and/or College personnel, including the Human Resources Director or Vice President of Student Affairs, regarding any Sanctions and Remedies appropriate to the specific Respondent and Complainant under the circumstances of the case.
 - The Sanction determination will be provided to the Title IX Coordinator who will be responsible for implementing the Supportive Measures and/or Remedies, including the continuation of any Supportive Measures and/or any additional or on-going accommodations for both Parties.
 - iii. The Title IX Coordinator will cause the Written Determination Regarding Responsibility to be sent to the Parties.
 - iv. The Title IX Coordinator will provide copies of the Written Determination Regarding Responsibility and Sanctions and/or Remedies (if any) for the purpose of maintaining records as follows:
 - For students, to the Office of Student Affairs
 - For staff, to Human Resources
 - For faculty, to the Office of Academic Affairs
 - v. The Decision-Maker must explain decisions on responsibility and Sanctions (if applicable) and Remedies with enough specificity for the Parties to be able to file meaningful appeals.
 - vi. The consideration of whether Remedies and Sanctions go into immediate effect or are temporarily delayed pending appeal or some combination thereof, will be determined on a case-by-case basis by the Title IX Coordinator.
 - vii. The Written Determination Regarding Responsibility becomes final:
 - if an appeal is not filed, the date on which an appeal would no longer be considered timely; or
 - if an appeal is filed, on the date that TCSG and/or the College provides the Parties with the written determination of the result of the appeal.

E. Corrective Actions

1. Colleges will take all reasonable steps to prevent unlawful retaliation against complainants and any other individuals participating in investigations under this procedure.
2. If prohibited conduct is determined to have occurred following the investigation, steps shall be taken to prevent a recurrence and to correct the discriminatory effects on the complaining party and others as appropriate.
 - a. Steps may include, but are not limited to mandating training or evaluation, disciplinary sanctions, policy implementation, issuing no-contact orders, or reassignment of students or employees.
 - b. Disciplinary sanctions for students are defined in TCSG Procedure governing Student Discipline and may include: reprimand, restriction, disciplinary probation, disciplinary suspension, and disciplinary expulsion.
 - c. Disciplinary sanctions for employees are defined in TCSG's Positive Discipline Procedure and may include: formal reminders, decision making leave, or dismissal.
3. The severity of sanctions or corrective actions may depend on the severity, frequency and/or nature of the offense, history of past discriminatory, harassing, or retaliatory conduct, the respondent's willingness to accept responsibility, previous college

response to similar conduct, and the college's interests in performing its education mission.

- a. Should recommended disciplinary sanctions involve academic suspension or expulsion, the matter must be referred to the Vice President for Student Affairs, as provided by the college's Student Code of Conduct and Disciplinary Procedure.
4. Even in the absence of sufficient evidence to substantiate a finding that sex discrimination, sexual misconduct or retaliation has occurred, colleges are expected to address any inappropriate conduct and take all reasonable steps to prevent any future sex discrimination, harassment, sexual violence or retaliation.
5. Individuals who are responsible for conducting investigations, under this procedure, may not also serve as reviewing officials or Decision-Makers in the appeal of sanctions arising from an investigation.

F. Appeals

1. Appeal of a Written Determination Regarding Responsibility

- a. Submission of Appeal
 - i. Both Parties have the right to an appeal from a Written Determination Regarding Responsibility on the bases set forth below.
 - ii. Appeals may be submitted by a Complainant or Respondent in writing to the Hearing Coordinator, who will forward the appeal to a designated Appeal Officer to decide the appeal.
 - iii. The Appeal Officer will be the Commissioner of TCSG or his designee.
 - iv. Each Party may submit a written appeal of up to 6,000 words in length, which will be shared with the other Party.
 - v. The Parties must submit the appeal to the Commissioner within ten (10) calendar days from the receipt of the Written Determination Regarding Responsibility (if any).
- b. Grounds for appeal are limited to the following:
 - i. Were there any procedural irregularities that substantially affected the outcome of the matter to the detriment of the appealing Party?
 - ii. Was there any substantive new evidence that was not available at the time of the decision or Hearing and that could not have been available based on reasonable and diligent inquiry that would substantially affect the outcome of the decision?
 - iii. Did the Title IX Coordinator, Investigator(s), or Decision-Maker have a conflict of interest or bias for or against Complainants or Respondents that affected the outcome of the matter?
 - iv. For matters that proceeded to Sanctioning and imposition of Remedies, are the Sanction and/or Remedies ones that could have been issued by reasonable persons given the findings of the case?

NOTE: In composing appeals, Parties should format their arguments following these four grounds as the organizational structure.
- c. Receipt of Appeal
 - i. Upon receipt of a Party's appeal, the Hearing Coordinator will share it with the other Party.
 - ii. Each Party may submit a response to the other Party's appeal (no more than 3,000 words).
 - iii. Each Party must submit this response to the Commissioner within 10 calendar days after the other Party's appeal has been shared.
 - iv. The appealing Party will have access to the other Party's response to the appeal, but no further responses will be permitted.
- d. Response to Appeal
 - i. The Title IX Coordinator is permitted, but not required, to file a response to a Party's appeal to respond to concerns relating to procedural irregularities or bias in the Investigation and Hearing process.
 - ii. The Title IX Coordinator may submit one response for each Party that files an appeal (that raises a procedural irregularity).
 - iii. Each response by the Title IX Coordinator should be no more than 1,500 words.
 - iv. The Parties will have access to the Title IX Coordinator's response(s) to the appeal, but no further responses will be permitted.
- e. Appeal Decision
 - i. The Appeal Officer will provide the Notice of Outcome of Appeal no later than ten (10) business days after receipt of all appeal documents.
 - ii. As needed, the Appeal Officer will consult with the Title IX Coordinator regarding the management of ongoing Remedies.
 - iii. The Appeal Officer may reject the appeal in whole or in part, issue a new decision regarding responsibility, issue new or revised Sanctions and Remedies, or refer the matter to a new Decision-maker.

Record Retention:

Documents relating to formal complaints including investigations, the investigatory report, witness statements, evidence, dispositions and the complaint itself shall be held for 7 years after the graduation of the student or the date of the student's last attendance. Any of the documents containing confidential information shall be held in a secure location under the custody and control of the Investigator, Vice President of Student Affairs or the President's designee. Documents pertaining to employees that are maintained by the Office of Human Resources shall be maintained in a secure location and in accordance with the Georgia Archives records retention schedule, but in no case fewer than 7 years.

General Policies and Procedures

Visitors

Visitors are always welcome at Savannah Technical College. Visitors are required to check with the appropriate office before visiting the campus. High school students and others wishing to visit the campus may contact the Admissions Office to make arrangements for tours and presentations. Children should not be left unattended in waiting automobiles, hallways, vending areas, offices, classrooms, labs, or the library. Children are not allowed in classrooms or labs when class is in session.

If any student or visitor disrupts the peaceful conduct of the activities on campus or enters the campus with the purpose of committing such an act, he/she may be asked to leave the campus by designated officials. If a person asked to leave the campus fails to do so, law enforcement officials will be notified.

Student Dress

Savannah Technical College simulates the business/industrial environment. With this in mind, students should dress in an appropriate manner. Dress should be clean, neat, and reflect what is normally worn in the occupation for which the students are being trained.

Short Shorts, tank tops, sleeveless shirts, bare midriffs or similar attire is not allowed. Pants must be worn at the natural waistline. Certain program areas may have additional dress codes due to safety or other requirements.

Tobacco and Alcohol Policy

Smoking or use of tobacco, in any form, is allowed only in designated smoking areas. The possession and use of alcohol is prohibited on Savannah Technical College's campuses.

Automobile Use

Students are allowed to park their vehicles in designated student parking areas on Savannah Technical College's campuses during class hours. Vehicles are required to be registered and a parking permit or decal must be displayed prominently on the vehicle. Parking permits and parking regulation information are available through the Savannah Technical College Police Department at each campus. Savannah Technical College does not assume liability for damage incurred to any vehicle while on campus. Parking is at the owner's risk. Individuals who fail to observe parking and traffic regulations may lose the privilege of bringing a vehicle on campus or be subject to disciplinary action. All vehicles parked and/or operated on any Savannah Technical College campus or properties are expected to be in compliance with all State and Federal law(s).

Telephone and Personal Electronics

Office telephones are for STC business and not for student use. No messages will be taken for students except in cases of emergency. Students having cell phones or beepers must not cause disruption of class. Cell phones must be in the off or silent mode during class. Students must not receive or make calls while in class. Instructors may dismiss the student from class if disruption occurs. Text messaging is strictly prohibited during class time.

Food and Beverage in Class

Students are not permitted to consume food and beverages in classrooms, laboratories or in the library. Each campus has areas that students can take breaks to consume food and beverages outside of the classroom.

Pets

No pets are allowed on campus at any time, except as required as assistance to the disabled.

Children on Campus

Children of currently enrolled students are not permitted to be on campus while their parent/caregiver is attending class. No child can be left unattended for any period of time while on Savannah Technical College premises. Children with or without parent/caregiver are not allowed in the library at any time.

Procedures for Reporting a Crime

All emergencies, thefts, vehicle accidents, injuries, suspicious persons, suspicious activities, and solicitors should be reported to the College Police Department.

When an incident is reported, an accident/incident report will be filed with the College Police Department. The Annual Security Report as well as statistics concerning the occurrence of criminal offenses on any campus are available in the College Police Department located on the Savannah Campus, Suite 2123 in Goodman Hall, telephone number 912.443.5200. Crime statistics are available at: <http://www.savannahtech.edu/wp-content/uploads/2013/11/CRIME-STATISTICS-20131.pdf>. The Annual Security Report can be found at: <http://www.savannahtech.edu/wp-content/uploads/2013/11/Annual-Security-Report-20133.pdf>.

Savannah Technical College has implemented a comprehensive substance abuse prevention program, as well as a domestic abuse and sexual violence educational program for students and staff. Both programs have been implemented through a partnership with

EverFi. These online courses empower students and staff to make well-informed decisions about issues that may affect them during their college years and beyond.

Orientation

An in- person orientation program is offered each semester to all students. Orientation is an important step toward getting started smoothly at Savannah Technical College. For example, the orientation program assists with regards to being successful at college. Critical academic support programs, financial aid assistance, personal counseling and career services opportunities are covered. Students who have attended the college within the last two years are allowed to do the online Orientation. Any exceptions to this rule must receive written permission from the office of Student Support Services and Retention.

Access to Student Records

Students who are enrolled or have been enrolled formerly at Savannah Technical College have the right to inspect their academic records. Such inspection must be scheduled with the Registrar's Office.

Student records will be maintained in a fireproof secured area. Access to a student's record will be limited to the student and the instructors and administrators within the College, or required third party access. The transcript of the academic record is a document that, at the request of the student or former student, is forwarded to persons or agencies for their use in reviewing the academic performance of the student.

Housing

Savannah Technical College is a nonresidential college and does not maintain dormitory facilities.

Insurance

Credit students are enrolled in a student accident insurance program. Coverage is provided for activities on-campus, as well as those activities sponsored by the College. Students enrolled in specifically designated programs of study requiring individual insurance shall also purchase professional liability insurance.

Student Identification

Students are required to secure a photo ID card at the beginning of the semester of enrollment. The ID should be visibly worn above the waist at all times when the student is on campus. All students are required to have a validated identification card. ID cards must be presented to purchase items in the Campus Shop, check out books from the library, have access to computer labs, and to gain admission to various student activities. New students receive an ID card free of charge; replacement cards cost \$5.00. Students not wearing their Savannah Technical College ID are subject to fine and/or other disciplinary action.

Lost and Found

Students may contact the College Police Department, any police officer or security officer on each campus for lost and found items. Lost ID's, personal items, and property will be held for 30 days before being disposed of.

Access to Administrative Offices

Students wishing to see personnel in any administrative office should first see the receptionist in the immediate area before proceeding to the office. Appointments are encouraged.

Vending and Picnic Areas

Vending machines are conveniently provided in most buildings. The vending areas may not be used to harbor activities or behaviors that infringe on the rights of others, including excessively loud conversations and discussions or profane or abusive language. Problems with vending machines should be reported to the receptionist at the front desk on each campus.

Voter Registration

To register to vote in the state of Georgia, you must be:

- A citizen of the United States
- A legal resident of Georgia and of the county in which you wish to vote
- 18 years old by election day (17 1/2 at time of registration)

You may not register to vote if you are currently:

- Serving any sentence imposed by conviction of a felony
- Judicially determined to be mentally incompetent

In the state of Georgia, you do not have to register by political party to vote in the state's regular primaries or general elections. However, for primary elections you must declare your party preference when casting your vote.

Chatham County residents may register to vote or change their address/name at the Chatham County Board of Registrar's office, municipal town hall and public libraries. A resident may download the voter registration application.

Motor Voter registration is offered when you renew or apply for your driver's license. Registrations at the driver's license department and/or mail in is not 100%. You have an individual responsibility to confirm your registration prior to Election Day, do so by calling 912-790-1520 or use the poll locator at 1-888-265-1115 or on the internet at <https://registertovote.sos.ga.gov>.

To learn more about your right to vote, visit:

Chatham County Board of Registrars - <http://voter.chathamcounty.org/>

State of Georgia's Online Voter Registration System - <https://registertovote.sos.ga.gov>

Students who wish to register to vote may pick up a voter registration card from the Career Center located in the Student Affairs Center and return it after completing the form. Savannah Technical College will forward the form to the Secretary of State for processing. Disabled students who wish to register to vote may contact Savannah Technical College's Counselor and Special Populations Coordinator at 912.443.5717.

Computer Use and File Sharing

It is the policy of Savannah Technical College and the Technical College System of Georgia (TCSG) to provide technical and adult education programs for the people of Georgia. Technical Colleges must provide opportunities for intellectual, emotional, social, and physical growth. Technical College students assume an obligation to act in a manner compatible with the fulfillment of the mission. All students must observe the following computer use and file sharing policy.

Damage and Destruction

Destruction of or harm to equipment, software, or data belonging to Savannah Technical College or to others is considered unacceptable usage. This may include altering, downloading, or installing software on College computers, tampering with computer hardware or software configuration, improper access to the College's network, and disconnection of College computers or devices.

Electronic Devices

Unless otherwise permitted by Savannah Technical College Officials, the College prohibits use of electronic devices in classrooms, labs, and other instructional, event, or support facilities on College premises. Such devices include but are not limited to cell phones, beepers, walkie-talkies, cameras, and other electronic devices, which may cause unnecessary disruption to the teaching/learning process on campus. The College also prohibits attaching personal electronic devices to College computers under any circumstances.

Harassment

Savannah Technical College prohibits the use of computer technology to harass another student or College official by sending obscene, harassing or intimidating messages, jokes, or material.

Unacceptable Use

Savannah Technical College prohibits the use of computing facilities to interfere with the work of another student, faculty member or Savannah Technical College Official. This includes the unauthorized use of another individual's identification and password. Savannah Technical College prohibits any additional violation to the Department's Acceptable Computer and Internet Use Policy.

Unauthorized Distribution of Copyrighted Materials is Against Federal Law

The unauthorized copying and distributing of copyrighted materials, including, but not limited to Peer-to-Peer (P2P) file sharing or other technologies by users of the Technical College System of Georgia (TCSG) networks and internet connected systems, is a violation of United States copyright law and may result in civil and criminal liability and prosecution.

Copyright Infringement

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorney's fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense. For more information, please see the website of the U.S. Copyright Office at www.copyright.gov and FAQ's at <http://www.copyright.gov/help/faq/>.

Unauthorized Distribution of Copyrighted Materials is prohibited by TCSG State Board Procedure 3.2.3p. prohibits the unauthorized distribution of copyrighted materials via TCSG systems or networks. Maximum penalties under Georgia Law are a \$50,000 fine and 15 years of imprisonment, plus civil liability in addition to the potential federal penalties listed above.

Legal Alternatives for Downloading or Otherwise Acquiring Copyrighted Materials

For a list of legal alternative sites for downloading copyrighted materials, please visit the EDUCAUSE website at:

<http://www.educause.edu/legalcontent>.

SPEECH AND ASSEMBLY

Policy

Savannah Technical College recognizes individuals' freedom of speech, petition, and peaceful assembly. The College also strives to provide a suitable environment for its faculty, staff, and students to work, study, and perform activities furthering the College's mission without undue interference or disturbance. Therefore, this policy establishes the appropriate procedures for peaceful assembly. Public individuals or groups may not enter College premises for the purpose of advocacy, information distribution, or for speech activity without explicit permission from College leadership. Faculty, staff, and students engaging in acts disruptive to the College's normal operations will be subject to disciplinary action. Nothing in this procedure shall be interpreted to interfere with any person's right to free speech as provided by the First Amendment to the Constitution of the United States of America.

Definitions

- **College-sponsored** means the College's activities that would reasonably be perceived to bear the College's approval and license. These activities may be fairly characterized as part of the College curriculum, whether or not they occur in a traditional classroom setting, so long as they are supervised by faculty, staff or club advisors.
- **Disruptive** means substantially distracting from or materially interfering with the College's central mission of educating students. This definition does not include action that merely presents the possibility of discomfort or unpleasantness that often accompanies unpopular viewpoints.
- **Free Speech Areas** means designated areas on each College campus where anyone may engage in speech activities.
- **Premises** means any real property which the College possesses, controls, or owns.
- **Speech Activities** means articulated opinions and ideas. This is not limited to spoken words, but includes symbolic speech, such as signs or posters, and what a person wears, reads, performs and protests.

Respect and Conduct during Assembly

All persons attending a College-sponsored event will conduct themselves with respect for the forum and the learning environment at all times. Expression of a contrary or dissenting viewpoint may not be undertaken in a manner that disrupts the event or attempts to create a fearful or intimidating climate.

Free Speech

- All persons are permitted to engage in speech activities in Free Speech Areas.
- Disruption to the College's normal operations, interference with an activity or event, threats, implied threats, physical intimidation, or any form of violent behavior will result in use of College disciplinary processes for students and employees, and/or law enforcement involvement.
- Speech activities must not obstruct vehicular, bicycle, or pedestrian traffic. Speech activities must not interfere with ingress or egress to the College's facilities, activities, or events.

Peaceful Assembly

- Only Savannah Technical College students or student organizations can apply for approval to sponsor peaceful assemblies on campus.
- Prior to sponsoring a peaceful assembly, a group or organization representative must prepare a written proposal and submit it to the Vice President for Student Affairs at least 48 hours in advance of the intended activity.
 - o The proposal must include the proposed date of the event, the proposed start and end time, the purpose of the event, the target audience and estimated number of participants.
 - o Use of amplified sound devices is prohibited.
 - o At the sole discretion of the Vice President for Student Affairs (VPSA), the VPSA may require a meeting with the primary point of contact, leaders and/or members of the group or organization submitting the proposal prior to granting its approval.
 - o Failure to file the proposal and receive approval prior to assembly will result in appropriate sanctions according to the Student Code of Conduct.
- Sponsoring organizations and their representatives are responsible for proposing and facilitating activities and assemblies to ensure there will be no disruption to the academic environment, College business, activities, events, programs or services. This includes, but is not limited to:
 - o The free passage of pedestrian and roadway traffic into or around campus at all points.
 - o No persons or group shall be permitted to block the ingress and egress to any building.
 - o Groups submitting applications may be subjected to costs associated with the event and such costs must be paid prior to the commencement of the event.

- Use of amplified sound will not disrupt the conduct of College business.
- Any contact with the media must be coordinated through the Director of Communications.
- Compliance with College Officials
 - Everyone is expected to comply with the directions of College officials who are acting in accordance with the performance of their duties. Failure to do so is a violation of campus conduct codes, and is subject to sanctions as outlined in Student Code of Conduct.
 - If a demonstration or activity interferes with normal College activities and/or functions, participants will be asked to disperse.
 - Failure to disperse may be treated as trespassing and handled in accordance by state law and/or the College disciplinary policy.

Approved Free Speech Areas

In order to ensure the safety of our students, the following locations are approved as free speech areas and (upon availability) areas to host peaceful assembly.

- White Bluff Campus: The grass area between Goodman Hall and the Industrial Technology Building. This is a large triangle shaped area bounded by sidewalks.
- Liberty Campus: The grass area behind the student center and patio
- Effingham Campus: Depending upon the size of the assembly, the grass lots on either side of the cosmetology building, (provided access to the cosmetology building or student affairs building is not prohibited), and directly behind the welding lab.

Campus Safety and Security

Savannah Technical College Police Department and its members take the issue of campus safety and security seriously. Safety is a shared responsibility that all members of our community must work together to achieve.

All policies described in the annual security report are applicable to all campus properties. A hard copy of the Annual Security Report may be obtained by contacting Savannah Technical College Police Department, located in room 2113 Goodman Hall, 5717 White Bluff Road, Savannah, GA 31405. Telephone calls may be made to the Police Department at (912) 443-5200 or fax to (912) 443-4783. The information in this report may also be obtained through our website at <https://www.savannatech.edu/wp-content/uploads/2013/11/Annual-Security-Report-2019.pdf>

The “Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act” was enacted by the United States Congress and signed into law by President George Bush in 1990. The Campus Security Act requires colleges and universities to:

- Publish an annual report every year by October 1 that contains the 3 previous years of campus crime statistics.
- Disclose crime statistics for the campus, public areas immediately adjacent to or running through the campus, and certain non-campus facilities and remote classrooms.
- Provide “Timely Warning notices of these crimes that have occurred and pose an ongoing threat to students and employees.”
- Disclose in a public crime log “any crime that occurred on campus or within the patrol jurisdiction of the campus police or the campus security department and is reported to the campus police or security department.”

The Annual Campus Safety and Security Report is disseminated, by email, to all students, faculty, and staff by October 1 each year and is available for download on the website, and in paper form upon request. Requests should be directed to the Savannah Technical College Police Department. Daily crime logs are available in the Savannah Technical College Police Department during normal business hours.

Campus Carry

On July 1, 2017 HB 280 signed by Gov. Nathan Deal went into effect. The bill allows the carrying and possession of handguns in certain manners by weapons carry license holders in certain buildings or on real property owned by or leased to public institutions of postsecondary education.

It is the responsibility of the weapons carry license holder to know the law and follow it at all times. The liability for use of a firearm is the sole responsibility of the person in possession of the firearm. As part of HB 280, certain areas are still prohibited such as classrooms with Dual Enrollment students or a College and Career Academy.

For questions of whether a MOWR of dual enrolled student is in your class please consult the instructor or registrar’s office. Also if there are any questions or concerns regarding Campus Carry please call the Police Department at (912)443-5200. The full law for campus carry can be found as part of O.C.G.A. 16-11-127.1.

Definitions of Clery Act Reportable Crimes

Criminal Homicide: These offenses are separated into two categories: Murder and Non-negligent manslaughter, and Manslaughter by Negligence.

- a) **Murder/Non-negligent Manslaughter:** The willful (non-negligent) killing of one human being by another.
- b) **Manslaughter by Negligence:** The killing of another person through gross negligence.

Sexual Assault: Any sexual act directed against another person, without the consent of the victim, including instances where the victim is incapable of giving consent.

- a) **Rape:** The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. This offense includes the rape of both males and females.
- b) **Fondling:** The touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental incapacity.
- c) **Incest:** Sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.
- d) **Statutory Rape:** Sexual intercourse with a person who is under the statutory age of consent.

Robbery: Taking or attempting to take anything of value from the care, custody, or control of a person by force or threat of force or violence and/or by putting the victim in fear. Essential elements of a robbery:

- Committed in the presence of a victim.
- Victim is directly confronted by the perpetrator.
- Victim is threatened with force or put in fear that force will be used.
- Involves a theft or Larceny

Aggravated Assault: An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Include as Aggravated Assaults:

- Assaults or attempts to kill or Murder.
- Poisoning (including the use of date rape drugs).
- Assault with a dangerous or deadly weapon.
- Maiming.
- Mayhem.
- Assault with explosives.
- Assault with disease (as in cases when the offender is aware that he or she is infected with a deadly disease and deliberately attempts to inflict the disease by biting, spitting, etc.).

Burglary: Unlawful entry of a structure to commit a felony or a theft. Classify as Burglary:

- Offenses that are classified by local law enforcement agencies as Burglary (any degree); unlawful entry with intent to commit a larceny or felony; breaking and entering with intent to commit a larceny; housebreaking; safecracking; and all attempts at these offenses.
- **Forcible Entry:** All offenses where force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony. This rule applies when a thief gains entry by using tools; breaking windows; forcing windows, doors, transoms or ventilators; cutting screens, walls or roofs; and where known, using master keys, picks, unauthorized keys, celluloid, a mechanical contrivance of any kind or other devices that leave no outward mark but are used to force a lock. This includes Burglary by concealment inside a building followed by exiting the structure.
- **Unlawful Entry–No Force:** The entry of a structure in this situation is achieved by use of an unlocked door or window. The element of trespass to the structure is essential in this category, which includes thefts from open garages, open warehouses, open or unlocked dwellings (such as dorm rooms) and open or unlocked common basement areas in apartment houses where entry is achieved by someone other than the tenant who has lawful access, or others whom the

tenant allows to have free and regular access to the structure. If an item was taken from an unlocked dorm room and you can establish that neither the tenant nor those friends with free and regular access to the room have taken the item, then unlawful access has occurred. In this context, it is important to note that a “breaking” occurs when a perpetrator crosses the threshold of a boundary that results in a trespass. As such it is possible for a burglar to “break” an open doorway or window. There is no requirement that entry be forced in any way or that damage to a door, window or frame be evident.

- **Attempted Forcible Entry:** A situation where a forcible entry into a locked structure is attempted but not completed. An attempt to commit the crime of Burglary must be evaluated in context based on all available information. Such incidents must not be classified merely as “suspicious activity” or “vandalism” where the totality of facts indicates that a Burglary was in fact attempted. Possible indicators of an attempted Burglary may include, but are not limited to, damage to a door or window, the presence of Burglary tools, a recurring or similar modus operandi or “signature” that ties an incident to other similar offenses (sometimes referred to as “common plan and scheme”), and/or proximity in time and place to a pattern of other similar crimes.

Motor Vehicle Theft: The theft or attempted theft of a motor vehicle. Classify as Motor Vehicle Theft:

- Theft of any self-propelled vehicle that runs on land surface and not on rails, such as sport utility vehicles, automobiles, trucks, buses, motorcycles, motor scooters, trail bikes, mopeds, all-terrain vehicles, self-propelled motor homes, snowmobiles, golf carts and motorized wheelchairs.
- All incidents where automobiles are taken by persons not having lawful access even though the vehicles are later abandoned. Include joyriding in this category. If a vehicle is stolen in conjunction with another offense, classify the crime using the procedures for classifying multiple offenses.

Arson: Willful or malicious burning or attempt to burn with or without intent to defraud a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Classify as arson:

- Only fires determined to have been willfully or maliciously set.
- Attempts to burn.
- Any fire that investigation determines to meet the UCR definition of Arson regardless of the value of any property damage.
- Incidents where an individual willfully or maliciously burns his or her own property.

Arrest: Persons processed by arrest, citation, or summons.

Referred for disciplinary action: the referral of any person to any official who initiates a disciplinary action of which a record is established and which may result in the imposition of a sanction. The disciplinary process at your institution might be called “disciplinary action,” “mediation,” “judicial process” or some other term. The referral may, but doesn’t have to, originate with the police. Regardless of what you call it, if the process involves the following three criteria, it’s a disciplinary action under the *C/ery Act*:

- The official receiving the referral must initiate a disciplinary action,
- A record of the action must be established, and
- The action may, but does not have to, result in a sanction.

Note that a disciplinary action can be initiated in an informal as well as a formal manner. It can include an interview or an initial review of names submitted to an official. So too, sanctions can be formal or informal, punitive or educational. For example, requiring completion of a “Dangers of Alcohol” education seminar in lieu of an arrest for underage alcohol possession must be included as one referral for disciplinary action for a Liquor Law Violation. Documentation of the referral must be maintained for purposes of *C/ery Act* compliance for three years from the latest publication of the annual security report to which they apply.

Weapons- Carrying, Possessing, Etc.: The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices or other deadly weapons. This classification encompasses weapon offenses that are regulatory in nature.

Drug Law Violations: The violation of laws prohibiting the production, distribution, and/or use of certain controlled substances and the equipment or devices utilized in their preparation and/or use. The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation or importation of any controlled drug or narcotic substance. Arrests for violations of state and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing and making of narcotic drugs. The relevant substances include: opium or cocaine and their derivatives (morphine, heroin, codeine); marijuana; synthetic narcotics-manufactured narcotics which can cause true addiction (Demerol, methadone); and dangerous non-narcotic drugs (barbiturates, Benzedrine).

Liquor Law Violations: The violation of state or local laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages, not including driving under the influence and drunkenness. Include in this classification: the manufacture, sale, transporting, furnishing, possessing, etc., of intoxicating liquor; maintaining unlawful drinking places; bootlegging; operating still; furnishing liquor to a minor or intemperate person; underage possession; using a vehicle for illegal transportation of liquor; drinking on train or public conveyance; and attempts to commit any of the above.

Hate Crimes: The Clery Act requires institutions to separately report all hate crime statistics on any of the previously mentioned offenses or any other crime involving bodily injury reported to local police agencies or to a campus security authority that manifest evidence that the victim was intentionally selected because of the perpetrator's bias against the victim. Categories of Prejudice:

- **Race-** A preformed negative attitude toward a group of persons who possess common physical characteristics, e.g., color of skin, eyes, and/or hair; facial features, etc., genetically transmitted by descent and heredity which distinguish them as a distinct division of humankind, e.g., Asians, blacks or African Americans, whites.
- **Religion.** A preformed negative opinion or attitude toward a group of persons who share the same religious beliefs regarding the origin and purpose of the universe and the existence or nonexistence of a supreme being, e.g., Catholics, Jews, Protestants, atheists.
- **Sexual Orientation.** A preformed negative opinion or attitude toward a group of persons based on their actual or perceived sexual orientation. Sexual Orientation is the term for a person's physical, romantic, and/or emotional attraction to members of the same and/or opposite sex, including lesbian, gay, bisexual, and heterosexual (straight) individuals.
- **Gender.** A preformed negative opinion or attitude toward a person or group of persons based on their actual or perceived gender, e.g., male or female.
- **Gender Identity.** A preformed negative opinion or attitude toward a person or group of persons based on their actual or perceived gender identity, e.g., bias against transgender or gender non-conforming individuals. Gender non-conforming describes a person who does not conform to the gender-based expectations of society, e.g., a woman dressed in traditionally male clothing or a man wearing makeup. A gender non-conforming person may or may not be a lesbian, gay, bisexual, or transgender person but may be perceived as such.
- **Ethnicity.** A preformed negative opinion or attitude toward a group of people whose members identify with each other, through a common heritage, often consisting of a common language, common culture (often including a shared religion) and/or ideology that stresses common ancestry. The concept of ethnicity differs from the closely related term "race" in that "race" refers to a grouping based mostly upon biological criteria, while "ethnicity" also encompasses additional cultural factors.
- **National Origin.** A preformed negative opinion or attitude toward a group of people based on their actual or perceived country of birth. This bias may be against people that have a name or accent associated with a national origin group, participate in certain customs associated with a national origin group, or because they are married to or associate with people of a certain national origin.
- **Disability.** A preformed negative opinion or attitude toward a group of persons based on their physical or mental impairments, whether such disability is temporary or permanent, congenital or acquired by heredity, accident, injury, advanced age or illness.

Larceny-Theft: The unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another.

Simple Assault: An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

Intimidation: Unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack.

Destruction/Damage/Vandalism of property: willfully or maliciously destroy, damage, deface, or otherwise injure real or personal property without the consent of the owner or the person having custody or control of it.

Dating Violence: violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on the reporting party's statement and with consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship. For the purposes of this definition—

- a) Dating violence includes, but is not limited to, sexual or physical abuse or the threat of such abuse.
- b) Dating violence does not include acts covered under the definition of domestic violence.

Domestic Violence: A felony or misdemeanor crime of violence committed by a current or former spouse or intimate partner of the victim; by a person with whom the victim shares a child in common; by a person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner; by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred; or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

Stalking: Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for the person's safety or the safety of others or suffer substantial emotional distress.

- **Course of Conduct** – two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person's property.

- **Reasonable Person** – a reasonable person under similar circumstances and with similar identities to the victim.
- **Substantial Emotional Distress** – significant mental suffering or anguish that may, but does not necessarily require medical or other professional treatment and counseling.

Consent: Consent can be given by word or action, but non-verbal consent is more ambiguous than explicitly stating one's wants and limitations. Clarification of a partner's explicit consent is recommended. Individuals who consent to sex must be able to fully understand what they are doing. For example, alcohol or drugs may impair a person's ability to give valid consent if the person cannot comprehend the who, what, where, when, why, or how of a sexual interaction. Consumption of alcohol, in and of itself, does not relieve an individual initiating sexual activity of the responsibility to obtain ongoing consent. Silence does not indicate consent. Consent is never to be assumed and is never implied even in a relationship.

Sexual Assault: An offense that meets the definition of rape, fondling, incest or statutory rape as used in the FBI's Uniform Crime Reporting system. A sex offense is any act directed against another person, without the consent of the victim, including instances where the victim is incapable of giving consent.

In Georgia, OCGA 16-6-5.1, sexual assault is defined as "sexual contact" that is perpetrated by "a person who has a supervisory or disciplinary authority over another individual." More specifically, sex offenses are defined individually in the Georgia State Code. Sexual Assault is a term used to describe a number of different nonconsensual sexual contacts including but not limited to rape and sexual battery.

Rape: According to the FBI's Uniform Crime Reporting: The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

Georgia State Code 16-6-1:

- A person commits the offense of rape when he has carnal knowledge of:
 - i. A female forcibly and against her will; or
 - ii. A female who is less than ten years of age. Carnal knowledge in rape occurs when there is any penetration of the female sex organ by the male sex organ. The fact that the person allegedly raped is the wife of the defendant shall not be a defense to a charge of rape.
- A person convicted of the offense of rape shall be punished by death, by imprisonment for life without parole, by imprisonment for life, or by a split sentence that is a term of imprisonment for not less than 25 years and not exceeding life imprisonment, followed by probation for life. Any person convicted under this Code section shall, in addition, be subject to the sentencing and punishment provisions of Code Sections 17-10-6.1 and 17-10-7.
- When evidence relating to an allegation of rape is collected in the course of a medical examination of the person who is the victim of the alleged crime, the Georgia Crime Victims Emergency Fund, as provided for in Chapter 15 of Title 17, shall be responsible for the cost of the medical examination to the extent that expense is incurred for the limited purpose of collecting evidence.

Fondling: According to the FBI's Uniform Crime Reporting: The touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental capacity.

Georgia State Code 16-6-22.1 defines fondling (sexual battery) as follows:

- a. For the purposes of this Code section, the term "intimate parts" means the primary genital area, anus, groin, inner thighs, or buttocks of a male or female and the breasts of a female.
- b. A person commits the offense of sexual battery when he or she intentionally makes physical contact with the intimate parts of the body of another person without the consent of that person.

Incest: According to the FBI's Uniform Crime Reporting: Sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

Georgia State Code 16-6-22:

- a. A person commits the offense of incest when such person engages in sexual intercourse or sodomy, as such term is defined in Code Section 16-6-2, with a person whom he or she knows he or she is related to either by blood or by marriage as follows:
 - i. Father and child or stepchild;
 - ii. Mother and child or stepchild;
 - iii. Siblings of the whole blood or of the half-blood;
 - iv. Grandparent and grandchild of the whole blood or of the half-blood;
 - v. Aunt and niece or nephew of the whole blood or of the half-blood; or
 - vi. Uncle and niece or nephew of the whole blood or of the half-blood.

A person convicted of the offense of incest shall be punished by imprisonment for not less than ten nor more than 30 years; provided, however, that any person convicted of the offense of incest under this subsection with a child under the age of 14 years shall be punished by imprisonment for not less than 25 nor more than 50 years. Any person convicted under this Code section of the offense of incest shall, in addition, be subject to the sentencing and punishment provisions of Code Section 17-10-6.2.

Statutory Rape: According to the FBI's Uniform Crime Reporting: Sexual intercourse with a person who is under the statutory age of consent.

Georgia State Code 16-6-3:

- a. A person commits the offense of statutory rape when he or she engages in sexual intercourse with any person under the age of 16 years and not his or her spouse, provided that no conviction shall be had for this offense on the unsupported testimony of the victim.
- b. Except as provided in subsection (c) of this Code section, a person convicted of the offense of statutory rape shall be punished by imprisonment for not less than one nor more than 20 years; provided, however, that if the person so convicted is 21 years of age or older, such person shall be punished by imprisonment for not less than ten nor more than 20 years. Any person convicted under this subsection of the offense of statutory rape shall, in addition, be subject to the sentencing and punishment provisions of Code Section 17-10-6.2.
- c. If the victim is at least 14 but less than 16 years of age and the person convicted of statutory rape is 18 years of age or younger and is no more than four years older than the victim, such person shall be guilty of a misdemeanor.

Domestic Violence: According to the FBI's Uniform Crime Reporting: A felony or misdemeanor crime of violence committed by a current or former spouse or intimate partner of the victim; by a person with whom the victim shares a child in common; by a person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner; by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred; or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

The State of Georgia does not have any specific law regarding Domestic Violence. If a crime of battery occurs and the elements listed in the above definition exist regarding the relationship between the perpetrator and the victim, then it is indicated on the arrest warrant under O.C.G.A. 19-13-1 referred to Family Violence.

Dating Violence: According to the FBI's Uniform Crime Reporting: Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on the reporting party's statement and with consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship. For the purposes of this definition:

- Dating violence includes, but is not limited to, sexual or physical abuse or the threat of such abuse.
- Dating violence does not include acts covered under the definition of domestic violence.

The State of Georgia does not have any specific law regarding Dating Violence. If a crime of battery occurs and the elements listed in the above definition exist regarding the relationship between the perpetrator and the victim, then it is indicated on the arrest warrant.

Stalking: According to the FBI's Uniform Crime Reporting: Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for the person's safety or the safety of others or suffer substantial emotional distress.

- **Course of Conduct** – two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person's property.
- **Reasonable Person** – a reasonable person under similar circumstances and with similar identities to the victim.
- **Substantial Emotional Distress** – significant mental suffering or anguish that may, but does not necessarily require medical or other professional treatment and counseling.

Georgia State Code 16-5-90:

(1) A person commits the offense of stalking when he or she follows, places under surveillance, or contacts another person at or about a place or places without the consent of the other person for the purpose of harassing and intimidating the other person. For the purpose of this article, the terms "computer" and "computer network" shall have the same meanings as set out in Code Section 16-9-92; the term "contact" shall mean any communication including without being limited to communication in person, by telephone, by mail, by broadcast, by computer, by computer network, or by any other electronic device; and the place or places that contact by telephone, mail, broadcast, computer, computer network, or any other electronic device is deemed to occur shall be the place or places where such communication is received. For the purpose of this article, the term "place or places" shall include any public or private property occupied by the victim other than the residence of the defendant. For the purposes of this article, the term "harassing and intimidating" means a knowing and willful course of conduct directed at a specific person which causes emotional distress by placing such person in reasonable fear for such person's safety or the safety of a member of his or her immediate family, by establishing a pattern of harassing and intimidating behavior, and which serves no legitimate purpose. This Code section shall not be construed to require that an overt threat of death or bodily injury has been made. (2) A person commits the offense of stalking when such person, in violation of a bond to keep the peace posted pursuant to Code Section 17-6-110,

standing order issued under Code Section 19-1-1, temporary restraining order, temporary protective order, permanent restraining order, permanent protective order, preliminary injunction, or permanent injunction or condition of pretrial release, condition of probation, or condition of parole in effect prohibiting the harassment or intimidation of another person, broadcasts or publishes, including electronic publication, the picture, name, address, or phone number of a person for whose benefit the bond, order, or condition was made and without such person's consent in such a manner that causes other persons to harass or intimidate such person and the person making the broadcast or publication knew or had reason to believe that such broadcast or publication would cause such person to be harassed or intimidated by others.

- Except as provided in subsection (c) of this Code section, a person who commits the offense of stalking is guilty of a misdemeanor.
- Upon the second conviction, and all subsequent convictions, for stalking, the defendant shall be guilty of a felony and shall be punished by imprisonment for not less than one year nor more than ten years.

Before sentencing a defendant for any conviction of stalking under this Code section or aggravated stalking under Code Section 16-5-91, the sentencing judge may require psychological evaluation of the offender and shall consider the entire criminal record of the offender. At the time of sentencing, the judge is authorized to issue a permanent restraining order against the offender to protect the person stalked and the members of such person's immediate family, and the judge is authorized to require psychological treatment of the offender as a part of the sentence, or as a condition for suspension or stay of sentence, or for probation.

Procedures for Reporting Incidents:

The safety of students, visitors, faculty, and staff is a top priority of Savannah Technical College. Campus Police Officers are responsible for completing crime and accident reports and responding to emergencies. They also are responsible for enforcing other regulations such as parking, the use of controlled substances and weapons.

All crimes and other emergencies occurring on Savannah Technical College should be reported to the Savannah Technical College Police Department. However, individuals may also report crimes to other College officials, who will report the information received to the Savannah Technical College Police Department. These individuals have been identified as Campus Security Authorities (CSA) and include: Title IX coordinator, Deans of instruction, Campus Deans, Academic Advisors, VP for Student Affairs, and the Director of Human Resources.

Members of the community may report crimes directly to the Savannah Technical College Police Department by visiting the Police Department located in Gwen Goodman Hall or by calling (912) 443-5200. Other local authorities may be reached by dialing 911.

Emergency call boxes are located: on the exterior library wall facing the student parking lot; next to the elevator on the first and second floor of Gwen Goodman Hall; between classroom 1176 and office 1178 in the Business area of the Admin Building; next to class 1188 in the Business area of the Admin Building. These phones have a direct line to the Police Department. Closed Circuit TV cameras are located throughout the campus. These cameras are recorded and monitored by the Savannah Technical College Police Department.

Campus Security Authorities

Savannah Technical College wants its campus community to report any criminal incident to the Savannah Technical College Police Department, but we realize that this does not always occur. A student who is the victim of a crime may be more inclined to report to another College official. For this reason, the Clery Act requires all institutions to collect crime reports from a variety of individuals and organizations that Clery considers to be "campus security authorities (CSA)". Per Clery regulations a crime is reported when it is brought to the attention of a campus security authority or local law enforcement personnel by a victim, witness, other third party or even the offender. If a campus authority receives the crime information and believes it was provided in good faith, he or she must document it as a crime report. CSA reports should include such details as dates, locations, and personally identifiable information including name and contact information unless the student requests confidentiality.

A CSA is defined as someone who has significant responsibility for student and campus activity. Training is required for all CSA's. Savannah Technical College provides all CSA's with a training video and a training handout, both purchased from the Clery Center for Security on Campus. Per Clery requirements professional counselors working for the College in a counseling role are not considered Campus Security Authorities when they are acting in a counseling role. As a matter of policy, the College encourages the professional counselors to notify those whom they are counseling of the voluntary, confidential reporting options available to them (668.46(b)(4)(iii)).

The Savannah Technical College Police Department keeps a list of all CSA's and sends an email once a year to each CSA with the training video and handout.

Policy on Confidential Reporting

Victims and witnesses may report crime on a voluntary, confidential basis when concerns necessitate keeping their identities undisclosed. In these situations, anonymous reporting can be made to Crimes Stoppers of Savannah at (912) 234- 2020. Due to open records anonymous reports cannot be taken by the Savannah Technical College Police Department.

Victims who report to a counseling professional are protected by confidentiality laws and may report without fear of disclosure. Professional counselors also can inform the individual being counseled of procedures on how to file a crime report on a confidential basis for inclusion in the annual disclosure of crime statistics.

Access to Campus Buildings

The Savannah Technical College Police Department is responsible for the overall security of all campus facilities. Buildings may be opened and closed for **scheduled** events, after normal working hours, with advance notice to the Police Department. Faculty or staff requiring access to any building outside normal working hours must contact the Police Department, in advance, for assistance. Requests for such access are reviewed on a case by case basis. Faculty or staff members having building access codes and entry level keys are authorized to enter buildings, for official purposes, after normal working hours. However, all faculty and staff members are reminded that any College building or grounds are the property of the State of Georgia and are to be used for official purposes only. Savannah Technical College does not have any campus residences on any of our campuses nor does Savannah Technical College offer any off campus housing. Access codes and cyber-keys are issued by the Savannah Technical College Police Department by filling out a form on Sharepoint requesting access. The cyber-key system allows for auditing both real-time and historical. The Savannah Technical College is currently installing the technology infrastructure at all its campuses for keycard access. Police Officers routinely test doors and place work orders for any doors that may not function properly. Security cameras are placed throughout the campus. These cameras are monitored through Police dispatch. Upon Campus closure due to inclement weather all Savannah Technical College employees shall exit the buildings so they may be secured. In certain instances of severe weather that do not require a campus closure, egress from campus buildings will be discouraged, and you may be asked to shelter-in-place.

Emergency Operations Plan

The College maintains and updates annually, an Emergency Operations Plan. The plan documents the process and communications required for a successful response to, and recovery from an emergency incident.

Police and College officials have received training in Incident Command and responding to critical incidents.

Information on this plan can be found in every classroom or office located in the Emergency Information Pamphlet (EIP). These EIP booklets also include an evacuation map with the pamphlets.

The EIP include basic information in regards to: civil disturbances, vehicle accidents, serious injury or illness, fire, severe weather/tornadoes, bomb threats, and active shooters.

The emergency operation plan for Savannah Campus can be found at:

<https://www.savannahtech.edu/wp-content/uploads/2018/09/Savannah-Campus-2018-2019-annex.pdf>

The emergency operation plan for Liberty Campus can be found at:

<https://www.savannahtech.edu/wp-content/uploads/2018/09/Liberty-Campus-2018-2019-annex.pdf>

The emergency operation plan for Effingham Campus can be found at:

<https://www.savannahtech.edu/wp-content/uploads/2018/09/Effingham-Campus-2018-2019-annex.pdf>

The emergency operation plan for Crossroads Campus can be found at:

<https://www.savannahtech.edu/wp-content/uploads/2018/09/Crossroads-Campus-2018-2019-annex.pdf>

Emergency Evacuation Procedure

If you are advised to evacuate a building by a Savannah Technical College Police Officer, Campus Administrator or fire alarm system please vacate the building immediately. In case of an evacuation do not use elevators. If possible, take all of your belongings with you and do not re-enter the building until told to do so by Emergency Personnel.

Located in each stairwell is an Evac-Chair designed to assist people with disabilities in getting from the upper levels of the building to lower levels of the building. These Evac-Chairs are covered with a yellow covering and are located on every floor in every stairwell.

These chairs have a simple instruction manual located inside the yellow and clear pouch on the handle of the chair. All Police Department personnel as well as custodial and maintenance personnel have been trained on the use of these Evac-Chairs.

Drills, exercises, and training on evacuation procedures are routinely performed by the Savannah Technical College Police Department as well as tests of the emergency notification system. These are accomplished through yearly fire drills, evacuation drills, as well as active shooter training exercises. These drills can be announced or unannounced. Savannah Technical College will publicize its emergency response and evacuation procedures with at least one such drill each calendar year. After a drill is completed the Police Department will create an after-action report detailing what occurred and any lessons learned from the drill as well as any issues discovered during the drill. The documentation for the drill will include a description of the exercise, the date, time, and whether it was announced or unannounced.

Shelter-in-place

Sheltering in place provides protection from external hazards such as severe weather. When selecting a room to shelter in make sure to choose an interior room with as few windows as possible. During a Shelter-in-place remain calm and follow any emergency communications distributed through text, email, or the speaker systems installed in the hallways.

Active Shooter Response

Remember Run, Hide, Fight.

1. Remain Calm.
2. Assess the situation and begin to make choices based on what information you have.
3. If safe to do so evacuate the building. Leave all personal belongings and find a safe place to shelter. If you are in an office area, close all windows and doors; and, if possible, lock the doors. Try to create obstacles near the door.
4. If you are unable to evacuate or find shelter, try to hide behind any barrier.
5. Remain in your hiding place until otherwise directed by Police personnel.
6. *As a last resort you may try to incapacitate the shooter.*
7. As soon as safe to do so call 911 (or 9-911 from a campus phone).

Fire Response

If a fire is detected on campus the following steps should be taken immediately:

1. **Activate the Fire Alarm**: Any employee observing a fire inside a building will immediately pull the nearest fire alarm pull-station.
2. **Notify the Savannah Technical College Police Department**

By dialing 912-443-5200
Evacuation: Should an evacuation be required move at least 500 feet from the fire location and do NOT return until told to do so by emergency personnel.
3. Each instructor or department head should insure that all students/employees are accounted for; and, notify STCPD if anyone is missing.
4. **Fire Extinguishers**: Fire extinguishers are located throughout each campus building.

Emergency Notifications:

Savannah Technical College has a notification system that allows for alerts to be sent to staff desk phones, staff and student cell phones, staff and student email addresses, staff and student home phones, and staff and student text addresses through Regroup, as well as speakers set up in certain hallways to broadcast messages. These alerts are authorized by the Chief of Police or the on duty supervisor and issued immediately upon notification and verification of any dangerous or threatening situation on any campus. Any alert issued will address the specific campus and or area of said campus, along with an accompanying notification/safety watch to all other campuses or areas of the College not immediately adjacent to the specific problem area. The content of the alert will be selected from a list of pre-recorded templates and can be edited based on the facts and circumstances of the situation. Also the notifications will be put on Facebook as needed to notify parents and the larger community of any serious event. The Executive Director of Institutional Advancement and Communications will contact the local media outlets to provide information on the emergency for the larger community.

Savannah Technical College will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgement of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

A complete procedural outline is contained in the Savannah Technical College *Emergency Operation Plan* which lists names, contact information and procedures for evacuation in an emergency. In addition, information regarding emergency procedures can be found in the *Emergency Information Pamphlets* which are located in every classroom, work space and office throughout the College.

On an annual basis, no later than December 31st of any calendar year, the emergency notification systems and crime alert process will be tested through an actual drill and/or tabletop exercise and will include all police personnel, public safety personnel, impacted employee staff and/or administrative personnel, as required, to affect said testing of the system. These tests may be announced or unannounced and for at least one drill each calendar year the emergency response and evacuations procedures shall be publicized.

Documentation for these drills shall include a description of the drill, the date, time, and whether it was announced or unannounced. Some examples of emergencies requiring notifications include: outbreak of meningitis, norovirus or other serious illness; approaching tornado, hurricane or other extreme weather conditions; earthquake; gas leak; terrorist incident; armed intruder; bomb threat; civil unrest or rioting; explosion; nearby chemical or hazardous waste spill. Anyone can report an emergency to the Savannah Technical College Police Department by calling 912-443-5200.

Timely Warnings:

Timely Warnings are issued immediately upon notification of the following crimes, if the crimes are reported to Campus Police and occur in certain geographic locations as defined by the Clery Act as well as pose a continuing and serious threat to students and employees:

- Murder and non-Manslaughter by Negligence
- Manslaughter by Negligence
- Forcible and non-forcible sex offenses
- Robbery
- Aggravated Assault
- Burglary
- Motor vehicle theft
- Arson

Timely warnings will be issued by the Police Department and will be authorized by the Chief of Police or the police supervisor on duty. Timely warnings may be sent through email, text messages, or messages on employee desk phones.

Timely warnings will be issued for all Clery Act crimes that occur on Clery Act geography that are reported to campus security authorities or local police agencies and considered by the institution to represent a serious or continuing threat to students and employees but not for crimes reported to Pastoral or professional counselors.

Making the decision to issue a timely warning must be decided on a case-by-case basis in light of all facts including the nature of the crime, the continuing danger to the campus community, and the possible risk of compromising law enforcement efforts.

The Family Educational Rights and Privacy Act (FERPA) as it relates to Timely Warnings: An institution may, in appropriate circumstances, include personally identifiable information in a timely warning. Although this is normally protected under FERPA it may be released in emergency situations.

Procedures for Reported Incidents of Dating Violence, Domestic Violence, Sexual Assault, and Stalking

Savannah Technical College prohibits domestic violence, dating violence, sexual assault, and stalking by students, staff, faculty and visitors. If you have been the victim of domestic violence, dating violence, sexual assault, or stalking, you should report the incident promptly to the Title IX Coordinator, Regina Thomas-Williams, by emailing her at rthomas@savannahtech.edu or by phone at 912-443-5708 and to Campus Police (if desired) at 912-443-5200. The College will provide resources on campus, off campus, or both, including written information, to persons who have been victims of sexual assault, domestic violence, dating violence, or stalking, and will apply appropriate disciplinary procedures to those who violate this policy. The procedures set forth below are intended to afford a prompt response to charges of sexual assault, domestic or dating violence, and stalking, to maintain confidentiality and fairness consistent with applicable legal requirements, and to impose appropriate sanctions on violators of this policy.

As time passes, evidence may dissipate or become lost or unavailable, thereby making investigation, possible prosecution, disciplinary proceedings, or obtaining protective orders related to the incident more difficult.

If a victim chooses not to make a complaint regarding an incident, he or she, nevertheless, should consider speaking with Campus Police or other law enforcement to preserve evidence in the event that the victim changes his/her mind at a later date.

Once an individual makes a complaint, or receives notice that a complaint has been made against him or her, that individual should receive information about support services, such as counseling, advocacy, academic support, disability services, health and mental services, and legal assistance, as is available at the College.

If a report of domestic violence, dating violence, sexual assault, or stalking is reported to the College, below are the procedures that the College will follow as well as a statement of the standard of evidence that will be used during any judicial hearing on campus arising from such a report:

1. The Office of the Title IX Coordinator is primarily responsible for directly overseeing the investigation and resolution of complaints, and coordinating possible remedial actions or other responses reasonably designed to minimize the recurrence of the alleged conduct as well as mitigate the effects of any misconduct. The Title IX Coordinator will ensure prompt, fair, and impartial investigations and resolutions of complaints alleging violations of the sexual misconduct policy. The Title IX Coordinator shall be responsible for ensuring any individual participating in the investigation, resolution, or appeal of any sexual misconduct case has received annual training on issues pertaining to sexual misconduct investigations.
2. The Title IX Coordinator shall designate an investigator to conduct a prompt, thorough, and impartial investigation into each complaint received. The investigation shall consist of interviews of the complainant, alleged victim, respondent, and witnesses, and the collection and review of documents or other physical or electronic information, as well as other steps, as appropriate.
3. Unrelated charges and cases shall be investigated separately, unless the respondent consents to having them aggregated.
4. The respondent shall be provided with written notice of the complaint, pending investigation, possible charges, possible sanctions, and available support services. The notice should also include the identity of the Title IX Coordinator and any investigator(s) involved.

Notice shall be provided via institution email. If confirmation of receipt is not received by the Title IX Coordinator or the investigator, the Title IX Coordinator or the investigator shall engage in other measures to ensure notice is received by the respondent. A copy shall also be provided to the alleged victim via the same means.

5. The investigator will timely begin the investigation and will schedule an initial interview with the complainant, alleged victim, respondent and any known relevant witnesses. The investigator should retain written notes and/or obtain written or recorded statements from each interview. The investigator shall also keep a record of any proffered witnesses not interviewed, along with a brief, written explanation.

6. Each party shall have three (3) business days to submit a written statement to supplement the notice of complaint and the verbal interview. In that response, the respondent shall have the right to admit or to deny the allegations, and to set forth a defense with facts, witnesses, and documents – whether written or electronic – in support. If respondent has not otherwise responded, a non-written response will be considered a general denial of the alleged misconduct.

7. Based on this response and other relevant information, the investigator shall continue to interview witnesses for both sides, to re-interview parties where necessary, and to collect and review documents or other physical or electronic information, as well as other steps, as appropriate.

8. Where the respondent is a student, the respondent has the right to remain silent during the investigation and resolution process, without an automatic adverse inference resulting. If the respondent chooses to remain silent, the investigation may ultimately still proceed and policy violation charges may still result, which may be resolved against the respondent.

9. The respondent and/or alleged victim may challenge the participation of the investigator on the grounds of personal bias by submitting a written statement to the Title IX Coordinator setting forth the basis for the challenge no later than three (3) business days after the party reasonably should have known of the bias. The Title IX Coordinator will determine whether to sustain or deny the challenge, and if sustained, to appoint a replacement.

10. At the conclusion of the investigation, the investigator will issue to the parties a written report setting forth charges and possible sanctions, as well as an explanation of the evidence against the respondent.

11. The parties shall have at least three (3) business days to respond to the report in writing. The respondent's written response should outline his or her plea in response to the charge(s), and where applicable, his or her defense(s), and the facts, witnesses, and documents – whether written or electronic – in support.

12. The investigator shall, as necessary, conduct further investigation and update the report as warranted by the response(s), and will update the report as necessary.

13. Upon completion of the investigation, the investigator will review the evidence with the Title IX Coordinator. The Title IX Coordinator will ensure policies have been followed.

14. The Title IX Coordinator will contact the alleged victim(s) and the respondent(s) and schedule an opportunity to meet with each party individually. During these meetings, the Title IX Coordinator shall review the report with the parties (individually). Should the report be acceptable to all parties, an informal resolution may be made, which would not require the parties to move to the hearing phase of these procedures. If, however, the parties agree on the conduct, but not on the sanctions, then the sanctions shall be addressed by the hearing panel.

15. Allegations of sexual misconduct involving a student that are brought against an institution's faculty or staff will be investigated as outlined above, but will be further addressed and/or resolved through the institution's applicable employment policies, and in accordance with the procedures for dismissal outlined in TCSG Policy, including procedures for appealing such decisions.

16. Where the respondent(s) is a student, a hearing, as well as corresponding procedures/rights to appeal, shall be set and administered as set forth below, and a final report shall be provided to all parties, which will also provide a date, time, and location for a hearing on the matter.

17. The final report should also be provided to the panel for their consideration in adjudicating the charges brought against the respondent. The investigator may testify as a witness before the panel regarding the investigation and findings, but shall otherwise have no part in the hearing process and shall not attempt to otherwise influence the panel outside of providing testimony during the hearing.

Assistance for Victims: Rights and Options

Victims are entitled to file a complaint with the Title IX coordinator, Campus Police or a CSA. The Student Handbook contains the policies and procedures of the campus judicial system, which will be followed should a complaint be filed. Savannah Technical College will provide written notification to victims about options for, available assistance in, and how to request changes to academic and working situations or protective measures. Savannah Technical College will make accommodations or provide protective measures should a victim requests them regardless of whether the victim chooses to file a report with Savannah Technical College Police Department. Savannah Technical College is obligated to comply with a student's reasonable request for an academic change following an alleged sex offense.

Additional rights include, but are not limited to:

- The right to bring a friend or counselor to any appointments and any judicial procedures;
- The right to choose to file or not file a formal complaint;
- The right to pursue charges in the criminal or civil courts;
- The right to appeal a decision of the Judicial Board (see Student Handbook);

- The right to a closed hearing;
- The right to change Academic situations;
- The right to request that a hearing or proceeding occur in such a fashion that the complainant and the accused are never in the same room together;

Complainant's right to know the resolution of the case.

Procedures Victims Should Follow

If you are the victim of dating violence, domestic violence, sexual assault, or stalking while on campus you are asked to report the incident to the Title IX coordinator (912-443-5708), Savannah Technical College Police Department (912-443-5200), a CSA, or a local law enforcement agency (911). You are also encouraged to seek medical care at a local hospital emergency room. Victims of a sexual offense should not bathe, shower, or change clothes before receiving this medical attention for the importance of preserving evidence for the proof of a criminal offense. In addition, you may file a complaint and/or pursue criminal charges. The College will investigate all complaints of sex offenses and will take appropriate disciplinary action in each instance. It will also provide health care referral, advocacy referral, and other support services for students, faculty, staff or visitors who are victims of one of these sex offenses. Savannah Technical College will comply with a student's request for assistance in notifying authorities which is mandatory per the Clery Act whether it is reported to the Savannah Technical College Police Department or a CSA they can assist the person in contacting their local police department. Victims are also not required to notify authorities of any crime and CSA's will notify victims that they are not required to report but if they wish to file a report CSA's can assist with this.

Making a Report to the College

You are encouraged to report to the Savannah Technical College Police or a local law enforcement agency any incident involving sexual assault, dating violence, domestic violence, and stalking. A report is an account or description of a specific incident. You may make a report without filing a complaint. You may make a report in person or in writing.

Filing a Complaint with the College

Filing a complaint is different from reporting an incident. A complaint is a request that the College investigate the incident. You may file a complaint with the Savannah Technical College Police Department, or with the Title IX Coordinator. Should you decide to make a complaint you will be asked to assist the police with the investigation, to provide the police with details of what happened, and assist with the collection of all relevant evidence.

Pursuing Criminal Charges

Every person subjected to sexual assault, dating violence, domestic violence or stalking maintains the right to file criminal charges with the appropriate local law enforcement agency in addition to making a report and/or filing a complaint with the College. For more information about pursuing criminal charges, contact the Savannah Technical College Police Department. Ultimately, the decision to file a complaint or pursue criminal charges is the victim's. You have the option of simply reporting the incident without filing a complaint and/or pursuing criminal charges, but you are strongly encouraged to make a report of any incident of sexual assault, dating violence, domestic violence, or stalking.

Possible Sanctions

After a determination that a student has violated the Student Code of Conduct, the Student Disciplinary Officer or his/her designee may impose one or more of the following sanctions:

- a. Restitution – A student who has committed an offense against property may be required to reimburse Savannah Technical College or other owner for damage to or misappropriation of such property. Any such payment in restitution shall be limited to the actual cost of repair or replacement.
- b. Reprimand – A written reprimand may be given to any student. Such a reprimand does not restrict the student in any way, but it signifies to the student that he/she is in effect being given another chance to conduct himself/herself as a proper Member of the Savannah Technical College Community, and that any further violation may result in more serious sanctions.
- c. Restriction – A restriction upon a student's privileges for a period of time may be imposed. This restriction may include but is not limited to denial of the right to represent Savannah Technical College in any way, denial of use of facilities, alteration or revocation of parking privileges, or restrictions from participating in extracurricular activities.
- d. Disciplinary Probation – Continued enrollment of a student on probation may be conditioned upon adherence to specified terms. Any student placed on probation will be notified of the terms and length of probation in writing. Any conduct determined after due process to be in violation of these terms while on probation may result in the imposition of more serious disciplinary sanctions, as specified by the terms of probation.
- e. Failing or lowered grade – In cases of academic misconduct, the Student Disciplinary Officer or his/her designee will make a recommendation to the Vice President for Academic Affairs or his/her designee who may authorize the instructor to award a failing or lowered grade in the course, a loss of credit on the assignment or examination, and may impose other additional sanctions including

- suspension or dismissal from Savannah Technical College. (Reference policy V.H. Academic Standards, Evaluations and Appeals.)
- f. Disciplinary Suspension – If a student is suspended, he/she is separated from Savannah Technical College for a stated period of time. Conditions of reinstatement, if any, must be stated in the notice of suspension.
- g. Disciplinary Expulsion – Removal and exclusion from Savannah Technical College, College controlled facilities, programs, events, and activities. A record of the reason for the student's dismissal is maintained by the Student Disciplinary Officer or his/her designee. Students who have been dismissed from Savannah Technical College for any reason may apply in writing for reinstatement twelve (12) months following the expulsion. If approval for reinstatement is granted, the student will be placed on disciplinary probation for a specified term. The probationary status may be removed at the end of the specified term at the discretion of the Student Disciplinary Officer or his/her designee.
- h. Interim Disciplinary Suspension – As a general rule, the status of a student accused of violations of the Student Code of Conduct should not be altered until a final determination is made regarding the charges against him/her. However, interim suspension may be imposed upon a finding by the Student Disciplinary Officer or his/her designee that the continued presence of the accused student on campus constitutes a potential or immediate threat to the safety and well-being of the accused student or any other member of the Savannah Technical College Community or its guests or that the continued presence of the student on campus creates a risk of substantial disruption of classroom or other College related activities.
- i. System-Wide Expulsion – Where a student has been expelled or suspended three times from the same or different colleges in the Technical College System of Georgia in the past seven years, the student may not be permitted to register at any college in the Technical College System of Georgia for a period of ten years after the most recent expulsion/suspension.

Violation of Federal, State, or Local Law

- a. If a student is convicted or pleads Nolo Contendere to an off-campus violation of federal, state, or local law but not with any other violation of the Student Code of Conduct, disciplinary action may be taken and sanctions imposed for misconduct that is detrimental to Savannah Technical College's vital interests and stated mission and purpose.
- b. Disciplinary proceedings may be instituted against a student charged with violation of a law that is also a violation of the Student Code of Conduct if both violations result from the same factual situation, without regard to criminal 49 arrest and/or prosecution. Proceedings under this Student Code of Conduct may be carried out prior to, simultaneously with, or following criminal proceedings.
- c. When a student is charged by federal, state, or local authorities with a violation of law, Savannah Technical College will not request or agree to special consideration for that individual because of his/her status as a student. The College will cooperate fully with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of student violators. Individual students, acting in their personal capacities, remain free to interact with governmental representatives as they deem appropriate.

Conditions of Disciplinary Suspension and Expulsion

- a. A student who has been suspended or expelled from Savannah Technical College shall be denied all privileges afforded a student and shall be required to vacate College premises at a time determined by the Student Disciplinary Officer or his/her designee.
- b. In addition, after vacating Savannah Technical College premises, a suspended or expelled student may not enter upon the College premises at any time, for any purpose, in the absence of written permission from the Student Disciplinary Officer or his/her designee. A suspended or expelled student must contact the Student Disciplinary Officer or his/her designee for permission to enter the College premises for a limited, specified purpose.
- c. If the student seeks to submit a signed Disciplinary Sanction Appeal Form, the Student Disciplinary Officer or his/her designee must accept the form by mail or fax if he/she refuses the student's request to enter Savannah Technical College premises for that specified purpose.
- d. A scheduled appeal hearing before the Judicial Body shall be understood as expressed permission from the Student Disciplinary Officer or his/her designee for a student to enter the Savannah Technical College premises for the duration of that hearing.

Mediation

1. At the discretion of the President, Savannah Technical College may adopt a mediation procedure to be utilized prior to the appeals set forth herein.

Appeals Procedure

1. A student who wishes to appeal a disciplinary decision by the Student Disciplinary Officer or his/her designee must file a written notice of appeal through the President's Office for review by the Judicial Body within five business days of notification of the decision.
2. The student will then have the right to appear in a hearing before a Judicial Body assigned by the President or his/her designee within 10 business days to present evidence and/or testimony. The student has the right to be assisted by any single advisor he/she chooses at his/her own expense. The student is responsible for presenting his/her own case; and therefore, advisors are not permitted to speak or to participate directly in any hearing before a Judicial Body. The Judicial Body may consist of two faculty members, one staff member, and two students. There shall be a single verbatim record, such as a tape recording of all hearings before the Judicial Body. The record shall be the property of Savannah Technical College. The standard of proof in all hearings shall be a preponderance of the evidence. The Chairperson of the Judicial Body shall notify the President and the Student Disciplinary Officer in writing of the Judicial Body's decision. The Savannah Technical College President or his/her designee will notify the student in writing of the Judicial Body's decision and the opportunity to appeal directly to the President.
3. The student shall have 5 business days after receiving written notification of the Judicial Body's decision from the President or his/her designee to request in writing an appeal with the Appellate Board. The student shall ensure that all relevant information is included with

this request.

4. The Appellate Board review shall be in writing and shall only consider evidence currently in the record, new facts not brought up in earlier stages of the appeal shall not be considered. The Appellate Board shall deliver its decision to the student within 10 business days. The decision of the Appellate Board shall be final and binding.

Bystander Intervention is defined as safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault, or stalking.

Bystander Intervention includes:

- Recognizing situations of potential harm;
- Understanding institutional structures and cultural conditions that facilitate violence;
- Overcoming barriers to intervening;
- Identifying safe and effective intervention options;
- Taking action to intervene.

Risk reduction is defined as options designed to:

- Decrease perpetration and bystander inaction;
- Increase empowerment for victims in order to promote safety; and
- Help individuals and communities address conditions that facilitate violence.

Bystander Intervention Risk Reduction Tips

Tips like these tend to make victims feel blamed if a sexual assault occurs. It is **never** the victim's fault, and these tips are offered in the hope that recognizing patterns can help men and women to reduce the risk of victimization. Generally, an assault by a known offender will follow a four-step pattern:

1. An individual's personal space is violated in some way. For example, the perpetrator may touch the victim in a way that does not feel comfortable.
2. If the victim does not express discomfort, the perpetrator may begin to view the victim as an easy target because she/he is not acting assertively
3. The perpetrator may take the victim to a location that is secluded and where the victim is vulnerable
4. The victim feels trapped or unable to be assertive and is raped or assaulted.

Decisive action early in an encounter may be the key to avoiding rape. An individual who can combine assertiveness and self-defense skills, who is self-confident and definite in his/her interactions with others, is less likely to become a victim of rape. If the individual can assertively defend his/her rights initially, he/she has a better chance of avoiding being raped than does a person who resorts to techniques such as pleading or trying to talk the perpetrator out of it. If you find yourself in an uncomfortable sexual situation, these suggestions may help you to reduce your risk:

1. Make your limits known before things go too far
2. Give clear messages. Say "yes" when you mean yes and "no" when you mean no. Leave no room for misinterpretation. Tell a sexual aggressor "NO" clearly and loudly.
3. Try to extricate yourself from the physical presence of a sexual aggressor
4. Grab someone nearby and ask for help
5. Be responsible for your alcohol intake/drug use and realize that alcohol/drugs lower your sexual inhibitions and may make you more vulnerable to someone who views a drunk or high person as a sexual opportunity.
6. Watch out for your friends and ask that they watch out for you. A real friend will get in your face if you are about to make a mistake. Respect them if they do.
7. Be aware of any nonverbal messages you may be sending that conflict with what you are saying. Notice your tone of voice, body language, and eye contact
8. Be forceful and firm when necessary. Don't be concerned with being polite. Your passivity may be interpreted as permission or approval for this behavior.
9. Do not acquiesce to something you do not want just to avoid unpleasantness. Do not allow politeness to trap you in a dangerous situation. This is not the time to be concerned about hurt feelings.
10. Trust your feelings or instincts. If a situation does not feel comfortable to you, or if you feel anxious about the way your date is acting, you need to respond. Leave immediately if necessary.

If you find yourself in the position of being the initiator of sexual behavior, you owe sexual respect to your potential partner. These suggestions may help you reduce your risk for being accused of sexual misconduct:

1. Do not make assumptions about:
 - a. Consent;
 - b. Someone's sexual availability;
 - c. Whether a person is attracted to you;
 - d. How far you can go; or
 - e. Whether a person is physically and mentally able to consent to you.

2. Clearly communicate your intentions to your sexual partner and give him/her a chance to clearly relate his/her intentions to you.
3. Mixed messages from your partner should be a clear indication that you should step back, defuse the sexual tension, and communicate better. Perhaps you are misreading your partner. Perhaps your partner has not figured out how far he/she wants to go with you yet. You need to respect the timeline with which your partner is comfortable.
4. Do not take advantage of someone's drunkenness or drugged state, even if he/she did it to him/herself.
5. Realize that your potential partner could be intimidated by you, or fearful. You may have a power advantage simply because of your gender or size. Do not abuse that power.
6. Understand that consent to some forms of sexual behavior does not necessarily imply consent to other forms of sexual behavior. On this campus, silence and passivity cannot be interpreted as an indication of consent. Read your potential partner carefully, paying attention to verbal and non-verbal communication and body language.
7. Do not force someone to have sex with you, or have sex with a partner who has not clearly consented to you by words or actions unmistakable in their meaning.

Registered Sex Offender Information

In accordance with the "Campus Sex Crimes Prevention Act" of 2000, which amends the Jacob Wetterling Crimes against Children and Sexually Violent Offender Registration Act, the Jeanne Clery Act and the Family Educational Rights and Privacy Act of 1974, The Savannah Technical College Police Department is providing a link to the Sex Offender registries.

Drug Free Schools & Communities Act

In accordance with the Drug-Free Schools and Communities Act Amendments of 1989, Savannah Technical College provides the following information to promote a campus environment free of illicit drug use and alcohol abuse, and to prevent the abuse of alcohol and drugs by students and employees.

STC has partnered with EverFi, whose mission is to help students address critical life skills such as alcohol abuse prevention and sexual assault prevention in high schools and higher education institutions across the country. Each year over one-half million students complete these courses. As part of our comprehensive prevention efforts for new students, STC expects students to complete AlcoholEdu and Haven during their first semester of enrollment. These online courses are thoughtful and educational programs for adults committed to thinking about their life choices. New students are provided course completion information at the beginning of each semester. More information about AlcoholEdu and Haven can be found at www.everfi.com.

Savannah Technical College believes that illegal drugs and abuse of alcohol have no place in the college environment. The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance or alcohol is strictly prohibited in all facilities of the college, in all places where employees/students work/attend, including all state-owned vehicles, and as any part of the college's activities. As a condition of employment/enrollment, all employees/students shall abide by this prohibition and notify the college of any criminal drug or alcohol use. Violation of such prohibition shall result in action against the employee/student, which shall include action up to and including termination/expulsion, and/or satisfactory participation in an approved drug or alcohol abuse assistance or rehabilitation program. Participation in such a program shall not be paid for by the college, but may be covered by an employee's/student's health insurance policy.

No student may engage in the unlawful manufacture, possession, use or distribution of illicit drugs and alcohol on the Savannah Technical College's property or as part of any of its sponsored activities. Such unlawful activity may be considered sufficient grounds for serious punitive action, including expulsion. Disciplinary sanctions for students convicted of a felony offense involving alcohol or the manufacture, distribution, sale, possession or use of marijuana, controlled substances or other illegal or dangerous drugs shall be immediate suspension and denial of further state and/or federal funds from the date of conviction. Specifically, in the case of a drug related offense the student shall minimally be suspended for the remainder of the semester and forfeit all academic credit for that period.

Disciplinary Sanctions imposed by Student Code of Conduct

Savannah Technical College will impose sanctions on students that violate institutional policy on unlawful possession, use, or distribution of illicit drugs and alcohol by: (1) Temporary or permanent dismissal and (2) Referral for prosecution. Note: Use of a drug as prescribed by a medical prescription written specifically for the user by a registered medical practitioner shall not be considered a violation of this rule.

STC shall notify the appropriate state/federal funding agency within 10 days after receiving notice of the conviction from the student or otherwise after receiving the actual notice of conviction. Within 30 days of notification of conviction, the Technical College shall with respect to any student so convicted:

1. Take additional appropriate action against such student up to and including expulsion as it deems necessary.
 2. Provide such student with a description of any drug or alcohol counseling treatment, or rehabilitation or re-entry programs that are available for such purposes by a federal, state or local health, law enforcement or other appropriate agency.
- In compliance with the Technical System of Georgia (TCSG) State Board Policy, Savannah Technical College has established and maintains a system of student discipline that is fair and efficient and carries out the TCSG policies which can be found at www.tcsg.org. Savannah Technical College recognizes its responsibility to provide an atmosphere conducive to educational activity and adheres to the STC Student Code of Conduct policy and procedure.

Criminal Sanctions

Under Georgia and federal law, it is a crime to possess, manufacture, sell, or distribute illegal drugs. As required by federal regulations, charts at the current Safe and Secure Web site detail federal penalties for drug trafficking and state sanctions for the unlawful possession or distribution of illicit drugs.

Federal sanctions for the illegal possession of drugs include imprisonment up to 1 year and/or a minimum fine of \$1,000 for a first conviction; imprisonment for 15 days to 2 years and a minimum fine of \$2,500 for a second drug conviction; and imprisonment for 90 days to 3 years and a minimum fine of \$5,000 for a third or subsequent drug conviction. For possession of a mixture or substance which contains a cocaine base, federal sanctions include 5 to 20 years in prison and a minimum fine of \$1,000 for a first conviction if the mixture or substance exceeds 5 grams, for a second conviction if the mixture or substance exceeds 3 grams, and for a third or subsequent conviction if the mixture or substance exceeds 1 gram. Additional possible penalties for the illegal possession of drugs are forfeiture of real or personal property used to possess or to facilitate possession of a controlled substance if the offense is punishable by more than 1 year imprisonment; forfeiture of vehicles, boats, aircraft, or any other conveyance used, or intended for use, to transport or conceal drugs; civil fine up to \$10,000 per violation; denial of federal benefits, such as student loans, grants, contracts, and professional and commercial licenses for up to 1 year for the first and up to 5 years for a second or subsequent offense; successful completion of a drug treatment program; community service; and ineligibility to receive or purchase a firearm.

Georgia law prohibits the purchase or possession of alcohol by a person under the age of 21, or the furnishing of alcohol to such a person. Driving under the influence of alcohol or other drugs also is illegal. It is against Georgia law, under certain circumstances, to walk and be upon a roadway while under the influence of alcohol or other drugs. The punishment for these offenses may include imprisonment, payment of fine, mandatory treatment and education programs, community service, and mandatory loss of one's driver's license.

The use, possession, manufacture, distribution, dispensing, and trafficking of illegal drugs is prohibited by federal law. Strict penalties are provided for drug convictions, including mandatory prison terms for many offenses. The following information, although not complete, is an overview of potential federal statutory maximum penalties. However, precise federal sentencing is governed by the Federal Sentencing Guidelines. Please note that sentencing under these guidelines can result in penalties that are more severe than the federal statutory maximums and which are more severe than the penalties imposed under state law under certain circumstances. A federal drug conviction may result in the denial of federal benefits, such as student loans, grants, contracts, and professional and commercial licenses, up to one year for first offense, up to five years for second and subsequent offenses [21 U.S.C. sec. 853]. Moreover, any person convicted of a federal drug offense punishable by more than one year in prison will forfeit personal and real property related to the violation, including homes, vehicles, boats, aircraft, or any other personal belongings [21 U.S.C. sec. 853(a)(2), 881(a)(7) and 881(a)(4)]. Further, persons convicted on federal drug trafficking within 1,000 feet of Savannah Technical College may face penalties of prison terms and fines that are twice as high as regular penalties for the offense, with a mandatory prison sentence of at least one year [921 U.S.C. sec. 845(a)].

Health Risks Associated with the Use of Illicit Drugs and the Abuse of Alcohol

The use of illicit drugs and the abuse of alcohol can, and in many instances, will lead to serious health problems, chemical dependency, deterioration of the quality of life, and, if untreated, early death.

- Cocaine provides a short-lived "high" followed by depression, paranoia, anxiety, guilt, anger, and fear. It can cause rapid physical and psychological addiction. In some instances, cocaine may cause a heart attack or sudden death, even on the first use. The dangers of this highly addictive drug and its close derivative, "crack", are evidenced daily through the news media. Overdose of cocaine (or other stimulants) can cause agitation, increase in body temperature, hallucinations, convulsions, and possible death.
- Marijuana, like cocaine, provides a short-term high, and like cocaine, is addictive. While the "high" may last only a short time, traces remain in the body for a month or more, inhibiting short-term memory, reducing reaction time and impairing visual tracking. It may also cause an inability to abstract and understand concepts. In some instances, it can depress the immune system, increase the risk of heart attack, contribute to lung diseases, and infertility. Marijuana and other cannabis can cause euphoria, relaxed inhibitions, increased appetite, and disoriented behavior. Overdose can cause fatigue, paranoia, and possible death.
- Depressants such as barbiturates, chloral hydrate, benzodiazepines, etc., can cause slurred speech, disorientation, and drunken behavior without the odor of alcohol. Overdose can cause shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, and possible death.
- Hallucinogens such as LSD, Mescaline, and Peyote amphetamine variants, etc., can cause illusions and hallucinations, and poor perception of time and distance. Overdose can cause longer, more intense illusionary hallucinatory episodes, psychosis, and possible death.
- Narcotics such as opium, heroin, morphine, and codeine can cause euphoria, drowsiness, respiratory depression, constricted pupils, and nausea. Overdose of narcotics can cause slow and shallow breathing, clammy skin, convulsions, coma, and possible death.
- Prescription drugs, used improperly, can cause tiredness, or hyperactivity, impaired reflexes, brain damage, and, in some

instances, addiction or death.

- Alcohol, used abusively, will impair judgment, result in anxiety, feelings of guilt, depression, and isolation. Prolonged use may cause liver and heart disease, cancer, and psychological problems and dependency in the form of alcoholism. Alcohol used by pregnant women is the leading preventable cause of mental retardation in children.

Drug and Alcohol Abuse Education Programs

A variety of counseling services and treatment centers are available throughout the state for anyone experiencing problems related to substance abuse. Although most counseling and treatment centers charge for their services, some programs are free of charge.

Faculty, staff, and students should avail themselves of sources to identify the services or programs that most closely meet their specific needs.

The following agencies can be contacted for assistance with drug/alcohol abuse related issues:

Weapons Policy

The Technical College System of Georgia is committed to providing all employees, students, volunteers, visitors, vendors, and contractors a safe and secure workplace and/or academic setting. Georgia state law shall govern the possession, carrying, or transportation of a firearm, weapon, or explosive compound/material in or on College buildings or property. All individuals are expected to comply with the related laws. Failure to follow laws pertaining to weapons is considered a violation of the Student Code of conduct. Relevant Georgia laws to be aware of and compliant with include but are not limited to:

Related Authority

O.C.G.A. § 16-8-12(a)(6)(A)(iii)
O.C.G.A. § 16-7-80

Safety Escorts

Savannah Technical College Police Department offers safety escorts to any faculty, staff, or students who wish to be escorted from their class or office to their vehicles. To have a safety escort call (912)443-5200.

For more information about Campus Safety and Security, visit the website at <http://www.savannahtech.edu/about-stc/campus-information/campus-safety-security/>

Student Organizations and Special Programs

Student Representation in Governance

Students' role in decision-making is an advisory one accomplished through the Savannah Technical College Student Leadership Council. Representatives from each program area serve on the Student Leadership Council. The council sponsors various events and manages community service and college improvement projects. Students interested in serving on the council should contact their respective program advisors.

During Spring Semester, council representatives elect officers who serve a one-year term that begins the following Fall Semester. The permanent slate of officers includes the president, vice president, treasurer, and secretary. A majority vote of the council establishes other officer positions. The officers serve on the Executive Board of the Student Leadership Council. The Executive Board approves expenditures of student activity fees, oversees budget requests submitted by student organizations, determines fund raising policies for student organizations, evaluates fund-raising activities conducted by student organizations, establishes meeting schedules for the student advisory council, reviews and recommends changes to the by-laws of the council, and coordinates the activities of the council. The Coordinator of Student Activities serves as the College advisor for the student advisory council and is an ex-officio member of the Executive Board.

Student Organizations

Savannah Technical College encourages students to participate in organizations to build leadership and service capabilities and to further their professional development. Student organizations exist to offer fellowship, related educational experiences, continuing education, networking, and professional competition at local, state, and national levels. Savannah Technical College administers a program of co-curricular activities through the Student Activities Office. Membership in all student organizations and participation in all student activities is open to all students regardless of race, color, ethnic or national origin, sex, disability, or age. Students should contact the Office of Student Activities for a complete list of the organizations available to students.

Savannah Technical College established local chapters of national honor societies to recognize and encourage scholarship among students and to foster academic excellence among their members. National Technical Honor Society is for all students, and Phi Theta Kappa is for students pursuing associate degrees. Membership in these organizations is by invitation and based on academic achievement.

Chartering New Student Organizations

Flexibility is the basis for forming and dissolving student organizations. The College sanctions campus organizations when students or faculty express an interest in creating one, and the College dissolves organizations when there is a lack of interest or the organization is no longer serving a need. Students wishing to charter a new student organization must submit the following information in writing to the Coordinator of Student Activities:

- Name of organization;
- Names of students filing the proposal;
- Purpose of the organization, including an explanation of its need;
- Qualifications for membership;
- Proposed membership fees;

- Number of students wishing to join;
- Officer and leadership structure;
- Time and process for the election of officers;
- Explanation of extra-campus affiliations, such as national parent organizations;
- Proposed bylaws and charter, including guarantees that student organizations will abide by the College's non-discrimination policies and the Student Code of Conduct;
- Proposed meeting schedule; and
- Signed statement from a faculty or staff member of Savannah Technical College signifying agreement to serve as the advisor for the organization.

The Coordinator of Student Activities will examine charter applications and reject those not properly submitted. After this review, the coordinator will submit charter applications to the Vice President for Student Affairs and President for final approval.

The College recognizes those organizations whose purposes and proposed activities clearly relate to the educational goals and mission of the College. The College will deny recognition if evidence shows that proposed organizations will likely interfere or conflict with the educational process of the College or the regular and orderly operation of the College; appropriate discipline within the College Community; academic pursuits of teaching, learning, and other campus activities; laws or public policies of the State of Georgia and the United States; and/or regulations of the College and the policies of the Board of Directors of the Technical College System of Georgia.

If the Coordinator of Student Activities denies recognition, students submitting the charter application may appeal the decision to the Vice President for Student Affairs. If the Vice President denies recognition, students may appeal the decision to the President of the College. The decision of the President shall be final.

Approval of charters authorizes new organizations to use college facilities and equipment, subject to policies established by the College and the Board of Directors of the Technical College System of Georgia. In receiving approval, new organizations are eligible to receive student activities funds, subject to the policies of the College and Board of Directors of the Technical College System of Georgia that govern the allocation of student activity fees through the Executive Board of the Student Leadership Council.

Rules and Regulations Governing Student Organizations

All student organizations must have faculty/staff advisors. The advisor is responsible for guiding club activities and ensuring that student organizations follow all rules and regulations of the College and the Board of Directors of the Technical College System of Georgia. Advisors must report any violations of these rules and regulations to the Coordinator of Student Activities. Students who violate these rules and regulations are subject to the student disciplinary procedures as outlined in this catalog.

Activities of organizations must conform to the stated purposes in the organizational charters and bylaws. The College prohibits damage to College property, other entities, or people resulting from organizational activities, and student organizations are responsible for all damages. Savannah Technical College also prohibits organizational activities that encourage disorderly conduct that interferes with regular and orderly operations of the College. No organization shall commit, encourage, condone, or contribute to violations of College rules and regulations, the policies of the Board of Directors of the Technical College System of Georgia, or the laws of the State of Georgia or the United States.

Organizations must carry out business transactions and contractual relations with punctual discharge of valid obligations and prudent use of funds. The use of allocated student activities monies must conform to the purposes and practices approved by the Executive Board of the Student Leadership Council. Organizations must submit all financial records to the Coordinator of Student Activities each semester. Failure to submit financial records results in the forfeiture of allocated student activities monies for the remainder of the academic year.

To receive annual allocations of student activities monies, organizations must submit proposed budgets each Spring Semester to the Executive Board of the Student Leadership Council. In allocating student activities monies, the Executive Board takes into account membership activity, fundraising efforts during the preceding academic year, community activities, and campus-based activities designed to improve overall student experience.

The Coordinator of Student Activities must approve all campus displays, including posters, notices, and banners. The College prohibits displays that litter the campus, damage College property, or materially interfere with the regular operations of the College. Campus displays or other materials produced by student organizations shall not contain material that is obscene or defamatory (as defined by the Code of Georgia, 26-20101).

The Coordinator of Student Activities and the Vice President for Student Affairs periodically review the activities of all student organizations to determine if they are complying with College rules and regulations and to ensure that student fund-raising activities are consistent with overall College objectives. Savannah Technical College may bring charges against recognized organizations for

violating College rules and regulations. A judiciary body will hear these charges and render a verdict (see Student Disciplinary Policies and Procedures).

Student Organization Fundraising

The Coordinator of Student Activities will only authorize fundraising activities for those student organizations officially chartered by the College. The College defines student organization fundraising as seeking donations or support from others; the selling and distribution of items, materials, products, or services; and the sponsorship of events where admission is charged. All fundraising events must be consistent with the policies and procedures of the College and the Board of Directors of the Technical College System of Georgia and the laws of the State of Georgia and the United States.

To receive approval, proposed student organization fundraising must comply with the following:

- Projects may not interfere with normal academic programs or functions.
- Fundraising activities may not take place in offices or classrooms, and organizations may only conduct fundraising activities in areas approved by the Coordinator of Student Activities.
- Student organizations must submit all fundraising requests to the Coordinator of Student Activities at least two weeks prior to the proposed events.

The Coordinator of Student Activities will give priority to fundraising that is educational or directly relevant to the curriculum, philanthropic in nature, or beneficial to the entire College Community.

Offices or advisors of student organizations may not sign contracts until the Coordinator of Student Activities and the Vice President for Administration Services approve the requests and contracts. Student organizations must document receipts and disbursements for each approved fundraising activity to the Business Office within five days after the completion of an activity. The business office must approve procedures for collecting money, and all checks must be payable to Savannah Technical College. Organizations can hold up to two fundraising events per semester. Organizations must submit separate requests for each fundraising activity.

Failure to comply with these rules will be grounds to deny future requests. The College may deny fundraising requests for any of the following:

- Adequate resources are unavailable to assist in supporting projects.
- The requested activities are clearly outside the express purposes of the organization as stated in charters and/or bylaws.
- The organization is on disciplinary probation or suspension or is inactive.
- The risk factor is excessive.
- The requested activities are not consistent with the policies and procedures of the College or the Board of Directors of the Technical College System of Georgia and the laws of the State of Georgia and the United States.
- Another student organization is planning a fundraising activity during the dates requested.

Campus Life

Savannah Technical College is committed to meeting the educational needs of its students and recognizes that students benefit from involvement in campus organizations and activities. Savannah Technical College facilitates leadership development and personal enrichment by providing a variety of organizations and activities in which students may participate. The Student Affairs Division oversees all student activities and organizations. The Vice President for Student Affairs or his designee must approve all student activities in advance. Faculty and staff advisors of the organizations must be sure that the organizations observe all rules and regulations of the College and hold true to the principles and purposes on which they were established.

Decision Making Process

Student feedback and opinions play a significant role in institutional decisions affecting their interests. Students may also participate in the decision making process at Savannah Technical College through the Student Leadership Council (SLC), student professional organizations, task forces and committees, focus groups, various advisory committees, staff selection committees, and written evaluations of courses and services offered. The SLC plans college-wide activities and service projects each year. A comprehensive student satisfaction inventory is also given to large groups of students every other year to gather feedback on current issues and services provided. Students also contribute to decision-making through input they give on surveys and evaluations throughout the year such as the Graduating Student Survey.

Student Leadership Council

The Student Leadership Council (SLC) includes students from all programs of study. The purpose of the organization is to promote better relations between the students and faculty, to enhance the physical appearance of the school, to help promote the school and its functions, to plan student activities and to help the school in any way possible. SLC meets on a monthly basis and other times as needed.

Phi Theta Kappa

Phi Theta Kappa is the national academic honor society for Savannah Technical College. The American Association of Junior Colleges recognizes Phi Theta kappa as the national honor society for junior colleges. Membership requirements are 3.5 or better cumulative GPA and 12 credit hours in degree level courses.

Phi Theta Kappa's mission is two-fold:

1. Recognize and encourage the academic achievement of two-year college students and;
2. Provide opportunities for individual growth and development through participation in honors, leadership, service, and fellowship programming.

Phi Beta Lambda

The purpose of Phi Beta Lambda (PBL) is to provide opportunities for postsecondary students to develop vocational competencies for business and office occupations. PBL is an integral part of the instructional programs at Savannah Technical College and promotes a sense of civic and personal responsibility in students.

The specific goals of PBL are to:

1. Develop competent, aggressive business leadership;
2. Strengthen the confidence in students;
3. Create more interest in and understanding of American business enterprise;
4. Encourage membership in the development of individual projects that contribute to the improvement of home, business and community;
5. Promote sound financial management;
6. Encourage scholarship and promote school loyalty;
7. Assist students in the establishment of occupational goals; and
8. Facilitate the transition from school to work.

National Technical Honor Society

The National Technical Honor Society (NTHS) is an honor organization for students enrolled in occupational technical programs. NTHS works to promote leadership, honesty, career development and skilled workmanship; to award student achievement; to encourage and assist student education and career goal setting; to promote stronger linkage between local technical colleges, business and industry; and to promote the image of technical education.

In order to become a member of NTHS, a student must:

1. Be recommended by an instructor in his/her program;
2. Have taken 12 credit hours per semester for two consecutive semesters in one program;
3. Have and maintain a 3.0 overall average, excluding courses in developmental studies;
4. Not make lower than a final grade of B in any course; and
5. Have good character, exhibit leadership skills and plan to pursue a career in his/her program of study.

Benefits of membership in NTHS are: Certificate of membership card and pin Seal indicating membership on diploma Graduation Ceremony Honor Cord

Professional Organizations

Students are encouraged to participate in organizations related to their programs of study. Student organizations are formed to encourage on-campus student participation and engagement. Students have opportunities to network with others in their program areas as well as with faculty and staff advisors. Participation in student organizations helps to develop students' leadership skills, promotes social interactions, and encourages students to become involved in community and civic activities.

The following is a list of active organizations (August 2019):

American Welding Society Student Chapter
Barbering Club
CNA/PCT
Construction Management Student Association
Cosmetology Club
Dental Assisting Club
Electrical Construction Club
Emergency Medical Services Club
GA Film Club
Health Sciences Professionals Club
Historic Preservation Club
HOLA (Latin Club)
International Association Journey 2 Success (AO)
Liberty Association for the Education of Young Children (LAEYC)
LEX Honor Society for Paralegal Studies
Medical Assisting Club
National Technical Honor Society (NTHS)
Paralegal Student Association
Peace Officer Academy Club
Phi Theta Kappa Honor Society
Phlebotomy Club
Practical Nursing Club (Liberty)
Practical Nursing Club (Savannah)
Savannah Association for the Education of Young Children (SAEYC)
Student Leadership Council (SLC)
SADHA (Dental Hygiene)
Savannah Tech Automotive Liberty
Savannah Tech Automotive Savannah
Skills USA
Student American Dental Hygienists' Association
Student Veteran Association
Surgical Technology Club
Young Professional Culinary Club

Georgia Occupational Award of Leadership (GOAL)

(A local, regional, and state competition involving students)

The Georgia Occupational Award of Leadership (GOAL) program was established in 1971 to recognize and reward excellence in technical education. The GOAL program is an outstanding example of education joining hands with business and industry. The objectives of the GOAL program are as follows:

1. To spotlight the role of technical education in our modern economy.
2. To reward those students who excel in learning a gainful skill.
3. To stimulate greater pride in workmanship.
4. To generate greater public respect and appreciation for the working man and woman.
5. To emphasize the dignity of work in our society.

Instructors nominate outstanding students for the GOAL program. A winner is then chosen by means of a two-part interview process. The Savannah Technical College winner competes at the consortia level and at the state level where Georgia's technical college student of the year is announced.

Skills USA

(A state and national competition involving students)

Skills USA is a professional organization that recognizes outstanding students in secondary and postsecondary education. Skills USA members participate in chapter meetings, competitions, leadership conferences, and activities. Members conduct community service projects. They can also interact with local business people in their field of study. Through the Skills USA Championships program, members can earn recognition, industry tools and prizes, and college scholarships by competing in local, state, and national competitions.

Fieldtrips

Purpose:

Field Trips can be an important component of a student's educational experience and the use of such out-of-classroom experiences is encouraged when appropriate. College sponsored field trips shall be education-related and conducted with a focus on the safety of students and staff, fiscal responsibility and academic responsibility.

Definitions:

Field Trip: any activity which normally involves off-campus travel for one or more students enrolled in the college or Adult Education program. Independent study, internships, class meetings, and off campus work on an individual project are not considered Field Trips.

Section 504 Coordinator: an individual designated by the president of the college to ensure compliance with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 as Amended, and any other state and federal regulations governing disabilities; the responsibilities of the 504 Coordinator will include, but may not be limited to evaluating students requesting accommodations for a disability and ensuring equal access to facilities, services and programs.

Sponsor: an employee of the college who is organizing a field trip and/or accompanying students on a field trip.

Procedure:

- A. Driver Qualifications/Transportation
 1. Any employee who operates a vehicle for field trip activities must be in compliance with the TCSG Driver Qualification Procedure.
 2. Savannah Tech will ensure that any state owned vehicle offered for transportation is properly maintained and insured in accordance with Georgia Department of Administrative Services regulations.
 3. If chartered transportation is utilized for field trips, Savannah Tech must ensure that the provider has the appropriate liability insurance and is utilizing properly licensed professional drivers.
 4. A person renting a car should not allow others to drive the vehicle unless such use has been authorized by the rental agency.
 5. The President may determine that personal vehicles will not be used by any employee or student for the transporting of students on field trips.
 6. Any traffic and parking citations received during the course of a field trip are the responsibility of the driver, and must be immediately reported to the employee's supervisor.
 7. Savannah Tech transportation for field trips must be provided and must depart from and return to the Savannah Tech campus.
- B. Students participating in field trips are required to sign the at "Behavior Standards for Off-Campus Activities and the Travel Consent and Disclosure form"; if the student is under the age of 18, the form must be executed by a parent or legal guardian.
- C. Savannah Tech must provide reasonable accommodations to students with disabilities to enable them to participate in field trips. Questions regarding accommodations may be addressed to the college's Section 504 Coordinator or the Office of Legal Services.
- D. For each field trip, the technical college must have a designated contact person on campus with information about the field trip in the event that emergency communication is necessary. Information should include the purpose, location, duration, mode and route of transportation, and emergency contact information for each participating student or sponsor. Field trip sponsors should have access to communicate with contact or emergency personnel at all times and are required to maintain a copy of the emergency contact information for each participant during the course of the trip.
- E. Whenever possible, field trips should be clearly identified in the course syllabus (including location, time, and mode of transportation). The syllabus should also identify the field trip as "required" if student participation is mandatory. The sponsor should discuss in appropriate detail with students the risks associated with the activity, relevant emergency preparedness information, as well as expectations for behavior during the activity (including transit to and from the location(s)).

- F. Sponsors will be subject to all policies and procedures, including the Ethics and Standards of Business Conduct during the course of a field trip.
- G. Students are subject to all policies and procedures, including the Student Code of Conduct.

Tutorial Services

Counseling and Disability Services

Counseling and Disability Services are available to any student at Savannah Technical College. Short term individual and academic counseling is available on all campuses. Students may request counseling for themselves or be referred by a faculty or staff member. The First Alert System is a referral system through which an instructor can refer a student for academic or personal assistance. It provides a team approach to problem solving with the instructor, the student, and the counselor working together.

Counseling at Savannah Technical College is a mental health resource to provide free, short-term personal and confidential counseling and referral service. The purpose of this resource is to help students acquire the skills, attitudes, and insights to enable them to address stress and conflicts that may prevent them from reaching their full potential. Workshops are presented each semester on topics such as goal setting, balance and wellness, stress management, overcoming test anxiety, effective communication, and self-esteem. To request counseling services, students should contact the Counselor/Coordinator of Special Populations Services at 912.443.5717.

Disability Services are offered to students who self-identify and provide appropriate documentation of a disability. Savannah Technical College strives to provide reasonable accommodations based on the nature of the disability.

Accommodations may include, but are not limited to: extended time on tests, special testing arrangements, use of print enlarging screen readers, recording class lectures, sign language interpreters, books in alternate format, short term counseling, and assistive technology.

Service or Assistance Dogs, as defined by the Americans with Disabilities Act (ADA) and/or the Official Code of Georgia Annotated, must be individually trained to perform tasks for the benefit of a person with a disability. Some examples, among other things, are pulling a wheelchair, retrieving dropped items, alerting a person to a sound, reminding a person to take medication, or pressing an elevator or crosswalk button. Service or Assistance animals can go anywhere members of the public are allowed because they are not pets. Service or Assistance animals must be housebroken and cannot exhibit aggressive behavior.

Emotional Support Animals are not specifically defined by the ADA or Georgia Law. Emotional Support Animals are not specifically required to be trained to perform a specific task or job and do not qualify as a Service or Assistance animals and therefore are not afforded the same protections in regard to public places.

As defined by the Americans with Disabilities Act (ADA), a qualified individual is one who, with or without reasonable accommodations, can perform the essential functions of a program or course requirement. The College is not required to lower or make extensive modifications to essential functions of a program or course requirement to accommodate a student with a disability. The College does not have to make modifications that would fundamentally alter the nature of a service, program, or activity or that would result in undue financial or administrative burdens.

Students with disabilities may request services at any time but are encouraged to do so as early as possible. Some accommodations may take more time to provide than others. If a person chooses to voluntarily disclose a disability, the following steps may be used:

1. Contact the Coordinator of Special Populations at 912.443.5717 or e-mail specpops@savannahtech.edu.
2. Provide documentation from a licensed psychiatrist, a psychologist, or another qualified health professional who is an expert in the field of the disability. The professional's report should be dated and signed. The costs of obtaining documentation are the student's responsibility. Individual Education Plans are not sufficient documentation for college accommodations. Disability related information will be kept confidential and filed in the Office of Special Populations.
3. Communicate with disability services each semester to request accommodations. Savannah Technical College is committed to providing an equal educational opportunity for all students who have a documented disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990.

Special Populations

Special Populations is a program designed to help single parents, nontraditional students, financially at-risk students, displaced homemakers, students with disabilities, and individuals with limited English proficiency overcome existing barriers to education. For additional information, contact the Coordinator of Special Populations at 912.443.5717. Upon verifying eligibility for the program, a student may be able to receive assistance with the following services:

- Short term counseling

- Workshops offered each semester
- Referrals to community and school services

Special Populations information is collected when the student is accepted into Savannah Technical College by completing the Special Populations Survey form at <http://www.savannahtech.edu/new-student-special-population-disclosure-form/>. Any enrolled student interested in applying to the program may contact the Coordinator of Special Populations at any time.

Center for Working Families

Savannah Technical College became a Center for Working Families partner in 2010. STC's Office of Student Support Services works with many community partners in our four county area and has access to multiple resources for our students through these CWF partnerships. STC offers SNAP (Food Stamp) screening and assessment for other benefits as a function of our Center for Working Families so students can be informed of all the benefits they are eligible for.

Career Services

Savannah Technical College provides career services for all students. Students who need assistance finding employment; help with resume/cover letter development; job interview preparation; or to review available job listings should contact the Career Services Office at 912.443.5880 or visit the Career Center which is located in the Student Affairs One Stop Center. The philosophy at Savannah Technical College emphasizes that to be effective, career services must include administrators, staff, faculty, advisory members and students. Services include job search assistance, job referral, employability skills (EMP 1000), and assistance with resume/cover letter preparation and work ethics within each occupational program. More information and current job openings are available on the STC website.

Career Counseling

Career services and counseling are available to any potential or current student unsure of a program choice. Career inventories and/or assessments are available in the Career Center which is located in the Student Affairs. Career or program questions may be discussed with the Career Services Coordinator. Final program decision is up to the student. To request career counseling services, students should contact the Career Services Coordinator at 912.443.5880.

Non-Discrimination

Statement of Equal Opportunity

The Technical College System of Georgia and its constituent Technical Colleges do not discriminate on the basis of race, color, creed, national or ethnic origin, sex, religion, disability, age, political affiliation or belief, genetic information, disabled veteran, veteran of the Vietnam Era, Spouse of military member, or citizenship status (except in those special circumstances permitted or mandated by law). This nondiscrimination policy encompasses the operation of all technical college- administered programs, programs financed by the federal government including any Workforce Innovation and Opportunity Act (WIOA) Title I financed programs, educational programs and activities, including admissions, scholarships and loans, student life and athletics. It also encompasses the recruitment and employment of personnel and contracting for goods and services. The Technical College System of Georgia and Savannah Technical College shall promote the realization of equal opportunity through a positive continuing program of specific practices designed to ensure the full realization of equal opportunity. The following persons have been designated to handle inquiries regarding the nondiscrimination policies:

EMPLOYEES:

Overseer Civil Rights Coordinator

Title IX (Equity), Section 504/ADA (Disability)

Melissa Banks – 912.443.3388

Student Consumer Information

Student Body Diversity

The Higher Education Act of 1965 (HEA), as amended by the Higher Education Opportunity Act of 2008 (HEOA), includes disclosure and reporting requirements that institutions are required to make available to current and prospective students. The following represents the percentage of full-time students by gender and by race/ethnicity group for AY 2016. The percentage of full-time students in that term who received the Pell Grant is also included.

Category	Percentage of full-time enrollment
Male	39.8%
Female	60.2%
Nonresident Alien	.9%
Hispanic	6.8%
American Indian	0.3%
Asian	2.0%
Black	48.7%
White	38.3%
Multi-Racial	2.4%
Pell Grant Recipients	53.7%

For more information about the Higher Education Opportunity Act, please refer to the U.S. Department of Education website at:

<http://www2.ed.gov/policy/highered/leg/hea08/index.html>

ACADEMIC INFORMATION

Policy on Catalog and Requirements

Each student at Savannah Technical College is responsible for learning and observing all current, published policies, regulations and procedures required by the College and by the program in which he or she is enrolled. Published policies, regulations or procedures will not be waived nor will an exception be granted because a student pleads ignorance of the regulating documents or asserts that he or she was not informed of a specific requirement by a faculty advisor or by a College staff member. Each student must be especially familiar with the offerings and requirements of his/her major or program of study.

While the provisions of the appropriate catalog will normally be applied as stated, Savannah Technical College reserves the right to change any provision listed in a catalog including, but not limited to, academic requirements for graduation. Savannah Technical College will make a reasonable effort to keep students advised of any such changes and information on changes made by Savannah Technical College will be available in the Student Affairs Office. Each student must be aware that it is his/her responsibility to remain informed about current graduation requirements for his/her particular program. A candidate for graduation is normally subject to the curriculum requirements that are in effect at the time of initial enrollment. However, in consultation with his/her advisor, a student may elect to satisfy the graduation requirements specified in any of the catalogs in effect subsequent to the time of initial enrollment with the following exception: a student not enrolled for one semester is subject to the requirements in effect at the time of reentry.

Registration

Approximately week four of each semester, a mandatory five-week advisement and registration period is offered to schedule for all continuing students. Current students not registered during the mandatory five-week advisement and registration period will be charged a late registration fee (see Tuition and Fees Schedule).

Attendance/Withdrawal

Students are expected to be punctual and attend all classes for which they are registered. Attendance requirements vary by academic program and students should consult with their instructor to determine the specific attendance requirements for the class. Class participation includes completing activities, such as, submitting assignments, taking exams/quizzes, participating in interactive tutorials or computer-assisted instruction. Students who are registered for online or hybrid classes are expected to participate in those classes by completing assignments (including syllabus exam), contributing to online discussions, and initiating contact with a faculty member. Logging into the online or hybrid class does not establish student enrollment and participation in the class.

Students must establish presence in class through their participation in class each academic term before financial aid funds are disbursed. Student attendance will be monitored by their instructor for the first seven (7) calendar days of each academic term.

No Show Status

Students are expected to attend all classes for which they are registered. Instructors will monitor attendance through the first seven (7) calendar days of each academic term. Students who do not establish their presence (attendance) in at least one class session will be reported as a "No Show" for the academic term and, if applicable, tuition will be adjusted and financial aid will be reduced accordingly.

Student Withdrawal

Students may withdraw from a single class or all classes without academic (Grade Point Average) penalty before the designated date on the academic calendar. Students will receive a final grade of W for the course(s) withdrawn. Grades of W may negatively affect students' satisfactory academic progress, financial aid, and account balance. Students are encouraged to consult with the Financial Aid Office prior to withdrawing from the College.

Student Official Withdrawal

Students who wish to withdraw from classes must submit a Student Course Withdrawal electronic form (located on the STC website at the "Student" link). Tuition and, if applicable, financial aid will be adjusted for students who withdraw within the first three (3) instructional days of an academic term. Students withdrawing from a course by the end of the third instructional day of the term and no shows shall receive a 100% refund of applicable tuition (hours below the 15-hour tuition cap) and applicable refundable fees, excluding the application fee.

Exceptions may be allowed for customized courses that do not follow the college's standard academic calendar. Students who withdraw from a course after the third instructional day of the term shall receive no refund. The date of submission of the form will be considered the student's official last date of attendance. Students who stop attending classes but do not complete the official withdraw process will receive 0 points for each test, quiz, exam or assignment during the class.

Sequentially Dependent Courses Withdrawal

Some academic programs require the completion of sequentially dependent courses during a full academic term (i.e. 16-week semester or 8-week summer term). Example: During a 16-week semester, Course A (weeks 1 through 3); Course B (weeks 4 through 8) and Course C (weeks 9 through 15). Passing course, A is a prerequisite to start course B and passing course B is a prerequisite to start course C. Students who enroll in a set of sequentially dependent courses are considered enrolled in all of the courses at the beginning of the academic term. Students who are not successful in passing prerequisite courses cannot start the subsequent course(s) and will receive a Withdrawal (W) grade in the remaining courses. In the above example, if a student does not receive a passing grade or withdraws from Course A, he or she will receive a final grade of W in Courses B and C. W grades will negatively affect students' academic progress, which could affect students' ability to receive future financial aid. It is the student's responsibility to officially withdraw from classes, instructors will not initiate the withdrawal process without a student's documented request. Students who withdraw from classes during the first three (3) days of an academic term will not receive a grade for the course or be required to pay tuition for the course. Students who withdraw from all classes during the first three (3) instructional days of an academic term will not be required to pay tuition or fees (excluding application fees).

Class Records

The class grade book maintained by the instructor is the official record for all students in a class. It is the official record in all matters pertaining to entrance, attendance, and completion.

Programs Resulting in Licensure

Any student enrolled in any program in a field requiring licensure will be required to make up clinical/lab hours in accordance with the program's policy. Otherwise, consent papers to take the licensing or certification examination will not be signed by the instructor of that program. It is the responsibility of the student to read and comply with the attendance policies of programs in fields requiring licensure.

Drop/Add and Reimbursement Policy

Students will be allowed to drop or add courses within the first six (6) instructional days of an academic term with no penalty. Students will receive 100% refund of the associated tuition and fees (except application fees) which have been paid if they withdraw within the first three instructional days of an academic term. After the third instructional day, there will be no refund given.

Steps to Drop/Withdraw Courses

The procedure for changes in schedules should be followed as outlined below:

1. Students must complete the "Official Course Withdrawal Form" and present the form to the Student Affairs Office for processing (the form is available in the Student Affairs Office or on the STC website at the "Student" link. The Financial Aid staff will determine how the drop/withdrawal will affect the student's financial aid award and whether the financial aid will cover all costs resulting from the change.
2. A new schedule will be printed and given to the student. The student is responsible for any additional costs.
3. A Drop/Withdrawal form must be used for any student dropping a class during the drop/no harm no foul period.

Financial Aid Considerations

Academic deficiencies or withdrawal from class(es) have adverse effects on financial aid eligibility. It is recommended that every student consult with his or her academic advisor and financial aid representative to determine the effect that a failing grade or withdrawal from class may have on continuing financial aid eligibility.

Programs of Study Change

Students who wish to change their program of study (major) should visit the Student Affairs Office. The following steps must be completed in order to change a program of study:

1. Student must obtain a Change of Major form from the Student Affairs Office/STC Website.
2. The form must be completed and returned to the Student Affairs Office.
3. The student must check with the Financial Aid Office if he/she wishes to determine whether financial aid will cover the change.
4. The Student Affairs Office checks applicable information and completes a new acceptance form based on the new program of study (*additional placement testing may be required).
5. If the student is changing from a technical certificate of credit to a diploma program or from a diploma to an associate degree program, the Registrar must determine the number of credit hours transferable to the new program.

Upon approval of a program change request, the student may register for classes in his/her new program of study. Major changes will only be processed for a future term and not for the current term.

Mandatory Academic Advisement

Academic advisement is mandatory each semester for students enrolled in programs of study. All students will be assigned an academic advisor. Students may contact the Admissions Office to determine advisor assignments. Students must contact their advisor to schedule an appointment during the five-week mandatory advisement and registration period (normally begins week four of each semester). New students will be admitted through Student Affairs, but will be advised and registered through their Academic department.

Academic Honors

Dean's List - At the end of each semester, students who have achieved a Grade Point Average (GPA) of 3.50 or higher while enrolled in a minimum of 12 credits hours are placed on the Dean's List. Learning Support courses are not included in the GPA calculation.

Full-Time Status

A credit student who is registered for 12 or more credit hours is considered a full-time student. Continuing education unit credit hours are not included in the student load calculation. Course loads above those indicated per semester in the student's program of study must be approved by the Vice President for Academic Affairs.

Double Programs of Study

Students enrolled in diploma programs who wish to add an additional (double) major may do so in a second diploma or technical certificate of credit program if all of the following criteria are met:

1. Second program is in a related field;
2. 50% or more of the primary diploma program has been completed;
3. Program minimum Grade Point Average (GPA) is 2.50;
4. Regular admission status is achieved.

Academic Overload

Students requesting to register for more than 18 credit hours in any semester must obtain permission from the Vice President of Academic Affairs. In general, a student must have been enrolled at Savannah Technical College for at least two semesters and achieved an overall "B" (3.0) average before an overload will be approved. Exceptions may apply to specific programs.

Course Availability

A listing of course offerings at Savannah Technical College is made available on the Savannah Technical College website at www.savannahtech.edu.

Course Cancellation

Savannah Technical College reserves the right to cancel classes due to low enrollment or other reasons. Decisions to cancel classes are made by the Vice President for Academic Affairs. A full refund is made for any class cancelled by Savannah Technical College.

Course Substitutions

Course requirements are outlined in the Program of Study section of the catalog. All course substitutions are granted at the discretion of the Vice President for Academic Affairs.

Electives

Some programs require a specific number of credits from occupational elective courses. Prerequisites for elective courses must be met prior to registration for the courses.

Grading System

The following table represents grades which are assigned to courses at the College. No grade less than a "C" is acceptable for graduation purposes within the student's program of study. The grading system for Savannah Technical College is as follows:

A	90 to 100%
B	80 to 89%
C	70 to 79%
D	60 to 69%
F	59% and below
I	Incomplete
W	Withdrawn
TR	Transfer
EXE	Credit by Exam
EXP	Credit by Portfolio
AC	Articulated Credit

AU Audit

I A grade of "I" can only be given to a student who has satisfactorily completed a substantial portion of the coursework but for NON-ACADEMIC reasons beyond control has not been able to complete all of the required coursework within the semester. It is the student's responsibility to get approval from the instructor prior to the last day of the semester to be eligible for an "I" grade. It is also the student's responsibility to complete the required coursework in which the "I" was received within the time frame defined by the instructor not to exceed mid-term of the following semester. If the "I" is not satisfactorily removed by mid-term of the following semester, regardless of the student's status, the "I" will automatically be changed to an F.

W "W" is assigned when the student withdraws from a course prior to the 60 percent point of the course. "W" is not used in GPA calculations.

EX "EXE" is assigned and credit is given for a course when the Student Affairs Division finds that a student scores sufficiently high enough on a course exemption exam indicating a sound base knowledge equivalent to the requirements of the said course.

"EXP" is assigned and credit is given for a course when the Student Affairs Division finds that a student receives sufficient credit from a student's Prior Learning Assessment (PLA) or portfolio, as determined by the Vice President for Academic Affairs or designee, which provides evidence of a sound base knowledge equivalent to the requirements of the said course. PLA is usually based on "on the job" learning, corporate training, independent study, military service, or volunteer service that is consistent with TCSG's mission and ensures that course work and learning outcomes are at the collegiate level and comparable to STC's academic programs.

AU A student may audit a course(s) on a space-available basis with permission of the instructor. An "audit" class carries no credit. Course requirements for audited classes are agreed upon by the student and the instructor prior to registration.

AC If the student has graduated from high school within 18 months of beginning a program at Savannah Technical College and has taken a specified articulated course(s), the student may be awarded articulated credit and assigned a grade of "AC", if a prepared final exam is successfully completed.

TR Transfer credits are awarded to a student who has attended another regionally or nationally accredited postsecondary institution and has been awarded a passing grade for a course that is included in the student's program of study's curriculum and equivalent to the standards established by Savannah

Technical College. -The student will be awarded a grade of "TR", "TRA", "TRB", or "TRC", based on his/her academic record.

Transcripts and Grade Reports contain two grades for each occupational and general education course. The first grade is the letter grade assigned for academic work and skill development. The second grade reflects the work ethics of the student in the course (see section on Work Ethics).

Repeat Grades

The highest grade achieved for a repeat course is the grade used for determining program completion. For the purpose of a student's cumulative GPA, all attempts at all courses will be calculated.

Computing Grade Point Average

Savannah Technical College assigns grades based on a 4.0 grading scale. The grade of "F" represents failure and the grade of "WF" represents withdrawal while failing. "F" and "WF" are unacceptable credit in a course. These grades have numerical equivalents and are calculated in the Grade Point Average (GPA). Work ethics grades will not be included in the calculation of the GPA.

Students who are no-shows and students dropping a course or courses before the end of the third instructional day of the semester shall receive no grades for the applicable courses.

Each letter grade has a point value (i.e., A=4, B=3, C=2, D=1, F=0). A student may determine the grade points for each course by multiplying the number of points a grade is worth times the number of credit hours the course carries. Thus, a "B" (worth 3 points) in a

3-credit hour course is worth 9 grade points and an “A” (worth 4 points) in the same 3-credit hour course is worth 12 grade points. The Grade Point Average is calculated by adding the total grade point values for all courses and dividing the total number of credits attempted during the same period.

Example:

COMP1000	3 credit hours	Grade A (4 points)	=	12
MATH 1111	3 credit hours	Grade C (2 points)	=	6
BUSN 1240	3 credit hours	Grade F (0 points)	=	0
SPCH 1101	3 credit hours	Grade B (3 points)	=	9

27 points divided by 12 credits = 2.25 GPA

The Cumulative Grade Point Average (CGPA) reflects the total credit instructional activity of the student. The CGPA is not affected by program of study, changes in program of study, or student classification. The cumulative grade point average is that grade point average calculated on all attempts at all credit courses taken at Savannah Technical College.

The Adjusted Graduation Grade Point Average is calculated only on those courses required for graduation from a specific major (program). When a course is taken more than once, the higher grade will be used in calculating the grade point average for graduation.

A graduating grade point average of “C” (2.0) is required in order to earn a technical certificate of credit, diploma, or degree at Savannah Technical College. While a student may earn a cumulative grade point average of 2.0 which includes one or more grades of “D,” it is well to remember that grades below “C” will prohibit progression to the courses for which the current course is a prerequisite and will not count toward graduation. Neither learning support nor work ethics shall affect the cumulative grade point average.

Transcripts and Grade Reports

Grades may be accessed by logging on to the College website at www.savannahtech.edu. Detailed instructions on how to access grades are available to students in the Student Affairs Office.

Students may obtain copies of their academic records by logging on to the College website www.savannahtech.edu, completing the online official transcript request and paying the transcript fee. The student transcript contains the following information: program of study, courses of study completed with corresponding grades, credit hours earned and semesters of attendance. Official transcripts are sealed in college envelopes and are not valid if opened by the student. Savannah Technical College will not release copies of student transcripts without written permission from the student and payment of the transcript fee. Though transcripts are processed as promptly as possible, the requests should be made 72 hours before the document is required. When a student requests a transcript under the 72-hour period there will be an additional fee assessed. Official transcripts are not available for pickup from the College.

National or Military Emergency

In the event of a military emergency whereby a student who is in the Armed Services, the National Guard or an Armed Forces reserve is activated or otherwise called to duty and as a result may no longer attend class(es), such student must, within a reasonable time, submit documentation of such military service from an appropriate military official. The student may elect to withdraw from Savannah Technical College for the semester. Under this option the student’s records will reflect no enrollment for the semester. Thus, no grades of any kind will appear on the student’s transcript. All tuition and fees shall be refunded completely; however, Title IV funds shall be returned in accordance with federal regulations.

Work Ethics

To be effective, technical education must include two key elements. First, it should provide training and experiences that approximate the conditions found in the actual workplace. Of equal importance, an effective technical education program must identify and develop those personal characteristics often referred to as “soft skills”. These skills include attitude, communication, planning and organization, critical thinking, interpersonal/social skills, teamwork, professionalism, regular attendance, punctuality, dependability, initiative, attitude, cooperation, respect, character, appearance, and media rules. The Technical College System of Georgia instructs and evaluates students on their work ethic in all programs of study. Ten work ethic traits have been identified and defined as essential for student success: appearance, attendance, attitude, character, communication, cooperation, organizational skills, productivity, respect, and teamwork. Savannah Technical College measures these ten traits through the Conover Workplace Readiness Assessment and through student learning outcomes embedded into each course. Studies show that 50 percent of local employers say new employees do not have the critical thinking and soft skills they need to be successful in the workplace. Savannah Technical College has therefore developed a system to promote, teach, and evaluate work ethics in each occupational program. New Savannah Technical College

students will take the Conover Workplace Readiness Assessment. Additionally, all students will complete a critical thinking assignment in every course, designed to enhance and assess their soft skills. Final work ethics grades based on those assignments are reported each semester and are recorded as a separate grade on the student's permanent record. Work ethic grades will be placed to the immediate right of the academic letter grades.

Work Ethic Scale:

- 3 — Mastery
- 2 — Partial Mastery
- 1 — No Mastery
- 0 — Did not complete assignment

Intellectual Property

The Policy Manual of the State Board for the Technical College System of Georgia (TCSG) contains TCSG Policy 3.2.1. Intellectual Property which states that "the Technical College System of Georgia owns the intellectual property rights in any and all works produced by or exclusively for the Technical College System of Georgia or its constituent colleges."

TCSG Procedure 3.2.2p (II.E.1) further outlines any revenue generated by intellectual property may be distributed to TCSG and/or any college originating the creation of the property. This is applicable to all faculty, staff and students and "is a condition of employment or enrollment." Savannah Technical College will coordinate with TCSG Office of Legal Services concerning copyrights, trademarks, or patent applications.

Savannah Technical College adheres to the TCSG State Board Policy so that any member of the faculty, staff or student body at the college understands that the TCSG owns the intellectual property rights in all work that is produced by or exclusively for the Technical College System of Georgia or its constituent colleges.

Academic Standing Policy

Students will be required to maintain a minimum overall grade point average of 2.0 each semester to remain in good academic standing. If a student does not earn an overall minimum grade point average of at least 2.0, the student will be placed on Academic Warning status for one semester. After one semester on Academic Warning status, if the overall grade point average is not raised to the required 2.0, the student will be academically suspended. A student who is academically suspended must meet with a faculty/academic advisor to appeal for reinstatement to the college. This policy for Academic Standing is separate from the financial aid Satisfactory Academic Progress (SAP) which is covered under the Financial Aid section of this catalog.

Academic Suspension Appeal

Students who are academically suspended and want to re-enter a program must petition the Academic Dean for their program of study or his/her designee. Upon meeting with the Academic Dean or his/her designee the following steps will be taken:

1. The student will complete an academic improvement plan covering potential areas necessary to regain an overall 2.0 GPA (i.e. limited course registration, tutorial assistance, study skills assistance, reduced work hours).
2. The Dean or his/her designee will review the aforementioned academic improvement plan and will either approve or deny the student's request to be reinstated to the College.
3. Should specific College support offices be referenced in the academic improvement plan, the Dean or his/her designee will follow-up to ensure that the student has complied with the agreed upon stipulations for reinstatement.
4. If approved, a copy of the academic improvement plan will be forwarded to the Registrar to update the student's academic standing for registration purposes.

The Academic Dean will coordinate the review of appeals and appeal decision notifications. If denied at the division level, the student has the right to a second level appeal to the Vice President for Academic Affairs. The decision of the Vice President for Academic Affairs is final and may not be appealed.

Holds

If a hold has been placed on a student's record, no records will be released under any circumstances nor will a student be allowed to graduate. Holds may be placed on a student's record for many reasons to include academic suspension, administrative dismissal, incomplete admissions files, unmet financial obligations, incomplete financial aid files or registration information, etc. A hold may be placed on a student's record in the following areas: Academic, Admissions, Administrative Services (Business), Financial Aid, Library, Registrar, or Police Department. Student inquiring about a hold should contact Student Affairs. Students are not allowed to register for any additional courses/programs until all financial obligations are met.

Graduation Honors

An Honor Graduate is a student who maintains a 3.5 or better cumulative grade point average throughout their tenure at Savannah Technical College.

Graduate Warranty

The warranty guarantees that the program graduate has demonstrated the knowledge and skills, and can perform each competency as identified in the industry-validated standard or program guide. Any program graduate who is determined to lack such competence shall be retrained at no cost to the employer or the graduate for tuition or institutional fees.

A claim against the warranty may be filed by either an employer in conjunction with a graduate or graduate if the individual is unable to perform one or more of the competencies contained in the industry-validated standard or program guide, including failure to pass a State of Georgia required licensing examination. This warranty is applicable only to graduates of a technical certificate of credit, diploma, or degree program who entered the program subsequent to the mandated standards implementation date. The warranty shall remain in effect for two years immediately following the date of graduation and shall be honored by Savannah Technical College.

Graduation Requirements

Degrees, diplomas and technical certificates of credit are granted each semester. A formal graduation is held once a year for associate degree, diploma, and GED students who meet graduation requirements. Students earning certificates are honored twice a year during the Technical Certificate of Credit ceremony. It is the financial responsibility of the student to pay the non-refundable graduation fee to participate in the graduation ceremony. The graduation fee can be paid in the Savannah Technical College Campus Shop after receipt of a graduation application has been posted in BANNER. The student's academic advisor will assist with the application for graduation; however, it is the student's responsibility to initiate the process.

Students may be evaluated for graduation based upon the catalog in effect during the time of their continuous enrollment. Students re-admitted or re-instated will be evaluated for graduation from the catalog in effect at the time of re-admission or re-instatement, or any catalog in effect during subsequent periods of continuous enrollment.

The Vice President for Academic Affairs in concert with the Registrar will determine the appropriate catalog to be used for academic advisement and for evaluation of graduation requirements. All academic procedures other than course requirements must be satisfied according to the regulation in effect at the time of graduation.

To be eligible for graduation, a student must meet the following criteria:

1. Achieve regular admission status prior to completion of their program.
2. At least 25% of the required curriculum must be completed at Savannah Technical College.
3. Receive a passing or satisfactory grade for all courses listed in the appropriate curriculum or accepted as a transfer credit from another college.
4. Earn a minimum grade of 2.0 (C) or better in all courses required by the program of study for graduation.
5. Meet any other program-specific requirements which have been approved by the Vice President for Academic Affairs.
6. Fulfill all financial obligations to Savannah Technical College and remove any "holds" on records.
7. Complete an application for graduation no later than mid-term of the semester immediately prior to the last anticipated semester of study. If a student fails to meet all the graduation requirements after applying for a specific graduation date, the student must reapply for graduation.
8. Students enrolled in a diploma/degree program will be recorded as a graduate of a lower level program (diploma/TCC) when the following requirements have been met:
 - a. The student completes all of the requirements for that diploma/TCC;
 - b. The student requests to receive a diploma/TCC or the College chooses to award a diploma/TCC.
9. Pay required costs of graduation incurred by student.

Competency Attainment

Students must achieve a minimum of a "C" in each competency area to progress in all occupational/technical courses. If a student earns less than a "C" in a competency area, he/she will not pass the course.

Embedded Certificates/Diplomas

Students enrolled in a diploma/degree program will be recorded as having been awarded a lower level program (diploma, TCC) when:

1. The student has completed all of the diploma/TCC requirements.
2. The student requests to receive a diploma/TCC.
3. The College chooses to award a diploma/TCC with acknowledgment from the student.

Data recording practices must represent an accurate history of student participation in programs. Students formally enrolled in a program will remain in that program until they formally change programs, graduate from that program, or leave the College. They may, however, simultaneously receive awards for diplomas/TCCs when requirements have been met.

Distance Education Instruction (Online, Hybrid, Web Enhanced)

Savannah Technical College participates with the Georgia Virtual Technical Connection (GVTC) by offering courses over the Internet utilizing the Blackboard Learning Management System (LMS).

- Online (O) courses mean 100% of the class is held online.
- Students who reside outside of Bryan, Chatham, Effingham, or Liberty counties or students with documented disabilities that would preclude them from travel to campus for on-site testing should contact their instructor for proctoring information, if proctoring is required or requested by the student.
- Hybrid (K1) courses mean 50% or more of the class is held online while the remaining is offered in the classroom.
- Hybrid (K2) courses mean that 49% or less of the class is held online while the remaining is offered in the classroom.

Web-enhanced (V) courses meet in the classroom on a normal schedule, but students may have to enter Blackboard to take tests or obtain other course information.

Advisors can counsel students on which online courses are available and the number of online credits students may earn toward graduation. Available online classes are also listed in the current course schedule that is released before registration begins each semester.

Once a student registers for a distance education course, the student is required to enter the LMS and enter each course to review the syllabus and determine what needs to be done to begin participating in the course. A student registered for an online course must complete the syllabus certification exam to be considered in attendance during the "No Show" period at the start of each term. Students registered in any other format of distance education course (Hybrid or Web-enhanced) must attend the on-site class meeting(s) to be considered in attendance; logging into the online classroom is not counted during the "No Show" period for hybrid and web enhanced courses. Any student who fails to meet the attendance requirement at the No Show Reporting Deadline will be dropped as No Show.

Through GVTC, students may take online courses from other colleges. To see what is being offered each semester, students should visit GVTC at: <http://www.gvtc.org/ApplyNow.aspx>.

Registration Procedures for Distance Education Instruction

Registration procedures are the same for distance education and traditional onsite courses. As with the traditional onsite student, the online student must be advised in selecting a program of study and courses, in scheduling courses and in exploring career and educational goals. However, not all classes are available via distance education. Additional information is available in the Student Affairs Office or with Academic Advisors. Students may obtain instructions to access the LMS on the Savannah Technical College Website and the Blackboard Online Resources.

Student Authentication and Privacy Information

In accordance with the Family Educational Rights and Privacy Act (FERPA), Savannah Technical College protects the privacy of students enrolled in distance education courses by ensuring the privacy and integrity of the communications and records used within the approved Learning Management System (LMS) course. Savannah Technical College also adheres to the Georgia Virtual Technical Connection (GVTC) Privacy Policy.

Personal information is specific to the user. No personal identifiable information is visibly displayed within a distance education course unless the student voluntarily provides the information through a Discussion Forum or other means of interaction within a course.

Students are required to use only course or College email for communication. Any other personal identifiable information residing within a course is restricted to LMS administrators and is not shared with any source outside of the Technical College System of Georgia.

Every student registered in a distance education course receives a unique login. The login assigned to students allows them to access to their course content which resides within the College LMS. The students may change their password at any time. LMS password resets are sent to student's college email accounts not to personal email accounts. A secondary secure login and password is also required for entry to any third party software associated with the LMS. This authentication provides security for the student and their information; however, it is emphasized to the student that he or she is ultimately responsible for protecting their login information.

Students are assigned a Savannah Tech e-mail address, which is a secure environment for communication. The student e-mail accounts are maintained by the college. Students are required to use college email accounts for all communication with faculty as well within the LMS.

Adult Education Career Pathways (High School Equivalency/GED) Mission

To provide the basic and 21st century skills needed to be successful in a career. Whether in preparation to pass the high-school equivalency diploma/GED test or in order to improve English language skills for English for Speakers of Other Languages (ESL), the Adult Education Career Pathways department is dedicated to helping every student reach their career potential.

The Adult Education Career Pathways program serves Effingham, Chatham, Bryan and Liberty counties. In every location, we strive to provide the highest quality of basic and 21st century skills training to prepare our students for college and/or careers.

Who is eligible?

Anyone age 16 or older and not currently enrolled in school is eligible to attend. Prospective students, 16 and 17 years old, must obtain parent/legal guardian permission and a withdrawal form from the last school attended. All prospective students must present valid photo identification with birth date and be eligible for public benefit(s). Registration is held at Savannah Technical College, 5717 White Bluff Road, Savannah, GA 31405. For more information, please call 912.443.5446 or come by our office which is located in the Student Enrichment Center.

GED Testing

Taking the GED can be one of the most important steps of your life and we can help. Millions of people like you have taken the GED Tests to get a better job, continue their education, or to feel better about themselves. We offer GED Test training along with the convenience of a GED Testing Center. Find out how easy it is to begin furthering your education. Please call 912.443.5825 for registration and testing dates.

English as A Second Language (ESL)

The English as a Second Language Adult Education classes are designed to help non-native speakers of English improve their language proficiency and basic skills to be integrated, productive and effective members of American society. We help students meet a variety of needs, such as having better employment opportunities; continuing their education, preparing for the GED or for college admissions; communicating better at work, in the community, socially, or at home; helping their children at school; or preparing for the

U.S. citizenship interview. Classes are taught entirely in English and integrate all skills—reading, writing, grammar, vocabulary, speaking, listening, and culture.

Who is eligible?

Applicants should be US citizens or Permanent Resident with a government-issued photo ID, or aliens/non-immigrants with photo ID and documents from the Department of Homeland Security; should be aged 18 (or 16-17 with permission) and not currently enrolled in high school; and should be willing to attend regularly at least until completing one academic level. Please see our blog for registration dates www.eslsavannah.blogspot.com or call 912-443-5448

Professional Continuing Education

Professional Continuing Education pledges to provide professional short-term job training and community interest classes for our four-county service area and offers many paths to high-wage, high-performance careers. Our goal is to ensure that all who seek career advancement receive the proper training for today's job market.

Savannah Technical College does not require previous college experience, entrance exams, or a high school diploma or GED to participate in Professional Continuing Education classes. In addition, application or registration fees are not charged and classes in several career areas are offered on-line. Classes are in various functional disciplines such as business, industrial, leadership, health, leisure learning, and professional licensing recertification.

The office is located at the Crossroads Campus, 190 Crossroads Parkway, Savannah, GA 31407. Please visit our website for courses and additional information at: <http://www.savannahtech.edu/business-industry/courses/>

AF53 AAS in Interdisciplinary Studies Associate of Applied Science

Program Entrance Term	Fall, Spring, Summer
Minimum Length of Program	3 Term(s)
Minimum Credit Hours for Graduation	61

Program Description:

The Associate of Applied Science Degree in Interdisciplinary Studies (AIS) allows customization of the program of study based on each student's academic and professional goals. The AIS requires completion of 61 semester credit hours (21 hours of general education requirements and 40 hours distributed among one or more areas of emphasis). Areas of concentration include education, public safety, business and computer/information technology, industrial/engineering technology, and health sciences. The program curriculum may be strategically selected to build upon the student's goals and objectives. Learning opportunities develop academic and professional knowledge and skills required for job acquisition or continued education. A student might choose an interdisciplinary studies program if his or her specific goals and interests cannot be met through a school's existing majors, minors and electives.

Admission Requirements

Minimum Required Age	16
High School Diploma or GED Required	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	236
Writing:	249
QRAS:	245
(Quantitative Reasoning, Algebra & Statistics)	

Program Courses

Credits

General Education Core	
Area I - Language Arts/Communication	
ENGL 1101 - Composition and Rhetoric	3
Choose 3 hours from the Area I courses below:	
ENGL 1102 - Literature and Composition	3
ENGL 1105 - Workplace and Technical Communication	3
SPCH 1101 - Public Speaking	3
Area II - Social/Behavioral Sciences (choose 6 hours)	
ECON 1101 - Principles of Economics	3
ECON 2105 - Macroeconomics	3
ECON 2106 - Microeconomics	3
HIST 1111 - World History I	3
HIST 1112 - World History II	3
HIST 2111 - U.S. History I	3
HIST 2112 - U.S. History II	3
POLS 1101 - American Government	3
PSYC 1101 - Introductory Psychology	3
SOCI 1101 - Introduction to Sociology	3

Area III - Natural Sciences/Mathematics

Choose one MATH course below:

MATH 1101 - Mathematical Modeling	3
MATH 1103 - Quantitative Skills and Reasoning	3
MATH 1111 - College Algebra	3

Choose 3 or more hours from the Area III courses below:

Biology 1111/L	
BIOL 1111 - Biology I	3
BIOL 1111L - Biology Lab I	1
Biology 2107/L	
BIOL 2107 - Biological Principles I	3
BIOL 2107L - Biological Principles I Lab	1
Chemistry 1151/L

MATH 1113 – Pre-calculus	3
MATH 1127 - Introduction to Statistics	3
Area IV - Humanities/Fine Arts	
ARTS 1101 - Art Appreciation	3
ENGL 2130 - American Literature	3
HUMN 1101 - Introduction to Humanities	3
MUSC 1101 - Music Appreciation	3

Interdisciplinary Studies Requirements	SELECT	40
--	--------	----

*Courses that apply to the Interdisciplinary Studies degree 40 hour from areas of emphasis must have been completed within ten years to count in degree completion. This does not apply to the general education requirement.

TS23 Technical Studies Associate of Applied Science

Program Entrance Term	Fall, Spring, Summer
Minimum Length of Program	1 Term(s)
Minimum Credit Hours for Graduation	60

Program Description:

The Technical Studies Associate Degree program is designed to prepare students for employment in a variety of positions in today's technical industry fields. This program offers students learning opportunities that develop higher level academic skills required for job acquisition, retention, and advancement. It is specifically open to students who have already completed another approved technical or industrial program of study. The program emphasizes a continuation of technical studies theory and practical applications necessary for successful employment. Program graduates receive an Associate of Applied Science degree in Technical Studies and will be qualified for employment as technicians.

Admission Requirements

PSYC 1010 – Basic Psychology	3
------------------------------	---

Select *one* of the following Math Course - 3 credits:

MATH 1011 – Business Mathematics	3
----------------------------------	---

MATH 1012 – Foundations of Mathematics	3
--	---

Occupational Courses:

ACCT 1100 – Financial Accounting I	4
BUSN 1440 – Document Production	4
COMP 1000 – Introduction to Computers	3
ACCT 1105 – Financial Accounting II	4
ACCT 1115 – Computerized Accounting	3
ACCT 1120 – Spreadsheet Applications	(4)
ACCT 1125 – Individual Tax Accounting	3
ACCT 1130 – Payroll Accounting	3
Accounting Elective	3
Specific Occupational-Guided Elective	3

CAY1 Computerized Accounting Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	21

Program Description:

The Computerized Accounting Specialist technical certificate provides students with skills needed to perform a variety of accounting applications using accounting software and practical accounting procedures. Topics include – principles of accounting, computerized accounting, spreadsheet fundamentals and basic computers.

Admission Requirements:

Minimum Required Age:	NA
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

Reading: 236

Writing: 249

QRAS: 245

(Quantitative Reasoning, Algebra & Statistics)

ACCT 1105 – Financial Accounting II	4
ACCT 1115 – Computerized Accounting	3
Accounting Elective	3

TPS1 Tax Preparation Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	16

Program Description:

The Tax Preparation Specialist technical certificate is designed to provide entry-level skills for tax preparers. Topics include principles of accounting, tax accounting, business calculators, mathematics, and basic computer skills.

Admission Requirements:

Minimum Required Age:	NA
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

Reading: 236

Writing: 249

Accounting Elective	3

ACT3 Air Conditioning Technology Associate of Applied Science

Program Entrance Term:	Fall, Spring
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	66

Program Description:

The Air Conditioning Technology program is a sequence of courses that prepares students for careers in the air conditioning industry. Learning opportunities develop academic, occupational, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of theory and practical application necessary for successful employment.

Admission Requirements:

Minimum Required Age:	NA
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER
Reading: 236
Writing: 249
QRAS: 245

ACT2 Air Conditioning Technology Diploma

Program Entrance Term:	Fall, Spring
Minimum Length of Program:	3 Term(s)
Minimum Credit Hours for Graduation:	51

Program Description:

The Air Conditioning Technology Diploma program is a sequence of courses that prepares students for careers in the air conditioning industry. Learning opportunities develop academic, occupational, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of air conditioning theory and practical application necessary for successful employment. Program graduates receive an Air Conditioning Technology diploma and have the qualification of an air conditioning technician.

AT23 Automotive Technology Associate of Applied Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	5 Term(s)
Minimum Credit Hours for Graduation:	62

Program Description:

The Automotive Technology Associates Degree program is a sequence of courses designed to prepare students for careers in the automotive service and repair profession. Learning opportunities enable students to develop academic, technical and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of automotive mechanics theory and practical application necessary for successful employment. Program graduates receive an Auto Technology Associates degree that qualifies them as entry-level technicians.

Satisfactory completion of the program entitles students to one (1) year of equivalent work experience for the ASE certification process. Two (2) years total work experience are required for certification. There are eight (8) ASE exams for Master Technician. Each exam may be taken upon class completion, but certification will not be awarded until the work experience requirement has been satisfied. The ASE exams are not part of the program or costs associated with the program. Many employers require ASE certification, before one can advance in the field.

ASG1 Automotive Chassis Technician Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	17

Program Description:

The Automotive Chassis Technician Specialist certificate program provides students with skills needed to enter the automotive industry as an entry level chassis technician. Topics covered include shop safety, basic electrical/electronic theory and diagnosis, chassis components and types, steering system components and service, alignment theory and procedures, and brake system operation, diagnosis and repair.

Admission Requirements:

Minimum Required Age:	NA

AM43 Aviation Maintenance Technology Associate of Applied Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	8 Term(s)
Minimum Credit Hours for Graduations:	97

Program Description:

The Aviation Maintenance Technology degree program is intended to provide students with an introduction to the occupational area of aviation maintenance as currently understood and practiced by Federal Aviation Administration (FAA) mechanic certificate holders with airframe and/or powerplant ratings. In addition, the combined powerplant and airframe curriculum is designed to provide students with the technical knowledge and skills required to diagnose problems and repair aircraft powerplants, both reciprocating and turbine, their systems and components; and airframes, both metal and wood, their systems and components. Satisfactory completion of all program courses entitles students to participate in FAA powerplant and airframe examinations and certification processes. Most employers require the FAA Mechanic's Certificate with Airframe and Powerplant ratings to be able to work on aircraft in the Aviation Maintenance field. These exams are not part of the program or costs of the program.

AMT1 Aviation Maintenance Technician – Airframe Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduations:	49

Program Description:

The Aviation Maintenance Technician – Airframe program prepares students for employment in the field of aviation maintenance. The program emphasizes a combination of aircraft airframe maintenance theory and practical application. This program meets the FAA academic requirements for Mechanic-Airframe certification. Satisfactory completion of all program courses entitles students to participate in FAA airframe examinations and certification processes. Most employers require the FAA Mechanic's Certificate with Airframe rating to be able to work on aircraft in the Aviation Maintenance field. These exams are not part of the program or costs of the program.

Admission Requirements:

Minimum Required Age:	NA
High School Diploma or GED Required:	Yes

AT31 Avionics Technician Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduations:	09

Program Description:

A student successfully earning this certificate would be able to be employed in the industry as an "Avionics Technician" on the service/maintaining of aircraft side of aviation. They would have the skill set to understand the different avionic systems found on today's aircraft. They would have the basic understanding of how power and data are distributed on aircraft to and between different systems. They would also have the basic understanding on how to troubleshoot, wire, and integrate systems together on aircraft.

AT31 Avionics Installer

Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduations:	10

Program Description:

The Avionics Installer Certificate of Credit is designed to provide students with the knowledge and skill to prepare them for entry level employment in the avionics industry. Emphasis is placed on aviation fundamentals, basic electricity principles, and basic wiring and troubleshooting techniques. This certificate helps prepare the student to enter into the aviation field with basic knowledge installing different type of wiring in aircraft.

BA23 Business Technology Associate of Applied Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	5 Term(s)
Minimum Credit Hours for Graduation:	64

Program Description:

The Business Technology program is designed to prepare graduates for employment in a variety of positions in today's technology-driven workplaces. The program provides learning opportunities, which introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. The program emphasizes the use of word processing, spreadsheet, presentation, and database applications software. Students are also introduced to accounting fundamentals, electronic communications, internet research, and electronic file management. The program includes instruction in effective communication skills and terminology that encompasses office management and executive assistant qualification and technology innovations for the office. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in the area of administrative technology. Graduates of the program receive a Business Technology, Associate of Applied Science degree.

Introductory Networking Class – Select *one* of the following three courses:

CIST 1401 – Computer Networking Fundamentals	4
--	---

CIST 2451 – Introduction to Networks - Cisco	4
--	---

CS14 Computer Support Specialist Diploma

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	55

Program Description:

The Computer Information Systems - Computer Support Specialist program is a sequence of courses designed to provide students with an understanding of the concepts, principles, and techniques required in computer information processing. Graduates are to be competent in the general areas of humanities or fine arts, social or behavioral sciences, and natural sciences or mathematics, as well as in the technical areas of computer terminology and concepts, program design and development, and computer networking. Program graduates are qualified for employment as computer support specialist.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

Basic Skills Courses:

ENGL 1010 – Fundamentals of English I	3
MATH 1012 – Foundations of Mathematics	3
EMPL 1000 – Interpersonal Relations and Professional Development	2

Occupational Courses:

COMP1000 – Introduction to Computers	3
CIST 1001 – Computer Concepts	4
CIS Operating Systems Course	3
CIST 1305 – Program Design and Development	3
CIS Database Elective	4
CIST 1122 – Hardware Installation and Maintenance	4
CIST 1601 – Information Security Fundamentals	3
CIS Guided Elective: Office Productivity Course	3
CIST 2921 – IT Analysis, Design, and Project Management	4
CIS Elective Courses	12

Introductory Networking Class – Select *one* of the following three courses:

CIST 1401 – Computer Networking Fundamentals	4
CIST 2451 – Introduction to Networks - Cisco	4

CN71 CISCO Networking Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	16

Program Description:

The CISCO Network Specialist program teaches how to build, maintain and troubleshoot computer networks. Students also learn how to connect these networks to other networks and the Internet.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

CIST 2451 – Cisco Network Fundamentals	4
CIST 2452 – Cisco Routing and Switching Essentials	4
CIST 2453 – Cisco Scaling Networks	4
CIST 2454 – Cisco Connecting Networks	4

MS11 Microsoft Network Administrator Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	16

Program Description:

The Microsoft Network Administrator certificate provides training in Microsoft networking. This certificate will prepare the student for an entry-level computer networking position. Skills taught include implementation of Microsoft operating systems, implementation of Microsoft servers, and networking Infrastructure. This certificate prepares the student to sit for the Microsoft Certified IT Professional (MCITP) networking exam. Hands-on labs provide students with real world simulations.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

CIST 2411 – Microsoft Client	4
CIST 2412 – Microsoft Server Directory Services	4
CIST 2413 – Microsoft Server Infrastructure	4

Select *one* of the following two courses:

CIST 2414 – Microsoft Server Administrator	4
CIST 2420 – Microsoft Exchange Server	4

NS13 Networking Specialist Associate of Applied Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	5 Term(s)
Minimum Credit Hours for Graduation:	66

Program Description:

The Computer Information Systems - Networking Specialist program is a sequence of courses designed to provide students with an understanding of the concepts, principles, and techniques required in computer information processing. Graduates are to be competent in the general areas of humanities or fine arts, social or behavioral sciences, and natural sciences or mathematics, as well as in the technical areas of computer terminology and concepts, program design and development, and computer networking. Program graduates are qualified for employment as networkingspecialists.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

Reading: 236

Writing: 249

QRAS: 245

(Quantitative Reasoning, Algebra & Statistics)

Program Courses

CIST 2613 – Ethical Hacking and Penetration Testing	4

CW71 Cybersecurity Fundamentals

Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	18

Program Description:

The Cybersecurity Fundamentals TCC is a sequence of courses designed, upon completion of required prerequisite courses, to provide students with an understanding of the fundamental concepts, principles and techniques required in computer information processing. Completion of the TCC will prepare students to either continue more advanced studies in cybersecurity leading toward a Diploma or AAS Degree or broaden their current CIST knowledge base.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

CIST 1401 – Computer Networking Fundamentals	4
CIST 2451 – Introduction to Networks - Cisco	4

CM13 Construction Management Associate of Applied Science

Program Entrance Term:	Fall, Spring
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	65

Program Description:

The Construction Management degree program is designed to prepare students for a career in some aspect of construction supervision. The carpentry courses provide background skills in several areas of construction. Supervision courses provide a core of management and supervisory courses leading to an Associate's Degree in Construction Management.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

Reading: 236

Writing: 249

CJ13 Criminal Justice Associate of Science Degree

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	5 Term(s)
Minimum Credit Hours for Graduation:	65

Program Description:

The Criminal Justice Associate of Science degree program is a sequence of courses that prepares students for Criminal Justice professions. Learning opportunities develop academic, occupational, and professional knowledge, skills, and abilities required for job acquisition, retention, and advancement. The program emphasizes a combination of Criminal Justice theory and practical application necessary for successful employment. Program graduates receive an Associate of Science in Criminal Justice degree. Graduates who are current practitioners will benefit through enhancement of career potential. Entry-level persons will be prepared to pursue diverse opportunities in the corrections, security, investigative, law enforcement, and criminal justice administration fields.

Admission Requirements:

Minimum Required Age:	N/A
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

Reading: 236

Writing: 249

QRAS: 245

CJT3 Criminal Justice Technology Associate of Applied Science

Program Entrance Term:	Fall, Spring,
Summer Minimum Length of Program:	6 Term(s)
Minimum Credit Hours for Graduation:	60

Program Description:

The Criminal Justice Technology associate degree program is a sequence of courses that prepares students for Criminal Justice professions. Learning opportunities develop academic, occupational, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of Criminal Justice theory and practical application necessary for successful employment. Program graduates receive a Criminal Justice Technology associate degree. Graduates who are current practitioners will benefit through enhancement of career potential. Entry-level persons will be prepared to pursue diverse opportunities in the corrections, security, investigative, and police administration fields. Completion of the Criminal Justice Technology associate degree does not ensure certification of officer status in Georgia. Students must seek such certification from the Peace Officer Standards and Training (P.O.S.T.) Council.

CJT2 Criminal Justice Technology Diploma

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	5 Term(s)
Minimum Credit Hours for Graduation:	48

Program Description:

The Criminal Justice Technology diploma program is a sequence of courses that prepares students for Criminal Justice professions. Learning opportunities develop academic, occupational, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of Criminal Justice theory and practical application necessary for successful employment. Program graduates receive a Criminal Justice Technology diploma. Graduates who are current practitioners will benefit through enhancement of career potential. Entry-level persons will be prepared to pursue diverse opportunities in the corrections, security, investigative, and police administration fields. Completion of the Criminal Justice Technology diploma does not ensure certification of officer status in Georgia. Students must seek such certification from the Peace Officer Standards and Training (P.O.S.T.) Council.

DH23 Dental Hygiene Associate of Science Degree

Program Entrance Term:	Fall
Minimum Length of Program: (program)	5 Semesters (once formally admitted to program)
Minimum Credit Hours for Graduation:	83

Program Description:

The program in Dental Hygiene is accredited by the Commission on Dental Accreditation [*and has been granted the accreditation status of “approved without reporting requirements”*], The Commission is a specialized accrediting body recognized by the United States Department of Education.

The Dental Hygiene program at Savannah Technical College offers a sequence of courses that prepares students for positions in the dental profession. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. Registered and licensed dental hygienists work in a variety of professional settings. The public is most familiar with dental hygienists in the private dental office, where they perform numerous critical services designed to detect and prevent diseases of the mouth. These include oral prophylaxis; examining the head, neck, and oral areas for signs of disease; educating patients about oral hygiene; taking and/or developing radiographs; and applying fluoride and/or sealants. In this setting, registered dental hygienists play a vital role in protecting the oral health of the American public. Program graduates receive an Associate of Science in Dental Hygiene.

Admission Requirements:

The Dental Hygiene Degree program utilizes a competitive admission's process and may require the completion of the Health Care Science-Dental Hygiene Track Technical Certificate of Credit as part of its admission. Applications are accepted the first Monday of November through the first Friday of May of each year for a Fall (August) start. Minimum adjusted GPA of 2.50 required.

The Dental Hygiene program starts one (1) cohort each academic year. Meeting the minimal program requirements does not guarantee acceptance in the program. For additional information on program requirements, click on the following link or contact the department head for the Dental Hygiene program.

Following completion of the Dental Hygiene Associate Degree program of study, the student must successfully pass each of the following: National Board Dental Hygiene Examination, a state/regional practical credentialing examination, and a state board jurisprudence examination. Upon successful completion of the examinations, the graduate must obtain a dental hygiene license from each State's Board of Dentistry for which they wish to work. The cost of each of the examinations and licensure is not part of the cost of the program and must be paid for by the student/graduate.

<http://www.savannahtech.edu/academics/health-sciences/>

NOTE: Students may be required to successfully pass a criminal background check and drug screen analysis before placement in clinical settings.

DT12 Drafting Technology Diploma

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	46

Program Description:

The Drafting Technology diploma program prepares students for employment in a variety of positions in the drafting field, such as a drafter or CAD operator based on the specialization areas a student chooses to complete. The program provides learning opportunities which introduce, develop, and reinforce academic and technical knowledge, skills and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or retrain in drafting practices and software.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

<u>Program Courses</u>	<u>Credits</u>

CP41 CAD Operator Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	20

Program Description:

All of the courses in the CAD Operator TCC program are embedded in the Drafting Technology diploma and degree programs. The CAD Operator TCC program provides students with the opportunity to continue on the career pathway toward advancement in the drafting profession. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in drafting practices and software. This TCC could also serve if needed as an exit point for high school dual enrolled students needing a point of exit for employment purposes.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

CH71 CATIA Technician Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	3 Term(s)
Minimum Credit Hours for Graduation:	18

Program Description:

This program is designed to enhance the drafting diploma program to allow students to be more marketable in the aeronautics industry. As Gulfstream Aerospace is a major employer in the Savannah area, they have requested that Savannah Tech begin a CATIA drafting program, as it is the modeling system they use.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

EC13 Early Childhood Care/Education Associate of Applied Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	5 Term(s)
Minimum Credit Hours for Graduation:	72

Program Description:

The Early Childhood Care and Education associate of applied science degree program is a sequence of courses designed to prepare students for a variety of careers in the field of early childhood education. The program emphasizes a combination of early childhood care and education theory and practical application as well as general core competencies necessary for successful employment.

Graduates have qualifications to be employed in early care and education settings including child care centers, Head Start, Georgia Pre-K programs, and elementary school paraprofessional positions. Graduates of this program will receive one of five areas of specialization: exceptionalities, infant/toddler, program administration, paraprofessional/school age, or family child care.

In order to complete the program students will be required to obtain a cleared national criminal background check before beginning field placement in Practicums and Internships.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER
 Reading: 236
 Writing: 249

CE71 Child Development Associate Preparation Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	11

Program Description:

The Early Childhood Care and Education CDA Preparation TCC (Child Development Associate Preparation) program is a four course sequence of courses designed to prepare students for the Child Development Associate national credential issued by the Council for Professional Recognition (headquartered in Washington, DC). Students must be currently employed in a childcare setting. The four courses in this TCC provide students with the knowledge and skills needed for the national credential and provide information on the development of the portfolio required of the Council. Graduates may choose to apply for national certification; however, Bright From the Start will accept the completion of the Technical Certificate of Credit Program to meet the requirement for childcare providers to attain at least a certificate in the field of Early Childhood. Graduates are qualified for employment as assistants and leaders in the childcare centers.

Admission Requirements:

Minimum Required Age:	18
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

Basic Skills Courses:

Other Conditions for Admission: Students will have to obtain 480 hours of classroom field experience before submitting their CDA applications to National Council for Recognition.

Occupational Courses:

ECCE 1101 – Introduction to Early Childhood Care and Education	3
ECCE 1103 – Child Growth and Development	3
ECCE 1105 – Health, Safety and Nutrition	3
ECCE 1125 – Professionalism through CDA Certificate Preparation	2

CD61 Child Development Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	16

Program Description:

The Child Development Specialist Certificate program is a series of five courses designed to prepare teachers and child care providers with the foundational knowledge needed to deliver developmentally appropriate services to young children. Graduates are to be able to understand and practice ethical conduct and to provide a safe, healthy learning environment for young children birth through eight years old. In addition, graduates will be able to observe and assess the behavior and design age appropriate curricula. Program graduates are qualified for employment as assistants and lead teachers in childcare centers and as Para-educators in public and private school settings. This certificate meets the "Bright From the Start" licensing requirement for all childcare lead teachers and Family Home Childcare programs.

In order to complete the program students will be required to obtain a cleared national criminal background check before beginning field placement in Practicums and Internships.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

EC41 Early Childhood Exceptionalities Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	12

Program Description:

The Early Childhood Care and Education Exceptionalities TCC is a sequence of courses designed to prepare students to work with children with special needs. The program emphasizes an inclusive classroom, including strategies and activities for exceptional children (both low and high achieving students). Graduates have qualification to be employed in early care and education settings, including care centers, Head Start, and Georgia Pre-K programs.

In order to complete the program students will be required to obtain a cleared national criminal background check before beginning field placement in Practicums and Internships.

Admission Requirements:

IC31 Infant/Toddler Child Care Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	15

Program Description:

The Early Childhood Care and Education Infant/Toddler Child Care Specialist TCC program is a sequence of courses designed to prepare students with the basics needed for working with infants and toddlers. The program provides an intense look at understanding and learning activities and proper care needed for infants and toddlers. Graduates have qualifications to be employed in early care and education settings, including child care centers, Head Start, and Georgia Pre-K programs.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

EC31 Early Childhood Care and Education Basics Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	9

Program Description:

The Early Childhood Care and Education (ECCE) Basic TCC includes three basic ECCE courses that are needed for entry-level workers. The program provides an introductory course to the ECCE field, a child growth and development course, and health, safety and nutrition course. Graduates have qualifications to be employed in early care and education settings including child care centers, Head Start, Georgia Pre-K programs. Bright from the Start (BFTS), the regulatory agency in Georgia, requires the basic knowledge included in this TCC for a person to be a lead teacher in a child care center and family day care center.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

EE13 Electrical/Computer Engineering Technology Associate of Applied Science

Program Entrance Term:
Minimum Length of Program:
Minimum Credit Hours for Graduation:

Fall, Spring, Summer
4 Term(s)
61

Program Description:

Electrical, electronic, instrumentation, and computer technicians apply the principles of science and mathematics to develop solutions to technical problems. Their work is the link between scientific discoveries and the commercial applications that meet societal and consumer needs. Technicians use computers extensively to produce and analyze designs, to simulate and test how a machine, structure, or system operates, to generate specifications for parts, to monitor the quality of products, and to control the efficiency of processes.

This program is accredited by the Engineering Technology Accreditation Commission (ETAC), of the Accreditation Board for Engineering and Technology (ABET). Visit <http://www.abet.org> for more information, or contact ABET at: 415 North Charles Street, Baltimore, MD 21201; Phone: 430-347- 7700. The ABET is an international association that recognizes schools and colleges producing students prepared to enter a global workforce defined by a set of quality standards. These standards are guided by the following Program Educational Objectives (PEO) and Student Outcomes:

Program Educational Objectives (PEO):

- Execute technical tasks using modern tools and scientific methods to be successfully employed in an industrial environment.
- Demonstrate the application of science, engineering and technology solutions to solve technical problems in electronics/electrical and computer systems.
- Demonstrate an ability to prepare technical and non-technical documents by applying academic, analytical, team building and communication skills effectively.
- Demonstrate the understanding of work ethics, social issues and a need for lifelong learning and commitment to continuous improvement.

Student Outcomes (SO): An ability to:

- Apply the knowledge, techniques, skills and modern tools of the discipline to narrowly defined engineering technology activities;
- Apply a knowledge of mathematics, science, engineering and technology to engineering technology problems that require limited application of principles but extensive practical knowledge;
- Conduct standard test and measurements and to conduct, analyze and interpret experiments;
- Function effectively as a member of a technical team;
- Identify, analyze and solve narrowly defined engineering technology problems;
- Apply written, oral and graphical communication in both technical and non-technical environments, and identify and use appropriate technical literature;
- Understand the need for and the ability to engage in self-directed continuing professional development;
- Understand and commit to address professional and ethical responsibilities including a respect for diversity;
- Commit to quality, timeliness and continuous improvement.

EU13 Electrical Utility Technology Associate of Applied Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	5 Term(s)
Minimum Credit Hours for Graduation:	70

Program Description:

The Electrical Utility Technology program is a sequence of courses designed to meet the needs of the student interested in attaining entry-level knowledge and skill necessary to work in the electrical utility industry. The program also provides the student with an avenue to pursue opportunities in other areas of the utility industry. Learning opportunities develop academic, technical, and professional knowledge, work ethics, and practical skills required for job acquisition, retention, and advancement. The program emphasizes a combination of electrical utility theory and practical application necessary for employment. Program graduates receive an Electrical Utility Technology Associate of Applied Science degree. This program is offered by the electrical Utility Technology (EUT) department.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER
Reading: 236
Writing: 249
QRAS: 245
(Quantitative Reasoning, Algebra & Statistics)

Program Courses

Credits

FS13 Fire Science Technology Associate of Applied Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	6 Term(s)
Minimum Credit Hours for Graduation:	62

Program Description:

The Fire Science Associate of Applied Science degree program is a sequence of courses designed to prepare fire service personnel at all levels to become better officers and leaders. The program provides learning opportunities which introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to retrain and upgrade present knowledge and skills. Completion of the program of study leads to an AAS degree in Fire Science.

Admission Requirements:

FI12 Firefighter/EMSP Diploma

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	6 Term(s)
Minimum Credit Hours for Graduation:	53

Program Description:

The Firefighter/Emergency Medical Services Professional (EMSP) diploma is designed to prepare students for entry level employment in the public safety areas of the fire service and emergency medical services. Upon completion of the Firefighter/Emergency Medical Services Professional diploma, students may be eligible for certification and/or licensure in the following areas: Firefighter I, EMT, and AEMT. Note: criminal background checks and drug screens may be required based on the requirements for participation in clinical experiences.

Satisfactory completion of all program courses entitles students to sit for the National Professional Qualifications Board Firefighter I Certification. This certification is the minimum requirement for employment as a firefighter in the State of Georgia. The exams are not part of the program or cost of the program.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

FSP2 Fire Service Professional Diploma

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	3 Term(s)
Minimum Credit Hours for Graduation:	48

Program Description

The Fire Service Professional Diploma is a sequence of courses designed in cooperation with Georgia Firefighter Standards and Training Council and Georgia State Office of Emergency Services and Trauma (SOEMST) to ensure graduates have the skills, knowledge and credentials to serve as firefighters in paid and volunteer fire departments. Graduates will be tested and certified to State and National Professional Qualifications (Pro-Board) at the Firefighter I and II levels and National Registry of Emergency Medical Technicians at the Emergency Medical Responders (EMR) level. Program graduates receive a Technical Certificate of Credit in Firefighter I, II, and EMR. Note: Candidate must be certified Firefighter I level to be eligible to challenge the State Firefighter II certification process.

Candidate must hold Pro-Board or State Firefighter 1 certification in order to meet prerequisites to challenge the State and Pro-Board Firefighter II certification process. The EMR certificate element of this program prepares students to initiate immediate lifesaving care to critical patients who access the emergency medical system. The EMR curriculum offers candidates the basic knowledge and skills necessary to provide lifesaving interventions while awaiting additional EMS response and ability to assist higher level personnel at the scene and during transport. EMR level personnel function as part of a comprehensive EMS response under medical oversight. The EMR certificate provides students with the opportunity to prepare for entry-level occupations in a variety of pre-hospital, industrial, and first responder settings. After successful completion of a SOEMST approved EMR program the graduate may take the National Registry of Emergency Medical Technicians EMR certification examination.

Satisfactory completion of all program courses entitles students to sit for the National Professional Qualifications Board Firefighter I Certification. This certification is the minimum requirement for employment as a firefighter in the State of Georgia. The exams are not part of the program or cost of the program.

State of Georgia and ProBoard Certification Requirements (Firefighter):

Age: 18

High School Diploma or GED

Refer to O.C.G.A. 25-4-8 (2) for specifics

FF21 Firefighter II Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	13

Program Description:

The Firefighter II Technical Certificate of Credit program is conducted in cooperation with the Georgia Fire Academy and Georgia Firefighter Standards and Training to ensure graduates have the skills, knowledge, and credentials to serve as firefighters in paid and volunteer fire departments. The certificate builds upon skills and knowledge acquired in the Firefighter I certificate and parallels the Advanced Firefighter Curriculum being developed by the Georgia Fire Academy. Students must be a graduate of Firefighter I Technical Certificate of Credit or NPQ Firefighter I Certified. Program graduates receive a Firefighter II Technical Certificate of Credit. **Note: Candidate must be certified at the NPQ Firefighter I level to be eligible for NPQ firefighter II certification.**

Satisfactory completion of all program courses along with Firefighter I Certification entitles students to sit for the National Professional Qualifications Board Firefighter II Certification. Most employers consider this certification a minimum requirement for advanced jobs as a firefighter in the State of Georgia. The exams are not part of the program or cost of the program.

CCW1 Certified Construction Worker Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	9

Program Description:

The Certified Construction Worker certificate program offers training in the construction industry providing students with the knowledge and skills they need to work effectively on a construction site. Completion of the program qualifies graduates for entry level employment. Topics include safety, tool use and safety, materials and fasteners, and construction print reading.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

COFC 1011 – Overview of Building Construction Practices	3
COFC 1020 – Professional Tool Use and Safety	3
COFC 1050 – Construction Print Reading Fundamentals	3

HP11 Historic Preservation and Restoration Technician Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	19

Program Description:

The Historic Preservation Technician program prepares students to enter the workforce as apprentice workers in the preservation field. Topics include the history and theories of historic preservation, architectural print reading, historical research, field techniques and documentation, structure pathology and modern and traditional carpentry techniques.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224

HM13 Hotel/Restaurant/Tourism Management Associate of Applied Science

Program Entrance Term:	Fall, Spring
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	60

Program Description:

The Hotel/Restaurant/Tourism Management program prepares students for employment in a variety of positions in today's Hotel/Restaurant/Tourism management fields. The Hotel/Restaurant/Tourism Management program provides learning opportunities which introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in the area of Hotel/Restaurant/Tourism management. Graduates of the program receive a Hotel/Restaurant/Tourism Management Associate of Applied Science Degree.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

Reading: 236

Writing: 249

QRAS: 245

(Quantitative Reasoning, Algebra & Statistics)

Program Courses

Credits

General Education Courses:

Area I – Language Arts/Communication	3
--------------------------------------	---

HRTM 1220 – Supervision and Leadership in the Hospitality Industry	3
HRTM 1160 – Food and Beverage Management	3

IM23 Industrial Maintenance Systems Technology Associate of Applied Science

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	68

Program Description:

The Industrial Systems Technology degree program is designed for the student who wishes to prepare for a career as an Industrial Systems technician/electrician. The program provides learning opportunities that introduce, develop and reinforce academic and technical knowledge, skill, and attitudes required for job acquisition, retention and advancement. Additionally, the program provides opportunities to retrain or upgrade present knowledge and skill. The Degree program teaches skills in Industrial Systems Technology providing background skills in several areas of industrial maintenance including electronics, industrial wiring, motors, controls, plc's, instrumentation, fluid power, mechanical, pumps and piping, and computers. Graduates of the program receive an Industrial Systems Technology degree that qualifies them for employment as industrial electricians or industrial systems technicians.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

Reading: 236

IE21 Industrial Electrical Assistant Technical Certificate of Credit

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	14

Program Description:

The objective of this program is to provide students with the opportunity to enter the workforce area of industrial maintenance specialized in areas of electrical applications.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

IDSY 1101 – DC Circuit Analysis	3
IDSY 1105 – AC Circuit II	3
IDSY 1110 – Industrial Motor Controls I	4
IDSY 1130 – Industrial Wiring	4

IIA1 Industrial Instrumentation Assistant Technical Certificate of Credit

Program Entrance Term:	Fall, Spring
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	12

Program Description:

The objective of this program is to provide students with the opportunity to enter the workforce area of industrial maintenance specialized in areas of instrumentation applications.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224

PC81 Programmable Control Technician Technical Certificate of Credit

Program Entrance Term:	Fall
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	12

Program Description:

The Programmable Control Technician certificate program offers specialized training in programmable controllers. Topics include motor control fundamentals, and instruction in basic and advanced PLCs.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

IDSY 1110 – Industrial Motor Controls I	4
IDSY 1120 – Basic Industrial PLCs	4
IDSY 1220 – Intermediate Industrial PLCs	4

AF43 Information Technology Associate of Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	6 Term(s)
Minimum Credit Hours for Graduation:	63

Program Description:

The Information Technology program is a sequence of courses that prepare students for many facets of deployment and use of computer systems requiring knowledge of computer hardware, networks, and software. It also provides knowledge of selecting, designing, developing, managing, integrating, and deploying computer systems in order to achieve organizational objectives through effective resource utilization. There are an increasing number of positions for computer specialists to train non-computer specialists of a company, as well as troubleshooting roles dealing with a variety of software and hardware. Jobs in data and information services provide many new opportunities for IT specialists. With the continued growth of the Internet, companies are recognizing the value of effective secure storage and retrieval of information. Learning opportunities develop academic, technical and professional knowledge and skills required for job acquisitions, retention, and advancement. The program of study emphasizes opportunities that provide fundamentals, principles, and theoretical aspects of design, development, and maintenance of computer systems. Program graduates receive an Associate of Science Degree in Information Technology. This AS degree is articulated with Armstrong Atlantic State University's Bachelor of Science in Information Technology.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

LT11 Logistics Technician Technical Certificate of Credit

Program Entrance Term:	Fall, Spring
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	11

Program Description:

This Logistics Technician certificate program is a sequence of Logistics courses already being taught in the Logistics AS degree to prepare students for an entry level position with Logistics and Supply Chain Management organizations. The program would combine this specific course combination for an introduction to Supply Chain Management, Transportation, Warehousing Operations and Technology and Materials Management. The course combination has been reviewed and recommended by the local Logistics Advisory in the Fall of 2016 and the Spring of 2017 as an excellent preparation for entering the industry. A further initiative by the Distribution-Materials Management IFCC in concert with the TCSG is to incorporate the competencies for taking and successfully passing the CLA/CLT industry credentials for which Savannah Tech is a certified Manufacturing Skills Standards Council testing center. The TCC will also encompass training and certification on MercuryGate, which is the leading transportation management software used by the industry. The Savannah Tech Logistics program has been granted a free educators license for this software by MercuryGate.

Admission Requirements:

MM12 Marketing Management Diploma

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	42

Program Description:

The Marketing program is designed to prepare students for employment in a variety of positions in today's marketing and management fields. The Marketing program provides learning opportunities that introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in the area of marketing.

Graduates of the program receive a diploma with specializations in marketing management, entrepreneurship, retail management, e-business, professional selling, and sports marketing or social media.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

PS13 Paralegal Studies Associate of Applied Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	5 Term(s)
Minimum Credit Hours for Graduation:	69

Program Description:

The Paralegal Studies program is a sequence of courses that prepares students for positions in the paralegal profession. Learning opportunities develop academic, technical and professional knowledge and skills required for job acquisition, retention, and advancement. The knowledge and skills emphasized in this program include ethical obligations; research in state and federal law; legal correspondence preparation; family law matters; basic concepts of real property law, criminal law and procedure, civil litigation, tort law, and substantive contract law; and wills, trusts, and probate. The program of study emphasizes opportunities that provide students with specialized legal knowledge and skills required to aid lawyers in the delivery of legal services. Program graduates receive a Paralegal Studies Associate of Applied Science degree.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER
Reading: 236
Writing: 249
QRAS: 245
(Quantitative Reasoning, Algebra & Statistics)

PT13 Para-medicine Associate of Applied Science

Program Entrance Term:	Fall and Spring
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	67

Program Description:

The Paramedicine associate of applied science degree program prepares students to provide advanced emergency medical care for critical and emergent patients who access the emergency medical system. This individual possesses the complex knowledge and skills necessary to provide patient care and transportation. Paramedics function as part of a comprehensive EMS response, under medical oversight. Paramedics perform interventions with the basic and advanced equipment typically found on an ambulance. The Paramedic is a link from the scene into the health care system. The Paramedicine degree program prepares students for employment in paramedic positions in today's health services field. The Paramedic degree program provides learning opportunities that introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. The program provides opportunities to upgrade present knowledge and skills from EMT/EMT-I 1985/AEMT levels to a paramedic level.

Successful completion of the program allows the graduate to take the National Registry of Emergency Medical Technicians (NREMT) Paramedic certification examination and apply for Georgia licensure with the State Office of Emergency Medical Service and Trauma (SOEMS/T) as a paramedic.

The cost of the examinations, certification and Georgia licensure is not part of the cost of the program and must be paid for by the student/graduate.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

Admission Requirements:

Minimum Required Age:	18
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER

Reading: 236

Writing: 249

QRAS: 245

(Quantitative Reasoning, Algebra & Statistics)

Other conditions for Admission (if any):

Hold current certification and/or licensure as an: EMT and show proof of completing the AEMT course successfully (or certification as EMT-I 85/EMT/A). Must have successfully completed AEMT course if only certified at Basic Level.

EP12 EMS Professions Diploma

Program Entrance Term:	Summer/Spring
Minimum Length of Program:	3 Term(s)
Minimum Credit Hours for Graduation:	42

Program Description:

Description: Students who complete the EMS Professions diploma will be able to fluidly move into the Paramedicine program at the diploma level. Successful completion of the program allows the graduate to take the National Registry of Emergency Medical Technicians EMT and AEMT certification examination and to apply for Georgia licensure as an EMT/AEMT. The primary focus of the Advanced Emergency Medical Technician is to provide basic and limited advanced emergency medical care and transportation for critical and emergent patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide patient care and transportation. Advanced Emergency Medical Technicians function as part of a comprehensive EMS response, under medical oversight. Advanced Emergency Medical Technicians perform interventions with the basic and advanced equipment typically found on an ambulance. The Advanced Emergency Medical Technician is a link from the scene to the emergency health care system.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

MS13 Precision Manufacturing Associate of Applied Science

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	5 Term(s)
Minimum Credit Hours for Graduation:	63

Program Description:

This degree program will build upon the competencies a student has learned in the Certified Manufacturing Specialist (CMS) Technical Certificate of Credit (TCC). Additionally, the student will have the opportunity to specialize in one of three requested manufacturing areas. The graduate of this degree program will simultaneously earn the CMS TCC and will be prepared to serve in a variety of manufacturing positions, including supervisory level jobs. This degree is the capstone program of a Guided Pathway with an emphasis on highly technical precision manufacturing. The program graduate will undertake required degree level General Studies courses, general manufacturing core requirements, and one of three specialized areas of precision manufacturing.

Admission Requirements:

ST13 Surgical Technology Associates of Applied Science Degree

Program Entrance Term:	Fall
Minimum Length of Program:	6 Term(s)
Minimum Credit Hours for Graduation:	70

Program Description:

The Commission on Accreditation of Allied Health Education Programs accredited Surgical Technology, degree program prepares students for employment in a variety of positions in the surgical field. The Surgical Technology degree program provides learning opportunities which introduce, develop, and reinforce academic and technical knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in Surgical Technology. Graduates of the program receive a Surgical Technology degree and are qualified for employment as surgical technologists.

Satisfactory completion of all program courses entitles students to participate in the National Board of Surgical Technology and Surgical Assisting (NBSTSA) examination and certification process. Most employers require candidates to hold a Certificate of Surgical Technologist (CST). The cost of the examinations and certification is not part of the cost of the program and must be paid for by the student/graduate.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

Admission Requirements:

Minimum Required Age: 18

CS91 Central Sterile Supply Processing Technician - Advanced Technical Certificate of Credit

Program Entrance Term:	Fall
Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	20

Program Description:

The Central Sterile Supply Processing Technician – Advanced Technical Certificate of Credit is designed to provide entry-level training that will prepare graduates to function in the sterile supply processing and distribution areas of healthcare facilities. The program is based on theory and clinical instruction that will apply scientific principles to the specific work area. Theory classes with laboratory participatory classes will prepare students for clinical application of skills and knowledge in healthcare facilities. Together with practical experiences provide students with the preparation necessary to be eligible to sit for the International Association of Healthcare Central Service Materiel Management (IAHCSMM) certification exam.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

Admission Requirements:

Minimum Required Age:	18
High School Diploma or GED Required:	Yes

Minimum Test Scores:

AST2 Aircraft Structural Technology Diploma

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	4 Term(s) Full Time / 7 Terms Part Time
Minimum Credit Hours for Graduation:	53

Program Description:

The aircraft structural technology program is a sequence of courses that prepares the students for careers in aircraft structures manufacture and repair. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of aircraft structural theory and practical application necessary for successful employment. Program graduates receive an Aircraft Structural Technology diploma and are qualified as aircraft structural specialists.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

Basic Skills Courses:

ENGL 1010 – Fundamentals of English I	3
MATH 1012 – Foundations of Mathematics	3
EMPL 1000 – Interpersonal Relations and Professional Development	2

Occupational Courses:

ASTT 1010 – Basic Blueprint Reading	4
ASTT 1020 – Aircraft Blueprint Reading	3
ASTT 1030 – Structural Fundamentals	6
ASTT 1040 – Structural Layout and Fabrication	6
ASTT 1050 – Aerospace Quality Management	3
ASTT 1070 – Aerodynamics	2
ASTT 1090 – Composites and Bonded Structures	4
ASTT 1100 – Sealants	2
ASTT 1110 – Corrosion Control	5
ASTT 1120 – Aircraft Metallurgy	4
ASTT 1180 – Aircraft Technical Publications	3
COLL 1010 – College and Career Success Skills	3

AA61 Aircraft Assembly Technician Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	12

Program Description:

The Aircraft Assembly Technician certificate program will provide technical training to existing industry and individuals interested in obtaining aircraft structural assembly skills. This program will provide a minimum of training for the job market entry and/or upgrading for existing industry personnel and could lead to continued training for a diploma. This program results from industry requesting new personnel with the skills addressed in the aircraft structural courses included in this program.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

<u>Program Courses</u>	<u>Credits</u>
ASTT 1010 – Basic Blueprint Reading	4
ASTT 1030 – Structural Fundamentals	6
Choose <i>one</i> of the following:	
ASTT 1020 – Aircraft Blueprint Reading	3
ASTT 1070 – Aerodynamics	2

AU21 Aircraft Upholstery and Trim Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	14

Program Description:

The Aircraft upholstery and trim program will provide introductory level technical training for individuals seeking employment in outfitting and refurbishing large business jet aircraft. Classroom topics include introduction to business aircraft, blueprints, & electronic models, engineering documentation, and shop/ramp safety. Lab demonstrations and projects include fabrication of seating, upholstery, flooring, side panels, overhead panels and trim.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

AVUT 1010 – Introduction to Aircraft Interiors	2
AVUT 1040 – Aircraft Seating Fabrication	2
AVUT 1045 – Aircraft Seating Fabrication II	8

LCC1 Luxury Craft Cabinetmaking Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	10

Program Description:

The Luxury Craft Cabinetmaking Technical Certificate is designed to provide students with the knowledge and skills to prepare them for entry level employment in the luxury craft cabinetmaking industry. Emphasis is placed on aircraft and marine vessels, but is not all inclusive.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

CARP 1103 – Luxury Craft Cabinet Materials and Fasteners	2
CARP 1106 – Print Reading for Luxury Craft Cabinet	3
CARP 1107 – Luxury Craft Cabinetmaking	5

BA12 Barbering Diploma

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	56

Program Description:

The Barbering program is a sequence of courses that prepares students for careers in the field of barbering. Learning opportunities develop academic and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes specialized training in safety, sanitation, hair treatments and manipulations, haircutting techniques, shaving, skin care, reception, sales, and management. The curriculum meets state licensing requirements of the Georgia State Board of Barbering. The program graduate receives a Barbering diploma and is employable as a barber, salon/shop manager or a salon/shop owner.

Satisfactory completion of all program courses entitles students to sit for the Georgia State Board of Cosmetology and Barbers Master Barber Licensure. Practicing barbering in the state of Georgia requires this license. The exams are not part of the program or cost of the program.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

Basic Skills Courses:

MATH 1012 – Foundations of Mathematics	3

DA12 Dental Assisting Diploma

Program Entrance Term:	Fall
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	55

Program Description:

The Dental Assisting program at Savannah Technical College prepares students for employment in a variety of positions in today's dental offices. The Dental Assisting program provides learning opportunities which introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in the area of dental assisting. Graduates of the program receive a Dental Assisting diploma and are eligible to sit for a national certification examination.

Satisfactory completion of all program courses entitles students to participate in the Dental Assisting National Board Certified Dental Assistant (CDA) examination and certification process. Some employers may require candidates to have the CDA credential. The cost of the examination and certification is not part of the cost of the program and must be paid for by the student/graduate.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

Admission Requirements:

Minimum Required Age:	17
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Other conditions for Admission (if any):

The Dental Assisting program is a competitive admission program and requires other conditions for acceptance. For a complete listing of requirements, please visit:

<http://www.savannatech.edu/academics/health-sciences/> and click on the Dental Assisting program link.

ET12 Electrical Technology Diploma

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	54

Program Description:

The Electrical Technology program provides instruction in the inspection, maintenance, installation, and repair of electrical systems in the residential, commercial, and industrial industries. A combination of theory and practical application is emphasized to develop academic, technical, and professional knowledge and skills. Program graduates receive a diploma in Electrical Technology with a specialization in residential or industrial applications.

An Electrician's License typically requires four (4) years of in-field service; however, satisfactory completion of the Electrical Technology Diploma reduces the in-field service requirement to three (3) years. The student must also pass the state exam to become a licensed electrician.

MTT2 Precision Machining and Manufacturing Diploma

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	48

Program Description:

The Machine Tool Technology diploma program is a sequence of courses that prepares students for careers in the machine tool technology field. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of machine tool theory and practical application necessary for successful employment. Program graduates receive a Machine Tool Technology diploma and have the qualification of a machine tool technician.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

Basic Skills Courses:

EMPL 1000 – Interpersonal Relations and Professional Development	2
ENGL 1010 – Fundamentals of English 1	3
MATH 1012 – Foundations of Mathematics	3

Occupational Courses:

MCHT 1011 – Introduction to Machine Tool	4
MCHT 1012 – Blueprint for Machine Tool	3
MCHT 1020 – Heat Treatment and Surface Grinding	4
MCHT 1119 – Lathe Operations 1	4
MCHT 1120 – Mill Operations 1	4
MCHT 1219 – Lathe Operations 11	4
MCHT 1220 – Mill Operations 11	4
AMCA 2110 – CNC Fundamentals	4

Occupational Electives: (6 Credits Minimum)

MCHT 1510 – Machine Tool Internship	3
AMCA 2170 – Practical Applications	4

AMCA, MCHT, IDSY, AUTT, WELD and ELTR courses are also acceptable as Occupational Electives.

Choose *one* of the following:

MCHT 1013 – Machine Tool Math*	3
MATH 1015 – Geometry and Trigonometry*	3

*Prerequisite requirements will apply (see prerequisite page for details).

CT12 CNC Technology Diploma

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	3 Term(s)
Minimum Credit Hours for Graduation:	50

Program Description:

The CNC Technology program is a sequence of courses that prepares students for careers in the CNC field. Learning opportunities develop academic, technical, and professional knowledge and skills for job acquisition, retention, and advancement. The program emphasizes a combination of CNC theory and practical application necessary for successful employment. Program graduates receive a CNC Technology diploma and have the qualification of a CNC technician.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

Basic Skills Courses:

EMPL 1000 – Interpersonal Relations and Professional Development	2
ENGL 1010 – Fundamentals of English 1	3
MATH 1012 – Foundations of Mathematics	3

Occupational Courses:

MCHT 1011 – Introduction to Machine Tool	4
MCHT 1012 – Blueprint for Machine Tool	3
MCHT 1013 – Machine Tool Math	3
MCHT 1020 – Heat Treatment and Surface Grinding	4
MCHT 1119 – Lathe Operations I	4
MCHT 1120 – Mill Operations I	4
AMCA 2110 – CNC Fundamentals	4
AMCA 2130 – CNC Mill Manual Programming	5
AMCA 2150 – CNC Lathe Manual Programming	5
AMCA 2190 – CAD/CAM Programming	4

Occupational Electives: (6 Credits Minimum)

AMCA 2170 – Practical Applications	4
MCHT 1510 – Machine Tool Internship	3

AMCA, MCHT, IDSY, AUTT, WELD, and ELTR courses are also acceptable as Occupational Electives.

Choose *one* of the following:

MCHT 1013 – Machine Tool Math	3
MATH 1015 – Geometry and Trigonometry*	3

*Prerequisite requirements will apply (see prerequisite page for details).

CS51 CNC Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	3Term(s)
Minimum Credit Hours for Graduation:	20

Program Description:

The CNC Specialist Technical Certificate of Credit program provides training for graduates to gain employment as CNC machine tool technicians. Topics include CNC Fundamentals, mill and lathe manual programming, CNC practical applications, and CAD/CAM programming. The program emphasizes a combination of CNC theory and practical application necessary for successful employment.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

AMCA 2110 – CNC Fundamentals	4
AMCA 2130 – CNC Mill Manual Programming	5
AMCA 2150 – CNC Lathe Manual Programming	5
AMCA 2170 – CNC Practical Applications	4
AMCA 2190 – CAD/CAM Programming	4

LP11 Lathe Operator Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	13

Program Description:

The Lathe Operator certificate program prepares students to use lathes, lathe set up, and lathe tool grinding. Emphasis is placed on cutting threads, boring holes to precise measurements, and cutting tapers. Topics include an introduction to machine tool technology, blueprint reading for machine tool, and basic and advanced lathe operations.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

MCHT 1011 – Introduction to Machine Tool	4
MCHT 1012 – Blueprint for Machine Tool	3
MCHT 1119 – Lathe Operations 1	4
MCHT 1219 – Lathe Operations 11	4

MP11 Mill Operator Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	3Term(s)
Minimum Credit Hours for Graduation:	13

Program Description:

The Mill Operator certificate program teaches students to effectively operate milling machinery. Students become proficient in blueprint reading, general mathematical operations, and are provided the necessary knowledge and skills to obtain employment as a milling machinist.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

MCHT 1011 – Introduction to Machine Tool	4
MCHT 1012 – Blueprint for Machine Tool	3
MCHT 1120 – Mill Operations 1	4
MCHT 1220 – Mill Operations 11	4

MA22 Medical Assisting Diploma

Program Entrance Term:	Fall
Minimum Length of Program:	3 Term(s)
Minimum Credit Hours for Graduation:	54

Program Description:

The Medical Assisting program prepares students for employment in a variety of positions in today's medical offices. The Medical Assisting program provides learning opportunities which introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in the area of medical assisting. Graduates of the program receive a Medical Assisting diploma and are eligible to take the CMA (AAMA) exam.

Satisfactory completion of all program courses entitles students to participate in the Certified Medical Assistant (AAMA) Exam examination and certification process. Many employers require candidates to hold a CMA for entry level employment. Application assistance and fee for the exam is included in the Medical Assisting Externship course (MAST 1170).

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

The Medical Assisting Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of Medical Assisting Education Review Board (MAERB).

Commission on Accreditation of Allied Health Education Programs, 25400 U.S. Highway 19 N., Suite 158, Clearwater, Florida 33763, 727-210-2350. www.caahep.org

Admission Requirements:

Minimum Required Age:	17
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Other conditions for Admission (if any): The Medical Assisting diploma program utilizes a competitive entry process and requires the completion of the Health Care Assistant Certificate with any approved specialization OR the Emergency Medical Technician basic certificate plus the required core classes as part of the admission process. Applications are accepted from April 1st until May 11th of each year for a Fall (August) start. The Medical Assisting diploma program starts one (1) cohort each academic year. Meeting the minimal program requirements does not guarantee acceptance in the program. For additional information click on the link below.

Program Courses**Credits**

Basic Skills Courses:

ENGL 1010 - Fundamentals of English I	3
MATH 1012 - Foundations of Mathematics	3
PSYC 1010 - Basic Psychology	3

Occupational Courses:

ALHS 1011 - Structure and Function of the Human Body	5
ALHS 1090 - Medical Terminology for Allied Health Sciences	2
COMP 1000 - Introduction to Computer Literacy	3
MAST 1010 - Legal and Ethical Concerns in the Medical Office	2
MAST 1030 - Pharmacology in the Medical Office	4
MAST 1060 - Medical Office Procedures	4
MAST 1080 - Medical Assisting Skills I	4
MAST 1090 - Medical Assisting Skills II	4
MAST 1100 - Medical Insurance Management	2
MAST 1110 - Administrative Practice Management	3
MAST 1170 - Medical Assisting Externship	6
MAST 1180 - Medical Assisting Seminar	3
MAST 1120 - Human Disease	3

MC71 Medical Coding/Insurance Data Entry Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	3 Term(s)
Minimum Credit Hours for Graduation:	29

Program Description:

The Medical Coding/Insurance Data Entry Specialist technical certificate of credit offers the students an introduction to medical coding. This technical certificate prepares individuals for careers in medical offices and hospitals. The certificate provides the students with the basic anatomy, medical terms, introduction to diseases, computer skills and entry level skills for CPT Coding and ICD 10 coding.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

BUSN 1015 - Introduction to Healthcare Reimbursement	3
BUSN 2370 Healthcare /Medical Office Billing/Coding/Insurance	3

PN12 Practical Nursing Diploma

Program Entrance Term:
Minimum Length of Program:
Minimum Credit Hours for Graduation:

Fall/Spring
6 Term(s)
57

Program Description:

The Practical Nursing program is a four semester program designed to prepare students to give competent nursing care. This is done through a selected number of academic and occupational courses providing a variety of techniques and materials necessary to assist the student in acquiring the needed knowledge and skills to give competent care. A variety of clinical experiences are planned so that theory and practice are integrated under the guidance of the clinical instructor. Program graduates receive a practical nursing diploma and have the qualifications of an entry-level practical nurse. Satisfactory completion of all program courses may entitle a student to participate in the NCLEX-PN examination and licensure process. Employers will require candidates to be a licensed practical nurse (LPN). The cost of each of the examinations and licensure is not part of the cost of the program and must be paid for by the student/graduate.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

Admission Requirements:

Minimum Required Age: 18
High School Diploma or GED Required: Yes

Minimum Test Scores:

Next Gen. ACCUPLACER
Reading: 224
Writing: 236
Arithmetic: 229

Other conditions for Admission (if any):

The Practical Nursing program is a competitive admission program and requires other conditions for acceptance. For a complete listing of requirements, please visit <http://www.savannahtech.edu/academics/health-sciences/> and click on the Practical Nursing program link.

CN21 Nurse Aide Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	13

Program Description:

The Nurse Aide Technical Certificate of Credit prepares students with classroom training and practice as well as the clinical experiences necessary to care for patients in various settings including general medical and surgical hospitals, nursing care facilities, community care facilities for the elderly, and home health care services. Satisfactory completion of all program courses entitles students to participate in the National Nurse Aide Assessment program (NNAAP) examination and certification process. This will allow them to become eligible to be enrolled in the state nurse aide registry. Employers will require candidates to be a Certified Nurse Aide. The exams are not part of the program or cost of the program.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	No

Minimum Test Scores:

WAJ2 Welding & Joining Technology Diploma

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	4 Term(s)
Minimum Credit Hours for Graduation:	54

Program Description:

The Welding and Joining Technology diploma is designed to prepare students for careers in the welding industry. Program learning opportunities develop academic, technical, professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes welding theory and practical application necessary for successful employment. Program graduates receive a Welding and Joining Technology diploma, have the qualifications of a welding and joining technician, and are prepared to take qualification tests.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

General Education Core (Required Minimum: 9 Semester Credit Hours)

EMPL 1000 – Interpersonal Relations and Professional Development	2
ENGL 1010 – Fundamentals of English	3

MW21 Master Welder I TCC

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	24

Program Description:

Master Welder I TCC is designed to prepare students for careers in the welding industry. Program learning opportunities develop technical, professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes welding theory and practical application necessary for successful employment. Program graduates receive a Master Welder I TCC and have the qualifications of an Advanced Shielded Metal Arc Welder, and are prepared to take qualification tests.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

WELD 1000 – Introduction to Welding Technology	4
WELD 1010 – Oxyfuel Cutting	4
WELD 1040 – Flat Shielded Metal Arc Welding	4
WELD 1050 – Horizontal shielded Metal Arc Welding	4
WELD 1060 – Vertical Shielded Metal Arc Welding	4
WELD 1070 – Overhead Shielded Metal Arc Welding	4

OSM1 Advanced Shielded Metal Arc Welder Technical Certificate of Credit

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	12

Program Description:

The Advanced Shielded Metal Arc Welder Technical Certificate of Credit is a continuation of the basic certificate. The advanced program provides instruction in shielded metal arc welding in the overhead, horizontal, and vertical positions.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

WELD 1050 – Horizontal shielded Metal Arc Welding	4
WELD 1060 – Vertical Shielded Metal Arc Welding	4
WELD 1070 – Overhead Shielded Metal Arc Welding	4

FS31 Basic Shielded Metal Arc Welder Technical Certificate of Credit

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	12

Program Description:

The Basic Shielded Metal Arc Welder Technical Certificate of Credit prepares students for careers in the welding and joining industry. This certificate emphasizes arc welding in the flat position and is pre-requisite to the advanced certificate.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

WELD 1000 – Introduction to Welding Technology	4
WELD 1010 – Oxyfuel Cutting	4
WELD 1040 – Flat Shielded Metal Arc Welding	4

FC61 Flux Cored Arc Welder Technical Certificate of Credit

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	16

Program Description:

The Flux Cored Arc Welder Technical Certificate of Credit introduces students to and provides instruction in flux cored arc welding practices. Topics include an introduction to the welding industry, oxyfuel cutting techniques, and flux cored arc welding practices.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

WELD 1000 – Introduction to Welding Technology	4
WELD 1010 – Oxyfuel Cutting	4
WELD 1153 – Flux Cored Arc Welding	4

Choose *one* of the following courses:

WELD 1030 – Blueprint Reading for Welding Technology	4
WELD 1040 – Flat Shielded Metal Arc Welding	4
WELD 1090 – Gas Metal Arc Welding	4
WELD 1110 – Gas Tungsten Arc Welding	4

GTA1 Gas Tungsten Arc Welder Technical Certificate of Credit

Program Entrance Term:
Minimum Length of Program:
Minimum Credit Hours for Graduation:

Fall, Spring,
1 Term(s) Minimum
16

Program Description:

The Gas Tungsten Arc Welder Technical Certificate of Credit provides instruction in TIG welding techniques. Topics include understanding the nature and culture of the welding industry, oxyfuel cutting techniques, and TIG welding processes.

Admission Requirements:

Minimum Required Age: 16
High School Diploma or GED Required: Yes

Minimum Test Scores:

Next Gen. ACCUPLACER
Reading: 224
Writing: 236
Arithmetic: 229

Program Courses

Credits

WELD 1000 – Introduction to Welding Technology	4
WELD 1010 – Oxyfuel Cutting	4
WELD 1110 – Gas Tungsten Arc Welding	4

Choose one of the following courses:

WELD 1150 – Advanced Gas Tungsten Arc Welding	4
WELD 1153 – Flux Cored Arc Welding	4
WELD 1030 – Blueprint Reading for Welding Technology	4
WELD 1040 – Flat Shielded Metal Arc Welding	4

GM31 Gas Metal Arc Welder Technical Certificate of Credit

Program Entrance Term:	Fall, Spring,
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	16

Program Description:

The Gas Metal Arc Welder Technical Certificate of Credit prepares students for welding careers in the MIG process. Topics include an introduction to welding technology, oxyfuel cutting techniques, and MIG welding techniques and processes.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Advance Airframe and Powerplant Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	16

Program Description:

The Advance Airframe and Powerplant Certificate is designed for those individuals who have meet the requirements of Federal Aviation Regulation Part 65, Subpart D. The individual must have a completed FAA Form 8610-2 in which block V has been signed by an FAA inspector or must have a graduation certificate or certificate of completion from a certificated aviation maintenance school.

This program will emphasize a combination of aircraft maintenance theory and application to help the individual to gain a better understanding of requirements for holding a FAA Mechanic's Certificate with an Airframe and Powerplant rating. This certificate is for individuals who are qualified but have not earned their FAA Mechanic's Certificate with an Airframe and Powerplant rating. At the end of each class the student will take the FAA written exam that goes with that area (i.e. General, Airframe, or Powerplant) and that will count as their final exam for the class. The cost of the exam is not part of the college's tuitions and fees for the class and must be paid separately. After successful completion of the program, students must still successfully take the Oral and Practical part of the FAA Mechanic's test to earn their FAA Mechanic's Certificate with Airframe and Powerplant rating. This cost for the Oral and Practical is not part of the cost of the program.

Admission Requirements:

Minimum Required Age:	18
High School Diploma or GED Required:	Yes

External Standards

In order for the student to be eligible for this program they will have to have had an FAA Form 8610-2 signed off by an FAA inspector for Mechanic's Certificate with Airframe and Powerplant rating or they will have to have a certificate of completion for Airframe and Powerplant curriculum from an approved FAA Part 147 school.

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

MKTG 1164 – Business Skills for the Customer	2
MKTG 1165 – Personal Effectiveness in Customer Service	1

CM51 Certified Manufacturing Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	11

Program Description:

The Certified Manufacturing Specialist (CMS) Technical Certificate of Credit prepares students for entry-level employment in a manufacturing environment. Topics include organization principles, workplace skills, manufacturing production, automated manufacturing skills, and representative manufacturing skills.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

<u>Program Courses</u>	<u>Credits</u>
AUMF 1520 – Manufacturing Organizational Principles	1
AUMF 1540 – Manufacturing Workforce Skills	2
AUMF 1560 – Manufacturing Production Requirements	1
AUMF 1580 – Automated Manufacturing Skills	3
AUMF 1660 – Representative Manufacturing Skills	4

CW11 Certified Warehouse and Distribution Specialist Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	9

Program Description:

The Certified Warehouse and Distribution Specialist (CWDS) Technical Certificate of Credit Program provides instruction that will allow graduates to function safely and effectively in the warehouse environment. Topics include workforce skills, warehousing and distribution processes, technology skills, and representative warehousing skills.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

<u>Program Courses</u>	<u>Credits</u>
CWDS 1540 – Working in the Warehousing Environment	2
CWDS 1560 – Warehousing Core and Workforce Skills	2
CWDS 1580 – Warehousing and Distribution Process	2
CWDS 1600 – Warehousing Technology Skills	2
CWDS 1620 – Representative Warehouse Skills	1

CT61 Commercial Truck Driving Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	9

Program Description:

The Commercial Truck Driving certificate program provides basic training in the principles and skills of commercial truck operations. The program is based on the definition of a truck driver as one who operates a commercial motor vehicle of all different sized and descriptions on all types of roads. At the completion of the program, the student is administered the Georgia CDL Skills Exam.

Admission Requirements:

Minimum Required Age:	18
High School Diploma or GED Required:	No

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

CTDL 1010 – Fundamentals of Commercial Driving	3
CTDL 1020 – Combination Vehicle Basic Operations and Range Work	2
CTDL 1030 – Combination Vehicle Advanced Operations	4

HA21 Health Care Assistant Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	3 Term(s)
Minimum Credit Hours for Graduation:	30

Program Description:

The Health Care Assistant Certificate of Credit is a program that provides academic foundations at the diploma level in communications, mathematics, and human relations, as well as technical fundamentals. Program graduates are trained in the underlying fundamentals of health care delivery and are well prepared for employment and subsequent upward mobility into one of many areas of specialization such as Basic Dental Assisting, Central Sterile Supply Processing Technician, Medical Coding/Insurance Data Entry, Medical Front Office, Phlebotomy, Nurse Aide, and Patient Care Technician.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

Admission Requirements:

Minimum Required Age:	17
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

Basic Skills Courses:

ENGL 1010 - Fundamentals of English I	3
PSYC 1010 – Basic Psychology	3
MATH 1012 - Foundations of Mathematics	3
OR	
MATH 1013 –Algebraic Concepts	(3)

Occupational Courses:

ALHS 1011 - Structure and Function of the Human Body	5	
ALHS 1040 - Introduction to Health Care	3	
ALHS 1090 - Medical Terminology for Allied Health Sciences	2	
COMP 1000 - Introduction to Computers	3	
COMPLETE 8 to 14 CREDIT HOURS OF OCCUPATIONAL COURSES SELECT (see specializations below) 8 to 14		MUST

Basic Dental Assisting (14)

(Only offered at the Savannah Campus)

The Basic Dental Assisting specialization tracks to the Dental Assisting diploma program and Medical Assisting program. Additional requirements must be met for acceptance into the Dental Assisting program.

DENA 1050- Dental Microbiology and Infection Control	3
DENA 1080- Dental Anatomy	5
DENA 1340-Dental Assisting I: General Chair-side	6

Central Sterile Supply Processing Tech Track (16)

(Only offered at the Savannah Campus)

The Central Sterile Processing Technician specialization tracks to the Surgical Technology program and Medical Assisting program. Additional requirements must be met for acceptance into the Surgical Technology program.

CSSP 1010 Central Sterile Processing Technician	5
CSSP 1020 Central Sterile Processing Technician Practicum I	6
CSSP 1022 Central Sterile Processing Technician Practicum II	5

Medical Coding/Insurance Data Entry (13)

(Offered at the Effingham, Liberty, and Savannah Campuses)

The Medical Coding/Insurance Data Entry specialization tracks to the Medical Assisting diploma program. Additional requirements must be met for acceptance into the Medical Assisting program.

BUSN 1440 - Document Production	4
MAST 1120 - Human Pathological Conditions	3
BUSN 1015 - Introduction to Medical Insurance	3

BUSN 2370 - Medical Office Billing/Coding and Insurance	3
---	---

Medical Front Office	(8)
-----------------------------	------------

(Offered at the Effingham, Liberty, and Savannah Campuses)

The Medical Front Office specialization tracks to the Medical Assisting diploma program. Additional requirements must be met for acceptance into the Medical Assisting program.

BUSN 1440 Document Production	4
-------------------------------	---

BUSN 2340 Medical Administrative Procedures	4
---	---

Phlebotomy	(8)
-------------------	------------

(Offered at the Savannah and Liberty Campuses)

The Phlebotomy specialization tracks to the Medical Assisting diploma program. Additional requirements must be met for acceptance into the Medical Assisting program.

PHLT 1030-Introduction to Venipuncture	3
--	---

PHLT 1050-Clinical Practice	5
-----------------------------	---

Nurse Aide	(8)
-------------------	------------

(Offered at the Effingham, Liberty, and Savannah Campuses)

The Nurse Aide specialization tracks to the Practical Nursing and Medical Assisting diploma programs. Additional requirements must be met for acceptance into the Practical Nursing and Medical Assisting program.

ALHS 1060-Diet and Nutrition for Allied Health Sciences	2
---	---

NAST 1100-Nurse Aide Fundamentals	6
-----------------------------------	---

(Offered at the Effingham, Liberty, and Savannah Campuses)

The Patient Care Technician specialization tracks to the Practical Nursing and Medical Assisting diploma program. Additional requirements must be met for acceptance into the Practical Nursing program.

ALHS 1060 - Diet and Nutrition for Allied Health Sciences	2
---	---

NAST 1100 - Nurse Aide Fundamentals	6
-------------------------------------	---

PCTA 1100 – Skills for Patient Care	6
-------------------------------------	---

HS21 Health Care Science Technical Certificate of Credit

Program Entrance Term:
Minimum Length of Program:
Minimum Credit Hours for Graduation:

Fall, Spring, Summer
3 Term(s)
36

Program Description:

The Health Care Science Certificate of Credit is a program that provides academic foundations at the degree level in communications, mathematics, and human relations, as well as technical fundamentals.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

Admission Requirements:

Minimum Required Age: 17
High School Diploma or GED Required: Yes

Minimum Test Scores:

Next Gen. ACCUPLACER
Reading: 224
Writing: 236
Arithmetic: 229

PC21 Patient Care Assistant Technical Certificate of Credit

Program Entrance Term:	Fall/Spring
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	23

Program Description:

The Patient Care Assistant Technical Certificate of Credit prepares students with rigorous classroom training and practice as well as the clinical experiences to perform a full range of patient care duties or services under nursing or medical direction. This includes taking vital signs, obtaining lab specimens, assisting with activities of daily living, observing and charting patient information, and reporting appropriate information to supervisors. It may also include providing various outreach services to clients within the community. Students who successfully complete the Patient Care Assistant Technical Certificate of Credit may be eligible to sit for the National Nurse Aide Assessment program (NNAAP) which determines competency to become enrolled in the State nurse aid registry.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

ALHS 1011 - Structure and Function of the Human Body	5

PT21 Phlebotomy Technician Technical Certificate of Credit

Program Entrance Term:	Fall/Spring/Summer
Minimum Length of Program:	3 Term(s)
Minimum Credit Hours for Graduation:	24

Program Description:

The Phlebotomy Technician program educates students to collect blood and process blood and body fluids. Phlebotomy technicians typically work in concert with clinical laboratory personnel and other healthcare providers in hospitals or other healthcare facilities. Topics covered include human anatomy, anatomical terminology, venipuncture, and clinical practice.

Satisfactory completion of all program courses entitles students to participate in the American Medical Technologists Registered Phlebotomy Technicians examination and certification process. Some employers may require candidates to hold a Registered Phlebotomy Technician (RBT) or Certified Phlebotomy Technician (PBT). The cost of the examinations and certification is not part of the cost of the program and must be paid for by the student/graduate.

Note: Criminal background check and drug screen may be required based on the requirements for participation in clinical experiences.

Admission Requirements:

Minimum Required Age:	18
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

TS11 Team Supervisor Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	1 Term(s)
Minimum Credit Hours for Graduation:	18

Program Description:

The Team Supervisor Technical Certificate of Credit Program prepares the newly or soon to be promoted supervisor with skills required to manage the work of employees, including all aspects of managerial functions including hiring, training, communicating, planning, coaching, mentoring, motivating, corrective action measures and performance appraisals/evaluations.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

GF21 Georgia Film Academy On-Set Production Assistant Technical Certificate of Credit

Program Entrance Term:	Fall, Spring, Summer
Minimum Length of Program:	2 Term(s)
Minimum Credit Hours for Graduation:	18

Program Description:

This program is offered in collaboration with the Georgia Film Academy. It provides an introduction to the skills used in on-set film production, including all forms of narrative media which utilize film- industry standard organizational structure, professional equipment, and on-set procedures. In addition to the use of topical lectures and instructional resources, the course includes demonstrations of equipment and set operations as well as hands-on learning experiences. Students will learn film production organizational structure; job descriptions and duties in various film craft areas; film equipment functions and protocols; how and why they all must operate in sync; and networking and self-marketing skills.

Admission Requirements:

Minimum Required Age:	16
High School Diploma or GED Required:	Yes

Minimum Test Scores:

Next Gen. ACCUPLACER	
Reading:	224
Writing:	236
Arithmetic:	229

Program Courses

Credits

FILM 1100 – GFA Introduction to On-Set Film Production	6
FILM 2100 – GFA Practicum	12
OR	
FILM 1350 – GFA Electric and Lighting	6
AND	
FILM 2550 – GFA Film Practicum/Internship	6

Course Descriptions

Opposite each course title is the number of semester credit hours awarded for successful completion of the course.

ACCT Accounting

ACCT 1100 - Financial Accounting I (4)

Introduces the basic financial accounting concepts of the complete accounting cycle and provides the student with the necessary skills to maintain a set of books for a sole proprietorship. Topics include: accounting vocabulary and concepts, the accounting cycle for a personal service business, the accounting cycle for a merchandising business, inventory, cash control and receivables. Laboratory work demonstrates theory presented in class.

Pre-requisites: Advisor Approval Program

Admission Co-requisites: None

ACCT 1105 - Financial Accounting II (4)

Introduces the intermediate financial accounting concepts that provide the student with the necessary skills to maintain a set of books or a partnership and corporation. Topics include: Fixed and Intangible Assets, Current and Long-Term Liabilities (Notes Payable), Payroll, Accounting for a Partnership, Accounting for a Corporation, Statement of Cash Flows, and Financial Statement Analysis. Laboratory work demonstrates theory presented in class.

Pre-requisites: Instructor approval for Provisional Students and ACCT 1100 - Financial Accounting I

Co-requisites: None

ACCT 2000 - Managerial Accounting (3)

Emphasizes the interpretation of data by management in planning and controlling business activities. Topics include Managerial Accounting Concepts, Manufacturing Accounting using a Job Order Cost System, Manufacturing Accounting using a Process Cost System, Cost Behavior and Cost-Volume-Profit, Budgeting and Standard Cost Accounting, Flexible Budgets, Standard Costs and Variances, and Capital Investment Analysis and Budgeting. Laboratory work demonstrates theory presented in class.

Pre-requisites: All Required

ACCT 1105 - Financial Accounting

II Co-requisites: None

ACCT 1115 - Computerized Accounting (3)

Emphasizes operation of computerized accounting systems from manual input forms. Topics include: company creation (service and merchandising), chart of accounts, customer's transactions, vendors transactions, banking activities, merchandise inventory, employees and payroll, and financial reports. Laboratory work includes theoretical and technical application.

Pre-requisites: All Required

COMP 1000 - Introduction to Computers
ACCT 1100 - Financial Accounting

Co-requisites: None

ACCT 1120 - Spreadsheet Applications (4)

This course covers the knowledge and skills to use spreadsheet software through course demonstrations, laboratory exercises and projects. Topics and assignments will include: spreadsheet concepts, creating and manipulating data, formatting data and content, creating and modifying formulas, presenting data visually and collaborating and securing data.

Pre-requisites: All Required

COMP 1000 - Introduction to Computers
Co-requisites: None

ACCT 1125 - Individual Tax Accounting

(3)

Provides instruction for the preparation of individual federal income tax returns. Topics include: taxable income, income adjustments, schedules, standard deductions, itemized deductions, exemptions, tax credits, and tax calculations.

Pre-requisites:

None Co-

requisites: None

ACCT 1130 - Payroll Accounting

(3)

Provides an understanding of the laws that affect a company's payroll structure and practical application skills in maintaining payroll records. Topics include: payroll tax laws, payroll tax forms, payroll and personnel records, computing wages and salaries, taxes affecting employees and employers, and analyzing and journalizing payroll transactions.

Pre-requisites: All Required

ACCT 1100 - Financial

Accounting I Co-requisites: None

ACRP Automotive Collision Repair

ACRP 1000 - Introduction to Auto Collision Repair

(4)

This course provides instruction in procedures and practices necessary for safe and compliant operation of auto collision repair facilities. It introduces the structural configuration and identification of the structural members of various unibodies and frames used for automobiles as well as equipment and hand tools used in collision repair tasks.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

ACRP 1005 - Automobile Component Repair and Replacement

(4)

This course provides instruction in removal and replacement methods of a variety of non-structural cosmetic and safety features of the automobile as well as bolt-on body panels.

Pre-requisites: None

Co-requisites: All Required

ACRP 1000 - Introduction to Auto Collision Repair

ACRP 1010 - Foundations of Collision Repair

(5)

This course introduces the materials, tools, and operations required to repair minor collision damage and it provides instruction in non-metallic auto body repair techniques.

Pre-requisites: None

Co-requisites: All Required

ACRP 1000 - Introduction to Auto Collision Repair

ACRP 1005 - Automobile Component Repair and Replacement

ACRP 1015 - Fundamentals of Automotive Welding

(4)

This course introduces welding and cutting procedures used in auto collision repair. Emphasis will be placed on MIG welding techniques through a variety of different procedures.

Pre-requisites: All

Required Program

Admission

Co-requisites: All Required

ACRP 1000 - Introduction to Auto Collision Repair

ACRP 1018 - Mechanical and Electrical Systems

(4)

This course introduces the various mechanical and electrical systems found on vehicles typically requiring repair of damages incurred through automobile collisions.

Pre-requisites: All

Required Program

Admission

Co-requisites: All Required

ACRP 1000 - Introduction to Auto Collision Repair

ACRP 2000 - Introduction to Refinishing

(5)

This course introduces the hand and pneumatic tools, spray guns, materials and procedures involved in preparing automobile bodies for refinishing. Typical methods and techniques used in detailing a refinished automobile surface are also introduced in this course. Pre-requisites: All Required

Provisional Admission

Co-requisites: All Required

ACRP 1000 - Introduction to Auto Collision

Repair ACRP 1010 - Foundations of Collision

Repair

ACRP 2005 - Fundamentals of Refinishing I

(5)

The course introduces the spray gun equipment, materials, and techniques used in the application of special paints. Emphasis will be placed on automotive refinishing theories and procedures.

Pre-requisites: All

Required Program

Admission

Co-requisites: All Required

ACRP 1000 - Introduction to Auto Collision

Repair ACRP 2000 - Introduction to Refinishing

ACRP 2008 - Fundamentals of Refinishing II

(3)

This course further expands on the spray gun equipment, materials, and techniques used in the application of special paints to automobile finishes introduced in Fundamentals of Refinishing I. Emphasis will be placed on blending, tinting, and matching colors. Pre-requisites: None

Co-requisites: All Required

ACRP 2005 - Fundamentals of Refinishing I

ACRP 2009 - Refinishing Internship

(3)

Provides occupation-based learning opportunities for students pursuing the Paint and Refinishing specialization. Students will be mentored by qualified professional technicians as they experience working in the Automotive Collision Repair profession in an industry standard commercial repair facility or industry standard simulated on-campus facility. Topics include: sanding, priming, and paint preparation; special refinishing applications; urethane enamels; tint and match colors; and detailing.

Pre-requisites: All Required

ACRP 1000 - Introduction to Auto Collision

Repair Co-requisites: All Required

ACRP 2005 - Fundamentals of Refinishing

I ACRP 2008 - Fundamentals of

RefinishingII

ACRP 2010 - Major Collision Repair

(5)

This course introduces procedures and resources used in the identification and assessment of automotive collision damages. This course provides instruction on the hydraulic systems and for the diagnosis, straightening, measuring and alignment of automobile frames and bodies.

Pre-requisites: All Required

ACRP 1000 - Introduction to Auto Collision

Repair Co-requisites: All Required
ACRP 1005 - Automobile Component Repair and Replacement

ACRP 2015 - Major Collision Replacements (5)

This course provides instruction in conventional/unibody automobile body structural panel repairs emphasizing a variety of removal and replacement techniques.

Pre-requisites: All Required
ACRP 1000 - Introduction to Auto Collision
Repair Co-requisites: All Required
ACRP 2010 - Major Collision Repair

ACRP 2019 - Major Collision Repair Internship (3)

Provides occupation-based learning opportunities for students pursuing the Major Collision Repair specialization. Qualified professional technicians will mentor students as they experience working in the Automotive Collision Repair profession in an industry standard commercial repair facility or industry standard simulated on-campus facility. Topics include: conventional frame repair, unibody damage identification and analysis, unibody measuring and fixturing systems, unibody straightening systems and techniques, unibody welding techniques, unibody structural panel repair and replacement, conventional body structural panel repair, unibody suspension and steering systems, and bolt-on body panel removal and replacement.

Pre-requisites: All Required
ACRP 1000 - Introduction to Auto Collision
Repair Co-requisites: All Required
ACRP 2010 - Major Collision Repair
ACRP 2015 - Major Collision Replacements

AIRC 1005 - Refrigeration Fundamentals (4)

Introduces the basic concepts, theories, and safety regulations and procedures of refrigeration. Topics include an introduction to OSHA, safety, first aid, laws of thermodynamics, pressure and temperature relationships, heat transfer, the refrigerant cycle, refrigerant identification, and types of AC systems.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

AIRC 1010 - Refrigeration Principles and Practices (4)

This course introduces the student to basic refrigeration system principles and practices, and the major component parts of the refrigeration system. Topics include refrigeration tools, piping practices, service valves, leak testing, refrigerant recovery, recycling, and reclamation, evacuation, charging, and safety.

Pre-requisites: None
Co-requisites: One Required
AIRC 1005 - Refrigeration Fundamentals

AIRC 1020 - Refrigeration Systems Components (4)

This course provides the student with the skills and knowledge and skills to install, test, and service major components of a refrigeration system. Topics include compressors, condensers, evaporators, metering devices, service procedures, refrigeration systems and safety.

Pre-requisites: All Required
AIRC 1005 - Refrigeration
Fundamentals Co-requisites: None

AIRC 1030 - HVACR Electrical Fundamentals (4)

This course provides an introduction to fundamental electrical concepts and theories as applied to the air conditioning industry. Topics include AC and DC theory, electric meters, electrical diagrams, distribution systems, electrical panels, voltage circuits, code requirements, and safety.

Pre-requisites: All
Required Provisional
Admission

Co-requisites: None

AIRC 1040 - HVACR Electrical Motors (4)

This course provides the student with the skills and knowledge necessary for application and service of electric motors commonly used by the refrigeration and air conditioning industry. Topics include diagnostic techniques, capacitors, installation procedures, types of electric motors, electric motor service, and safety.

Pre-requisites: All Required

AIRC 1030 - HVACR Electrical

Fundamentals Co-requisites: None

AIRC 1050 - HVACR Electrical Components and Controls (4)

Provides instruction in identifying, installing, and testing commonly used electrical components in an air conditioning system.

Topics include: pressure switches, transformers, other commonly used controls, diagnostic techniques, installation procedures, solid state controls, and safety.

Pre-requisites: None

Co-requisites: All Required

AIRC 1030 - HVACR Electrical Fundamentals

AIRC 1060 - Air Conditioning Systems Application and Installation (4)

Provides instruction on the installation and service of residential air conditioning systems. Topics include: installation procedures, split-systems, add-on systems, packaged systems, system wiring, control circuits, and safety.

Pre-requisites: None

Co-requisites: All Required

AIRC 1010 - Refrigeration Principles and

Practices AIRC 1030 - HVACR Electrical

Fundamentals

AIRC 1070 – Gas Heat (4)

This course introduces principles of combustion and service requirements for gas heating systems. Topics include servicing procedures, electrical controls, piping, gas valves, venting, code requirements, principles of combustion, and safety.

Pre-requisites: All Required

AIRC 1030 - HVACR Electrical

Fundamentals Co-requisites: None

AIRC 1080 - Heat Pumps and Related Systems (4)

This course provides instruction on the principles, applications, and operation of a residential heat pump system. Topics include installation and servicing procedures, electrical components, geothermal ground source energy supplies, dual fuel, valves, and troubleshooting techniques.

Pre-requisites: All Required

AIRC 1010 - Refrigeration Principles and

Practices AIRC 1030 - HVACR Electrical

Fundamentals

Co-requisites: None

AIRC 1090 - Troubleshooting Air Conditioning Systems (4)

This course provides instruction on the troubleshooting and repair of major components of a residential air conditioning system. Topics include troubleshooting techniques, electrical controls, air flow, the refrigeration cycle, electrical servicing procedures, and safety.

Pre-requisites: All Required

AIRC 1010 - Refrigeration Principles and

Practices AIRC 1030 - HVACR Electrical

Fundamentals

Co-requisites: None

AIRC 2005 - Design and Application of Light Commercial Air Conditioning (3)

Continues in-depth instruction on components and functions of air conditioning systems with emphasis on design and application of light commercial air conditioning systems. Topics include: refrigeration piping, hydronic piping, pump sizing, commercial load design, air flow, codes, and safety.

Pre-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning

Systems Co-requisites: None

AIRC 2010 - Light Commercial Air Conditioning Control Systems (3)

Emphasizes the study of complex control systems on light commercial air conditioning systems. Topics include: pneumatic controls, electronic controls, electrical controls, mechanical controls, and safety.

Pre-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning

Systems Co-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning Systems

AIRC 2020 - Light Commercial Air Conditioning Systems Operation (5)

Provides in-depth study of the operation of light commercial air conditioning systems. Topics include: boiler operations, refrigeration components, energy management, codes, and safety.

Pre-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning

Systems Co-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning Systems

AIRC 2040 - Residential Systems Designs (5)

Presents advanced refrigeration and electrical skills and theories. Topics include: heat gain and heat loss, duct design, zone control, equipment selection, and safety.

Pre-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning

Systems Co-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning Systems

AIRC 2050 - Georgia State and Local Residential Air Conditioning Codes (3)

Presents advanced level residential air conditioning code concepts and theories. Topics include: local residential air conditioning codes, state residential air conditioning codes, gas piping, refrigeration piping, and safety.

Pre-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning

Systems Co-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning Systems

AIRC 2060 - Air Distribution Systems for Residential Air Conditioning (3)

Continues development of air systems concepts, theories, and skills. Emphasis will be placed on test and balance techniques and fan laws. Topics include: test and balance techniques, fan laws, and safety.

Pre-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning

Systems Co-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning Systems

AIRC 2070 - Commercial Refrigeration Design (3)

Provides an increased level of concepts and theory beyond ACT 102. Students are introduced to more design theory in commercial refrigeration. Topics include: refrigeration heat calculation, equipment selection, refrigeration piping, codes, and safety.

Pre-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning

Systems Co-requisites: All Required
AIRC 1090 - Troubleshooting Air Conditioning Systems

AIRC 2080 - Commercial Refrigeration Application (5)

Introduces the application of fundamental theories and concepts of refrigeration. Emphasis will be placed on equipment application and installation procedures. Topics include: equipment application, installation procedures, cycle controls, energy management, and safety.

Pre-requisites: All Required
AIRC 1090 - Troubleshooting Air Conditioning
Systems Co-requisites: All Required
AIRC 1090 - Troubleshooting Air Conditioning Systems

AIRC 2090 - Troubleshooting and Servicing Commercial Refrigeration (3)

Continues to provide experience in maintenance techniques in servicing light commercial refrigeration systems. Topics include: system clearing, troubleshooting procedures, replacement of components, and safety. Pre-requisites: All Required

AIRC 1090 - Troubleshooting Air Conditioning
Systems Co-requisites: All Required
AIRC 1090 - Troubleshooting Air Conditioning Systems

ALHS Allied Health Sciences

ALHS 1010 - Introduction to Anatomy and Physiology (4)

Provides a study of medical terminology and the basic study of structure and function of the human body. It provides an overview of the functions of each body system and the medical terminology associated with each system. This course is intended for students in non-medical programs and is designed to provide medical terminology and basic knowledge of anatomy and physiology.

Pre-requisites Regular
Admission Co-requisites: None

ALHS 1011 - Structure and Function of the Human Body (5)

Focuses on basic normal structure and function of the human body. Topics include general plan and function of the human body, integumentary system, skeletal system, muscular system, nervous and sensory systems, endocrine system, cardiovascular system, lymphatic system, respiratory system, digestive system, urinary system, and reproductive system.

Pre-requisites
Regular
Admission Co-
requisites: None

ALHS 1040 - Introduction to Health Care (3)

Introduces a grouping of fundamental principles, practices, and issues common in the health care profession. In addition to the essential skills, students explore various delivery systems and related issues. Topics include: basic life support/CPR, basic emergency care/first aid and triage, vital signs, infection control/blood and air-borne pathogens.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

ALHS 1060 - Diet and Nutrition for Allied Health Sciences (2)

A study of the nutritional needs of the individual. Topics include: nutrients, standard and modified diets, nutrition throughout the lifespan, and client education.

Pre-requisites: All Required
Program Admission
Co-requisites: None

ALHS 1090 - Medical Terminology for Allied Health Sciences (2)

Introduces the elements of medical terminology. Emphasis is placed on building familiarity with medical words through knowledge of roots, prefixes, and suffixes. Topics include: origins (roots, prefixes, and suffixes), word building, abbreviations and symbols, and terminology related to the human anatomy.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

CNC Technology

AMCA 2110 - CNC Fundamentals (3)

Provides a comprehensive introduction to computer numerical controlled (CNC) machining processes. Topics include: safety, Computer Numerical Control of machinery, setup and operation of CNC machinery, introduction to programming of CNC machinery, introduction to CAD/CAM.

Pre-requisites: All

Required Provisional

Admission

MCHT 1011 - Introduction to Machine

Tool MCHT 1012 - Blueprint for Machine

Tool MCHT 1013 - Machine Tool Math

Co-requisites: None

AMCA 2130-CNC Mill Manual Programming (5)

Provides instruction for the safe operation and manual programming of computer numerical controlled (CNC) milling machines. Topics include: safety, calculation for programming, program codes and structure, program run and editing of programs.

Pre-requisites: All Required

AMCA 2110 - CNC

Fundamental Co-requisites:

None

AMCA 2150 CNC Lathe Manual Programming (5)

Provides instruction for the safe operation and manual programming of computer numerical (CNC) Lathes. Topics include: safety, calculations for programming, program codes and structure, program run and editing of programs.

Pre-requisites: All Required

AMCA 2110- CNC

Fundamental Co-requisites:

None

AMCA 2170- CNC Practical Applications (3)

Provides additional instruction in part holding and fixture design. Students will also gain additional experience in print-to-part development of CNC programming. Topics include: safety, fixture design and manufacturing, and CNC part manufacturing Pre-requisites: All-Required

AMCA 2110- CNC Fundamentals

AMCA 2130- CNC Mill Manual Programming

AMCA 2150- CNC Lathe Manual

Programming Co-requisites: None

AMCA 2190- CAD/CAM Programming (4)

Emphasizes the development of skills in computer aided design (CAD) and computer aided manufacturing (CAM). The student will

design and program parts to be machined on computer numerical controlled machines. Topics include: hardware and software, drawing manipulations, tool path generation, program posting, and program downloading.

Pre-requisites: All Required

AMCA 2110- CNC Fundamentals

AMCA 2130- CNC Mill Manual Programming

AMCA 2150- CNC Lathe Manual

Programming Co-requisites: All Required

ARTS 1101 – Art Appreciation

Explores the visual arts and the relationship to human needs and aspirations. Students investigate the value of art, themes in art, the elements and principles of composition, and the materials and processes used for artistic expression. Well-known works of visual arts are explored. The course encourages student interest in the visual arts beyond the classroom.

Pre-requisites: Appropriate Degree Level Writing (English) and Reading Placement Test scores

Co-requisites: None

ASTT Aircraft Structural Technology

ASTT 1010- Basic Blueprint Reading

(4)

This course introduces basic blueprint reading. Emphasis will be placed on reading and interpreting blueprints found in a manufacturing environment. Topics include: lines and symbols, orthographic drawings, views, material, form and position, title blocks, sketching, features, and sections.

Pre-requisites- All Required

Provisional Admission

Co-requisites- None

ASTT 1020- Aircraft Blueprint Reading

(3)

This course introduces aerospace specific blueprint information which builds on a basic knowledge of blueprint terminology and symbols. Topics included: dimensioning standards and practices, blueprint components, interpretation of reference planes and coordinate systems, engineering numbering and revision system, body/field of the drawing, detail drawings, configured / method / undimensioned drawings.

Pre-requisites- None

Co-requisites- All Required

ASTT1010 Basic Blueprint Reading

ASTT 1030- Structural Fundamentals

(6)

Introduces the fundamental concepts required in aerospace structural manufacturing and repair. Emphasis is placed on safety, quality, and precision. Topics include: safety, flat pattern layout, quality standards, fasteners, hand tools, and precision measuring instruments.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: All Required

ASTT1010- Basic Blueprint
Reading

ASTT 1040-Structural Layout and Fabrication

(6)

Continues the development of knowledge and skills required to perform basic aerospace layout and fabrication. Emphasizes the safe use of stationary equipment. Topics include: machine safety, stationary equipment, bend allowance, fasteners layout, parts fabrication, special fasteners, and geometric functions.

Pre-requisites: All Required

ASTT1010- Basic Blueprint Reading
ASTT 1030- Structural
Fundamentals Co-Requisites: All
Required ASTT1020- Aircraft
Blueprint Reading

ASTT 1050- Aerospace Quality Management (3)

Introduces the student to the concept of Aerospace Quality Management Systems used in the American workplace. Topics include: History of quality management, principles of quality, tools used in quality systems, quality team building.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

ASTT 1070- Aerodynamics (2)

This course presents the theory of flight and aircraft design as it applies to the manufacturing and repair process. Topics include: terminology, theory of flight, structural design, control surfaces, and stress and fatigue.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

ASTT 1090- Composites and Bonded Structures (4)

Emphasizes the development of knowledge and skills necessary to fabricate and repair bonded and composite aircraft parts. Topics include: safety, terms, classification and characteristics, inspection techniques, and application.

Pre-requisites: None
Co-requisites: All Required

ASTT 1040- Structural Layout and Fabrication

ASTT 1100- Sealants (2)

Provides instruction in the surface preparation, application, and safe handling of sealants used in the aerospace structures repair and manufacturing industry. Topics include: safety; surface preparation; sealants application; sealants shelf life; sealants cure times; and sealants removal.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: All Required

ASTT 1030- Structural Fundamentals

ASTT 1110- Corrosion Control (5)

Emphasizes on development of knowledge and skills necessary to assess damage to corrosion and take corrective action. Topics include: safety; corrosion theory; corrosion types; corrosion removal, repair, and treatment; and corrosion prevention.

Pre-requisites: None
Co-requisites: All Required

ASTT 1040- Structural Layout and Fabrication

ASTT 1120- Aircraft Metallurgy (4)

Introduces the types of metals used in aircraft construction and provides a study of their properties and working characteristics. Topics include: safety, types of metals, properties of metals, methods of identification, heat treatment, temper designations, and working characteristics.

Pre-requisites: All Required
ASTT 1040- Structural Layout and
Fabrication MATH 1012- Foundations of
Mathematics
Co-requisites: None

ASTT 1180- Aircraft Technical Publications (3)

Continues the study of aircraft technical publications found in the manufacturing and repair process. Research skills necessary to locate information in technical publications will be emphasized. Topics include: document control numbers; technical publications; instructional repair manuals; aircraft transport association (ATA) codes; technical orders; tech order system, general; tech order, aircraft specific; and industry specific manuals.

Pre-requisites: All Required
ASTT1020- Aircraft Blueprint
Reading Co-requisites: All Required
ENGL 1010- Fundamentals of English I

AUTT Automotive Technology

AUTT 1010 - Automotive Technology Introduction (2)

Introduces basic concepts and practices necessary for safe and effective automotive shop operations. Topics include: safety procedures; legal/ethical responsibilities; general service; hand tools; shop organization, management, and work flow systems. Pre-requisites: All Required

Provisional
Admission Co-
requisites: None

AUTT 1020 - Automotive Electrical Systems (7)

Introduces automotive electricity, emphasizes the basic principles, diagnosis, and service/repair of batteries, starting systems, starting system components, alternators and regulators, lighting system, gauges, horn, wiper/washer, and accessories.

Pre-requisites: None
Co-requisites: All Required
AUTT 1010 - Automotive Technology Introduction

AUTT 1030 - Automotive Brake Systems (4)

Introduces brake systems theory and its application to automotive systems and anti-lock brake system (ABS) to include ABS components and ABS operation, testing, and diagnosis. Topics include: hydraulic system diagnosis and repair; drum brake diagnosis and repair; disc brake diagnosis and repair; power assist units diagnosis and repair; miscellaneous brake components (wheel bearings, parking brakes, electrical, etc.) diagnosis and repair; test, diagnose, and service electronic brake control system.

Pre-requisites: None
Co-requisites: All Required
AUTT 1010 - Automotive Technology Introduction

AUTT 1040 - Automotive Engine Performance (7)

Introduces basic engine performance systems which support and control four stroke gasoline engine operations and reduce emissions. Topics include: general engine diagnosis, computerized engine controls and diagnosis, ignition system diagnosis and repair, fuel and air induction, exhaust systems, emission control systems diagnosis and repair, and other related engine service. Pre-requisites: All Required

AUTT 1020 – Automotive Electrical
Systems Co-requisites: None

AUTT 1050 - Automotive Suspension and Steering Systems (4)

Introduces students to principles of steering, suspension, wheel alignment, electronic steering, and electronic active suspension.

Topics include: general suspension and steering systems diagnosis; steering systems diagnosis and repair; suspension systems diagnosis and repair; related suspension and steering service; wheel alignment diagnosis, adjustment and repair, wheel and tire diagnosis and repair.

Pre-requisites: None

Co-requisites: All Required

AUTT 1010 - Automotive Technology Introduction

AUTT 1060 – Automotive Climate Control Systems

(5)

Introduces the theory and operation of automotive heating and air conditioning systems. Students attain proficiency in inspection, testing, service, and repair of heating and air conditioning systems and related components. Topics include: a/c system diagnosis and repair; refrigeration system component diagnosis and repair; heating, ventilation, and engine cooling systems diagnosis and repair; operating systems and related controls diagnosis and repair; refrigerant recovery, recycling, and handling.

Pre-requisites: All Required

AUTT 1020 - Automotive Electrical

Systems Co-requisites: None

AUTT 1070 - Automotive Technology Internship

(4)

This elective course will provide the student with an opportunity to relate what they have learned in the classroom and lab to a real world situation either at a place of business or at a technical college. Under the supervision of an experienced ASE certified technician or their instructor, the student will obtain a greater admiration and appreciation of the material learned in the classroom and lab. The internship will also serve the function of bridging the lessons learned at school and applying that to real world situations. The suitability of the work setting will be determined by having a conference with the automotive instructor and the prospective employer. The student will have the option to take the internship program at an approved place of employment or at the college if he or she wishes and perform all the live work duties of the service writer, parts department personnel, and technician to include writing the repair order, ordering parts (if applicable) and repairing the vehicle. Student must work a minimum of 150 hours during the semester to receive credit for this course.

Pre-requisites: All Required

AUTT 1010 - Automotive Technology

Introduction AUTT 1020 - Automotive Electrical

Systems AUTT 1030 - Automotive Brake

Systems

Co-requisites: None

AUTT 2010 - Automotive Engine Repair

(6)

This course introduces the student to automotive engine theory and repair, placing emphasis on inspection, testing, and diagnostic techniques for both 2 cycle and 4 cycle internal combustion engines. Topics include general engine diagnosis; removal and reinstallation; cylinder heads and valve trains diagnosis and repair; engine blocks assembly diagnosis and repair; lubrication and cooling systems diagnosis and repair.

Pre-requisites: None

Co-requisites: All Required

AUTT 1010 - Automotive Technology Introduction

AUTT 2020 - Automotive Manual Drive Train and Axles

(4)

This course introduces basics of rear-wheel drive, front-wheel drive, and four-wheel drive line related operation, diagnosis, service and related electronic controls. Topics include: drive shaft and half shaft, universal and constant- velocity (CV) joint diagnosis and repair; ring and pinion gears and differential case assembly; limited slip differential; drive axle shaft; four-wheel drive/all-wheel drive component diagnosis and repair. Introduces basics of front and rear-wheel drive. Clutch operation, diagnosis and service is included. Electronic controls related to transmission/transaxles operation are discussed. Topics include: clutch diagnosis and repair; transmission/transaxles diagnosis and repair.

Pre-requisites: None

Co-requisites: All Required

AUTT 1010 - Automotive Technology Introduction

AUTT 2030 - Automotive Automatic Transmissions & Transaxles

(5)

Introduces students to basic automatic transmission/transaxle theory, operation, inspection, service, and repair procedures as well as electronic diagnosis and repair. Topics include: general automatic transmission and transaxle diagnosis; in vehicle and off vehicle transmission and transaxle maintenance, adjustment and repair.

Pre-requisites: All Required

AUTT 1020 - Automotive Electrical

Systems Co-requisites: None

AUTT 2100 - Automotive Alternative Fuel Vehicles

(4)

This course will give students the basic knowledge to understand Electric Drive Vehicles, Hybrid Electric Vehicles, and Alternative Fuel Vehicles. The course will cover components, operation, precautions, and diagnostics of BEV, HEV, Fuel Cell Vehicles, and other fuel vehicles. The student will become familiar with the unique hybrid systems and repair procedures on various hybrid vehicles. This course is a program elective which can be used as a substitute for AUTT 1070 (Internship).

Pre-requisites: All Required

AUTT 1020 - Automotive Electrical

Systems Department Head Approval

Co-requisites: None

AVIA Advance Airframe and Powerplant

AVIA 1000 – General Aviation Principles

(4)

This course is designed to help the qualified individual (individual must have FAA 8610-2 signed off by the FAA) to gain a better understanding of general aviation principles required by today's aviation mechanics. Topics include: Basic Electricity; Aircraft Drawings; Weight and Balance; Fluid Lines and Fittings; Materials and Processes; Ground Operations and Servicing; Cleaning and Corrosion Control; Mathematics; Maintenance Forms and Records; Basic Physics; Maintenance Publications; and Mechanic Privileges and Limitations.

Pre-requisites: All Required

FAA Form 8610-2 signed off by FAA for Airframe and Powerplant

ratings Co-requisites: None

AVIA 1010 – Airframe Aviation Principles

(6)

This course is designed to help the qualified individual (individual must have FAA Form 8610-2 signed off by the FAA) to gain a better understanding of airframe aviation principles required by today's aviation mechanics. Topics include: wood structures; aircraft coverings; aircraft finishes; sheet metal and non-metallic structures; welding; assembly and rigging; airframe inspection; aircraft landing gear systems; hydraulic and pneumatic power systems; cabin atmosphere control systems; aircraft instrument systems; communication and navigation systems; aircraft fuel systems; aircraft electrical systems; position and warning systems; ice and rain control systems; and fire protection systems.

Pre-requisites: All Required

FAA Form 8610-2 signed off for Airframe

rating. Co-requisites: None

AVIA 1020 – Powerplant Aviation Principles

(6)

This course is designed to help the qualified individual (individual must have FAA Form 8610-2 signed off by the FAA) to gain a better understanding of powerplant aviation principles required by today's aviation mechanics. Topics include: reciprocating engines; turbine engines; engine inspection; engine instrument systems; engine fire protection systems; engine electrical systems; lubrication systems; ignition and starting systems; fuel metering systems; engine fuel systems; induction and engine airflow systems; engine cooling systems; engine exhaust and reverser systems; propellers; unducted fans; and auxiliary power units.

Pre-requisites: All Required

FAA Form 8610-2 signed off for Powerplant

rating. Co-requisites: None

AVMT Aviation Maintenance Technology

AVMT 1000 – Aviation Mathematics (FAA approved course) (2)

Aviation Mathematics provides students with the knowledge necessary to use and apply mathematical procedures and processes that are applicable to aviation maintenance functions. Topics include perform algebraic operations; extract roots and raise numbers to a given power; determine area and volume of geometrical shapes; and solve ratio, proportion, and percentage problems. Pre-requisites: All Required Program

Admission Co-requisites: None

AVMT 1010 – Aircraft Maintenance Regulations (FAA approved course) (2)

This course provides students with the knowledge and skills necessary to select and use FAA and manufacturers' specifications, data sheets, manuals, related regulations, and technical data; to write descriptions of aircraft conditions, record work performed, and complete maintenance forms and inspection reports; and to interpret federal regulations regarding mechanic privileges and limitations. Topics include: maintenance publications, maintenance forms and records, and mechanic privileges and limitations.

Pre-requisites: All Required Program
Admission
Co-requisites: None

AVMT 1020 – Aircraft Applied Sciences I (FAA approved course) (5)

Provides students with the fundamentals of aircraft materials and processes, ground operations and servicing, and aircraft cleaning and corrosion control.

Pre-requisites: All Required Program
Admission
Co-requisites: None

AVMT 1025 – Aircraft Applied Sciences II (FAA approved course) (4)

Provides students with the fundamentals of aircraft drawings, weight and balance, and fluid lines and fittings. Pre-requisites: All Required

Program
Admission Co-requisites: None

AVMT 1030 – Aircraft Electricity and Electronics (FAA approved course) (5)

Basic Electricity and Electronics provides a study of the relationships of voltage, current, and resistance in aircraft electrical systems, and the use of meters. Basic AC and DC systems; and semiconductor, solid state, and integrated circuit fundamentals are introduced. Topics include: determine the relationship of voltage, current, and resistance in electrical circuits; read and interpret electrical circuit diagrams; measure voltage, current, resistance, and continuity; calculate and measure electrical power; calculate and measure capacitance and inductance; inspect and service batteries; and solid state devices applications.

Pre-requisites: None
Co-requisites: All Required
AVMT 1000 – Aviation Mathematics

AVMT 1210 – Aviation Physics (FAA approved course) (2)

Provides students with an introduction to the theory and application of physics to aerospace vehicles and their subsystems. Topics include: temperature and heat; pressure, temperature, and volume of air mass; basic aerodynamics and theory of flight; physical factors affecting engine output; relationship of pressure, area, and force; origin of sound; principles of simple machines; and centrifugal and centripetal force.

Pre-requisites: None
Co-requisites: All Required
AVMT 1000 – Aviation Mathematics

AVMT 2011 – Aircraft Wood Structures, Coverings, and Finishes (FAA approved course) (1)

This course presents a survey of aircraft airframe structures used in various aircraft. Topics include: wood structures, aircraft coverings, and aircraft finishes. Pre-requisites: All
Required Program Admission
Co-requisites: None

AVMT 2020 – Airframe Sheet Metal (FAA approved course) (2)

Provides a study of sheet metal airframes. Topics include: sheet metal structures introduction; install conventional rivets; install special rivets and fasteners; sheet metal form, lay out, and bend; and inspect and repair sheet metal structures. Pre-requisites: All
Required Program Admission
Co-requisites: None

AVMT 2025 – Airframe Non-Metallic Structures (FAA approved course) (2)

Provides a study of non-metallic tube and riveted sheet monocoque and semi-monocoque. Topics include: identify non-metallic structures; inspect bonded structures; fiberglass structures; plastic structures; composite and honeycomb structures; inspect, check, service and repair windows, doors, and interior furnishings; and laminated structures. Pre-requisites: All
Required Program Admission
Co-requisites: None

AVMT 2030 – Airframe Welding (FAA approved course) (1)

Provides an introduction to welding skills and tasks used on airframes. Topics include: welding principles; soldering, brazing, gas-welding, and arc-welding steel; welding aluminum and stainless steel; fabricating tubular structures; soldering stainless steel; and welding titanium and magnesium. Pre-requisites: All
Required Program Admission
Co-requisites: None

AVMT 2040 – Airframe Assembly and Rigging (FAA approved course) (2)

This course provides a study of aircraft assembly and rigging configurations. Topics include: use assembly and rigging hand tools and equipment; rig fixed wing aircraft; rig rotary wing aircraft; check alignment of structures; assemble aircraft components, including flight control surfaces; balance, rig, and inspect movable primary and secondary control surfaces; and jack aircraft. Pre-requisites: All
Required Program Admission
Co-requisites: None

AVMT 2050 – Airframe Inspection (FAA approved course) (4)

This course provides instruction for performing airframe inspections with emphasis on developing the skill related to conformity and air worthiness evaluations. Topics include: perform airframe conformity inspections, and perform airframe air worthiness inspection. Pre-requisites: None

Co-requisites: All Required
AVMT 1010 – Aircraft Maintenance
Regulations AVMT 1020 – Aircraft Applied
Science I
AVMT 1025 – Aircraft Applied Science II
AVMT 2011 – Aircraft Wood Structures, Coverings, and Finishes

AVMT 2060 – Aircraft Hydraulic and Pneumatic Systems (FAA approved course) (2)

This course provides a study of the principles of generation, distribution, and management of hydraulic and pneumatic power throughout the aircraft. Topics include: identify hydraulic fluids; repair hydraulic and pneumatic power system components; inspect, check, service, troubleshoot, and repair hydraulic and pneumatic power systems; hydraulic and pneumatic position and warning

systems; and inspect, check, troubleshoot, service, and repair aircraft position and warning systems. Pre-requisites: All Required

Program

Admission Co-

requisites: None

AVMT 2070 – Aircraft Landing Gear Systems (FAA approved course) (3)

This course provides a study of aircraft landing gear systems with emphasis on inspection and maintenance procedures of hydraulic and pneumatic power throughout the aircraft structure. Topics include: inspect, check, service, and repair landing gear retractions systems and shock struts; inspect, check, service, and repair brakes, wheels, and tires; and inspect, check, service, and repair steering systems.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

AVMT 2080 – Aircraft Environmental Control Systems (FAA approved course) (3)

This course provides a study of aircraft environmental control systems. Topics include: inspect, check, troubleshoot, service, and repair cabin atmosphere control systems; inspect, check, troubleshoot, service, and repair ice and rain control systems; and inspect, check, troubleshoot, service, and repair fire protection systems.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

AVMT 2085 – Aircraft Fuel and Instrument Systems (FAA approved course) (3)

This course provides a study of airframe fuel and instrument systems. Topics include: inspect, check, troubleshoot, service, and repair aircraft fuel systems; and inspect, check, troubleshoot, service, and repair aircraft instrument systems.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

AVMT 2090 – Aircraft Electrical Systems (FAA approved course) (4)

This course provides a study of aircraft electrical systems. Topics include: install, check, and service airframe electrical wiring, controls, switches, indicators, and protective devices; inspect, check, troubleshoot, service, and repair alternating and direct current electrical systems; repair and inspect aircraft electrical system components, crimp and splice wiring to manufacturer's specifications, and repair pins and sockets of aircraft connectors; and inspect, check, and troubleshoot constant speed and

integrated speed drive generators.

Pre-requisites: None

Co-requisites: All Required

AVMT 1030 – Aircraft Electricity and Electronics

AVMT 2095 – Aircraft Communication and Navigation Systems (FAA approved course) (2)

This course provides a study of aircraft communication and navigation systems. Topics include: inspect, check, and troubleshoot autopilot servos and approach coupling systems; inspect, check, and service aircraft electronic communication and navigation systems including VHF, passenger address interphones and static discharge devices, aircraft VOR, ILD, LORAN, radar beacon transponders, flight management computers, and GPWS; and inspect and repair antenna and electronic equipment installations. Pre-requisites: None

Co-requisites: All Required

AVMT 1030 – Aircraft Electricity and Electronics

AVMT 2210 – Reciprocating Engine Powerplants I (FAA approved course) (3)

This course provides a study of piston engine theory and maintenance including air and water cooled aircraft engines. Topics include: aircraft reciprocating engine theory, and inspect and repair radial engines.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

AVMT 2220 – Reciprocating Engine Powerplants II (FAA approved course) (4)

This course continues a study of piston engine theory and maintenance including air and water cooled aircraft engines. Topics include: overhaul a reciprocating engine; inspect, check, service, and repair reciprocating engines and engine installations; install, troubleshoot, and remove reciprocating engines; and perform an aircraft powerplant conformity and airworthiness inspection.

Pre-requisites: None

Co-requisites: All Required

AVMT 2210 – Reciprocating Engine Powerplant I

AVMT 2230 – Gas Turbine Powerplant I (FAA approved course) (3)

This course provides a study of the fundamentals and evolution of the jet engine and jet propulsion. Topics include: aircraft gas turbine engine theory, and inspect and troubleshoot unducted fan systems and components.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

AVMT 2240 – Gas Turbine Powerplant II (FAA approved course) (3)

This course continues a study of the fundamentals and evolution of the jet engine and jet propulsion. Topics include: overhauls a turbine engine; install, troubleshoot, and remove turbine engines; inspect, check, service, and repair turbine engines and turbine engine installations; and perform an aircraft powerplant conformity and airworthiness inspection.

Pre-requisites: None

Co-requisites: All Required

AVMT 2230 – Gas Turbine Powerplant I

AVMT 2260 – Aircraft Engine Fuel and Fuel Metering Systems (FAA approved course) (4)

This course provides a study of aircraft engine fuel and fuel metering systems. Topics include: repair engine fuel system components; inspect, check, service, troubleshoot, and repair engine fuel systems; troubleshoot and adjust turbine engine fuel metering systems and electronic engine fuel controls; inspect, check, service, troubleshoot, and repair reciprocating and turbine engine fuel metering systems; overhaul carburetors; and repair engine fuel metering system components.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

AVMT 2270 – Powerplant Instruments, Fire Protection, and Electrical Systems

(

3) (FAA approved course)

This course provides a study of powerplant instruments, fire protection, and electrical systems. Topics include: troubleshoot, service, and repair electrical and mechanical fluid rate-of-flow indicating systems; inspect, check, service, troubleshoot, and repair electrical and mechanical engine temperature, pressure, and rpm indicating systems; inspect, check, service, troubleshoot, and repair engine fire detection and extinguishing systems; install, check, and service engine electrical wiring, controls, switches, indicators, and protective devices; and repair engine electrical system components.

Pre-requisites: All Required
AVMT 1030 – Aircraft Electricity and
Electronics Co-requisites: None

AVMT 2275 – Powerplant Ignition and Starting Systems (FAA approved course)

(4)

This course provides a study of powerplant ignition and starting systems. Topics include: overhauls magneto and ignition harness; inspect, service, troubleshoot, and repair reciprocating and turbine engine ignition systems and components; inspect, service, troubleshoot, and repair turbine electrical starting systems; and inspect, service, and troubleshoot turbine engine pneumatic starting systems.

Pre-requisites: All Required
AVMT 1030 – Aircraft Electricity and
Electronics Co-requisites: None

AVMT 2280 – Aircraft Powerplant Accessory Systems (FAA approved course)

(3)

This course provides a study of aircraft powerplant accessory systems. Topics include: inspect and maintain aircraft engine lubrication systems; inspect and maintain aircraft engine inductions systems; inspect and maintain aircraft engine cooling systems; and inspect and maintain aircraft engine exhaust systems.

Pre-requisite: All Required
AVMT 2210 – Reciprocating Engine Powerplants
I AVMT 2230 – Gas Turbine Powerplants I
Co-requisite: None

AVMT 2285 – Aircraft Propeller Systems (FAA approved course)

(3)

This course provides a study of aircraft propeller systems. Topics include: propeller theory and fundamentals; inspect and maintain propellers; and install, troubleshoot, and remove propellers.

Pre-requisites: All Required
AVMT 2210 – Reciprocating Engine Powerplants
I Co-requisites: None

AVIO Avionics

AVIO 1000 – Introduction to Aircraft and Aviation Fundamentals

(2)

This course is an introduction to the basic parts of an aircraft, the basic fundamentals of the theory of flight, basic blueprint reading, and introduction into human factors. Topics include: standard aircraft terminology; basic theory of flight; station numbers; basic blueprint reading; and human factors.

Pre-requisites: All Required
Program Admission
Co-requisites: None

AVIO 1015 – Basic Aircraft Electricity

(5)

Provides a study of the relationship of voltage, current, and resistance in aircraft electrical systems; the use of meters; the bases of AC and DC current and circuits; and solid state devices. Topics include: relationship of voltage, current, and resistance in electrical circuits; electrical circuit diagrams; voltage, current, resistance, and continuity; electrical power; capacitance, inductance and transformers; logic gates; and electrostatic discharge.

Pre-requisites: All Required

Program Admission

Co-requisites: None

AVIO 1025 - Basic Aircraft Electrical Wiring and Troubleshooting

(3)

Introduces the student to the different types of tools, wiring, connectors, and electrical components used in aircraft. It also introduces the student to basic troubleshooting of electrical systems. Topics include: Tooling used in wiring installation; crimping and splicing of aircraft wiring; installations of connectors used in aircraft; installations of aircraft electrical components; and basic troubleshooting of aircraft electrical systems.

Pre-requisites: All Required

AVIO 1015.841 - Basic Aircraft Electricity

Co-requisites: None

AVIO 2000 - Aircraft Navigation, Communication, and Avionic Systems

(3)

This course provides a study of aircraft navigation, communication, and avionics systems. Topics include: navigation systems; communication systems; aircraft instrument systems; aircraft position and warning systems; aircraft antennas; flight management systems; and entertainment and WIFI systems.

Pre-requisites: All Required

Program Admission

Co-requisites: None

AVIO 2010 - Advance Aircraft Electricity

(3)

This course provides a study of aircraft electrical systems. Topics include: power generation and source of power; power distribution and control of power; data buses and communication between line replaceable units; and electrostatic discharge.

Pre-requisites: One Required

Program Admission

Co-requisites: None

AVIO 2020 - Advance Aircraft Wiring and Troubleshooting

(3)

Introduces the student to advance troubleshooting, system integration, repair and inspection, and fault codes in aircraft. Topics include: tools; troubleshooting; system integration; repair and inspection of electrical wiring and components; and fault codes.

Pre-requisites: All Required

AVIO 2010.841 - Advance Aircraft Electricity

Co-requisites: None

AVUT Aircraft Upholstery and Trim

AVUT 1010- Introduction to Aircraft Interiors

(2)

Introduces students to aircraft interior and blueprints. Topics include: introduction to aircraft seating; safety; and introductions to drawings.

Pre-requisites: All Required

Program

Admission Co-

requisites: None

AVUT 1040- Aircraft Seating Fabrication

(2)

Student will learn about aircraft seat breakdown, seat panel foam cover, and seat cushion foam cover. Topics include: Aircraft seat identification, functions, and assembly; identify, cut, shape, and glue up foam for seat panels; and identify, cut, shape, and glue up foam for seat cushions.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

AVUT 1045- Aircraft Seating Fabrication II

(8)

This course teaches the student the skill set of sewing, hemming, construction of seams, fabricating of basic seat covers, and seat cushion install. Topic include: Sewing machine function and operation; hemming and Velcro sewing; sewing of seat pan closeouts; perfecting construction seams; fabricating basic seat covers; and seat cushion install.

Pre-requisites: All Required

Program Admission

Co-requisites: All Required

AVUT 1040.841 - Aircraft Seating Fabrication I

BARB Barbering

BARB 1000 - Introduction to Barber/Styling Implements

(3)

Introduction to Barber/Styling Implements is designed to give an overview of the barbering profession. Students are also taught the fundamentals of each barber/styling implement. Emphasis will be placed on the maintenance and care of each implement. Topics include: Barbering history, personality development, professional barbering ethics, and professional barbering image, safety, and reception and telephone techniques, nomenclature, types and sizes, proper use and care, and maintenance.

Pre-requisites: Provisional

Admission Co-requisites: None

BARB 1010 - Science: Sterilization, Sanitation, and Bacteriology

(3)

Introduces fundamental theories and practices of bacteriology, sterilization, sanitation, safety, and the welfare of the barber/stylist and patron. Topics include: sterilization, sanitation, safety, bacteriology, and Hazardous Duty Standards Act compliance.

Pre-requisites:

None Co-

requisites: None

BARB 1022 - Haircutting and Shampooing I

(3)

This course introduces the theory and skills necessary to apply basic haircutting techniques. Safe use of haircutting implements is stressed. The course also introduces the fundamental theory and skills required to shampoo hair. Laboratory training includes shampooing a live model. Topics include patron preparation, haircutting terminology, safety and sanitation, implements, basic haircutting techniques, shampoo chemistry, and shampoo procedures.

Pre-requisites:

None Co-

requisites: None

BARB 1024 - Haircutting and Shampooing II

(3)

This course introduces the theory and skills necessary to apply basic haircutting techniques. Safe use of haircutting implements is stressed. The course also introduces the fundamental theory and skills required to shampoo hair. Laboratory training includes shampooing a live model. Topics include patron preparation, haircutting terminology, safety and sanitation, implements, basic haircutting techniques, shampoo chemistry, and shampoo procedures.

Pre-requisites:

None Co-

requisites: None

BARB 1030 - Haircutting/Basic Styling

(3)

Continues the theory and application of haircutting techniques and introduces hairstyling. Topics include: introduction to styling, client consultation, head and hair analysis, style cutting techniques, and implements for style cutting and tapering techniques.

Pre-requisites:

None Co-

requisites: None

BARB 1040 – Shaving

(2)

Introduces the theory and skills necessary to prepare and shave a patron. Simulated shaving procedures will precede practice on live models. Topics include: patron preparation, beard preparation, shaving techniques, once-over shave techniques, and safety precautions.

Pre-requisites:

None Co-

requisites: None

BARB 1050 - Science: Anatomy and Physiology

(3)

Develops knowledge of the function and care of the scalp, skin, and hair. Emphasis is placed on the function, health, and growth of these areas. Topics include: cells, skeletal system, muscular system, nervous system, circulatory system, and related systems.

Pre-requisites:

None Co-

requisites: None

BARB 1060 - Introduction to Color Theory/Color Application

(3)

Introduces the fundamental theory of color, predispositions tests, color selection, and color application. Presents the application of temporary, semi-permanent, and permanent hair coloring products. Topics include: basic color concepts, skin reactions, the color wheel, color selection and application, mustache and beards, coloring products, safety precautions and tests, mixing procedures, color selection and application.

Pre-requisites:

None Co-

requisites: None

BARB 1072 - Introduction to Chemical Restructuring of Hair

(3)

This course introduces the chemistry and chemical reactions of permanent wave solutions and relaxers. It provides instruction in the application of permanent waves and hair relaxers. Precautions and special problems involved in applying permanent waves and relaxers will be emphasized. Application of perms and relaxers on live models is included. Topics include permanent wave techniques, safety procedures, chemical relaxer techniques, and permanent wave and chemical relaxer, application procedures on manikins, timed permanent wave, timed relaxer applications, safety precautions, and Hazardous Duty Standard Act.

Pre-requisites:

None Co-

requisites: None

BARB 1074 - Advanced Chemical Restructuring of Hair (3)

This course builds on the Introduction to Chemical Restructuring of Hair course to address advanced theory and practice relating to the chemistry and chemical reactions of permanent waves and hair relaxers. It provides continuing instruction in the precautions and special problems involved in the application of permanent waves and relaxers. Application of perms and relaxers on live models is included. Topics include permanent wave techniques, safety procedures, chemical relaxer techniques, application procedures on manikins, times permanent wave, timed relaxer applications, and Hazardous Duty Standard Act.

Pre-requisites:

None Co-

requisites: None

BARB 1082 - Advanced Haircutting and Styling

(3)

This course continues instruction in the theory and application of haircutting and styling techniques. Topics include elevation and design cutting, introduction to hairpieces, blow-dry styling, thermal waving and curling, advanced haircutting and styling; use of clippers, shears, and razor; permanent waving and styling; shaving techniques and beard trimming.

Pre-requisites:

None Co-

requisites: None

BARB 1090 - Structures of Skin, Scalp, Hair and Facial Treatments

(3)

Introduces the theory, procedures, and products used in the care and treatment of the skin, scalp, and hair. Provides instruction on the theory and application of techniques in the treatment of the skin, scalp, and hair; and introduces the theory and skills required in massaging the face, preparing the patron for facial treatment, and giving facial treatments for various skin conditions. Benefits of facial treatments and massage will be emphasized. Emphasis will be placed on work with live models. Topics include: treatment theory, basic corrective hair and scalp treatments, plain facial, products and supplies, disease and disorders, implements, products and supplies, diseases and disorders, corrective hair and scalp treatments, facial procedures and manipulations, and safety precautions, theory of massage, preparation of patron for massage, massage procedures, facial treatment, types of facials, and

facial treatment benefits.

Pre-requisites:

None Co-

requisites: None

BARB 1100 - Barber/Styling Practicum and Internship

(3)

Provides experience necessary for professional development and completion of requirements for state licensure. Emphasis will be placed on the display of professional conduct and positive attitudes. The requirements for this course may be met in a laboratory setting or in a combination of a laboratory setting and an approved internship facility. Topics include: haircutting/styling, hairstyling texturizing, shaving, beard trimming, thermal waving, hairpiece fitting and styling, safety precautions, and licensure preparation.

Pre-requisites:

None Co-

requisites: None

BARB 1110 - Shop Management/Ownership

(3)

Emphasizes the steps involved in opening and operating a privately owned cosmetology salon or barber/styling shop. Topics include: planning a salon/shop, business management, retailing, public relations, sales skills, client retention, and entrepreneurship.

Pre-requisites:

None Co-

requisites: None

BIOL Biology

BIOL 1111 - Biology I

(3)

Provides an introduction to basic biological concepts with a focus on living cells. Topics include chemical principles related to cells, cell structure and function, energy and metabolism, cell division, protein synthesis, genetics, and biotechnology.

Pre-requisites: Regular

Admission Co-requisites: All

Required

BIOL 1111L - Biology Lab I

BIOL 1111L - Biology Lab I

(1)

Provides an introduction to basic biological concepts with a focus on living cells. Topics include chemical principles related to cells, cell structure and function, energy and metabolism, cell division, protein synthesis, genetics, biotechnology, and evolution.

Pre-requisites: Regular

Admission Co-requisites: All

Required

BIOL 1111 – Biology I

BIOL 2113 - Anatomy and Physiology I

(3)

Introduces the anatomy and physiology of the human body. Emphasis is placed on the development of a systemic perspective of anatomical structures and physiological processes. Topics include body organization, cell structure and functions, tissue classifications, integumentary system, skeletal system, muscular system, and nervous and sensory systems.

Pre-requisites: Regular Admission

Co-requisites: All Required

ENGL 1101 - Composition and Rhetoric

BIOL 2113L - Anatomy and Physiology Lab I

BIOL 2113L - Anatomy and Physiology Lab I

(1)

Selected laboratory exercises paralleling the topics in BIOL 2113. The laboratory exercises for this course include body organization, cell structure and functions, tissue classifications, integumentary system, skeletal system, muscular system, and nervous sensory systems.

Pre-requisites

Regular Admission

Co-requisites: All Required

BIOL 2113 - Anatomy and Physiology I ENGL 1101 - Composition and Rhetoric

BIOL 2114 – Anatomy and Physiology II

(3)

Continues the study of the anatomy and physiology of the human body. Topics include the endocrine system, cardiovascular system,

blood and lymphatic system, immune system, respiratory system, digestive system, urinary system, and reproductive system.

Pre-requisites: All Required

BIOL 2113 - Anatomy and Physiology I

BIOL 2113L - Anatomy and Physiology Lab I

Co-requisites: All Required

BIOL 2114L - Anatomy and Physiology Lab II

BIOL 2114L - Anatomy and Physiology Lab II

(1)

Selected laboratory exercises paralleling the topics in BIOL 2114. The laboratory exercises for this course include the endocrine system, cardiovascular system, blood and lymphatic system, immune system, respiratory system, digestive system, urinary system, and reproductive system.

Pre-requisites: All Required

BIOL 2113 - Anatomy and Physiology I

BIOL 2113L - Anatomy and Physiology Lab I

Co-requisites: All Required

BIOL 2114 - Anatomy and Physiology II

BIOL 2117 - Introductory Microbiology

(3)

Provides students with a foundation in basic microbiology with emphasis on infectious disease. Topics include microbial diversity, microbial cell biology, microbial genetics, interactions and impact of microorganisms and humans, microorganisms and human disease.

Pre-requisites: BIOL 2113 and BIOL 2113 OR BIOL 1111 and BIOL 1111L

Co-requisites: All Required

BIOL 2117L - Introductory Microbiology Lab

BIOL 2117L - Introductory Microbiology Lab

(1)

Selected laboratory exercises paralleling the topics in BIOL 2117. The laboratory exercises for this course include microbial diversity, microbial cell biology, microbial genetics, interactions and impact of microorganisms and humans, and microorganisms and human disease.

Pre-requisites: BIOL 2113 and BIOL 2113L OR BIOL 1111 and BIOL 1111L

Co-requisites: All Required

BIOL 2117 - Introductory Microbiology

BUSN Business Technology

BUSN 1015 – Introduction to Healthcare Reimbursement

(3)

This course is designed to increase efficiency and streamline administrative procedures for insurance coding and billing. Topics include documentation in the medical record, diagnostic code selections, types of insurance, Medicare compliance policies related to documentation in the medical record, diagnostic code selections, types of insurance, Medicare compliance policies related to documentation and confidentiality, and HIPPA and other compliance regulations.

Pre-requisites: All Required

ALHS 1090 Medical Terminology for Allied Health

Sciences Co-requisites: All Required

ALHS 1011 Structure and Function of the Human Body

BUSN 1100 – Introduction Keyboarding

(3)

This course introduces the touch system of keyboarding placing emphasis on correct techniques. Topics include: computer hardware, computer software, file management, learning the alphabetic keyboard, the numeric keyboard and keypad, building speed and accuracy, and proofreading. Students attain a minimum of 25 GWAM (gross words a minute) on 3-minute timings with no more than 3 errors.

Pre-requisites:

None Co-

requisites: None

BUSN 1180 – Computer Graphics and Design

(3)

Introduces how to: design and transmit electronic communications; create graphics on-line; and insert animation and sound to computer-generated charts, graphs, and diagrams.

Pre-requisites: All Required

COMP 1000 – Introduction to

Computers Co-requisites: None

BUSN 1190 – Digital Technologies in Business (2)

Provides an overview of digital technology used for conducting business. Students will learn the application of business activities using various digital platforms.

Pre-requisites: All Required
COMP 1000 - Introduction to
Computers Co-requisites: None

BUSN 1200 - Machine Transcription (2)

Emphasizes transcribing mailable documents from dictation using word processing software. Topics include: equipment and supplies maintenance and usage, work area management, transcription techniques, productivity and accuracy, proofreading, and language arts skills.

Pre-requisites: All Required
ENGL 1010 - Fundamentals of English
I COMP 1000 - Introduction to
Computers BUSN 1440 - Document
Production
Co-requisites: None

BUSN 1210 - Electronic Calculators (2)

Develops skill in the use of electronic calculators to interpret, solve, and record results of various types of problems involving the four arithmetic processes. Topics include: machine parts and features, touch system techniques, and arithmetic applications.

Pre-requisites:
None Co-
requisites: None

BUSN 1220 - Telephone Training (2)

Familiarizes the student with the proper use of current telephone technology to include equipment, techniques, and attributes. Pre-requisites: None
Co-requisites: None

BUSN 1230 - Legal Terminology (3)

This course introduces the spelling, pronunciation, definition, and usage of basic legal terms. The course broadly covers general law terms as well as specialized legal terminology. Topics include: word origins, word building, abbreviations and symbols, correct spelling, pronunciation, and meanings of terminology related to the court system, contracts, family law, real estate, litigation, wills/probate, bankruptcy, and other areas of the law.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

BUSN 1240 - Office Procedures (3)

Emphasizes essential skills required for the business office. Topics include: office protocol, time management, telecommunications and telephone techniques, office equipment, workplace mail, records management, travel/meeting arrangements, electronic mail, and workplace documents.

Pre-requisites: All Required
COMP 1000 - Introduction to
Computers Co-requisites: None

BUSN 1250 – Records Management (3)

Introduces records management concepts for use in any office environment. Topics include: Basic Records Management Concepts; Alphabetic, Numeric, Subject, and Geographic Filing; and Records Retention, Transfer, and Disposition of Records.

Pre-requisites:
None Co-

requisites: None

BUSN 1300 - Introduction to Business

(3)

Introduces organization and management concepts of the business world and in the office environment. Topics include business in a global economy, starting and organizing a business, enterprise management, marketing strategies and financial management.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

BUSN 1310 - Introduction to Business Culture

(3)

Provides skills and attitudes necessary to function effectively both professionally and interpersonally in the workplace. Topics include: health and wellness; exercise; stress, time, and money management; work ethics; wardrobe on the job; workplace communications; and business entertainment, travel, and international culture.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

BUSN 1320 - Business Interaction Skills

(3)

This course equips participants with the tools to communicate and interact more effectively in person, in writing and on the telephone with both internal and external customers. Participants also learn how to work in teams to create a collaborative environment for accomplishing goals. This course consists of the following: language of business, communication skills, working with information, business writing, team and collaborative skills, and resolving interpersonal conflict.

Pre-requisites: None

Co-requisites: None

BUSN 1330 - Personal Effectiveness

(3)

This course focuses on the skills needed to be effective in the corporate environment. The participants learn the importance of effectively managing time, stress and change as they relate to work behavior and quality of work. Topics include: time management, stress management, interview skills/job development, resume writing, and managing change.

Pre-requisites: None

Co-requisites: None

BUSN 1340 - Customer Service Effectiveness

(3)

This course emphasizes the importance of customer service throughout all businesses. Topics include: customer service challenges and problem solving; strategies for successful customer service; effective communication and dealing with difficult customers; empowerment, motivation, and leadership; customer retention and satisfaction measurement; and excellence in customer service.

Pre-requisites: None

Co-requisites: None

BUSN 1400 - Word Processing Applications

(4)

This course covers the knowledge and skills required to use word processing software through course demonstrations, laboratory exercises and projects. Minimal document keying will be necessary as students will work with existing documents to learn the functions and features of the word processing application. Topics and assignments will include: word processing concepts, customizing documents, formatting content, working with visual content, organizing content, reviewing documents, sharing and securing content.

Pre-requisites

COMP 1000 - Introduction to Computers

Co-requisites: None

BUSN 1410 - Spreadsheet Concepts and Applications

(4)

This course covers the knowledge and skills required to use spreadsheet software through course demonstrations, laboratory exercises and projects. Topics and assignments will include: spreadsheet concepts, creating and manipulating data, formatting data

and content, creating and modifying formulas, presenting data visually and, collaborating and securing data.

Pre-requisites: All Required

COMP 1000 - Introduction to Computers

Co-requisites: None

BUSN 1420 - Database Applications

(4)

This course covers the knowledge and skills required to use database management software through course demonstrations, laboratory exercises and projects. Topics and assignments will include: database concepts, structuring databases, creating and formatting database elements, entering and modifying data, creating and modifying queries, presenting and sharing data and, managing and maintaining databases.

Pre-requisites: All Required

COMP 1000 - Introduction to Computers

Co-requisites: None

BUSN 1430 - Desktop Publishing and Presentation Applications

(4)

This course covers the knowledge and skills required to use desktop publishing (DTP) software and presentation software to create business publications and presentations. Course work will include course demonstrations, laboratory exercises and projects. Topics include: desktop publishing concepts, basic graphic design, publication layout, presentation design, and practical applications.

Pre-requisites: All Required

COMP 1000 - Introduction to

Computers Co-requisites: None

BUSN 1440 - Document Production

(4)

Reinforces the touch system of keyboarding placing emphasis on correct techniques with adequate speed and accuracy and producing properly formatted business documents. Topics include: reinforcing correct keyboarding technique, building speed and accuracy, formatting business documents, language arts, proofreading, and work area management.

Pre-requisites: BUSN 1100 or the ability to key 25 gross words a minute on 3-minute timings with no more than 3 errors

COMP 1000 - Introduction to Computers

Co-requisites: All Required

The ability to key 25 gross words a minute on 3-minute timings with no more than 3

errors COMP 1000 - Introduction to Computers

BUSN 2160 - Electronic Mail Applications

(2)

This course provides instruction in the fundamentals of communicating with others inside and outside the organization via a personal information management program. Emphasizes the concepts necessary for individuals and workgroups to organize, find, view, and share information via electronic communication channels. Topics include: Internal and External Communication, Message Management, Calendar Management, Navigation, Contact and Task Management, and Security and Privacy.

Pre-requisites: All

Required Program

Admission

COMP 1000 - Introduction to

Computers Co-requisites: None

BUSN 2170 – Web Page Design

(2)

This course provides instruction in the concepts necessary for individuals to create and manage professional quality web sites.

Topics include: Web Site Creation, Web Page Development and Design, Hyper link Creation, Test, and Repair, Integration, Web Site Navigation, and Web Site Management.

Pre-requisites: All

Required Program

Admission

COMP 1000 - Introduction to

Computers Co-requisites: None

BUSN 2180 - Speed and Accuracy Keying

(1)

Further develops speed and accuracy through analysis of keying and prescribed practice drills. Topics include: building speed

and accuracy and straight-copy proofreading.

Pre-requisites

BUSN 1100--Introduction to Keyboarding or the ability to key 25 GWAM (gross words a minute) on 3-minute timings with no more than 3 errors.

Co-requisites: None

BUSN 2190 - Business Document Proofreading and Editing

(3)

Emphasizes proper proofreading and editing for business documents. Topics include: applying proofreading techniques and proofreader's marks with business documents; proper content, clarity, and conciseness in business documents; and business document formatting.

Pre-requisites

ENGL 1010 OR ENGL 1101

Co-requisites: All Required

BUSN 1440 - Document Production

BUSN 2200 - Office Accounting

(4)

Introduces fundamental concepts of the accounting cycle for a sole proprietor service business. Topics include: accounting equation, analyzing business transactions, journalizing and posting transactions, accounts receivable and accounts payable subsidiary ledgers, financial statements, cash control, and payroll concepts.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

BUSN 2210 - Applied Office Procedures

(3)

This course focuses on applying knowledge and skills learned in prior courses taken in the program. Topics include: communications skills, telecommunications skills, records management skills, office equipment/supplies, and integrated programs/applications.

Serves as a capstone course.

Pre-requisites: All Required

BUSN 1240 - Office

Procedures

BUSN 1400 - Word Processing Applications

BUSN 1410 - Spreadsheet Concepts and

Applications BUSN 1440 - Document Production

Co-requisites: BUSN 2190 - Business Document Proofreading and Editing
and BUSN 2200 - Office Accounting or ACCT1100 - Financial Accounting I

BUSN 2220 - Legal Administrative Procedures

(3)

Emphasizes essential skills required for the legal office. Topics include: legal terminology, preparation of legal documents and correspondence, ethics, and legal office tasks.

Pre-requisites: All Required

BUSN 1230 - Legal Terminology Co-requisites: All

Required BUSN 1440 - Document Production

BUSN 2230 - Office Management

(3)

Provide students with an overview of management concepts, styles, and skills. Topics include: management styles, leadership traits, ergonomics/workflow, communication channels, business ethics, supervisory techniques, and job performance evaluation techniques. Pre-requisites: All Required

BUSN 1240 - Office

Procedures Co-requisites:

None

BUSN 2240 - Business Administrative Assistant Internship I

(4)

Provides student work experience in a professional environment. Topics include: application of classroom knowledge and skills, work environment functions, and listening/following directions. Students will be under the supervision of the Business Technology program faculty and/or persons designated to coordinate work experience arrangements.

Pre-requisites: Must be in last semester of program. With advisor approval, may take concurrently with last semester courses.

Co-requisites: None

BUSN 2250 - Business Administrative Assistant Internship II (6)

Provides student work experience in a professional environment. Topics include: application of classroom knowledge and skills, work environment functions, and listening/following directions. Students will be under the supervision of the Business Technology program faculty and/or persons designated to coordinate work experience arrangements.

Pre-requisites: Must be in last semester of program. With advisor approval, may take concurrently with last semester courses.

Co-requisites: None

BUSN 2300 - Medical Terminology (2)

Introduces the basic spelling and pronunciation of medical terms, and the use of these terms as they relate to anatomy, treatment, surgery, and drugs. Topics include: word analysis, word elements, spelling, pronunciation, and semantics.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

BUSN 2310 - Anatomy and Terminology for the Medical (3) Administrative Assistant

Introduces the structure and function of the human body including medical terminology. Topics covered include information which will provide the medical office assistant with the knowledge needed to communicate with office staff, physicians, and patients and to assist in completion of medical reports generated in the medical office. Topics include: body structures, body functions, and medical terminology.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

BUSN 2320 - Medical Document Processing/Transcription (4)

Provides experience in medical machine transcription working with the most frequently used medical reports. Topics include: equipment and supplies maintenance and usage, work area management, spelling, definitions, punctuation, processing/transcription speed and accuracy, resource utilization, and pronunciation.

Pre-requisites: BUSN 2300 or ALHS 1090 and ALHS 1010 or ALHS 1011 or BUSN 2310

ENGL 1010 - Fundamentals of English I BUSN 1440 - Document Production

Co-requisites: None

BUSN 2330 - Adv. Medical Document Processing/Transcription (4)

Continues the development of speed and accuracy in the transcription of medical reports with emphasis on a variety of medical specialization. Topics include: equipment and supplies maintenance and usage, work area management, spelling, definitions, punctuation, processing/transcription speed and accuracy, resource utilization, pronunciation, and medical transcription work ethics. Pre-requisites: All Required

BUSN 2320 - Medical Document Processing/Transcription

Co-requisites: None

BUSN 2340 - Medical Administrative Procedures (4)

Emphasizes essential skills required for the medical office. Introduces the knowledge and skills of procedures for billing purposes. Introduces the basic concept of medical administrative assisting and its relationship to the other health fields. Emphasizes medical regulations and ethics, and the medical administrative assistant's role as an agent of the physician. Provides the student with knowledge and the essentials of professional behavior. Topics include: introduction to medical administrative assisting procedures, medical regulations ethics, medical records management, scheduling appointments, health insurance, billing/collection, work area management, resource utilization, and office equipment.

Pre-requisites

BUSN 2300 or ALHS 1090 and BUSN 2310 or ALHS 1010 or ALHS 1011 COMP 1000 - Introduction to Computers BUSN 1440 - Document Production

Co-requisites: None

BUSN 2350 - Computerized Medical Office Skills (2)

This course provides a study of the content, code sets, storage, retrieval, control, flow, retention, maintenance of electronic health record, and computerized office management. Topics include: electronic health information management, electronic data interchange, coding standards, health record and office management software, point of entry data entry, electronic coding from health records, speed data entry in processing medical records, analysis of records to improve patient care, confidentiality, release of information, security of electronic health record, communication, technology, insurance payment, managed care, posting to accounts, appointment schedules, practice management, report generation, customizing medical documents, claims management, collections management and HIPAA security.

Pre-requisites: ALHS 1090 or BUSN 2300 and ALHS 1010 or ALHS 1011 or BUSN

2310 COMP 1000 - Introduction to Computers

BUSN 1440 - Document

Production Co-requisites: None

BUSN 2360 - Acute Care Medical Transcription

(4)

Development of a high level of speed and accuracy in the transcription of medical reports in an acute care setting (FAA approved course). Topics include: equipment and supplies maintenance and usage, work area management, pronunciation, spelling, definitions, punctuation, typing speed and accuracy, and resource utilization.

Pre-requisites: ALHS 1010 or ALHS 1011 or BUSN 2310 and ALHS 1090 or BUSN

2300 BUSN 2320 - Medical Document Processing/Transcription

ENGL 1010 - Fundamentals of English I BUSN 1440 - Document

Production Co-requisites: None

BUSN 2370 - Healthcare Coding Medical Billing/Coding/Insurance

(3)

Provides an introduction to medical coding skills and applications of international coding standards for billing of health care services. Provides the knowledge and skills to apply coding of diagnostic statements and procedures for billing purposes. Provides an introduction to medical coding as it relates to health insurance. Topics include: International classification of diseases, code book formats; coding techniques; formats of the ICD and CPT manuals; health insurance; billing, reimbursement, and collections; and managed care.

Pre-requisites: BUSN 2300 or ALHS 1090 and BUSN 2310 or ALHS 1010 or ALHS 1011, and BUSN

1015 Co-requisites: None

BUSN 2380 - Medical Administrative Assistant Internship I

(4)

Provides student work experience in a medical office environment. Topics include: application of classroom knowledge and skills, work environment functions, and listening/following directions. Students will be under the supervision of the Business Technology program faculty and/or persons designated to coordinate work experience arrangements.

Pre-requisites: Must be in last semester of program. With advisor approval, may take concurrently with last semester courses. Co-requisites: None

BUSN 2390 - Medical Administrative Assistant Internship II

(6)

Provides student work experience in a medical office environment. Topics include: application of classroom knowledge and skills, work environment functions, and listening/following directions. Students will be under the supervision of the Business Technology program faculty and/or persons designated to coordinate work experience arrangements

Pre-requisites: Must be in last semester of program. With advisor approval, may take concurrently with last semester courses. Co-requisites: None

CARP Carpentry

CARP 1070 - Site Layout, Footings and Foundations

(3)

Introduces the concepts and practices of basic site layout, footings, and foundation construction. Students will use layout equipment for on-site laboratory practice. Topics include: zoning restrictions and codes, batter board installation, builder's level, squaring methods, footings, plot plan interpretation, materials estimation, foundation types, foundation forms, edge forms, waterproofing, soil testing and excavation.

Pre-requisites: None

Co-requisites: All Required

COFC 1020 - Professional Tool Use and

Safety COFC 1030 - Materials and Fasteners

COFC 1050 - Construction Print Reading Fundamentals

CARP 1103 - Luxury Craft Cabinet Materials and Fasteners

(2)

Identification of common materials and their applications used in the construction of interior arrangements for various luxury aircraft and boats. Topics include: wood and manufactured products, finishing materials, and fasteners.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

CARP 1105 - Floor and Wall Framing

(4)

This course provides instruction in floor and wall materials and materials estimation, framing production of walls and partitions, and framing production of flooring. Emphasis is placed on practical application of skills. Topics include estimation and computation procedures, rough layouts, and layout and installation procedures.

Pre-requisites: None

Co-requisites: All Required

COFC 1020 - Professional Tool Use and

Safety COFC 1030 - Materials and Fasteners

COFC 1050 - Construction Print Reading Fundamentals

CARP 1106 - Print Reading for Luxury Craft Cabinet Making

(3)

The course is designed to give students basic skills in reading and interpreting aircraft cabinet blueprints and drawing. Topics include: identification of the various types of blueprints and drawings, identifying the different views and lines, sketching, and blueprint and drawing specifications.

Pre-requisites: All Required

CARP 1103 - Luxury Cabinet Materials and

Fasteners Co-requisites: None

CARP 1107 - Luxury Craft Cabinetmaking

(5)

The course provides instruction in the fundamental procedures used in luxury craft and aircraft cabinet design, construction, assembly, and installation. Topics include: tool use safety, cabinet base unit, wall unit, face frame assembly, and door and drawer assembly.

Pre-requisites:

None Co-

requisites: None

CARP 1110 - Ceiling and Roof Framing and Covering

(6)

This course provides instruction in the theory and practical application of skills required to construct ceiling and roof framings and coverings. Topics include systems and materials identification, layout procedures, installation procedures, cost and materials estimation, and safety precautions.

Pre-requisites: None

Co-requisites: All Required

COFC 1020 - Professional Tool Use and Safety

COFC 1030 - Materials and Fasteners

COFC 1050 - Construction Print Reading Fundamentals

CARP 1112 - Exterior Finishes and Trim

(4)

Introduces materials identification, estimation, and installation procedures for exterior finish and trim materials to include window and door units. Emphasis will be placed on competency development through laboratory practice. Topics include: doors and windows, siding types, materials identification, materials estimation, and installation procedures.

Pre-requisites: None

Co-requisites: All Required

COFC 1020 - Professional Tool Use and Safety

COFC 1030 - Materials and Fasteners

COFC 1050 - Construction Print Reading Fundamentals

CARP 1114 - Interior Finishes I

(5)

This course introduces the procedures and methods for identifying materials, cost estimating, and installation of interior finishes and trim. Topics include materials identification; cost estimating, trim, insulation, doors, gypsum wallboard, and paneling used in finishing jobs.

Pre-requisites: None

Co-requisites: All Required

COFC 1020 - Professional Tool Use and Safety

COFC 1030 - Materials and Fasteners

COFC 1050 - Construction Print Reading Fundamentals

CARP 1320 - Site Development, Concrete Forming, and Rigging and Reinforcing

(4)

This course provides instruction in the development of construction sites with an emphasis on surveying, materials and processes for concrete forming and usage, and the various methods and materials used in the handling and rigging of steel components.

Pre-requisites: None

Co-requisites: All Required

COFC 1020 - Professional Tool Use and Safety

COFC 1030 - Materials and Fasteners

COFC 1050 - Construction Print Reading Fundamentals

CHEM Chemistry

CHEM 1151 - Survey of Inorganic Chemistry

(3)

Provides an introduction to basic chemical principles and concepts which explain the behavior of matter. Topics include measurements and units, structure of matter, chemical bonding, chemical reactions, gas laws, liquid mixtures, acids and bases, salts and buffers, and nuclear chemistry.

Pre-requisites: One Required

MATH 1111 - College Algebra

MATH 1101 - Mathematical

Modeling Co-requisites: All Required

CHEM 1151L - Survey of Inorganic Chemistry Lab

CHEM 1151L - Survey of Inorganic Chemistry Lab

(1)

Selected laboratory experiments paralleling the topics in CHEM 1151. The lab exercises for this course include units of measurements, structure of matter, chemical bonding, chemical reactions, gas laws, liquid mixtures, acids and bases, salts and buffers, and nuclear chemistry.

Pre-requisites: One

Required MATH 1111 -

College Algebra

MATH 1101 - Mathematical

Modeling Co-requisites: All

Required

CHEM 1151 - Survey of Inorganic Chemistry

CHEM 1211 – Chemistry I

(3)

Provides an introduction to basic chemical principles and concepts which explain the behavior of matter. Topics include measurement, physical and chemical properties of matter, atomic structure, chemical bonding, nomenclature, chemical reactions, and stoichiometry and gas laws.

Pre-requisites: One Required

MATH 1101 – Mathematical

Modeling MATH 1111 – College

Algebra

Co-Requisites: All Required

CHEM 1211L – Chemistry Lab

I

CHEM 1211L - Chemistry Lab I

(1)

Selected laboratory exercises paralleling the topics in CHEM 1211. The laboratory exercises for this course include measurement, physical and chemical properties of matter, atomic structure, chemical bonding, nomenclature, chemical reactions, stoichiometry and gas laws.

MATH 1101 – Mathematical
Modeling MATH 1111 – College
Algebra
Co-Requisites: All
Required CHEM 1211 –
Chemistry I

CIST Computer Information Systems

CIST 1001 - Computer Concepts (4)

Provides an overview of information systems, computers and technology. Topics include: Information Systems and Technology Terminology, Computer History, Data Representation, Data Storage Concepts, Fundamentals of Information Processing, Fundamentals of Information Security, Information Technology Ethics, Fundamentals of Hardware Operation, Fundamentals of Networking, Fundamentals of the Internet, Fundamentals of Software Design Concepts, Fundamentals of Software, (System and Application), System Development Methodology, Computer Number Systems conversion (Binary and Hexadecimal), Mobile computing.

Pre-requisites:
None Co-
requisites: None

CIST 1122 - Hardware Installation and Maintenance (4)

This course serves to provide students with the knowledge of the fundamentals of computer technology, networking, and security along with the skills required to identify hardware, peripheral, networking, and security components with an introduction to the fundamentals of installing and maintaining computers. Students will develop the skills to identify the basic functionality of the operating system, perform basic troubleshooting techniques, utilize proper safety procedures, and effectively interact with customers and peers. This course is designed to help prepare students for the CompTIA A+ certification examination.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

CIST 1130 - Operating Systems Concepts (3)

Provides an overview of modern operating systems and their use in home and small business environments. Activities will utilize the graphical user interface (GUI) and command line environment (CLI). This will include operating system fundamentals; installing, configuring, and upgrading operating systems; managing storage, file systems, hardware and system resources; troubleshooting, diagnostics, and maintenance of operating systems; and networking.

Pre-requisites:
None Co-requisites:
None

CIST 1220 - Structured Query Language (SQL) (4)

Includes basic database design concepts and solving database retrieval and modification problems using the SQL language. Topics include: database Vocabulary, Relational Database Design, Data retrieval using SQL, Data Modification using SQL, Developing and Using SQL Procedures.

Pre-requisites: All Required
COMP 1000 - Introduction to
Computers CIST 1001 - Computer
Concepts
Co-requisites: None

CIST 1305 - Program Design and Development (3)

An introductory course that provides problem solving and programming concepts for those that develop user applications. An emphasis is placed on developing logic, troubleshooting, and using tools to develop solutions. Topics include: problem solving and programming concepts, structured programming, the four logic structures, file processing concepts, and arrays.

Pre-requisites:
None Co-requisites:
None

CIST 1401 - Computer Networking Fundamentals

(4)

Introduces networking technologies and prepares students to take the CompTIA's broad-based, vendor independent networking certification exam, Network +. This course covers a wide range of material about networking, including local area networks, wide area networks, protocols, topologies, transmission media, and security. Focuses on operating network management systems, and implementing the installation of networks. It reviews cabling, connection schemes, the fundamentals of the LAN and WAN technologies, TCP/IP configuration and troubleshooting, remote connectivity, and network maintenance and troubleshooting. Topics include: basic knowledge of networking technology, network media and topologies, network devices, network management, network tools and network security.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

CIST 1601 - Information Security Fundamentals

(3)

This course provides a broad overview of information security. It covers terminology, history, security systems developments and implementation. Student will also cover the legal, ethical, and professional issues in information security.

Pre-requisites:

None Co-requisites:

None

CIST 1602 – Security Policies/Procedures

(3)

This course provides knowledge and experience to develop and maintain security policies and procedures. Students will explore the legal and ethical issues in information security and the various security layers: physical security, personnel security, operating systems, network, software, communication and database security. Students will develop an Information Security Policy and an Acceptable Use Policy.

Pre-requisites: None

Co-requisites: None

CIST 2126 - Comprehensive Presentations and E-Mail Techniques

(3)

This course provides students with knowledge in PIM (Personal Information Management) and presentation software.

Presentation topics include creating and formatting presentation masters and templates, creating and formatting slide content, working with dynamic visual content, and collaborating on and delivering presentations. Personal information manager topics include e-mail, calendar, task manager, contact manager, note taking, a journal and web browsing.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

CIST 2127 - Comprehensive Word Processing Techniques

(3)

This course provides students with knowledge in word processing software. Word processing topics include creating, customizing, and organizing documents by using formatting and visual content that is appropriate for the information presented.

Pre-requisites:

None Co-

requisites: None

CIST 2128 - Comprehensive Spreadsheet Techniques

(3)

This course provides students with knowledge in spreadsheet software. Spreadsheet topics include creating and manipulating data, formatting data and content, creating and modifying formulas, presenting data visually, and collaborating on and securing data.

Pre-requisites:

None Co-

requisites: None

CIST 2129 - Comprehensive Database Techniques

(4)

This course provides a study of databases beginning with introductory topics and progressing through advanced development techniques. Topics include: advanced database concepts, advanced development techniques, data integration concepts, and troubleshooting and supporting databases.

Pre-requisites:
None
Co-requisites: None

CIST 2311 – Visual Basic I

(4)

Visual Basic I introduces event-driven programming. Common elements of Windows applications will be discussed created and manipulated using Microsoft Visual Studio development environment. Topics include numeric data types and variables, decision making structures, arrays, validating input with strings and functions, repetition and multiple forms, test files, lists and common dialog controls.

Pre-requisites: All Required
CIST1305 – Program Design and
Development Co-requisites: None

CIST 2371 – Java Programming I

(4)

This course is designed to teach the basic concepts and methods of objected-oriented design and Java programming. Use practical problems to illustrate Java application building techniques and concepts. Develop an understanding of Java vocabulary. Create an understanding of where Java fits in the application development landscape. Create an understanding of the Java Development Kit and how to develop, debug, and run Java applications using the JDK. Continue to develop student's programming logic skills.

Topics include: JAVA Language History, JAVA Variable Definitions, JAVA Control Structures, JAVA Methods, JAVA Classes, JAVA Objects, and JAVA Graphics.

Pre-requisites: One Required
CIST1305 – Program Design and
Development Co-requisites: None

CIST 2411 - Microsoft Client

(4)

Provides the ability to implement, administrator, and troubleshoot Windows Professional Client as a desktop operating system in any network environment.

Pre-requisites: All Required

Program
Admission Co-
requisites: None

CIST 2412 - Microsoft Server Directory Services

(4)

Provides students with knowledge and skills necessary to install, configure, manage, support and administer Microsoft Directory Services.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

CIST 2413 - Microsoft Server Infrastructure

(4)

Provides students with knowledge and skills necessary to install, configure, manage, support and administer a Microsoft network infrastructure.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

CIST 2414 - Microsoft Server Administrator

(4)

Provides students with knowledge and skills necessary to install, configure, manage, support and administer Windows Server. Topics include server deployment, server management, monitor and maintain servers, application and data provisioning, and business continuity and high availability.

Pre-requisites: All
Required Program
Admission

Co-requisites: None

CIST 2431 - UNIX/Linux Introduction

(4)

This course introduces the UNIX/Linux operating system skills necessary to perform entry-level user functions. Topics include: history of UNIX/Linux, login and logout, the user environment, user password change, the file system, hierarchy tree, editors, file system commands as they relate to navigating the file system tree, UNIX/Linux manual help pages, using the UNIX/Linux graphical desktop, and command options. In addition, the student must be able to perform directory and file displaying, creation, deletion, redirection, copying, moving, linking files, wildcards, determining present working directory and changing directory locations.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

CIST 2432 - UNIX/Linux Server

(4)

This course covers UNIX/Linux operating system administration skills necessary to perform administrative functions. Topics include: installing UNIX/Linux, configuring and building a custom kernel, adding and removing software packages, managing run levels, managing users and groups, implementing security permissions, introduction to shell programming, managing and fixing the file system, managing memory and swap space, managing and scheduling jobs, managing system logs, understanding the boot process, system configuration files, file backup and restore, file compression, fault tolerance, and printing.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

CIST 2433 - UNIX/Linux Advanced Server

(4)

This course covers UNIX/Linux operating system advanced administration skills necessary to perform advanced administrative functions. Topics include: understanding UNIX/Linux networking, managing network printing, configuring and troubleshooting TCP/IP on UNIX/Linux, configuring DHCP, DNS, a Web server, an FTP server, an E-mail server, and understanding NIS (yp) and NFS. Also, includes the following: understanding advanced security issues such as firewalls and NAT, using network commands, use of graphical system such as X Windows, sharing files and printers, and advanced shell programming.

Pre-requisites: All Required

CIST 2432 - UNIX/Linux

Server Co-requisites: None

CIST 2434 - UNIX/Linux Scripting

(4)

Course covers UNIX/Linux shell programming techniques necessary for UNIX/Linux System Administrators to understand and create shell script programs in a UNIX/Linux environment. Topics include: shell variables, running shell script program, conditional processing, looping structures, arithmetic operators, logical operators such as AND, OR, and NOT, positional parameters and process variables, redirection, piping and standard error, use of backslash, quotes and back quotes.

Pre-requisites: All Required

CIST 2431 - UNIX/Linux

Introduction Co-requisites: None

CIST 2441 - Cisco Networking for Home and Small Businesses

(4)

This course teaches students the skills needed to obtain entry-level home network installer jobs. It also helps students develop some of the skills needed to become network technicians, computer technicians, cable installers, and help desk technicians. It provides a hands-on introduction to networking and the Internet using tools and hardware commonly found in home and small business environments. Instructors are encouraged to facilitate field trips and outside-the- classroom learning experiences. Labs include PC installation, Internet connectivity, wireless connectivity, and file and print sharing.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

CIST 2442 - Cisco Working at a Small-to-Medium Business or ISP (4)

This course prepares students for jobs as network technicians and helps them develop additional skills required for computer technicians and help desk technicians. It provides a basic overview of routing and remote access, addressing, and security. It also familiarizes students with servers that provide email services, web space, and authenticated access. Students learn about the soft skills required for help desk and customer service positions, and the final chapter helps them prepare for the CCENT certification exam. Network monitoring and basic troubleshooting skills are taught in context.

Pre-requisites: All Required

CIST 2441 - Cisco Networking for Home and Small Businesses Co-requisites: None

CIST 2443 - Cisco Routing and Switching (4)

The students will be familiarized with the equipment applications and protocols installed in enterprise Networks, with a focus on switched networks, IP Telephony requirements, and security. It also introduces advanced routing protocols such as Enhanced Interior Gateway Routing Protocol (EIGRP) and Open Shortest Path First (OSPF) Protocol.

Pre-requisites: All Required

CIST 2441 - Cisco Networking for Home and Small Businesses Co-requisites: None

CIST 2444 - Cisco Designing and Supporting Computer Networks (4)

This course introduces students to network design processes using two examples; a large stadium enterprise network and a medium- sized film company network. Students follow a standard design process to expand and upgrade each network, which includes requirements gathering, proof-of-concept, and project management. Lifecycle services, including upgrades, competitive analyses, and system integration, are presented in the context of pre-sale support. In addition to the Packet Tracer and lab exercises found in the previous courses, there are many pen-and-paper and role playing exercises that students complete while developing their network upgrade proposals.

Pre-requisites: All Required

CIST 2442 - Cisco Working at a Small-to-Medium Business or ISP
CIST 2443 - Cisco Routing and Switching
Co-requisites: None

CIST 2451 – Introduction to Networks - Cisco (4)

This course provides students with classroom and laboratory experience in current and emerging network technology. Topics include basic network concepts, basic network device configuration, network protocols and models, network access, Ethernet and access control, end to end communications, IPv4 and IPv6 addressing and subnetting, fundamental application services, security, and network performance.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

CIST 2452 - Cisco Routing and Switching Essentials (4)

This course describes the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. Topics include switched networks, routing concepts, routing in a switched network, static and dynamic routing, Single-Area OSPF, Access Control Lists, and IP Services (DHCP and NAT).

Pre-requisites: All Required

CIST 2451 – Introduction to Networks –
Cisco Co-requisites: None

CIST 2453 - Cisco Scaling Networks (4)

This course describes the architecture, components, and operations of routers and switches in larger and more complex networks. Students learn how to configure routers and switches for advanced functionality. Students will configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, and STP in both IPv4 and IPv6 networks. Students will also learn how to implement a WLAN in a small-to-medium network.

Pre-requisites: All Required

CIST 2452 – Cisco Routing and Switching
Essentials Co-requisites: None

CIST 2454 - Cisco Connecting Networks (4)

This course discusses the WAN technologies and network services required by converged applications in a complex network. Topics include introduction to WANs, private WAN technologies and protocols, Network Address Translation (NAT), public WAN technologies and protocols, network monitoring, and network troubleshooting.

Pre-requisites: All Required

CIST 2453 – Cisco Scaling
Networks Co-requisites: None

CIST 2601 - Implementing Operating Systems Security (4)

This course will provide knowledge and the practical experience necessary to configure the most common server platforms. Lab exercises will provide students with experience of establishing operating systems security for the network environment.

Pre-requisites (CIST 1401 or 2451 or 2441)

CIST 1601 - Information Security Fundamentals
Co-requisites: None

CIST 2602 - Network Security (4)

This course provides knowledge and the practical experience necessary to evaluate, implement and manage secure information transferred over computer networks. Topics include network security, intrusion detection, types of attacks, methods of attacks, security devices, basics of cryptography and organizational security elements.

Pre-requisites (CIST 1401 or 2451 or 2441)

CIST 1601 - Information Security Fundamentals
Co-requisites: None

CIST 2611 - Network Defense and Countermeasures (4)

Students will learn how to plan, design, install and configure firewalls that will allow key services while maintaining security. This will include protecting the Internal IP services, configuring a firewall for remote access, managing a firewall, and detecting and preventing network intrusions.

Pre-requisites (CIST 1401 or 2451 or 2441)

CIST 1601 - Information Security Fundamentals
Co-requisites: None

CIST 2612 - Computer Forensics (4)

This course examines the use of computers in the commission of crimes, collection, analysis and production of digital evidence. Students will use computer resources to explore basic computer forensic investigation techniques.

Pre-requisites

CIST 1122 - Hardware Installation and Maintenance

CIST 1601 - Information Security Fundamentals

Co-requisites: None

CIST 2613 - Ethical Hacking and Penetration Testing (4)

This course teaches students the skills needed to obtain entry-level security specialist jobs. It provides a hands-on introduction to ethical hacking, and penetration testing. It is for individuals who want to enhance their information security skill set and help meet the growing demand for security professionals. Topics include network and computer attacks, footprinting and social engineering, port scanning, enumeration, OS vulnerabilities, hacking web servers, hacking wireless networks, cryptography and network protection systems.

Pre-requisites

CIST 1601 - Information Security Fundamentals

Co-requisites: None

CIST 2921 - IT Analysis, Design, and Project Management (4)

IT Analysis, Design, and Project Management will provide a review and application of systems life cycle development methodologies and project management. Topics include: Systems planning, systems analysis, systems design, systems implementation, evaluation, and project management.

Pre-requisites: All Required

CMTT CMT

CMTT 2010 - Residential Estimating Review (3)

This course introduces the complete estimating process from excavation to completed residence. Topics include the sequencing of construction, materials calculation, blueprint interpretation methods of construction, working with subcontractors, and final estimate assembly.

Pre-requisites:

None Co-requisites: None

CMTT 2020 - Construction Drafting I (3)

This course provides instruction in producing residential floor plans and elevations using computer-aided drafting and design (CAD) software. Topics include system setup and system management, software menus and basic functions, prototype drawings, and two and three dimensional drafting and dimensioning.

Pre-requisites: All Required

COMP 1000 - Introduction to

Computers Co-requisites: None

CMTT 2050 - Residential Code Review (3)

This course covers building codes as they apply to typical residential applications. Topics include international residential codes, working with building inspectors, permits and inspections, and site visits.

Pre-requisites: All Required

CMTT 2010 - Residential Estimating

Review Co-requisites: None

CMTT 2130 - Computerized Construction Scheduling (3)

This course provides instruction in the use of application software for scheduling construction work. The use of contemporary construction scheduling and management software is emphasized. Topics include software overview, scheduling methods and requirements, and computerized scheduling of a simulated construction job.

Pre-requisites: All Required

COMP 1000 - Introduction to

Computers Co-requisites: None

CMTT 2170 - Construction Contracting (4)

This course provides an in depth study of the contractual relationship between the parties involved in building construction contracting. Topics include bonds, insurance, bidding, awarding, and subcontracting types and conditions.

Pre-requisites: All Required

CMTT 2130 - Computerized Construction

Scheduling Co-requisites: None

COFC Construction Fundamental Core

COFC 1000 - Safety (2)

This course provides a review of general safety rules and practices giving student's information about state and federal regulations including OSHA Hazard Communication Standards and Material Safety Data Sheets (MSDS).

Emphasis is placed on electrical, fire, lifting, and ladder and scaffolding

practices. Pre-requisites: None

Co-requisites: None

COFC 1011 – Overview of Building Construction Practices (2)

This course covers the introduction to a residential construction project from start to finish. Topics to include preparing to build, tools and equipment, building foundations, wood frame construction, completing the structure, finish carpentry and construction specialties. Pre-requisites: None
Co-requisites: None

COFC 1020 - Professional Tool Use and Safety (3)

This course provides instruction in the use of professional tools for the construction trades. Emphasis will be placed on the safe use of each tool discussed. Topics include layout and measuring tools, cutting tools, sawing tools, drilling and boring tools, finishing and fastening tools, general shop tool use, and job site setup.

Pre-requisites:
None Co-
requisites: None

COFC 1030 - Materials and Fasteners (2)

This course introduces the fundamental array of building materials used in residential and commercial construction. Topics include fasteners, wood products, concrete, brick and block, plumbing materials, finishing materials, manufactured products and an introduction to construction cost estimation.

Pre-requisites:
None Co-
requisites: None

COFC 1050 - Construction Print Reading Fundamentals (3)

This course introduces the reading and interpretation of prints and architectural drawings for all of the construction trades. Topics include types of plans, scales, specifications, conventions, and schedules.

Pre-requisites:
None Co-
requisites: None

COLL College and Career Success Skills

COLL 1010 – College and Career Success Skills (3)

This course is designed to assist the learner to acquire skills necessary to achieve academic, personal, and professional success and to improve student retention. Areas of importance include Getting off to a Good Start, Learning and Personality Styles, Time and Personal Financial Management, Stress Management and Wellness, Studying and Test Taking Skills, Communication Skills, Career Planning and Goal Setting, Computer Applications/Technology Skills and Employability/Professional Skills.

Pre-requisites: All Required
Appropriate Placement Test
Score Co-requisites: None

COMP Introduction to Computers

COMP 1000 - Introduction to Computers (3)

Introduces the fundamental concepts, terminology, and operations necessary to use computers. Emphasis is placed on basic functions and familiarity with computer use. Topics include an introduction to computer terminology, the Windows environment, Internet and email, word processing software, spreadsheet software, database software, and presentation software.

Pre-requisites: Provisional
Admission Co-Requisites
Provisional Admission.

COSM Cosmetology

COSM 1000 - Introduction to Cosmetology Theory

(4)

Introduces fundamental both theory and practices of the cosmetology profession. Emphasis will be placed on professional practices and safety. Topics include: state rules, and regulations; state regulatory agency, image; bacteriology; decontamination and infection control, chemistry fundamentals, safety, Hazardous Duty Standards Act compliance, and anatomy and physiology.

Pre-requisites: Program

Admission Co-requisites: None

COSM 1010 - Chemical Texture Services

(3)

Provides instruction in the chemistry and chemical reactions of permanent wave solutions and relaxers, application of permanent waves and relaxers. Precautions and special problems involved in applying permanent waves and relaxers will be emphasized. Topics include: permanent wave techniques, chemical relaxer techniques, chemistry, physical and chemical change, safety procedures, permanent wave and chemical relaxer application procedures, hair analysis, scalp analysis, permanent wave procedures (in an acceptable time frame), relaxer application (in an acceptable time frame), and Hazardous Duty Standards Act Compliance.

Pre-requisites: None

Co-requisites: COSM 1000 - Introduction to Cosmetology Theory

COSM 1020 - Hair Care and Treatment

(3)

Introduces the theory, procedures and products used in the care and treatment of the scalp and hair, disease and disorders and their treatments and the fundamental theory and skills required to shampoo, condition, and recondition the hair and scalp.

Pre-requisites: None

Co-requisites: COSM 1000 - Introduction to Cosmetology Theory

COSM 1030 – Haircutting

(3)

Introduces the theory and skills necessary to apply haircutting techniques, advanced haircutting techniques, proper safety and decontamination precautions, hair design elements, cutting implements, head, hair and body analysis, and client consultation.

Pre-requisites: None

Co-requisites: COSM 1000 - Introduction to Cosmetology Theory

COSM 1040 - Styling

(3)

Introduces the fundamental theory and skills required to create shaping's, pin curls, finger waves, roller placement, blow dry styling, thermal curling, thermal pressing, thermal waving, artificial hair and augmentation, and comb-outs. Laboratory training includes styling training on manikin. Topics include: braiding/intertwining hair, styling principles, pin curls, roller placement, finger waves, skip waves, ridge curls, blow dry styling, thermal curling, thermal pressing, thermal waving, artificial hair and augmentation, comb-outs, and safety precautions.

Pre-requisites: None

Co-requisites: COSM 1000 - Introduction to Cosmetology Theory

COSM 1050 - Hair Color

(3)

Introduces the theory and application of temporary, semi-permanent, demi-permanent-deposit only, and permanent hair coloring, hair lightening, and color removal products and application. Topics include: principles of color theory, hair structure, color, tone, classifications of color, hair lightening, color removal, application procedures, safety precautions, client consultation, product knowledge, hair color challenges, corrective solutions, and special effects.

Pre-requisites: None

Co-requisites: COSM 1000 - Introduction to Cosmetology Theory

COSM 1060 - Fundamentals of Skin Care

(3)

This course provides a comprehensive study in care of the skin for theory and practical application. Emphasis will be placed on client consultation, safety precautions, skin conditions, product knowledge, basic facials, facial massage, corrective facial treatments, hair removal, and make-up application. Other topics in this course include advanced skin treatments in electrotherapy, light therapy, galvanic current, high frequency, and microdermabrasion.

Pre-requisites: None

Co-requisites: COSM 1000 - Introduction to Cosmetology Theory

COSM 1070 - Nail Care and Advanced Techniques

(3)

Provides training in manicuring, pedicuring and advanced nail techniques. Topics include: implements, products and supplies, hand and foot anatomy and Physiology, diseases and disorders, manicure techniques, pedicure techniques, nail product chemistry, safety precautions and practices, and advanced nail techniques ((wraps/tips/acrylics).

Pre-requisites: None

Co-requisites: COSM 1000 - Introduction to Cosmetology Theory

COSM 1080 - Physical Hair Services Practicum (3)

Provides laboratory experiences necessary for the development of skill levels required to be a competent cosmetologist. The allocation of time to the various phases of cosmetology is required by the Georgia State Board of Cosmetology. This course includes a portion of the required hours for licensure. Topics include: scalp, and hair treatments; haircutting; styling; dispensary; reception; safety precautions/decontamination; and Hazardous Duty Standards Act compliance.

Pre-requisites: None

Co-requisites: All Required

COSM 1000 - Introduction to Cosmetology Theory; COSM 1020 - Hair Care and Treatment; COSM 1030 – Haircutting; COSM 1040 - Styling

COSM 1090 - Hair Services Practicum I (3)

Provides experience necessary for professional development and completion of requirements for state licensure. Emphasis will be placed on the display of professional conduct and positive attitudes. The appropriate number of applications for completion of state board service credit requirements for this course may be met in a laboratory setting. Topics include: texture services; permanent waving and relaxers; hair color and lightening; skin, scalp, and hair treatment; haircutting; styling; dispensary; manicure, pedicure, and advanced nail techniques; reception; safety precautions/decontamination; and Hazardous Duty Standards Act compliance.

Pre-requisites: None

Co-requisites: All Required

COSM 1000 - Introduction to Cosmetology Theory; COSM 1010 - Chemical Texture Services; COSM 1020 - Hair Care and Treatment; COSM 1030 – Haircutting; COSM 1040 – Styling; COSM 1050 – Hair Color

COSM 1100 – Hair Services Practicum II (3)

Provides experience necessary for professional development and completion of requirements for state licensure. Emphasis will be placed on the display of professional conduct and positive attitudes. The appropriate number of applications for completion of state board service credit requirements for this course may be met in a laboratory setting. Topics include: texture services; permanent waving and relaxers; hair color and lightening; hair and scalp treatment; haircutting; styling; dispensary; reception; safety precautions/decontamination; and Hazardous Duty Standards Act compliance.

Pre-requisites: None

Co-requisites: COSM 1090 - Hair Services Practicum I

COSM 1110 - Cosmetology Practicum III (3)

Provides experience necessary for professional development and completion of requirements for state licensure. Emphasis will be placed on the display of professional conduct and positive attitudes. The requirements for this course may be met in a laboratory setting. Topics include: permanent waving and relaxers; hair color and bleaching; skin, scalp, and hair treatments; haircutting; dispensary; styling; manicure/pedicure/advanced nail techniques; reception; safety precautions/decontamination; Hazardous Duty Standards Act compliance; and state licensure preparation.

Pre-requisites: None

Co-requisites: COSM 1100 - Cosmetology Practicum II

COSM 1115 - Cosmetology Practicum IV (2)

This course provides experience necessary for professional development and completion of requirements for state licensure. Emphasis will be placed on the display of professional conduct and positive attitudes. The requirements for this course may be met in a laboratory setting. Topics include: permanent waving and relaxers; hair color and lightening; hair and scalp treatments; haircutting; dispensary; styling; reception; safety precautions/decontamination; Hazardous Duty Standards Act compliance; and state licensure preparation.

Pre-requisites: None

Co-requisites: COSM 1110 – Hair Services Practicum IV

COSM 1120 - Salon Management (3)

Emphasizes the steps involved in opening and operating a privately owned salon. Topics include: law requirements regarding employment, tax payer education / federal and state responsibilities, law requirements for owning and operating a salon business, business management practices, and public relations and career development.

Pre-requisites: None

Co-requisites: COSM 1000 - Introduction to Cosmetology Theory

COSM 1125 – Skin and Nail Care Practicum (2)

This course provides experience necessary for professional development and completion of requirements for state

licensure. Emphasis will be placed on the display of professional conduct and positive attitudes. The appropriate number of applications for completion of state board service credit requirements for this course may be met in a laboratory setting. Topics include: skin treatment; dispensary; manicure/pedicure/advanced nail techniques; reception; safety precautions/decontamination; and Hazardous Duty Standards Act compliance.

Pre-requisites: None

Co-requisites: COSM 1060 - Fundamentals of Skin care; COSM 1070 – Nail Care and Advanced Techniques COSM 1180 - Nail Care I (5)

Provides additional experience in Manicuring and Pedicuring techniques required of applicants for state licensure. Emphasis is placed on performance, using live models in an actual or simulated occupational setting. Topics include: manicure, nail repair, artificial nails, pedicure, nail art, reception, dispensary, advanced/new techniques, documentation, customer service skills, safety precautions, federal/state agency compliance, and state board foundation prep.

Pre-requisites: All Required

COSM 1000 - Introduction to Cosmetology Theory; COSM 1070 - Nail Care and Advanced Techniques Co-requisites: None

COSM 1190 - Nail Care II (5)

Provides nail care experience on live models. Emphasis will be placed on the display of professional conduct and positive attitudes. The appropriate number of applications required by the state board of cosmetology in theory and service credit requirements for this course. Emphasis is placed on performance, using live models in an actual or simulated occupational setting. Topics include: manicure, nail repair, artificial nails, pedicure, nail art, electric drill, reception, dispensary, advanced/new techniques, documentation, customer service skills, safety precautions, federal/state agency compliance, and state board comprehension.

Pre-requisites: None

Co-requisites: COSM 1180 - Nail Care I

CRJU Criminal Justice

CRJU 1010 - Introduction to Criminal Justice (3)

Introduces the development and organization of the criminal justice system in the United States. Topics include: The American criminal justice system; constitutional limitations; organization of enforcement, adjudication, and corrections; and career opportunities and requirements.

Pre-requisites: Provisional

Admission Co-requisites: None

CRJU 1021 - Private Security (3)

Provides an orientation to the development, philosophy, responsibility, and function of the private security industry. A historical and philosophical perspective of private security will help students better understand the present stage of private security, its principles, its legal authority and its effect on society in general. Topics include: private security: an overview; basic security goals and responsibilities; when prevention fails; and security systems at work: putting it all together.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1030 - Corrections (3)

Provides an analysis of all phases of the American correctional system and practices, including its history, procedures, and objectives. Topics include: history and evolution of correctional facilities; legal and administrative problems; institutional facilities and procedures; probation, parole, and prerelease programs; alternative sentencing; rehabilitation; community involvement; and staffing.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1040 - Principles of Law Enforcement (3)

This course examines the principles of the organization, administration, and duties of federal, state and local law enforcement agencies. Topics include: history and philosophy of law enforcement, evaluation of administrative practices, problems in American law enforcement agencies, emerging concepts, professionalism, and community crime prevention programs.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1043 - Probation and Parole (3)

This course will cover the history of both juvenile and adult probation as well as the history of parole. The probation and parole

systems will be covered generally with a special emphasis on the Georgia systems and related laws. Topics include: history and philosophy of probation and parole; function of the probation and parole systems; Georgia law related to probation and parole; characteristics and roles of probation and parole officers; and special issues and programs of probation and parole.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1050 - Police Patrol Operations

(3)

This course presents the knowledge and skills associated with police patrol operations. Emphasis is placed on patrol techniques, crimes in progress, crisis intervention, domestic disputes, Georgia Crime Information Center procedures, electronics communications and police reports. Topics include: foundations, policing skills and communication skills

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1052 - Criminal Justice Administration

(3)

This course explores the managerial aspects of effective and efficient police administration. Emphasis is directed towards increasing organizational skills and overcoming interdepartmental and inter-agency non-communication. Topics include: environmental management, human resources, and organizational concerns.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1054 - Police Officer Survival

(3)

This course examines the critical issues involved in the survival of a police officer in all aspects including their physical, mental, and psychological wellbeing. Emphasis is placed on personal protection skills, defensive tactics, handcuffing techniques, patrol tactics, vehicle stops, building searches and use of force.

Pre-requisites:

None Co-

requisites: None

CRJU 1056 - Police Traffic Control and Investigation

(3)

This course examines enforcement of traffic laws and procedures for traffic accident investigation. Emphasis is placed on Georgia traffic laws, traffic law enforcement, recognition of impaired driving, and traffic accident investigation. Topics include: regulations, impaired driving, and traffic accident investigation.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1062 - Methods of Criminal Investigation

(3)

This course presents the fundamentals of criminal investigation. The duties and responsibilities of the investigator both in field and in the courtroom are highlighted. Emphasis is placed on techniques commonly utilized by investigative personnel as well as the procedures used for investigating various crimes.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1063 - Crime Scene Processing

(3)

This course presents students with practical exercises dealing with investigating crime scenes and gathering various forms of physical evidence. Emphasis is placed on crime scene assessment, search, fingerprinting, and evidence collection. Topics include: crime scene management, evidence characteristics, identification, documentation and collection as well as techniques for developing and lifting latent fingerprints.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1065 - Community-Oriented Policing

(3)

Presents the fundamentals for the community-oriented policing philosophy, including the comparison of traditional and community policing philosophies; law enforcement and community relationships; importance of political and public support and involvement; attitudinal changes involving the roles of police management, supervisors and line personnel; creation of partnerships with community organizations, businesses, private security, other governmental agencies, and special interest groups; and police problem-solving methodologies. Topics include: foundations of community-oriented policing, partnerships and problem-solving in community-oriented policing, and community-oriented policing projects and programs.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1068 - Criminal Law for Criminal Justice

(3)

This course introduces criminal law in the United States, but emphasizes the current specific status of Georgia criminal law. The course will focus on the most current statutory contents of the Official Code of Georgia Annotated (O.C.G.A.) with primary emphasis on the criminal and traffic codes. Topics include: historic development of criminal law in the United States; statutory law, Georgia Code (O.C.G.A.) Title 16 - Crimes and Offenses; statutory law, Georgia Code (O.C.G.A.) Title 40 - Motor Vehicle and Traffic Offenses; and Supreme Court rulings that apply to criminal law.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1072 - Introduction to Forensic Science

(3)

The origin, history and role of forensic science in the investigative process. Philosophical, rational and practical framework that supports a case investigation will be outlined. The unifying principles of forensic science, the rooting of forensic science in the pure sciences, and the unique ways in which a forensic scientist must think will also be discussed. The special areas of forensic science will be explored.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1074 - Applications in Introductory Forensics

(3)

This course complements CRJU 1072: Introduction to Forensics, focusing particularly on the practical application of forensic science in law enforcement including the following: crime scene investigation; interview and interrogation techniques; as well as case preparation and courtroom testimony.

Pre-requisites:

None Co-requisites: None

CRJU 1075 - Report Writing

(3)

Explains and demonstrates the effectiveness of the entire criminal investigation process by the quality of notes reports, and accurate documentation. An examination of what goes into the preparation, content, elements, mechanics, and format of documenting the criminal investigation process. Topics include: Field notes, initial information, observations, evidence, victims, witnesses, property, neighborhood canvass, crime scene, laboratory analysis and results, investigative follow-up, suspect statements, and the characteristics essential to quality report writing.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 1400 - Ethics and Cultural Perspectives for Criminal Justice

(3)

This course provides an exploration ethics and cultural perspectives in criminal justice. In presenting ethics, both the individual perspective and the organizational standpoint will be examined. Four areas of ethical decision making opportunities are studied including: law enforcement ethics; correctional ethics; legal profession ethics; and policymaking ethics. The presentation of cultural perspectives is designed to aid law enforcement officers to better understand and communicate with members of other cultures with whom they come in contact in the line of duty. Topics include: defining and applying terms related to intercultural attitudes, role-play activities related to intercultural understanding, developing interpersonal/intercultural communication competence, and development of personal intercultural growth plan.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 2020 - Constitutional Law for Criminal Justice

(3)

This course emphasizes those provisions of the Bill of Rights which pertain to criminal justice. Topics include: characteristics and powers of the three branches of government; principles governing the operation of the U.S. Constitution, the Bill of Rights and the Fourteenth Amendment.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 2050 - Criminal Procedure

(3)

Introduces the procedural law of the criminal justice system which governs the series of proceedings through which government enforces substantive criminal law. The course offers an emphasis on the laws of arrest and search and seizure; the rules of evidence, right to counsel, and the rights and duties of both citizens and officers. The course covers in depth appropriate Case Law and court rulings that dictate criminal procedure on the State and Federal Level.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 2060 - Criminology

(3)

Introduces the nature, extent, and factors related to criminal behavior, and the etiology of criminal offenses and offenders. Topics include: sociological, psychological, and biological causes of crime; effectiveness of theories in explaining crime; theory integration; and application of theory to selected issues.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 2070 - Juvenile Justice

(3)

Analyzes the nature, extent, and causes of juvenile delinquency, and examines processes in the field of juvenile justice. Topics include: survey of juvenile law, comparative analysis of adult and juvenile justice systems, and prevention and treatment of juvenile delinquency.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 2090 - Criminal Justice Practicum

(3)

Provides experiences necessary for further professional development and exposure to related agencies in the criminal justice field. The student will pursue a professional research project supervised by the instructor. Topics include: criminal justice theory applications.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 2100 - Criminal Justice Externship

(3)

Provides experiences necessary for further professional development and exposure to related agencies in the criminal justice field. The student will pursue an externship in a related agency supervised by the instructor. Topics include: criminal justice theory applications.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 2110 - Homeland Security

(3)

The course provides an introduction to the principles of homeland security, roles and responsibilities of constituencies and implications for criminal justice fields. Topics include: intelligence and warning, border and transportation security, domestic counterterrorism, protecting critical infrastructure, defending against catastrophic threats, and emergency preparedness and response.

Pre-requisites: Program

Admission Co-requisites: None

CRJU 2150 - Cybercrime Investigations

(3)

This course is designed to address the fundamental principles of different types of cybercrime investigations, and the specific procedures used to investigate them. Emphasis is placed on the investigation of specific offenses, the identification of sources of information, and the procedures used to properly collect and store digital evidence. The course is designed to develop a working knowledge of the investigative steps to be followed in a cybercrime investigation, beginning with initial crime scene security and concluding with proper testimony and presentation of evidence in court. This course includes study designed to reinforce important investigative and forensic evidence collection skills.

Pre-requisites: FOSC 1206 -

Co-requisites: FOSC 2010 – Crime Scene Investigation

CRJU 2201 - Criminal Courts

(3)

This course examines the historical context on the development, functions, and controversies in the courts system.

Topics include: introduction to the courts; participants of a trial; courtroom processes; and the post-conviction process. Pre-requisites: Program Admission

Co-requisites: None

CSSP Central Sterile Processing

CSSP 1010 - Introduction to Surgical Technology

(5)

Provides an overview of the surgical technology profession and develops the fundamental concepts and principles necessary to

successfully participate on a surgical team. Topics include: introduction to preoperative, intraoperative and postoperative principles of surgical technology; assistant circulator role, professionalism as well as health care facility information.

Pre-requisites: One Required

Program Admission

Co-requisites: None

CSSP 1020 - Central Sterile Supply Processing Technician Practicum I (6)

Provides continued study of surgical team participation by wound management and technological sciences for the operating room. Topics include: technological sciences; patient care concepts; re-operative, intraoperative and postoperative surgical technology; and perioperative case management.

Pre-requisites: One Required

Program Admission

Co-requisites: None

CSSP 1022 - Central Sterile Supply Processing Technician Practicum II (5)

This course complements CSSP 1010 Central Sterile Supply Processing Technician, and together with CSSP 1020 Central Sterile Processing Supply Practicum II, providing the practical hours necessary to meet the International Association of Healthcare Central Service Materiel Management (IAHCSMM) requirements to sit for the certification examination.

Pre-requisites: One Required

Program Admission

Co-requisites: None

CTDL Commercial Truck Driving

CTDL 1010 - Fundamentals of Commercial Driving (3)

Fundamentals of Commercial Driving introduces students to the transportation industry, federal and state regulations, records and forms, industrial relations, and other non-driving activities. This course provides an emphasis on safety that will continue throughout the program.

Pre-requisites:

None Co-requisites:

None

CTDL 1020 - Combination Vehicle Basic Operation and Range Work (2)

This course familiarizes students with truck instruments and controls and performing basic maneuvers required to drive safely in a controlled environment and on the Driving Range. Each student must receive 12 hours behind the wheel (BTW) instructional time in range operations such as operating a tractor trailer through clearance maneuvers, backing, turning, parallel parking and coupling/uncoupling.

Pre-requisites: None

Co-requisites: All Required

CTDL 1010 - Fundamentals of Commercial Driving

CTDL 1010 - Fundamentals of Commercial Driving

CTDL 1030 - Combination Vehicle Advanced Operations (4)

Advanced Operations develops students' driving skills under actual road conditions. The classroom part of the course stresses following safe operating practices. These safe operating practices are integrated into the development of driving skills on the road. Each student must receive at least twelve (12) hours behind-the-wheel (BTW) instructional time on the street/road. In addition, the student must have a minimum program total of forty four (44) hours BTW instructional time in any combination (with CTDL 1020) of range and street/road driving. Note: state law requires that whenever a combination vehicle is operated on public roads an instructor must be present in the vehicle while the student is driving.

Pre-requisites: None

Co-requisites: All Required

CTDL 1020 - Combination Vehicle Basic Operation and Range Work

CTDL 1040 - Commercial Driving Internship (4)

Commercial Driving Internship provides the opportunity for an individual to complete his/her training with a company. The internship takes the place of CTDL-1030, Advanced Operations. Working closely with the school a company provides the advanced training which focuses on developing students' driving skills. Each student must receive at least twelve (12) hours behind-the-wheel (BTW) instructional time on the street/road. In addition, the student must have a minimum program total of forty-

four (44) hours BTW instructional time in any combination (with CTDL 1020) or range and street/road driving. Note: State law requires that whenever a vehicle is operated on public roads an instructor must be present in the truck while the student is driving.
Pre-requisites: None
Co-requisites: All Required
CTDL 1020 - Combination Vehicle Basic Operation and Range Work

CUUL CULINARY ARTS

CUUL 1000 Fundamentals of Culinary Arts (4)

Provides an overview of the professionalism in culinary arts, culinary career opportunities, Chef history, pride, and esprit de corps. Introduces principles and practices necessary to food, supply, and equipment selection, procurement, receiving, storage, and distribution. Topics include: cuisine, food service organizations, career opportunities, food service styles, basic culinary management techniques, professionalism, culinary work ethics, quality factors, food tests, pricing procedures, cost determination and control, selection, procurement, receiving, storage, and distribution. Laboratory demonstration and student experimentation parallel class work.

Pre-requisites: None
Co-requisites: MATH 1012 - Foundations of Mathematics

CUUL 1110 - Culinary Safety and Sanitation (2)

Emphasizes fundamental kitchen and dining room safety, sanitation, maintenance, and operation procedures. Topics include: cleaning standards, O.S.H.A. M.S.D.S. guidelines, sanitary procedures following SERV-SAFE guidelines, HACCAP, safety practices, basic kitchen first aid, operation of equipment, cleaning and maintenance of equipment, dishwashing, and pot and pan cleaning. Laboratory practice parallels class work.

Pre-requisites: Provisional
Admission Co-requisites:
Provisional Admission

CUUL 1120 - Principles of Cooking (6)

This course introduces fundamental food preparation terms, concepts, and methods. Course content reflects American Culinary Federation Educational Institute apprenticeship training objectives. Topics include: weights and measures, conversions, basic cooking principles, methods of food preparation, recipe utilization, and nutrition. Laboratory demonstrations and student experimentation parallel class work.

Pre-requisites: CUUL 1110 - Culinary Safety and Sanitation
Co-requisites: CUUL 1110 - Culinary Safety and Sanitation

CUUL 1122 – Foundations of Cooking Principles (3)

This Course introduces fundamental food preparation terms, concepts, and methods. Course content reflects American Culinary Federation Educational Institute apprenticeship training objectives. Topics include: weights and measures, conversions, introduction to basic production, classical knife cuts, basic stock preparation methods, mother sauce techniques and preparations, small sauces and derivatives from mother sauce, basic thickening agents, classical soup preparation methods, introduction methods of food preparation, recipe utilization, and nutrition. Laboratory demonstrations and student experimentation parallel class work.

Pre-requisites: CUUL 1120 - Principles of Cooking
Co-requisites: All Required
CUUL 1000 Fundamentals of Culinary Arts: CUUL 1110 - Culinary Safety and Sanitation

CUUL 1220 - Baking Principles (5)

Baking Principles presents the fundamental terms, concepts, and methods involved in preparation of yeast and quick breads and baked products. Emphasis is placed on conformance of sanitation and hygienic work habits with health laws. Course content reflects American Culinary Federation Educational Institute cook and pastry apprenticeship training objectives, along with Retail Bakery Association training program. Topics include: baking principles; Science and use of baking ingredients for breads, desserts, cakes, pastries; weights, measures, and conversions; preparation of baked goods, baking sanitation and hygiene, baking supplies

and equipment. Laboratory demonstrations and student experimentation parallel class work.

Pre-requisites: CUUL 1120 - Principles of

Cooking Co-requisites: None

CUUL 1124 – Foundations of Cooking Techniques

(3)

This Course introduces fundamental food preparation terms, concepts, and methods. Course content reflects American Culinary Federation Educational Institute apprenticeship training objectives. Topics include: weights and measures, conversions, methods of food preparations, classical knife cuts, kitchen aromatics, regional cuisine history, and introduction to safe food preparations, recipe utilization, and nutrition. Laboratory demonstrations student experimentation and parallels class work. Course Capstone is based on The American Culinary Federations Certification: Certified Culinarian written and practical exams.

Pre-requisites: CUUL 1122 – Foundations of Cooking

Principles Co-requisites: All Required

CUUL 1000 Fundamentals of Culinary Arts; CUUL 1110 - Culinary Safety and Sanitation

CUUL 1129 - Fundamentals of Restaurant Operations

(4)

Introduces the fundamentals of dining and beverage service and experience in preparation of a wide variety of quantity foods. Course content reflect American Culinary Federation Education Institute apprenticeship training objectives. Topics include: dining service/guest service, dining service positions and functions, international dining services, restaurant business laws, preparation and setup, table side service, and beverage service and setup, kitchen operational procedures, equipment use, banquet planning, recipe conversion, food decorating, safety and sanitation, and production of quantity food. Laboratory practice parallels class work.

Pre-requisites: CUUL 1120 - Principles of

Cooking Co-requisites: None

CUUL 1320 - Garde Manger

(4)

Introduces basic pantry manger principles, utilization, preparation, and integration into other kitchen operations. Course content reflects American Culinary Federation Educational Institute apprenticeship pantry, garnishing, and presentation training objectives. Topics include: pantry functions; garnishes, carving, and decorating; buffet presentation; cold preparations; hot/cold sandwiches; salads, dressings and relishes; breakfast preparation; hot/cold hors d'oeuvres; chaudfroids, gelees, and molds; and pats and terrines. Laboratory practice parallels class work.

Pre-requisites: CUUL 1120 - Principles of

Cooking Co-requisites: None

CUUL 1370 - Culinary Nutrition and Menu Development

(3)

This course emphasizes menu planning for all types of facilities, services, and special diets. Topics include: menu selection, menu development and pricing, nutrition, special diets, cooking nutritional foods, and organics. Laboratory demonstrations and student management and supervision parallel class work.

Pre-requisites: CUUL 1120 - Principles of

Cooking Co-requisites: None

CUUL 2130 - Culinary Practicum and Leadership

(6)

This course familiarizes the student with the principles and methods of sound leadership and decision making in the hospitality industry and provides the student with the opportunity to gain management/supervision experience in an actual job setting. Students will be placed in an appropriate restaurant, catering, or other food service business for four days per week throughout the semester. On- the-job training topics include: restaurant management/on-off premise catering/food service business, supervisory training, and management training, on-off premise catering, hotel kitchen organization, kitchen management, restaurant kitchen systems, institutional food systems, kitchen departmental responsibilities, and kitchen productivity. Topics include: basic leadership principles and how to use them to solicit cooperation, use of leadership to develop the best possible senior-subordinate relationships, the various decision making processes, the ability to make sound and timely decisions, leadership within the framework of the major functions of management, and delegation of authority and responsibility in the hospitality industry.

Pre-requisites: All Required

CUUL 1220 - Baking Principles; CUUL 1320 - Garde

Manger Co-requisites: None

CUUL 2140 - Advanced Baking and International Cuisine

(6)

This course introduces international cuisine and acquisition of advanced cookery techniques. Course content reflects American

Culinary Federation Educational Institute cook apprenticeship training objectives and provides background for those aspiring to become chefs. Topics include: international cuisine, advanced grill cookery, advanced vegetable cookery, advanced meat cookery, advanced line cookery, advanced fry cookery and nutrition. Laboratory practice parallels class work. ***Provides in-depth experience in preparing many types of baked goods commonly found in restaurants and hotels. Course content reflects American Culinary Federation and Retail Bakery Association training objectives and provides background for those aspiring to become pastry chefs or bakery supervisors. Topics include: breads, pies, cakes, pastry dough, puff pastry, icing, filling, and candy. Laboratory practice parallels class work.

Pre-requisites: All Required

CUUL 1220 – Baking Principles; CUUL 1320 - Garde

Manger Co-requisites: None

CUUL 2160 - Contemporary Cuisine

(4)

This course emphasizes all modern cuisine and introduces management concepts necessary to the functioning of a commercial kitchen. Topics include: international cuisine, cuisine trends, kitchen organization, kitchen management, kitchen supervision, competition entry, nutrition, menu selection, layout and design, and on/off premise catering. Laboratory demonstration and student experimentation parallel class work.

Pre-requisites: All Required

CUUL 1220 - Baking Principles; CUUL 1320 - Garde

Manger Co-requisites: None

CUUL 1520 – Baking Science

(4)

This course is the essence of baking in chemistry, and students will understand the principle and science that make baking work. It will explain the why's and how's of every chemical reaction, essential ingredient, and technique, revealing the complex mysteries of bread loaves, pastries and everything in between. This course is an introduction to the major ingredients groups, including sweeteners, fats, milk, and leavening agents, and how each affects the finished baked goods.

Pre-requisites: All Required

CUUL 1000 - Fundamentals of Culinary Arts; CUUL 1110 - Culinary Safety and

Sanitation Co-requisites: None

CUUL 1530 – European Cakes and Tortes

(4)

This course introduces the production of a wide variety of classical and modern cakes suitable for restaurants, retail-shops and large scale production. Emphasis is placed on classic and contemporary cakes using the methods of mixing, filling, glazing, and icing. Upon completion, students should be able to prepare, assemble, and decorate gelatin based and layered tortes and cakes such as Dobos, Sacher, and Charlotte. Students will construct contemporary specialty cakes, including Mousse cakes, using assorted decorative techniques and sensible production.

Pre-requisites: All Required

CUUL 1000 - Fundamentals of Culinary Arts; CUUL 1110 - Culinary Safety and Sanitation; CUUL 1220 - Baking Principles

CUUL 1540 Artisan and Specialty Bread

(4)

This course provides an advanced study in the art and craft of bread making. Topics include pertinent formulas and techniques associated with naturally leavened loaves, hearth breads, focaccia, flat breads, and other breads utilizing a variety of grains. Upon completion, students should be able to prepare artisan and specialty breads that meet or exceed the expectations of restaurant and retail publics.

Pre-requisites: All Required

CUUL 1000 - Fundamentals of Culinary Arts; CUUL 1110 - Culinary Safety and Sanitation; CUUL 1220 - Baking

Principles Co-requisites: None

CUUL 1550 - Hot and Cold Plated Desserts

(2)

This course covers the principles and techniques of frozen desserts, soufflés, cobblers, crisps, strudel dough products and elements as they relate to dessert plating design. Topics include bombes, parfaits, Baked Alaska, ice cream, sorbets, sherbets and granites, hand-stretched strudel products, crepes, hot and cold soufflés, plate composition, flavor pairings, textures, temperatures, eye appeal, balance, color harmony and plate decorating/painting techniques such as stenciling and chocolate striping. Upon completion, students should be able to prepare hot and cold plated desserts with suitable sauces and garnishes.

Pre-requisites: All Required

CUUL 1000 - Fundamentals of Culinary Arts; CUUL 1110 - Culinary Safety and Sanitation; CUUL 1220 - Baking Principles; CUUL 1520 - Baking Science

CUUL 1560 - Cake Design and Decorating (3)

This course covers advanced concepts in the design and decoration of wedding cakes and other specialty cakes. Topics include baking, filling, and assembling cakes; cake design; finishing techniques utilizing gum past, rolled fondant, and royal icing; and advanced piping skills. Upon completion, students should be able to design, create, finish and evaluate the quality of wedding and specialty cakes. Students will be able to use various types of cake material to include pulled sugar and chocolate work.

Pre-requisites: All Required

CUUL 1000 - Fundamentals of Culinary Arts; CUUL 1110 - Culinary Safety and Sanitation; CUUL 1220 - Baking Principles; CUUL 1520 - Baking Science

CUUL 1570 Confection Artistry (4)

This course introduces the principles and techniques of decorative sugar work and confectionary candy. Topics include nougat, marzipan modeling, pastillage and cocoa painting, confection candy and a variety of sugar techniques include blown, spun, poured and pulled. Upon completion, students should be able to prepare edible centerpieces and confections to enhance dessert buffets and plate presentations.

Pre-requisites: All Required

CUUL 1000 - Fundamentals of Culinary Arts; CUUL 1110 - Culinary Safety and Sanitation; CUUL 1220 - Baking Principles; CUUL 1520 - Baking Science; CUUL 1530 - European Cakes and Tortes; CUUL 1540 - Artisan and Specialty Bread

CUUL 1580 Chocolate Artistry (3)

This course provides a study in the art and craft of chocolate. Topics include chocolate tempering, piping, and molding; decorative work associated with cakes and centerpieces; and the candy productions techniques of filling, enrobing and dipping. Upon completion, students should be able to properly evaluate tempered chocolate and produce a variety of chocolate candies and decorative elements for garnishing desserts. This course also provides a laboratory experience for enhancing student skills in the art and craft of chocolate. Emphasis is placed on chocolate tempering, piping, and molding; decorative work associated with cakes and centerpieces; and the candy production techniques of filling, enrobing and dipping.

Pre-requisites: All Required

CUUL 1000 - Fundamentals of Culinary Arts; CUUL 1110 - Culinary Safety and Sanitation; CUUL 1220 - Baking Principles; CUUL 1520 - Baking Science; CUUL 1530 - European Cakes and Tortes

CUUL 2000 Dessert and Bread Retail Production, Nutrition in Baking (4)

This course is designed to merge artistry and innovation with the practical baking and pastry techniques utilized in a production setting. Emphasis is placed on quantity bread and roll-in dough production, plated and platter presentations, seasonal/theme product utilization and cost effectiveness. Upon completion, students should be able to plan, prepare and evaluate breads and desserts within a commercial environment and determine production costs and selling prices.

Pre-requisites: All Required

CUUL 1000 - Fundamentals of Culinary Arts; CUUL 1110 - Culinary Safety and Sanitation; CUUL 1220 - Baking Principles; CUUL 1520 - Baking Science; CUUL 1530 - European Cakes and Tortes; CUUL 1540 - Artisan and Specialty Bread; CUUL 1550 - Hot and Cold Plated Desserts; CUUL 1560 - Cake Design and Decorating; CUUL 1570 - Confection Artistry; CUUL 1580 - Chocolate Artistry

CUUL 2190 Principles of Culinary Leadership (3)

Familiarizes the student with principles, skills, methods, and behaviors necessary for sound leadership of people in their job responsibilities. Emphasis will be placed on real-life concepts, personal skill development, applied knowledge, and managing human resources. Course content is intended to help leaders, managers, and supervisors deal with a dramatically changing workplace that is affected by technology changes, a more competitive and global market place, corporate restructuring, and the changing nature of work and the workforce. Topics include: Leadership Principles, Leadership Relative to the Function of Management; Decision Making Process; Building and Effect Organizational Culture; Human Resource Management; and Delegating Management, Organization, and Control.

Pre-requisites: Provisional

Admission Co-requisites: None

CWDS Certified Warehousing Distribution Spec.

CWDS 1540 - Working in the Warehousing Environment (2)

Provides an introduction to the warehousing environment. Topics include distribution centers, business principles, plant safety, career success, work ethics, and managing change.

Pre-requisites:

None Co-requisites: None

CWDS 1560 - Warehousing Core and Workforce Skills (2)

Provides an overview of the core and workforce skills needed to succeed in the warehousing industry. Topics include powered industrial trucks, processing hazardous materials, palletizing, protecting materials and merchandise, waste recovery, containment, communication, team work, problem solving, image and interviewing.

Pre-requisites:

None Co-requisites: None

CWDS 1580 - Warehousing and Distribution Process (2)

Provides information on the warehousing and distribution processes used in the warehousing environment. Topics include key warehousing functions, measuring productivity, computational skills, and tools for excellence.

Pre-requisites:

None Co-requisites: None

CWDS 1600 - Warehousing Technology Skills (2)

Provides an overview and study of the technology used in the warehousing environment. Topics include data applications, scanners and data entry machines, handling systems, automation, and inventory management. A warehousing simulation and comprehensive assessment is also a part of this course.

Pre-requisites:

None Co-requisites: None

CWDS 1620 – Representative Warehouse Skills (1)

This course discusses mathematical concepts used in warehousing and distribution. It also focuses on powered material handling equipment and safety requirements. Units in the course include math and measurements, use of calculators, operation of powered industrial trucks, and warehousing simulations.

Pre-requisites:

None Co-requisites: None

DENA Dental Assisting

DENA 1010 - Basic Human Biology (1)

Focuses on basic normal structure and function of the human body with an emphasis on organ systems. Topics include: medical terminology as it relates to the normal human body; and normal structure and function of the human body - cells and tissues, organs and systems, and homeostatic mechanisms.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

DENA 1030 - Preventive Dentistry (2)

Provides students with theory and clinical experience in the area of preventive and public health dentistry. Topics include: etiology of dental disease; patient education techniques; plaque control techniques; types and use of fluoride; diet analysis for caries control; and dietary considerations for the dental patient.

Pre-requisites: All Required DENA 1080 - Dental Anatomy

DENA 1340 - Dental Assisting I: General Chairside Co-requisites: All Required

DENA 1080 - Dental Anatomy
DENA 1340 - Dental Assisting I: General Chairside

DENA 1050 - Microbiology and Infection Control (3)

Introduces fundamental microbiology and infection control techniques. Topics include: classification, structure, and behavior of pathogenic microbes; mode of disease transmission; body's defense and immunity; infectious diseases; and infection control procedures in accordance with CDC recommendations and OSHA guidelines.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

DENA 1070 - Oral Pathology and Therapeutics (2)

Focuses on the diseases affecting the oral cavity and pharmacology as it relates to dentistry. Topics include: identification and disease process; signs/symptoms of oral diseases and systemic diseases with oral manifestations; developmental abnormalities of oral tissues; basic principle of pharmacology; drugs prescribed by the dental profession; drugs that may contraindicate treatment; and applied pharmacology (regulations, dosage, and applications).

Pre-requisites: All Required
DENA 1010 - Basic Human
Biology DENA 1080 - Dental
Anatomy
Co-requisites: None

DENA 1080 - Dental Anatomy (5)

Focuses on normal head and neck anatomy and the development and functions of oral anatomy. Topics include: dental anatomy; oral histology; oral embryology; osteology of the skull; muscles of mastication and facial expression; temporal mandibular joint; blood lymphatic nerve supply of the head; and salivary glands and related structures.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

DENA 1090 - Dental Assisting National Board Examination Preparation (1)

Reviews information concerning all didactic areas tested by the Dental Assisting National Board (DANB). Topics include: collecting and recording clinical data; dental radiography; chairside dental procedures; prevention of disease transmission; patient education and oral health management; office management procedures; and test taking skills.

Pre-requisites: All
Required Program
Instructor Approval Co-
requisites: None

DENA 1340 - Dental Assisting I: General Chairside (6)

Introduces student to ethics and jurisprudence for the dental assistant and to chairside assisting with diagnostic and operative procedures. Topics include: ethics and jurisprudence in the dental office; four-handed dentistry techniques; clinical data collection techniques; introduction to operative dentistry; and dental material basics.

Pre-requisites: All Required Program Admission
DENA 1050 - Microbiology and Infection Control
DENA 1080 - Dental Anatomy
Co-requisites: All Required
DENA 1050 - Microbiology and Infection Control
DENA 1080 - Dental Anatomy

DENA 1350 - Dental Assisting II: Dental Specialties and EFDA Skills (7)

Focuses on chairside assisting with dental specialty procedures. Topics include: prosthodontic procedures (fixed and removable); orthodontics; pediatric dentistry; periodontic procedures; oral and maxillofacial surgery procedures; endodontics procedures; management of dental office emergencies; medically compromised patients and expanded functions approved by law for

performance by dental assistants in the state of Georgia. Student will pass a comprehensive examination and successfully perform all required clinical skills to receive EFDA certification.

Pre-requisites: All Required

DENA 1340 - Dental Assisting I: General Chairside

Co-requisites: None

DENA 1390 - Dental Radiology

(4)

After completion of the course the student will be able to provide radiation safety for patient and self, expose x-rays, process x-rays, and prepare dental films for the dental office. Topics include: fundamentals of radiology and radiation safety; radiographic anatomy and interpretation; intraoral and extra oral radiographic techniques; and quality assurance techniques.

Pre-requisites: All Required

DENA 1080 - Dental Anatomy

Co-requisites: None

DENA 1400 – Dental Practice Management

(2)

Emphasizes procedures for office management in dental practices. Topics include: oral and written communication; records management; appointment control; dental insurance form preparation; accounting procedures; supply and inventory control; employability skills and basic computer skills. A computer lab provides basic skills in computer use and utilization of these skills to perform office procedures on a microcomputer.

Pre-requisites: All Required

COMP 1000 - Introduction to Computers

DENA 1340 - Dental Assisting I: General

Chairside Co-requisites: None

DENA 1460 - Dental Practicum I

(1)

Practicum focuses on infection control in the dental office and assisting with diagnostic and simple operative procedures.

Topics include: infection control procedures; clinical diagnostic procedures; and general dentistry procedures.

Pre-requisites: All Required

DENA 1050 - Microbiology and Infection Control

DENA 1340 - Dental Assisting I: General

Chairside

DENA 1350 - Dental Assisting II: Dental Specialties and EFDA

Skills DENA 1390 - Dental Radiology

Co-requisites: All Required

DENA 1340 - Dental Assisting I: General Chairside

DENA 1350 - Dental Assisting II: Dental Specialties and EFDA

Skills DENA 1390 - Dental Radiology

DENA 1470 - Dental Practicum II

(1)

Practicum focuses on advanced general dentistry procedures and chairside in dental specialties with special emphasis on nonsurgical specialties. Topics include: advanced general dentistry and specialties.

Pre-requisites: All Required

DENA 1460 - Dental Practicum

I Co-requisites: All Required

DENA 1460 – Dental Practicum

I

DENA 1480 - Dental Practicum III

(5)

Practicum continues to focus on assisting chairside with advanced general dentistry procedures with emphasis on dental office management, preventive dentistry, and expanded functions. Topics include: advanced general dentistry procedures; preventive dentistry; dental office management; expanded functions; chairside in specialties; and management of dental office emergencies. Pre-requisites: All Required

DENA 1460 - Dental Practicum I

DENA 1470 - Dental Practicum

II Co-requisites: All Required

DENA 1460 - Dental Practicum I DENA 1470 - Dental Practicum II

DFTG Drafting

DFTG 1015

(3)

Practical Geometry and Trigonometry for Drafting Technology. This course introduces and develops basic geometric and trigonometric concepts. Course content will emphasize geometric concepts and trigonometric concepts as they pertain to drafting/CAD.

Pre-requisites: All Required

MATH 1013 - Algebraic

Concepts Co-requisites: None

DFTG 1101 - CAD Fundamentals

(4)

Establishes safety practices as they relate to a drafting environment. Introduces basic CAD functions while presenting essential principles and practices for line relationships, scale, and geometric construction.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: All Required

COMP 1000 - Introduction to Computers

DFTG 1103 - Technical Drawing I

(4)

Technical Drawing I provides multiview and pictorial sketching, orthographic drawing and fundamental dimensioning methods necessary to develop 2D and 3D views that completely describe machine parts for manufacture using intermediate CAD software techniques.

Pre-requisites: All Required

DFTG 1101 - CAD

Fundamentals Co-requisites:

None

DFTG 1105 - 3D Mechanical Modeling

(4)

In the 3D Mechanical Modeling course, the student becomes acquainted with concepts of the software related to Parametric modeling for mechanical drafting. The student will develop the skills necessary to create 3D models and presentation/working drawings.

Pre-requisites: All Required

DFTG 1103 - Technical Drawing

I Co-requisites: None

DFTG 1107 - Technical Drawing II

(3)

Technical Drawing II continues dimensioning skill development and introduces tools for precision measurement and sectional views. Pre-requisites: All Required

DFTG 1103 – Technical Drawing I Co-requisites: All Required

DFTG 1105 - 3D Mechanical Modeling

DFTG 1109 - Technical Drawing III

(4)

Introduces techniques necessary for auxiliary view drawings, surface development, and developing sheet metal parts. Topics include: primary auxiliary views, secondary auxiliary views, surface development, and developing sheet metal parts.

Pre-requisites: All Required

DFTG 1105 - 3D Mechanical

Modeling Co-requisites: None

DFTG 1111 - Technical Drawing IV

(4)

This course covers the basics of identifying fastening techniques, interpreting technical data, and create working drawings. Topics include utilization of technical data, identifying thread types, graphic representation of threaded fasteners, utilization of other fastening techniques, welding symbol identification, and welding symbol usage in working drawings.

Pre-requisites: All Required

DFTG 1103 - Technical Drawing

I Co-requisites: None

DFTG 1113 - Technical Drawing V (4)

Technical Drawing V provides knowledge and skills necessary to create working drawings for the manufacture of machine parts. Topics include: detail drawings, orthographic assembly drawings, pictorial assembly drawings, and utilization of technical reference source.

Pre-requisites: All Required

DFTG 1111 - Technical Drawing

IV Co-requisites: None

DFTG 1125 - Architectural Fundamentals (4)

Introduces architectural fundamental principles and practices associated with architectural styles and drawing. Fundamentals residential and commercial practices will be covered. Topics include: specifications and materials; architectural styles, construction drawing practices and procedures, dimensioning and scales.

Pre-requisites:

None Co-

requisites: None

DFTG 1127 - Architectural 3D Modeling (4)

In the Architectural 3D Modeling course, the student becomes acquainted with concepts of the software related to Parametric modeling for Architectural drafting. The student will develop the skills necessary to create 3D models and presentation/constructions drawings.

Pre-requisites:

None Co-

requisites: None

DFTG 1129 - Residential Drawing I (4)

Introduces the essential skills necessary for assessing the expected materials, labor requirements and costs for given structures or products, also students will be introduced to architectural drawing skills necessary to produce a basic set of construction drawings given floor plan information. Topics include: material take-offs; footing and foundation; floor plans; exterior elevations; site plans; and construction drawing techniques/practices.

Pre-requisites: All Required

DFTG 1125 - Architectural

Fundamentals Co-requisites: None

DFTG 113 - Introduction to CATIA (5)

This class introduces students to the basics of the CATIA modeling program. The primary subject matter will be comprised of Concepts of 3D modeling, Sketcher, Part Design, Assembly Modeling, and Drafting. Industry standards and practical techniques will be a constant focus.

Pre-requisites: All Required

DFTG 1101 - CAD

Fundamentals Co-requisites:

None

DFTG 1131 - Residential Drawing II (4)

Continues in-depth architectural drawing practice and develops architectural design skills. Plans are designed to meet applicable codes. Topics include: material take-offs; footing and foundation; floor plans; exterior elevations; site plans; and construction drawing techniques/practices.

Pre-requisites: All Required

DFTG 1129 - Residential Drawing I Co-requisites: None

DFTG 1133 - Commercial Drawing I (4)

Introduces commercial drawing skills necessary to produce construction drawings given floor plan information. Topics include: structural steel detailing, reflected ceiling plans, rebar detailing, and commercial construction drawings.

Pre-requisites: All Required

DFTG 1125 - Architectural

Fundamentals Co-requisites: None

DFTG 114 - Advanced CATIA (6)

The objective of this course is to introduce students to a select group of advanced workbenches within the CATIA v5 tool. The primary subject matter will be the production of 2D/3D layout development of surface based models, development of sheet metal flat patterns, 3-Axis machining and plant simulations.

Pre-requisites: All Required

DFTG 113 - Introduction to CATIA Co-requisites: None

DFTG 2010 - Engineering Graphics (4)

Covers the basics of computer terminology, input and output devices, file formatting, file management, for CAD software.

Introduces students to the fundamentals of geometric construction, scale reading line relationship and basic history of the drafting concepts.

Student will also be introduced to basic and intermediate CAD commands and procedures, and drafting concepts and principals. Pre-requisites: None

Co-requisites: None

DFTG 2020 - Visualization and Graphics (3)

This course is an introduction to engineering graphics and component visualization. Sketching, line drawing, computer assisted drafting solid modeling including parametric modeling are practiced. Development of working drawings and requirements for drawing in a manufacturing and rapid pro-type environment are emphasized.

Pre-requisites:

None Co-requisites:

None

DFTG 2030 - Advanced 3D Modeling Architectural (4)

In this course students become acquainted with concepts of the software related to Presentations for Architectural Renderings and Architectural Animations. Students will demonstrate skills in texture applications, camera angles for presentations, lighting and shadow techniques for architectural renderings, and animation techniques for architectural presentations.

Pre-requisites: All Required

DFTG 1127 - Architectural 3D

Modeling Co-requisites: None

DFTG 2040 - Advanced 3D Modeling Mechanical (4)

In this course the student becomes acquainted with concepts of the software related to Sheet Metal modeling for mechanical drafting, multi-body parts assemblies, and basic animation techniques for mechanical assembly presentations.

Pre-requisites: All Required

DFTG 1105 - 3D Mechanical

Modeling Co-requisites: None

DFTG 2110 - Blueprint Reading for Technical Drawing I (2)

Introduces the fundamental principles and practices associated with interpreting technical drawings. Topics include: interpretation of blueprints and sketching.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

DFTG 2120 - Print Reading for Architecture (3)

This course emphasizes skills in reading, producing and interpreting construction drawings. Topics include reading and measuring plans, identifying and understanding lines, symbols, dimensions, materials, schedules, and specifications.

Pre-requisites:

None Co-requisites:

None

DFTG 2130 - Manual Drafting Fundamentals (2)

This course emphasizes the essential techniques of basic manual drafting. It introduces drafting tools and equipment, scale and measurement, line relationships and lettering, and geometric construction concepts.

Pre-requisites:

None Co-requisites:

None

DFTG 2210 - Blueprint Reading for Technical Drawing II (2)

This course continues the development of blueprint reading as applied to technical drawing. Topics include threads (inch and metric), auxiliary views, geometric tolerancing, and weldments.

Pre-requisites: All Required

DFTG 2110 - Blueprint Reading for Technical Drawing

I Co-requisites: None

DFTG 2300 - Drafting Technology Practicum/Internship 3 (3)

Provides an approved industry-like setting where the student develops and sharpens skills. Emphasis is placed on production standards achievement and quality control.

Pre-requisites:

None Co-requisites:

None

DFTG 2400 - Drafting Technology Practicum/Internship 4 (4)

Provides an approved industry-like setting where the student develops and sharpens skills. Emphasis is placed on production standards achievement and quality control.

Pre-requisites:

None Co-

requisites: None

DFTG 2500 - Drafting Technology Exit Review (3)

Emphasis is placed on students' production of portfolio-quality pieces. Focuses on the preparation for entry into the job market. Pre-requisites: None

Co-requisites: None

DFTG 2600 - Drafting Technology Practicum/Internship 6 (6)

Provides an approved industry-like setting where the student develops and sharpens skills. Emphasis is placed on production standards achievement and quality control.

Pre-requisites:

None Co-

requisites: None

DHYG Dental Hygiene

DHYG 1000 - Tooth Anatomy and Root Morphology (2)

Provides the student with a thorough knowledge of external and internal morphological characteristics of human primary and secondary dentition. Also introduces the student to various tooth identification systems, classifications of occlusion and dental anomalies. Topics include: oral cavity anatomy, dental terminology, external and internal tooth anatomy, tooth nomenclature and numbering systems, individual tooth and root morphology, occlusion and dental anomalies.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

DHYG 1010 - Oral Embryology and Histology (1)

Focuses on the study of cells and tissues of the human body with emphasis on those tissues that compose the head, neck, and oral cavity. Topics include: cellular structure and organelles; histology of epithelium; histology of connective tissue; histology of muscle tissue; histology of nerve tissue; histology of oral mucosa and orofacial structures; embryological development of the head and neck; tooth development; and development of tooth supporting structures.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

DHYG 1020 - Head and Neck Anatomy (2)

Focuses on anatomy of the head and neck. Emphasis is placed on those structures directly affected by the practice of dentistry. Topics include: terminology; anatomic landmarks; osteology of the skull; temporomandibular joint; muscles of mastication; muscles of facial expression; nervous system; blood supply of the head and neck; lymphatic system and immunology; endocrine and exocrine glands of the head and neck; nasal and paranasal sinuses; fascial spaces and the spread of dental infections; and anatomy concerning local anesthesia.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

DHYG 1030 - Dental Materials (2)

Focuses on the nature, qualities, composition and manipulation of materials used in dentistry. The primary goal of this course is to enhance the student's ability to make clinical judgments regarding the use and care of dental materials based on how these materials react in the oral environment. Topics include: dental materials standards, dental materials properties, impression materials, gypsum products, mouth guards and whitening systems, dental bases, liners and cements, temporary restorations, classifications for restorative dentistry, direct restorative materials, indirect restorative materials, polishing procedures for dental restorations, removable dental prostheses, sealants, and implants.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

DHYG 1040 - Preclinical Dental Hygiene Lecture (2)

Provides fundamental skills to be utilized in the delivery of optimum patient care by the dental hygienist. Topics include: patient assessment, instrumentation, charting, occlusion, caries, emergencies, ethics and professionalism, asepsis, and patient and clinician positioning.

Pre-requisites: All
Required Program
Admission
Co-requisites: All Required

DHYG 1050 - Preclinical Dental Hygiene Lab

DHYG 1050 - Preclinical Dental Hygiene Lab (2)

Provides fundamental skills to be utilized in the delivery of optimum patient care by the dental hygienist. Topics include: asepsis, ethics and professionalism, emergencies, patient assessment, patient and clinician positioning, instrumentation, charting, occlusion and caries.

Pre-requisites: All
Required Program
Admission
Co-requisites: All Required
DHYG 1040 - Preclinical Dental Hygiene Lecture

DHYG 1070 - Radiology Lecture (2)

Emphasizes the application of radiology principles in the study of the teeth and their surrounding structures. Topics include: radiation physics principles; radiation biology; radiation safety; radiographic quality assurance; imaging theory; radiographic interpretation; radiographic need; legal issues of dental radiography; and digital radiography techniques and principles.

Pre-requisites: All
Required Program
Admission
DHYG 1020 - Head and Neck
Anatomy Co-requisites: All Required
DHYG 1020 - Head and Neck Anatomy

DHYG 1090 - Radiology Lab (1)

Emphasizes the application of radiology principles in the study of the teeth and their surrounding structures. Topics include: radiation safety, radiographic quality assurance, imaging theory, radiographic interpretation, radiographic need, and digital radiography principles and techniques.

Pre-requisites: All

Required Program

Admission

DHYG 1020 - Head and Neck

Anatomy Co-requisites: All Required

DHYG 1020 - Head and Neck Anatomy

DHYG 1110 - Clinical Dental Hygiene I Lecture (2)

Continues the development of knowledge in patient care. Topics include: prevention, instrumentation, patient management, dental appliances, and treatment planning.

Pre-requisites: All Required

DHYG 1040 - Preclinical Dental Hygiene

Lecture Co-requisites: All Required

DHYG 1111 - Clinical Dental Hygiene I Lab

DHYG 1111 - Clinical Dental Hygiene I Lab (3)

Continues the development of knowledge in patient care. Topics include: prevention, instrumentation, patient management, dental appliances, treatment planning, and applied techniques.

Pre-requisites: All Required

DHYG 1050 - Preclinical Dental Hygiene

Lab Co-requisites: All Required

DHYG 1110 - Clinical Dental Hygiene I Lecture

DHYG 1206 - Pharmacology and Pain Control (3)

Introduces principles of basic pharmacology as they pertain to the practice of dentistry and dental hygiene. Emphasizes actions and reactions of medications commonly used in the dental office or taken by dental patients. Topics include: pharmaceutical referencing; legal and ethical considerations; drug effects; contraindications; drug related emergencies; dental related anesthesia; and pain control. Pre-requisites: All Required

Program

Admission Co-

requisites: None

DHYG 2010 - Clinical Dental Hygiene II Lecture (2)

Continues the development of student knowledge in treating patients and preventing oral disease. Topics include: instrument sharpening; patient assessment; antimicrobial use; pulp vitality testing; treatment of hypersensitivity; whitening; implant care; tobacco cessation; pit and fissure sealants, scaling, debridement and root planning; ultrasonics and air polishing and dietary analysis.

Pre-requisites: All Required

DHYG 1070 - Radiology

Lecture

DHYG 1110 - Clinical Dental Hygiene I

Lecture Co-requisites: All Required

DHYG 2020 - Clinical Dental Hygiene II Lab

DHYG 2020 - Clinical Dental Hygiene II Lab (2)

Continues the development of student knowledge in treating patients and preventing oral disease. Topics include: instrument sharpening; patient assessment; antimicrobial use; pulp vitality testing; treatment of hypersensitivity; whitening; implant care; tobacco cessation; pit and fissure sealants; scaling, debridement and root planning; ultrasonics and air polishing; dietary analysis, and applied techniques.

Pre-requisites: All Required

DHYG 1070 - Radiology

Lecture DHYG 1090 -

Radiology Lab

DHYG 1111 - Clinical Dental Hygiene I

Lab Co-requisites: All Required

DHYG 2010 - Clinical Dental Hygiene II Lecture

DHYG 2050 - Oral Pathology (3)

Introduces pathology as a specialty of dentistry and includes the etiology, pathogenesis and recognition of various pathological conditions. Emphasis is placed on oral and paraoral pathology and systemic conditions affecting the head and neck. Topics include: terminology and biopsy procedures; inflammation, repair, and regeneration; soft tissue and dental anomalies; pathogenesis of caries and pulpal pathology; cysts and tumors of the head and neck; systemic conditions that affect the oral structures; infectious diseases; diseases of the salivary glands; diseases of bone; blood dyscrasias; vesiculo-erosive and autoimmune diseases; and genetic diseases and syndromes of the head and neck.

Pre-requisites: All Required

DHYG 1010 - Oral Embryology and

Histology DHYG 1020 - Head and Neck

Anatomy

Co-requisites: None

DHYG 2070 - Community Dental Health

(3)

Provides students with a broad understanding of the healthcare system and an objective view of the significant social, political, psychological and economic forces directing the system. Prepares students to promote oral health and prevent oral disease in a community, by meeting specific dental health needs of community groups. Topics include: epidemiology; community dental care assessment; community dental care provision; preventive counseling for groups; group oral health education; terminology; dental care systems; biostatistics; and concepts of dental research.

Pre-requisites: All Required

DHYG 1110 - Clinical Dental Hygiene I

Lecture Co-requisites: None

DHYG 2080 - Clinical Dental Hygiene III Lecture

(2)

Continues the development of student knowledge necessary for treatment and prevention of oral diseases. Topics include: treatment of patients with special needs.

Pre-requisites: All Required

DHYG 2010 - Clinical Dental Hygiene II

Lecture Co-requisites: All Required

DHYG 2090 - Clinical Dental Hygiene III Lab

DHYG 2090 - Clinical Dental Hygiene III Lab

(4)

Continues the development of student skills necessary for treatment and prevention of oral disease. Topics include: special needs patients and applied techniques.

Pre-requisites: All Required

DHYG 2020 - Clinical Dental Hygiene II

Lab Co-requisites: All Required

DHYG 2080 - Clinical Dental Hygiene III Lecture

DHYG 2110 - Biochemistry and Nutrition Fundamentals for the Dental Hygienist

(2)

Provides a basic introduction to organic chemistry and biochemistry. Familiarizes students with the role of nutrition in the human body with an emphasis on the dental hygienist's role as a nutritional educator. Topics include: molecular structure, carbohydrates, proteins, nutrition and digestion, bioenergetics, nutritional aspects, nutritional disorders, and diet assessment.

Pre-requisites:

None Co-

requisites: None

DHYG 2130 - Clinical Dental Hygiene IV Lecture

(2)

Focuses on the dental hygiene field and presents the fundamental concepts and principles necessary for successful participation in the dental profession. Topics include: employability skills; State of Georgia Dental Practice Act; office management; expanded duties; legal aspects; ethics; dental hygiene practice settings; and dentistry and dental hygiene regulation.

Pre-requisites: All Required

DHYG 2080 - Clinical Dental Hygiene III

Lecture Co-requisites: All Required

DHYG 2140 - Clinical Dental Hygiene IV Lab

DHYG 2140 - Clinical Dental Hygiene IV Lab

(4)

Continues the development of student skills necessary for treatment and prevention of oral disease. Topics include: applied techniques and time management.

Pre-requisites: All Required
DHYG 2090 - Clinical Dental Hygiene III
Lab Co-requisites: All Required
DHYG 2130 - Clinical Dental Hygiene IV Lecture
DHYG 2200 – Periodontology

(3)

Provides fundamental information on periodontal anatomy, pathogenesis of the periodontal diseases, and an introduction to modern rational periodontal therapy, including preventive, non-surgical, and surgical methods. Topics include: tissues of the periodontium; periodontal pathology; periodontal diseases; assessment and treatment planning; periodontal disease therapy; and periodontal emergencies.

Pre-requisites: All Required
DHYG 1010 - Oral Embryology and
Histology Co-requisites: None

ECCE Early Childhood Care and Education

ECCE 1101 - Introduction to Early Childhood Care and Education

(3)

Introduces concepts relating the responsibilities and procedures involved in a variety of early childhood care situations. Topics include historical perspectives; professionalism; guidance; developmentally appropriate practices; learning environment (including all children); cultural diversity; and licensing, accreditation, and credentialing.

Pre-requisites: Provisional
Admission Co-requisites: None

ECCE 1103 - Child Growth and Development

(3)

Introduces the student to the physical, social, emotional, and cognitive development of the young child (prenatal through 12 years of age). The course provides for competency development in observing, recording, and interpreting growth and development stages in the young child; advancing physical and intellectual competence; supporting social and emotional development; and examining relationships between child development and positive guidance. Topics include developmental characteristics, prenatal through age 12, developmental guidance applications, observing and recording techniques, ages and stages of development, and introduction to children with special needs.

Pre-requisites: Provisional
Admission Co-requisites: None

ECCE 1105 - Health, Safety and Nutrition

(3)

Introduces the theory, practices, and requirements for establishing and maintaining a safe, healthy learning environment. Topics include CPR and first aid, health issues, safety issues, child abuse and neglect, and nutritional needs of children.

Pre-requisites: Provisional
Admission Co-requisites: None

ECCE 1112 - Curriculum and Assessment

(3)

Provides student with an understanding of developmentally effective approaches to teaching, learning, observing, documenting and assessment strategies that promote positive development for young children. The course will enable the student to establish a learning environment appropriate for young children and to identify the goals, benefits, and uses of assessment in the development of curriculum for young children. Topics include observing, documenting, and assessing; learning environments; development of curriculum plans and materials; curriculum approaches; and instructional media.

Pre-requisites: ECCE 1103 - Child Growth and
Development Co-requisites: All Required
ECCE 1103 - Child Growth and Development

ECCE 1113 - Creative Activities for Children

(3)

Introduces the concepts related to creativity in art, music, movement and creative drama, and facilitating children's creative expression across the curriculum. Topics include concepts of creativity and expression; theories of young children's creative development; facilitation of children's creative expression, media, methods and materials across the curriculum; appreciation of children's art processes and products; appreciation of children's creativity in music, movement and dance; appreciation of children's creative expression in play and creative drama; and art and music appreciation.

Pre-requisites: Provisional
Admission Co-requisites: None

ECCE 1121 - Early Childhood Care and Education Practicum

(3)

Provides the student with the opportunity to gain a supervised experience in a practicum placement site allowing demonstration of techniques obtained from course work. Practicum topics include promoting child development and learning; building family and community relationships; observing, documenting, and assessing to support young children and families; teaching and learning; becoming a professional; and guidance techniques and classroom management.

Pre-requisites: ECCE 1105 - Health, Safety and

Nutrition Co-requisites: ECCE 1105 - Health, Safety and Nutrition

ECCE 2115 - Language and Literacy

(3)

Develops knowledge, skills, and abilities in supporting young children's literacy acquisition and development, birth through age twelve. Topics include developmental continuum of reading and writing, literacy acquisition birth to five years of age, literacy acquisition in kindergarten, literacy acquisition in early grades, and literacy acquisition in children who are culturally and linguistically diverse.

Pre-requisites: ECCE 1103 - Child Growth and

Development Co-requisites: ECCE 1103 - Child Growth and Development

ECCE 2116 - Math and Science

(3)

Presents the process of introducing math and science concepts to young children. Includes planning and implementation of developmentally appropriate activities and development of math and science materials, media and methods. Topics include inquiry approach to learning; cognitive stages and developmental processes in developing math and science concepts with children birth to five; cognitive stages and developmental processes in developing math and science concepts with children in kindergarten and primary grades; planning math and science activities; and development of math and science materials, media and methods.

Pre-requisites: ECCE 1103 - Child Growth and

Development Co-requisites: ECCE 1103 - Child Growth and Development

ECCE 2201 – Exceptionalities

(3)

Provides for the development of knowledge and skills that will enable the student to understand individuals with special needs and appropriately guide their development. Special emphasis is placed on acquainting the student with programs and community resources that serve families with children with special needs. Topics include inclusion/least restrictive environment (LRE), physical and motor impairments, gifted/talented, intellectual and cognitive disabilities, emotional and behavioral disorders, communication disorders in speech and language, autism spectrum disorders, visual impairments, deaf and hard of hearing, health impairments, multiple disabilities, and community resources.

Pre-requisites: ECCE 1103 - Child Growth and

Development Co-requisites: None

ECCE 2202 - Social Issues and Family Involvement

(3)

Enables the student to value the complex characteristics of children's families and communities and to develop culturally responsive practices which will support family partnerships. Students use their understanding to build reciprocal relationships which promote children's development and learning. Students are introduced to local programs and agencies that offer services to children and families within the community. Topics include professional responsibilities, family/social issues, community resources, family education and support, teacher-family communication, community partnerships, social diversity and anti-bias concerns, successful transitions, and school-family activities.

Pre-requisites: Provisional

Admission Co-requisites: None

ECCE 2203 - Guidance and Classroom Management

(3)

Examines effective guidance practices in group settings based upon the application of theoretical models of child development and of developmentally appropriate practices. Focus will be given to individual, family, and cultural diversity. Topics will include developmentally appropriate child guidance (birth through 12); effective classroom management, including preventive and interventive techniques; understanding challenging behaviors; and implementing guidance plans.

Pre-requisites: ECCE 1103 - Child Growth and Development
Development Co-requisites: ECCE 1103 - Child Growth and Development

ECCE 2245 - Early Childhood Care and Education Internship I (6)

Provides the student with the opportunity to gain a supervised experience in an actual or simulated work site allowing demonstration of techniques obtained from course work. Internship topics include promoting child development and learning; building family and community relations; observing, documenting, and assessing to support young children and families; using developmentally effective approaches; using content knowledge to build meaningful curriculum; and becoming a professional.

Pre-requisites: All Required

ECCE 1101 - Introduction to Early Childhood Care and Education
ECCE 1103 - Child Growth and Development

ECCE 1105 - Health, Safety and

Nutrition Co-requisites: One Required

ECCE 1105 - Health, Safety and Nutrition

ECCE 2246 - Early Childhood Care and Education Internship II (6)

Provides the student with the opportunity to gain a supervised experience in an actual or simulated work site allowing demonstration of techniques obtained from course work. Internship topics include promoting child development and learning; building family and community relations; observing, documenting, and assessing to support young children and families; using developmentally effective approaches; using content knowledge to build meaningful curriculum; and becoming a professional.

Pre-requisites: All Required

ECCE 1101 - Introduction to Early Childhood Care and Education
ECCE 1103 - Child Growth and Development

ECCE 1105 - Health, Safety and

Nutrition Co-requisites: One Required

ECCE 1105 - Health, Safety and Nutrition

ECCE 2310 - Paraprofessional Methods and Materials (3)

Develops the instructional skills to enable the student to work as a paraprofessional in a program for kindergarten through elementary age children. Topics include assessment and curriculum, instructional techniques, and methods for instruction in a learning environment.

Pre-requisites: ECCE 1103 - Child Growth and

Development Co-requisites: ECCE 1103 - Child Growth and Development

ECCE 2312 - Paraprofessional Roles and Practices (3)

Develops skills to enable the student to work as a paraprofessional in a program for kindergarten through elementary aged children. Topics include professional qualifications, professional and ethical conduct, professionalism and employment, and paraprofessional roles and responsibilities.

Pre-requisites:

Program Admission

ECCE 1103 - Child Growth and

Development Co-requisites: All Required

ECCE 1103 - Child Growth and Development

ECCE 2320 - Program Administration and Facility Management (3)

Provides training in planning, implementation, and maintenance of an effective early childhood program and facility. Topics include organization, mission, philosophy, goals of a program; types of programs; laws, rules, regulations, accreditation, and program evaluation; needs assessment; administrative roles and board of director anti-bias program development; child development and developmentally appropriate practices; marketing, public and community relations, grouping, enrollment and retention; working with families; professionalism and work ethics; space management; money management; and program, equipment, and supplies management.

Pre-requisites: Provisional

Admission Co-requisites: None

ECCE 2322 - Personnel Management (3)

Provides training in early childhood personnel management. Topics include staff records; communication; personnel policies; managing payroll; recruitment, interviewing, selection, hiring, motivating, and firing; staff retention; staff scheduling; staff development; staff supervision; conflict resolution; staff evaluations; ethical responsibilities to employees; and time and stress management.

Pre-requisites: Provisional

Admission Co-requisites: None

ECCE 2330 - Infant/Toddler Development

(3)

Introduces the three developmentally meaningful age periods during infancy. Provides knowledge, grounded in brain and attachment research, about how children learn and the skills and attitudes necessary to support optimum social/emotional, cognitive, and physical development for children from birth to three. Principles of brain development and language and communication will be explored in depth. Special emphasis is placed on experiential learning to show caregivers practical ways of meeting the fundamental needs of all infants in group care settings and of helping them learn the lessons that every infant comes into the world eager to learn. The needs of infants and toddlers with established disabilities as well as those at risk for developmental problems will be examined from the perspective of early intervention and inclusion.

Pre-requisites: Provisional

Admission Co-requisites: None

ECCE 2332 - Infant/Toddler Group Care and Curriculum

(3)

Provides the knowledge, skills and attitudes necessary to meet the fundamental needs of children from birth to three in group care settings. Establishes a foundation for a responsive, relationship-based curriculum for children birth to three who are in group care settings. Introduces the philosophy behind primary care, continuity of care, a respectful care. Explores ways of creating environments for infant/toddler group care which foster optimum social/emotional, physical and cognitive development, promote cultural sensitivity and encourage positive parent caregiver relations.

Pre-requisites: Provisional

Admission Co-requisites: None

ECCE 2340 - Family Child Care Program Management

(3)

Provides the guidelines, responsibilities, and appropriate practices needed for successful management of a Family Child Care Home. Provides guidelines and responsibilities for professional business practices associated with the successful establishment and administration of a Family Child Care Home. Topics include business plans, budgeting, taxes, marketing, record keeping, and professional qualifications.

Pre-requisites: Provisional Admission

ECCE 1103 - Child Growth and

Development Co-requisites: None

ECCE 2342 - Family Child Care Business Management

(3)

Provides guidelines and responsibilities for professional business practices associated with the successful establishment and administration of a Family Child Care Home. Topics include: business plans; budgeting; taxes; marketing, record keeping and

professional qualifications.

Pre-requisites: Provisional

Admission Co-requisites: None

ECCE 2360 - Classroom Strategies for Exceptional Children

(3)

Prepares child care providers and paraprofessionals with knowledge and skills in the areas of working effectively with children with a disability; working with families as partners; examining the laws and regulations; exploring resources, service providers, and agencies that may assist the child and his/her family; examining the adaptations and modifications to facilities and environments; reviewing the referral process; implementing inclusion; modifying instruction to accommodate the child with special needs; and investigating ways to document and chart observations.

Pre-requisites: ECCE 2201 -

Exceptionalities Co-requisites: None

ECCE 2362 - Exploring Your Role in the Exceptional Environment

(3)

Prepares child care providers and paraprofessionals with knowledge and skills for screening and assessing purposes; and explores resources, service providers, and agencies that may assist the child and families in educational or natural settings. Examines adaptations, accommodations, and modifications to environments; reviews the referral process; implements inclusion and modifies instruction to accommodate the child with special needs.

Pre-requisites: ECCE 2201 –

Exceptionalities Co-requisites: None

ECET Electrical and Computer Engineering Tech

ECET 1101 - Circuit Analysis I

(4)

Emphasizes the knowledge and ability to analyze basic DC circuits and introductory concepts of AC circuits. Topics include: international units, basic electrical laws, series and parallel circuits, network analysis concepts, network theorems concepts, D.C. instruments, grounding techniques, magnetism, inductance/capacitance, transient analysis, and introduction to dependent sources and 2-port parameters. Laboratory work parallels class work.

Pre-requisites: All Required

ENGT 1000 - Introduction to Engineering

Technology Co-requisites: All Required

MATH 1111 - College Algebra

ECET 1110 - Digital Systems I

(4)

Study of digital circuit fundamentals with an emphasis on digital electronics and techniques, simplification of logic circuits, sequential and combinational logic circuits, programmable logic devices, flip-flops and registers, binary number system, and arithmetic and logic operations. Laboratory work parallels class work using trainers, DesignWorks, and Altera simulation software and system.

Pre-requisites: All Required

ENGT 1000 - Introduction to Engineering

Technology Co-requisites: None

ECET 1191 - Computer Programming Fundamentals

(3)

This course emphasizes fundamental concepts of problem solving using a high level source language. Laboratory work is designed to acquaint students with computer facilities, software, and programming fundamentals. Topics include: system fundamentals, concepts of structured programming, arrays, functions, and engineering applications.

Pre-requisites: All Required

MATH 0098 - Elementary

Algebra Co-requisites: None

ECET 1210 - Networking Systems I

(3)

Provides a foundation in Local Area Networking of computers with an introduction to Wide Area Networking. Emphasis is on Peer-to-Peer Networking.

Pre-requisites: All Required

ENGT 1000 - Introduction to Engineering

Technology Co-requisites: None

ECET 2101 - Circuit Analysis II

(4)

Continues study of AC circuit analysis, which emphasizes complex networks. Topics include: analysis of complex networks, networks with multiple sources, AC network theorems, resonance, transformers, three-phase systems, filters and bode plots, non-sinusoidal waveforms, and pulse response of RLC circuits. Laboratory work parallels class work.

Pre-requisites: All Required

ECET 1101 - Circuit Analysis

I Co-requisites: None

ECET 2110 - Digital Systems II

(4)

Continues the study of digital systems with emphasis on the study of microcomputers with programming applications involving external devices with which the microprocessor/microcontroller must communicate. Topics include: logic families, PLD programming, microcomputer architecture, programming with arithmetic/logic instructions, jump, loop and call operations, I/O programming, timers, interrupts and interfacing techniques. Laboratory work parallels class work to include use of PLD (programmable logic devices) platforms, and microprocessor/microcontroller platforms to reinforce and edify theoretical concepts.

Pre-requisites: All Required

ECET 1110 - Digital Systems

I Co-requisites: None

ECET 2120 - Electronic Circuits I

(4)

Introduces the conduction process in semiconductor materials and devices. Topics include semiconductor physics; diodes; basic diode circuits and applications; biasing, stability and graphical analysis of bipolar junction transistors and field effect transistors; introduction to silicon controlled rectifiers; device curve characteristics; and related devices with selected applications. Laboratory work includes circuit construction, use of appropriate instruments, troubleshooting and circuit simulation using P-SPICE.

Pre-requisites: All Required

ECET 2101 - Circuit Analysis

II Co-requisites: None

ECET 2210 - Networking Systems II

(4)

This course emphasizes the design, implementation, configuration, and monitoring of a client-server network environment. Emphasis is placed on applications to Local Area Networks. An introduction to Network Domains in Wide Area Networks is included.

Pre-requisites: All Required

ECET 1210 - Networking Systems

I Co-requisites: None

ECET 2220 - Electronic Circuits II

(4)

Emphasizes the analysis of BJT and FET amplifiers; analysis and applications of operational amplifiers and other linear digital ICs. Topics include: re transistor model; CB, CE and CC amplifiers; Darlington connection; cascaded systems; CS, CD, CG Amplifiers; High frequency and low frequency response of BJT and FET amplifiers; Power Amplifiers Class A, Class B, Class C Amplifiers; op- amp fundamentals; inverting, non-inverting amplifiers, voltage followers and summing amplifiers; comparators; instrumentation applications; active filters; differentiators and integrators; 555 Timers; A/D and D/A Conversion. Laboratory work parallels class work and includes circuit simulation using P-spice. Laboratory work parallels class work.

Pre-requisites: All Required

ECET 2120 - Electronic

Circuits I Co-requisites: None

ECON Economics

ECON 1101 - Principles of Economics

(3)

Provides a description and analysis of economic operations in contemporary society. Emphasis is placed on developing an understanding of economic concepts and policies as they apply to everyday life. Topics include basic economic principles; economic forces and indicators; capital and labor; price, competition, and monopoly; money and banking; government expenditures, federal and local; fluctuations in production, employment, and income; and United States economy in perspective

Pre-requisites: Regular

Admission Co-requisites: None

ECON 2105 – Macroeconomics

(3)

Provides a description and analysis of macroeconomic principles and policies. Topics include basic economic principles, macroeconomic concepts, equilibrium in the goods and money markets, macroeconomic equilibrium and the impact of fiscal and monetary policies.

Pre-requisites
Regular
Admission Co-
requisites: None

ECON 2106 – Microeconomics

(3)

Provides an analysis of the ways in which consumers and business firms interact in a market economy. Topics include basic economic principles, consumer choice, behavior of profit maximizing firms, modeling of perfect competition, monopoly, oligopoly and monopolistic competition.

Pre-requisites
Regular
Admission Co-
requisites: None

ELTR Electrical Technology

ELTR 1020 - Electrical Systems Basics I

(3)

Introduces the theory and application of varying sine wave voltages and current. Topics include: magnetism, AC wave generation, AC test equipment, inductance, capacitance, and basic transformers.

Pre-requisites: None

Co-requisites: All Required

MATH 1012 - Foundations of

Mathematics IDFC 1011 - Direct Current

I

ELTR 1060 - Electrical Prints, Schematics, and Symbols

ELTR 1080- Commercial Wiring I

(6)

This course introduces commercial wiring practice and procedures. Topics include: industrial safety procedure, the National Electrical Code, commercial load calculations, three-phase power systems, and fundamentals of AC motor control

Pre-requisites: None

Co-requisites: All Required

ELTR 1090- Commercial Wiring II

ELTR 1090- Commercial Wiring II

(6)

This Course is a continuation of the study in commercial wiring practices and procedures. Topics include: transformer connections, an introduction to low voltage systems, conduit design and installation practices, and system design concepts.

Pre-requisites: None

Co-requisites: All Required

ELTR 1080- Commercial

Wiring I

ELTR 1110- Electric Motors

(4)

Introduce the fundamental theories and applications of single-phase motors. Topics include: motor theory/operating principles, motor terminology, motor identification, NEMA standards, motor efficiencies, preventative maintenance, troubleshooting/failure analysis and NEC requirements.

Pre-requisites: None

Co-requisites: All Required

ELTR 1120- Variable Speed/Low Voltage

Controls ELTR 1180- Electrical Controls

ELTR 1120- Variable Speed/Low Voltage Controls

(2)

Introduces types of electric motor control, reduced voltage starting, and applications. Emphasis will be placed on motor types, and applications. Includes information on wye and delta motor connections; part wind, autotransformer; adjustable frequency drives and other applications; and oscilloscopes and their operation. Topics include: types of reduced voltage starting, reduced voltage motor connections, and adjustable frequency drive.

Pre-requisites: None
Co-requisites: All Required
ELTR 1110- Electric Motors
ELTR 1190- Electrical
Controls

ELTR 1180- Electrical Controls (3)

Introduces line and low voltage switching circuits, manual and automatic controls and devices, and circuits. Emphasis will be placed on switching circuits, manual and automatic controls and devices, line and low voltage switching circuits, and operation, application and ladder diagrams. Topics include: ladder and wire diagrams, switching circuits, manual controls and devices, automatic controls and devices, and application and operation of controllers and controls.

Pre-requisites:
None Co-
requisites: None

PS11 Photovoltaic Systems Installation and Repair Technician (3)

The Photovoltaic Systems Installation and Repair Technician Technical Certificate of Credit provides individuals with the opportunity to enter the workforce area that specializes in electrical applications of installing, inspecting, and repairing solar panels in the electrical construction industry.

Pre-requisites:
None Co-
Requisites: None

PD71 Photovoltaic Systems Installation and Repair (3)

This program is designed to provide students with the opportunity to enter the workforce area specialized in electrical applications of installing, inspecting, and repairing solar panels in the electrical construction industry.

ELUT Electrical Utility Technology

ELUT 1101 – Introduction to the Electrical Utility Industry (3)

This course will provide students with an overview of the electric power utility industry and occupational opportunities. Topics include the introduction and orientation to the electric utility industry, history of the industry, electric utility regulation and its scope, regulatory agencies and codes, general safety, electrical systems overview, electrical generation, electrical transmission, electrical distribution, and electric utility career opportunities.

Pre-requisites: Provisional Admission, Instructor Approval, or Appropriate Placement Test
Score Co-requisites: None

ELUT 1102 - Fundamentals of Power Alternating Current (5)

This course is designed to continue the development of AC concepts. Topics include reactive components, simple RLC circuits, AC circuit resonance, AC power, energy calculation, and power measurement.

Pre-requisites: All Required
MATH 1013 - Algebraic
Concepts Co-requisites: None

ELUT 1103 - Network Communications (8)

This course introduces networking technologies, tools and construction techniques, industry standards, and troubleshooting and repair procedures for fiber optic systems. Topics include basic knowledge of networking technology, layers, TCP/IP fundamentals, network installation, installation tools, techniques, and safety, fiber optic systems, remote connectivity, testing and troubleshooting, and security.

Pre-requisites:
None Co-
requisites: None

ELUT 1104 - Electrical Substations (5)

This course provides the student with the knowledge and skills to safely work in and around an electrical substation. Topics include an overview to the substation, substation equipment, wiring practices, safety, maintenance, substation operation, substation construction, and grounding.

Pre-requisites: All Required

ELUT 1102 - Fundamentals of Power Alternating

Current Co-requisites: None

ELUT 1105 - Introduction to Distribution Engineering (5)

This course provides students with the basic knowledge, skills, and technical background in the construction, equipment, practices and procedures, design and layout, and common problems in electrical distribution engineering. Topics include an overview of the electric utility system, safety issues unique to the electrical utility industry, overview of OH and UD equipment, operation of the electric distribution system, and designing the electric distribution system.

Pre-requisites: All Required

ELUT 1102 - Fundamentals of Power Alternating

Current Co-requisites: None

ELUT 1106 - Introduction to Metering (3)

This course introduces electric metering fundamentals with a focus on self-contained meter applications. Topics include electric meter fundamentals, types of meters, self-contained meter selection and installation, transformer- rated meters, and ampacity ratings.

Pre-requisites: All Required

ELUT 1102 - Fundamentals of Power Alternating

Current Co-requisites: None

ELUT 1107 - Power Plants (5)

This course provides participants with an overview of the different systems involved in the production of electricity at a fossil generating station. Topics include an introduction to the power plant, coal handling systems, air flow systems, waste disposal systems, generators, turbines, feedwater systems, boilers, and circulating cooling water systems.

Pre-requisites: All Required

ELUT 1102 - Fundamentals of Power Alternating

Current Co-requisites: None

ELUT 1230 – Protection Principles (4)

This course provides the student with the knowledge and skills to understand and analyze protection principles of the utility infrastructure. Upon completion, the student will understand the importance of protection schemes, how they will affect the flow of electricity, and the process of maintaining the network when equipment it is energized as well as de-energized.

Pre-requisites: All Required

ELUT 1101- Introduction to the Electrical Utility Industry

ELUT 1102- Fundamentals of Power/Alternating

Current Co-requisites: None

ELUT 1240 – Single phase and Three Phase Transformers (4)

This course provides the student the opportunity to discover the design, operation, and effect that single and three phase transformers have on the electrical infrastructure. Students will demonstrate the design characteristics and understand the importance of transformers in the delivery of electrical power to industrial, commercial, and residential customers.

Pre-requisites: All Required

ELUT 1101- Introduction to the Electrical Utility Industry

ELUT 1102- Fundamentals of Power/Alternating

Current Co-requisites: All Required

ELUT 1104- Electrical

Substations ELUT 1107 – Power
Plants

ELUT 1250 – Renewable and Alternative Power Sources (4)

This course provides the student the opportunity to discover the design, operation, and effect that single and three phase transformers have on the electrical infrastructure. Students will demonstrate the design characteristics and understand the importance of transformers in the delivery of electrical power to industrial, commercial, and residential customers.

Pre-requisites: All Required

ELUT 1101- Introduction to the Electrical Utility Industry

ELUT 1102- Fundamentals of Power/Alternating

Current Co-requisites: All Required

ELUT 1104- Electrical

Substations ELUT 1107 – Power
Plants

ELUT 1260 – Smart Grid Technologies for Energy Production (4)

This course provides the student with the knowledge and skills to understand solar and wind power generation as renewable and alternative power sources. Upon completion, the student will understand the principles of these types of systems as well as how energy can be stored in batteries systems, the operating principles of batteries, and how high frequency transformers are integral to introducing these power sources into an infrastructure.

Pre-requisites: All Required

ELUT 1101- Introduction to the Electrical Utility Industry

ELUT 1102- Fundamentals of Power/Alternating

Current Co-requisites: All Required

ELUT 1104- Electrical

Substations ELUT 1107 – Power
Plants

EMPL Job Acquisition Skills

EMPL 1000 - Interpersonal Relations and Professional Development (2)

Emphasizes human relations and professional development in today's rapidly changing world that prepares students for living and working in a complex society. Topics include human relations skills, job acquisition skills and communication, job retention skills, job advancement skills, and professional image skills.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

EMSP Emergency Medical Services Professions

EMSP 1110 - Introduction to the EMT Profession (3)

This course serves as the introductory course to the Emergency Medical Services (EMS) profession. It orients the student to the prehospital care environment, issues related to the provision of patient care in both in-hospital and out-of-hospital circumstances. It further provides foundational information upon which subsequent curriculum content is based so that successful completion of this content increases the potential for success in subsequent courses and should allow students to apply the fundamental knowledge, skills, and attitudes gained in order to effectively communicate and function safely, ethically and professionally within the emergency medical services environment. Topics include: Anatomy and Physiology, Medical Terminology, Pathophysiology, CPR for HCP, EMS Systems, Research, Workforce Safety and Wellness, Documentation, EMS System Communication, Therapeutic Communication, Medical/Legal and Ethics, Public Health, Principles of Safely Operating a Ground Ambulance, Incident Management, Multiple Casualty Incidents, Air Medical, Vehicle Extrication, HazMat, MCI due to Terrorism/Disaster, and Life Span Development.

Pre-requisites: All

Required Program Admission

Co-requisites: None

EMSP 1120 - EMT Assessment/Airway Management and Pharmacology (3)

This course prepares students for initial scene management and assessment of patients as well as management of the airway. Introduction to pharmacology is also covered. Includes application of scene information and patient assessment findings (scene size up, primary and secondary assessment, patient history, and reassessment) to guide emergency management. Topics include: Scene Size-Up; Primary Assessment; History Taking; Secondary Assessment; Monitoring Devices; Reassessment; Airway Management; Respiration; Artificial Ventilation; Principles of Pharmacology; Medication Administration; and Emergency Medications.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 1130 - Medical Emergencies for the EMT (3)

This course integrates pathophysiological principles and assessment findings to formulate a field impression and implement the treatment plan of cases involving non-traumatic medical emergencies. Topics include: Medical Overview; Neurology; Abdominal and Gastrointestinal Disorders; Immunology; Infectious Disease; Endocrine Disorders; Psychiatric; Cardiovascular; Toxicology; Respiratory; Hematology; Genitourinary/Renal; Non-Traumatic Musculoskeletal Disorders; Diseases of the Eyes, Ears, Nose, and Throat; and Medical Assessments.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 1140 - Special Patient Populations (3)

This course provides a fundamental knowledge of growth, development, and aging and assessment findings to provide basic emergency care and transportation for a patient with special needs. Topics include: Obstetrics, Gynecology, Neonatal Care, Pediatrics, Geriatrics, Patients with Special Challenges, and Special Patient Populations - Assessments.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 1150 - Shock and Trauma for the EMT (3)

This course is designed to prepare the EMT student to apply pre-hospital emergency care to patients who have sustained injuries resulting from various mechanisms of injury including: Abdominal and Genitourinary trauma; Orthopedic trauma; Soft Tissue trauma; Head, Facial, Neck, and Spine Trauma and Nervous System trauma. Special considerations in trauma related injuries will be presented including the physiology of shock as well as multi-system trauma and environmental emergencies. Topics include: Shock and Resuscitation; Trauma Overview; Bleeding; Chest Trauma; Abdominal and Genitourinary Trauma; Orthopedic Trauma; Soft Tissue Trauma; Head, Facial, Neck, and Spine Trauma; Nervous System Trauma; Special Considerations in Trauma; Environmental Emergencies; and Multi-System Trauma.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 1160 - Clinical and Practical Applications for the EMT (1)

This course provides supervised clinical experience in various clinical settings as well as opportunities to demonstrate critical thinking skills and assessment based management techniques through complete clinically based evaluations relevant to the practice of an EMT. Topics include: clinicals and Assessment Based Management.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 1510 - Advanced Concepts for the AEMT (3)

This course serves as the introductory course to the advanced level practice of the Advanced Emergency Medical Technician (AEMT). It expands on the information attained at the EMT level. Topics include: EMS Systems; Documentation; EMS System Communication; Therapeutic Communication; Principles of Pharmacology; Medication Administration; Emergency Medications;

Airway Management; Respiration; Artificial Ventilation; Primary Assessment; and Secondary Assessment.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 1520 - Advanced Patient Care for the AEMT

(3)

This course provides opportunities to apply fundamental knowledge of basic and selected advanced emergency care and transportation based on assessment findings for the following: an acutely ill patient; a patient in shock, respiratory failure or arrest, cardiac failure or arrest, and post resuscitation management; and an acutely injured patient. In addition, it provides a fundamental knowledge of growth, development, and aging and assessment findings to provide basic and selected advanced emergency care and transportation for a patient with special needs. Topics include: Geriatrics; Patients with Special Challenges; Medical Overview; Neurology; Immunology; Infectious Disease; Endocrine Disorders; Cardiovascular; Toxicology; Respiratory; Hematology; Genitourinary/Renal; Shock and Resuscitation; Chest Trauma; Abdominal and Genitourinary Trauma; Orthopedic Trauma; Head, Facial, Neck, and Spine Trauma; Nervous System Trauma; and Integration of Medical/Trauma Assessments.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP E1530 - Clinical Applications for the AEMT

(1)

This course provides supervised clinical experience in various clinical settings. Topics include:

Clinicals. Pre-requisites: One Required

Program Admission

Co-requisites: None

EMSP 1540 - Clinical and Practical Applications for the AEMT

(3)

This course provides supervised clinical experience in various clinical settings as well as opportunities to demonstrate critical thinking skills and assessment based management techniques through competency based evaluations relevant to the practice of an AEMT. Topics include: Clinicals and Assessment Based Management.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2110 - Foundations of Paramedicine

(3)

This course introduces the student to the role of the paramedic in today's healthcare system, with a focus on the prehospital setting. This course will also prepare the student to integrate scene and patient assessment findings with knowledge of epidemiology and pathophysiology to form a field impression. This includes developing a list of differential diagnoses through clinical reasoning to modify the assessment and formulate a treatment plan. Topics include: EMS Systems; Research; Workforce Safety and Wellness; Documentation; EMS System Communication; Therapeutic Communication; Medical/Legal and Ethics; Life Span Development; Public Health; Incident Management; Air Medical; Scene Size-Up; Primary Assessment; History Taking; Secondary Assessment; Monitoring Devices; and Reassessment.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2120 - Applications of Pathophysiology for Paramedics

(3)

This course expands the concepts of pathophysiology as it correlates to disease processes. This course will enable the student to apply the general concepts of pathophysiology to the assessment and management of patients in the emergency setting.

Topics include: Pathophysiology.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2130 - Advanced Resuscitative Skills for Paramedics

(3)

This course will equip the Paramedicine student with an expanded knowledge of pharmacology, as well as skills used to manage the respiratory system. Students will learn to use these advanced resuscitative skills to mitigate patient care emergencies, and to improve the overall health of the patient. Topics include: Principles of Pharmacology; Medication Administration; Emergency Medications; Airway Management; Respiration; and Artificial Ventilation.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2140 - Advanced Cardiovascular Concepts

(4)

This course equips the Paramedicine student with an expanded knowledge of the anatomy, physiology, and electrophysiology of the cardiovascular system. Students will also examine the epidemiology of cardiovascular disease, and will begin to integrate advanced assessment skills (including ECG interpretation) into the assessment of cardiac patients. Topics include: Anatomy, Physiology, and Electrophysiology of the Cardiovascular System; Epidemiology of Cardiovascular Disease; Assessment of the Cardiac Patient; Electrocardiographic (ECG) interpretation.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2310 - Therapeutic Modalities of Cardiovascular Care

(3)

This course will enable the student to integrate assessment findings with principles of epidemiology and pathophysiology to formulate a field impression and implement a comprehensive treatment/disposition plan for a patient experiencing a cardiovascular emergency. Topics include: Cardiovascular Emergencies and Advanced Cardiovascular Life Support (ACLS).

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2320 - Therapeutic Modalities of Medical Care

(5)

This course will enable the student to integrate assessment findings with principles of epidemiology and pathophysiology to formulate a field impression and implement a comprehensive treatment/disposition plan for a patient experiencing a medical emergency. Topics include: Medical Overview; Neurology; Abdominal and Gastrointestinal Disorders; Immunology; Infectious Disease; Endocrine Disorders; Psychiatric; Toxicology; Respiratory; Hematology; Genitourinary/Renal; Non-Traumatic Musculoskeletal Disorders; Diseases of the Eyes, Ears, Nose, and Throat; and Assessment of Medical Emergencies.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2330 - Therapeutic Modalities of Trauma Care

(4)

This course will enable the student to integrate a comprehensive knowledge of causes and pathophysiology into the management of traumatic: cardiac arrest and peri-arrest states; shock, respiratory failure or arrest with an emphasis on early intervention to prevent arrest. This course will also include integrating assessment findings with principles of epidemiology and pathophysiology to formulate a field impression to implement a comprehensive treatment/disposition plan for an acutely injured patient. During this course, the student will complete a nationally recognized pre-hospital trauma course (i.e. PHTLS, ITLS, ATT, etc.). Topics include: Shock and Trauma Resuscitation; Trauma Overview; Bleeding; Chest Trauma; Abdominal and Genitourinary Trauma; Orthopedic Trauma; Soft Tissue Trauma; Head, Facial, Neck, and Spine Trauma; Nervous System Trauma; Special Considerations in Trauma; Environmental Emergencies; Multi-System Trauma; and Assessment of Trauma Emergencies.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2340 – Therapeutic Modalities for Special Patient Populations

(4)

This course will enable the student to integrate assessment findings with principles of pathophysiology and knowledge of psychosocial needs to formulate a field impression and implement a comprehensive treatment/disposition plan for various special patient populations. During this course, the student will also complete a nationally recognized pediatric course (i.e. EPC, PALS, PEPP, etc.). Topics include: Obstetrics; Gynecology; Neonatal Care; Pediatrics; Geriatrics; and Patients with Special Challenges.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2510 - Clinical Applications for the Paramedic – I

(2)

This course provides the Paramedic student with supervised clinical experience in various clinical settings. EMSP 2510 Clinical Applications for the Paramedic - I is one in a series of courses that also includes: EMSP 2520, EMSP 2530, EMSP 2540, EMSP 2550, EMSP 2560 and EMSP 2570. The successful completion of all of these will result in meeting all clinical standards required by the State Office of Emergency Medical Services and Trauma (SOEMST). Topics include: Clinicals.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2520 - Clinical Applications for the Paramedic – II

(2)

This course provides the Paramedic student with supervised clinical experience in various clinical settings. EMSP 2520 Clinical Applications for the Paramedic - II is one in a series of courses that also includes: EMSP 2510, EMSP 2530, EMSP 2540, EMSP 2550, EMSP 2560 and EMSP 2570. The successful completion of all of these will result in meeting all clinical standards required by the State Office of Emergency Medical Services and Trauma (SOEMST). Topics include: Clinicals.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2530 - Clinical Applications for the Paramedic – III

(2)

This course provides the Paramedic student with supervised clinical experience in various clinical settings. EMSP 2530 Clinical Applications for the Paramedic - III is one in a series of courses that also includes: EMSP 2510, EMSP 2520, EMSP 2540, EMSP 2550, EMSP 2560 and EMSP 2570. The successful completion of all of these will result in meeting all clinical standards required by the State Office of Emergency Medical Services and Trauma (SOEMST). Topics include: Clinicals.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2540 - Clinical Applications for the Paramedic – IV

(1)

This course provides the Paramedic student with supervised clinical experience in various clinical settings. EMSP 2540 Clinical Applications for the Paramedic - IV is one in a series of courses that also includes: EMSP 2510, EMSP 2520, EMSP 2530, EMSP 2550, EMSP 2560 and EMSP 2570. The successful completion of all of these will result in meeting all clinical standards required by the State Office of Emergency Medical Services and Trauma (SOEMST). Topics include: Clinicals.

Pre-requisites: None

Co-requisites: None

EMSP 2550 – Clinical Applications for the Paramedic – V

(1)

This course provides the Paramedic student with supervised clinical experience in various clinical settings. EMSP 2550 Clinical Applications for the Paramedic – V is one in a series of courses that also includes: Clinical Applications for the Paramedic - V is one in a series of courses that also includes: EMSP 2510, EMSP 2520, EMSP 2530, EMSP 2540, EMSP 2560 and EMSP 2570. The successful completion of all of these will result in meeting all clinical standards required by the State Office of Emergency Medical Services and Trauma (SOEMST). Topics include: Clinicals.

Pre-requisites: One

Required Provisional Admission

Co-requisites: None

EMSP 2560 - Clinical Applications for the Paramedic – VI

(1)

This course provides the Paramedic student with supervised clinical experience in various clinical settings. EMSP 2560 Clinical Applications for the Paramedic - VI is one in a series of courses that also includes: EMSP 2510, EMSP 2520, EMSP 2530, EMSP 2540, EMSP 2550 and EMSP 2570. The successful completion of all of these will result in meeting all clinical standards required by the State Office of Emergency Medical Services and Trauma (SOEMST). Topics include: Clinicals.

Pre-requisites: One

Required Program

Admission

Co-requisites: None

EMSP 2570 - Clinical Applications for the Paramedic – VII (1)

This course provides the Paramedicine student with supervised clinical experience in various clinical settings. EMSP 2570 Clinical Applications for the Paramedic - VII is one in a series of courses that also includes: EMSP 2510, EMSP 2520, EMSP 2530, EMSP 2540, EMSP 2550 and EMSP 2560. The successful completion of all of these will result in meeting all clinical standards required by the State Office of Emergency Medical Services and Trauma (SOEMST). Topics include: Clinicals.

Pre-requisites: One

Required Program Admission

Co-requisites: None

EMSP 2710 - Field Internship for the Paramedic (2)

Provides supervised field internship experience in the prehospital advanced life support setting. Topics include: Field Internship.

Pre-requisites: One Required

Provisional Admission

Co-requisites: None

EMSP 2720 - Practical Applications for the Paramedic (3)

Allows opportunities to demonstrate critical thinking skills and assessment based management techniques through competency based evaluations relevant to the practice of a Paramedic. Topics include: Assessment Based Management for Paramedics.

Pre-requisites: One

Required Program Admission

Co-requisites: None

ENGL English

ENGL 1010 - Fundamentals of English I (3)

Emphasizes the development and improvement of written and oral communication abilities. Topics include analysis of writing, applied grammar and writing skills, editing and proofreading skills, research skills, and oral communication skills.

Pre-requisites: ENGL 0097 - English II OR Appropriate Placement Test Score AND READ 0097 - Reading II OR Appropriate Placement Test Score

Co-requisites: None

ENGL 1012 - Fundamentals of English II (3)

Provides knowledge and application of written and oral communications found in the workplace. Topics include writing fundamentals and speaking fundamentals.

Pre-requisites: All Required

ENGL 1010 - Fundamentals of English

I Co-requisites: None

ENGL 1101 - Composition and Rhetoric (3)

Explores the analysis of literature and articles about issues in the humanities and in society. Students practice various modes of writing, ranging from exposition to argumentation and persuasion. The course includes a review of standard grammatical and stylistic usage in proofreading and editing. An introduction to library resources lays the foundation for research. Topics include writing analysis and practice, revision, and research. Students write a research paper using library resources and using a formatting and documentation style appropriate to the purpose and audience.

Pre-requisites: Appropriate Degree Level Writing (English) Placement Test Score and Appropriate Degree Level Reading Placement Test Score

Co-requisites: None

ENGL 1102 - Literature and Composition (3)

Emphasizes the student's ability to read literature analytically and meaningfully and to communicate clearly. Students analyze the form and content of literature in historical and philosophical contexts. Topics include reading and analysis of fiction, poetry, and drama; research; and writing about literature.

Pre-requisites: ENGL 1101 - Composition and Rhetoric with a C or

better Co-requisites: None

ENGL 1105 - Technical Communications

(3)

Emphasizes practical knowledge of technical communications techniques, procedures, and reporting formats used in industry and business. Topics include reference use and research, device and process description, formal technical report writing, business correspondence, and technical report presentation.

Pre-requisites: ENGL 1101 - Composition and Rhetoric with a C or

better Co-requisites: None

ENGL 2110 – World Literature

(3)

This course explores the history of the human experience through literature and writing across the cultures of the world. Surveys of important works across multiple genres of fiction and non-fiction as a reflection of cultural values. Explores themes from ancient through modern eras.

Pre-requisites: ENGL 1101 - Composition and Rhetoric with a C or

better Co-requisites: None

ENGL 2130 - American Literature

(3)

Emphasizes American literature as a reflection of culture and ideas. A survey of important works in American literature. Includes a variety of literary genres: short stories, poetry, drama, nonfiction, and novels. Topics include literature and culture, essential themes and ideas, literature and history, and research skills.

Pre-requisites: ENGL 1101 - Composition and Rhetoric with C or

better Co-requisites: None

ENGT Engineering Technology

ENGT 1000 - Introduction to Engineering Technology

(3)

Provides a study of engineering technology as a career field and describes the knowledge and skills required for academic and occupational success. Topics include: engineering technology career, measurement and standards, mathematical operators, engineering tools, and engineering concepts. Labs reinforce mathematical, mechanical and electrical concepts through practical exercises, such as measurement and calculation of density of objects, relative humidity, use of digital multi-meter, building circuits, use of precision instruments, and team exercises.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

ENGT 2300 - Capstone Project

(1)

This course will require students to undertake either individual or team projects, by applying knowledge acquired classroom/lab activities in program courses and core courses. The student will create or construct a product, a circuit or mechanism using circuit building, troubleshooting and other engineering skills developed through previous course work. The project activity includes conceptualization, detailed planning and design, project construction, cost and production considerations, quality assurance and project presentation.

Pre-requisites: All Required

ECET 2101 - Circuit Analysis

II Co-requisites: None

ESOL English as a Second Language

ESOL 0066 - Beginning ESL Listening and Speaking I

(3)

Introduces listening and speaking skills to students whose primary language is not English to succeed in college courses. Topics include grammar structures and oral communication.

Pre-requisites: All Required

Appropriate Placement Test Scores

Co-requisites: None

ESOL 0067 - Intermediate ESL Listening and Speaking II

(3)

Emphasizes listening and speaking skills to students whose primary language is not English to succeed in college courses. Topics include grammar, oral communication, and listening.

Pre-requisites: All Required

Appropriate Placement Test Scores

Co-requisites: None

ESOL 0068 - Advanced ESL Listening and Speaking III

Provides the ability to listen and speak for students whose primary language is not English to succeed in college courses. Topics include grammar skills, oral communication, and listening.

Pre-requisites: All Required

ESOL 0067 - Intermediate ESL Listening and Speaking II

Co-requisites: None

ESOL 0076 - Beginning ESL Reading

Introduces fundamental reading competencies to students whose primary language is not English. Topics include vocabulary skills, comprehensive skills, and study skills.

Pre-requisites: All Required

Appropriate Placement Test Score

Co-requisites: None

ESOL 0077 - Intermediate ESL Reading

Emphasizes vocabulary, comprehension, and critical reading skills development for students whose primary language is not English. Topics include vocabulary skills, comprehension skills, critical reading skills, study skills, and content area reading.

Pre-requisites

ESOL 0076 - Beginning ESL Reading

Co-requisites: None

ESOL 0078 - Advanced ESL Reading

Provides instruction in vocabulary and comprehension skills to students whose primary language is not English. Emphasis of the instruction is on critical reading skills. Topics include vocabulary skills, comprehension skills, critical reading skills, study skills and content area reading skills.

Pre-requisites: All Required

ESOL 0077 - Intermediate ESL Reading

Co-requisites: None

ESOL 0086 - Beginning ESL Grammar Communication I

Introduces standard English usage to students whose primary language is not English. Topics include subject and verb agreement, correct verb forms and spelling.

Pre-requisites: All Required

Appropriate Placement Test Scores

Co-requisites: None

ESOL 0087 - Intermediate ESL Grammar Communication II

Emphasizes the rules of grammar, spelling, and appropriate diction for students whose primary language is not English to ensure a smooth transition into communicating orally. Topics include basic grammar, basic mechanics, spelling, and speaking skills.

Pre-requisites: None

Co-requisites: All Required

ESOL 0076 - Beginning ESL Reading
ESOL 0086 - Beginning ESL Grammar Communication I

ESOL 0088 - Advanced ESL Grammar Communication III

Provides the ability to communicate using oral methods for students whose primarily language is not English. Topics include public speaking and speech revision.

Pre-requisites: All Required

ESOL 0077 - Intermediate ESL Reading

ESOL 0086 - Beginning ESL Grammar Communication I

Co-requisites: None

ESOL 0096 - Beginning ESL Composition I

Introduces standard English usage to students whose primarily language is not English. Topics include capitalization, basic punctuation, subject and verb agreement, correct verb forms, spelling, and basic paragraph development.

Pre-requisites: All Required

Appropriate Placement Test Score

Co-requisites: None

ESOL 0097 - Intermediate ESL Composition II

Emphasizes the rules of grammar, punctuation, capitalization, spelling, and writing to students whose primarily language is not English to ensure a smooth transition into communicating in writing. Topics include basic grammar, basic mechanics, spelling, and writing skills.

Pre-requisites: All Required

ESOL 0076 - Beginning ESL Reading

ESOL 0096 - Beginning ESL Composition I

Co-requisites: None

ESOL 0098 - Advanced ESL Composition III

Provides the ability to communicate using written methods for students whose primarily language is not English. Topics include revising and writing.

Pre-requisites: All Required

ESOL 0077 - Intermediate ESL Reading

ESOL 0097 - Intermediate ESL Composition II

Co-requisites: None

FILM On Set Film Production Assistant

FILM 1100 – GFA Introduction to On-Set Film Production (6)

This course provides students with a basic set of skills and insights sufficient to be integrated onto the sets of working film productions. The course is offered in collaboration with the Georgia Film Academy.

Pre-requisites: All

Required Program

Admission Program

Instructor Approval Co-

requisites: None

FILM 1510 – GFA Set Construction and Painting (6)

Designed to equip students with entry-level skills and knowledge of set construction for the film and episodic television industries. Students will participate in class projects that include reading blueprints, use of power tools, carpentry, scenic paint and sculpting. Additionally, emphasis will be placed on set etiquette including, but not limited to, attitude and professionalism. The course is offered in collaboration with the Georgia Film Academy.

Pre-requisites: All Required

FILM 1100 – GFA Introduction to On-Set Film

Production Co-requisites: None

FILM 2100 – GFA Practicum (12)

Through cooperative agreements among the film industry, the Georgia Film Academy, and the student, the practicum provides students opportunities to demonstrate techniques learned in the initial Georgia Film Academy's course through on-set productions. Emphasizes student opportunities to practice production assistant skills in a hands-on situation under the supervision of a film industry professional. Topics include: demonstrating film production functions, applying film knowledge and skills in the workplace, listening to and following directions, and modeling professionals.

Pre-requisites: All

Required Program

Instructor Approval

FILM 1100 – GFA Introduction to On-Set Film

Production Co-requisites: None

FILM 2550 - GFA Film Practicum/Internship (6)

Provides additional skills application in a professional environment through cooperative agreements among the film industry, the Georgia Film Institute and the student to furnish employment within a variety of production opportunities. Emphasizes student opportunities to practice production assistant skills in a hands-on situation under the supervision of a film industry professional. Supplements and compliments the courses taught in the Georgia Film Institute. Topics Include: application of production skills, appropriate employability skills, problem solving, adaptability to differing production environments and acceptable job performance for Production Assistants assigned to the grip, electrical, art department, hair and makeup, SPFX, locations, camera, transportation and production departments.

Pre-requisites:

None

Co-requisites: All Required

FILM 1100 – GFA Introduction to On-Set Film Production

FOSC Forensics

FOSC 1206 - Introduction to Forensic Science (3)

This introductory course will provide a broad overview of the areas in forensic science covered in higher level courses. Topics include the recognition, identification, individualization and evaluation of various types of physical evidence, forensic science and the law, and ethics in forensic science. The relationship of forensic science to the natural sciences and the use of the scientific method in forensic science will also be explored.

Pre-requisites: Program

Admission Co-requisites: None

FOSC 2010 - Crime Scene Investigation I (4)

A study of the methods and techniques of scientific crime scene investigation and analysis using principles from biology, chemistry, and physics to document, recognize, preserve and collect physical evidence. Topics covered include video recording, photography, sketching, and searching of crime scenes along with proper collection and preservation methods.

Pre-requisites: FOSC 1206 - Introduction to Forensic Science with a C or better. Co-requisites: None

FOSC 2011 - Crime Scene Investigation II (4)

Designed to follow Crime Scene Investigation I, this course focuses on the specialized scene techniques needed to investigate, analyze, process and reconstruct crime scenes. Topics will include presumptive testing, enhancement reagents, special scene techniques, bloodstain pattern analysis, shooting reconstruction, pattern recognition and crime scene reconstruction.

Pre-requisites: Two Required

Program Admission

FOSC 1206 – Introduction to Forensic Science with a C or better; FOSC 2010 - Crime Scene Investigation

I Co-requisites: None

FOSC 2012 - Forensic Trace Evidence

(4)

Trace evidence is often divided into two categories; chemistry and microscopy. This course is an introductory course in trace evidence to include the sub disciplines of hairs, fibers, arson, gunshot residue, explosives, paint, fracture match and fabric impression examinations and comparisons using microscopic and instrumental techniques. This course will also give the student who is interested in laboratory or CSI work practical experience in the area of trace evidence and how it relates to forensic science.

Pre-requisites: All Required

Program Admission

FOSC 1206 - Introduction to Forensic Science with a C or better.

Co-requisites: None

FOSC 2014 - Documentation and Report Preparation

(4)

The effectiveness of quality notes, reports and accurate documentation in the investigative process are explained and performed. Preparation of a report, chain of custody documents and other forms with proper content, mechanics, elements and format will also be explained and performed. Topics include field or bench notes, documentation of observations, factual report writing, property and evidence reports, business letters, memorandums, proper grammar, proper sentence structure and characteristics essential to quality report writing and document preparation.

Pre-requisites: All Required

Either ENGL 1010 or ENGL 1101 and FOSC 1206 with a C or better. ENGL 1010 - Fundamentals of English I

ENGL 1101 - Composition and Rhetoric

FOSC 1206 - Introduction to Forensic

Science

Co-requisites: None

FOSC 2033 - Death Investigation

(3)

This course examines the fundamentals of a medico legal death investigation, the operation of death investigation system and the role of the death investigator. Procedures required to assist the medical examiner/ coroner in determining the deceased persons cause and manner of death are discussed. Additional topics include autopsy technique, sudden and unexpected death, natural death, specific wound and injury characteristics and child death.

Pre-requisites: FOSC 1206 - Introduction to Forensic Science with a C or better. Co-requisites: None

FOSC 2035 - Forensic Photography

(4)

The basic principles of photography generation and manipulation. Students will learn the basic camera operations including shutter speed, aperture, and lighting. Topics will include macro and micro photography, depth of field, digital cameras, and scene photography. Emphasis will be placed on the application of basic camera techniques to forensic science photography.

Pre-requisites: All Required

Program Admission

FOSC 1206 - Introduction to Forensic Science with a C or better.

Co-requisites: None

FOSC 2037 – Victimology

(3)

While individuals have been crime victims for many years, victimology or the study of crime victims is a relatively recent discipline. The majority of criminological research and discussion has been focused on the offender rather than the victim. This course provides an overview of the principles and concepts of victimology, an analysis of victimization patterns and trends, and the role of victimology in the justice system. In addition, the repercussions of victimization, victim reporting patterns and remedies available for victims are also explored.

Pre-requisites: Program

Admission Co-requisites: None

FOSC 2039 - Computer Forensics

(5)

The main goal of this course is to provide students with an understanding of computer forensics and investigation tools and techniques. Students will gain a solid foundation in computer forensics and investigations. Most of the major personal computer operating system architectures and disk structures will be discussed. Students will learn how to set up an investigators office and

laboratory, as well as what computer forensic hardware and software tools are available. Students will also learn the importance of digital evidence controls and how to process crime and incident scenes. Finally, students will learn the details of data acquisition, computer forensic analysis, e-mail investigations, image file recovery, investigative report writing, and expert witness requirements. The course provides a range of laboratory and hands-on assignments that teaches about theory as well as the practical application of computer forensic investigation.

Pre-requisites: All Required

CIST 1130 – Operating System Concepts

CIST 1401 – Computer Networking

Fundamentals COMP 1000 - Introduction to Computers

Co-requisites: None

FOSC 2040 - Forensic Firearms and Toolmark Identification (4)

The course is an introduction to firearms, ammunition and ammunition components, microscopic comparison of questioned bullets, cartridge cases and toolmarks, distance determination, gunpowder and shotgun pattern analysis, serial number restoration, lock picking techniques, the examination of security devices such as padlocks and safes and the examination of firearm related injuries. Pre-requisites: FOSC 1206 - Introduction to Forensic Science with a C or better.

Co-requisites: None

FOSC 2041 - Latent Print Examination (4)

This course explains the history, biology, and basic principles of friction ridge analysis. Properly recording, processing, documenting, collecting, and preserving latent print evidence will be discussed. Students will also be introduced to the Automated Fingerprint Identification System (AFIS) and the analysis, comparison, and evaluation of latent prints. Various lab exercises will also be conducted to demonstrate processing methods used in latent print examination.

Pre-requisites: All

Required Program

Admission

FOSC 1206 – Introduction to Forensic Science with a C or better.

Co-requisites: None

FOSC 2150 - Case Preparation and Courtroom Testimony (4)

Examines the case file preparation, admissibility of evidence rulings, the criminal trial process, courtroom demeanor, and direct and cross examination techniques for courtroom testimony. Skills are performed in a mock courtroom setting by the students. Topics include fact and expert witnesses, pertinent case law, property and evidence reports, investigative and laboratory reports, preparation of the witness, witness credibility and proper courtroom appearance and demeanor.

Pre-requisites: FOSC 1206 - Introduction to Forensic Science with a C or

better. Co-requisites: FOSC 2010 - Crime Scene Investigation I

FRSC Fire Science

<http://www.savannahtech.edu/academics/all-programs/fire-science/>

FRSC 1020 - Basic Firefighter - Emergency Services Fundamentals (3)

This course provides the student with information on the applicable laws, policies, and standards that the Firefighter I course is designed, and how the course will be administered. This course will provide the student basic knowledge of where and how the fire service originated from the colonial periods to present day firefighting operations. The student will learn basic roles and responsibilities of a firefighter, how firefighters have to abide by and work from standard operating procedures and guidelines, and how the chain of command works and their position within it. The student will be provided the knowledge on how to communicate within the fire service; whether it with the fire station or on the fire ground. This course provides the emergency responder with basic principles and functions of the Incident Command System. The course will provide the necessary knowledge and skills to operate within the ICS and their role within the ICS at the fire station, at a non-emergency scene, and at emergency scenes. It will provide also provide the emergency responder with knowledge on how to perform basic skills at emergency scenes that deal with infection control, cardiopulmonary resuscitation, basic first aid measures, and using an AED. Finally, it will provide the emergency responder skills and knowledge on how to recognize the presence of and the potential for a hazardous materials release, and how and who personnel should call. Upon completion of this course the student emergency responder candidate/recruit will have the basic skills and knowledge to be able to obtain a certificate of completion or become certified through the appropriate governing agency for the

following: 1. Infection Control 2. CPR 3. First Aid 4. ICS-100 5. IS-700 6. NPQ – Hazardous Materials for First Responders
Awareness Level - This course meets the requirements NFPA 1001 Standard for Fire Fighter Professional Qualifications and all other state, local, and provincial occupational health and safety regulatory requirements.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1030 - Basic Firefighter - MODULE I

(5)

This course provides the firefighter candidate/recruit with basic knowledge and skills to perform various fire ground operations as a firefighter on emergency scenes. The candidate/recruit will learn about safety during all phases of a firefighter's career, the personal protective equipment that is required for training and every emergency response, and how to properly don it for use and doff it after use. The candidate/recruit will learn about the dynamics of fire through fire behavior and how to extinguish the different phases of fires with either portable fire extinguishers or through fire suppression attacks and techniques. The candidate/recruit will also learn the three tactical priorities of Life Safety, Incident Stabilization, and Property Conservation that have to be achieved on every fire ground. Basic knowledge and skills will be provided to the candidate/recruit so they can achieve the tactical priorities through various fire ground operations such as: response & size-up, forcible entry, ladders, search & rescue, ventilation, water supply, fire hose, fire nozzles, fire streams, salvage, and overhaul. Upon completion of this course the student emergency responder candidate/recruit will have the basic skills and knowledge to be able to obtain a certificate of completion or become certified through the appropriate governing agency for the following: 1. Module I - This course meets the requirements NFPA 1001 Standard for Fire Fighter Professional Qualifications and all other state, local, and provincial occupational health and safety regulatory requirements.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1040 - Basic Firefighter - MODULE II

(3)

This course builds from the skills and knowledge in Module I and provides the knowledge and skills to support the fire ground techniques learned in the previous courses. The firefighter will learn various uses of ropes & knots and how to hoist firefighting tools and equipment. The firefighter will also gain the knowledge and skills of building construction principles that will be used throughout their firefighting career to identify building conditions such as: fire spread and travel, how and where to ventilate, indications of potential building collapse, etc. The firefighter will learn survival techniques that will be used throughout their career to help keep themselves safe and how to rescue themselves or another firefighter. Firefighter rehabilitation will be discussed during this course, so that the firefighter will know how and when to properly rehab themselves before, during, after an emergency response. Knowledge of fire suppression systems will be discussed, so that the firefighter will have a basic understanding of the components of a fire detection, protection, and suppression system. Basic cause determination will be discussed so that firefighters will be aware of observations during various phases of fire ground operations. Finally, to complete the Firefighter I program the firefighter will participate in the following live fire scenarios in order to complete the objectives of the program. 1. Exterior Class A Fire 2. Interior Structure Attack Above Grade Level 3. Interior Structure Attack Below Grade Level 4. Vehicle Fire 5. Dumpster Fire Upon completion of this course the student emergency responder candidate/recruit will have the basic skills and knowledge to be able to obtain a certificate of completion or become certified through the appropriate governing agency for the following: 1. NPQ Fire Fighter I - This course meets the requirements NFPA 1001 Standard for Fire Fighter Professional Qualifications and all other state, local, and provincial occupational health and safety regulatory requirements.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1050 - Fire and Life Safety Educator I

(3)

Most structural fires, fire deaths and fire injuries occur in the home. This course addresses some of the most important responsibilities of the modern fire service; teaching the public to prevent or if needed, escape fires and related emergencies. We have adopted the approach that we must learn from each incident then put the information to work to prevent fires and fire losses through public fire and life safety education. Topics include: general requisite knowledge, administration, planning and development, education and implementation, and evaluation.

Pre-requisites: All Required

FRSC 1141 - Hazardous Materials Operations; FRSC 1020 - Basic Firefighter - Emergency Services Fundamentals; FRSC 1030 - Basic Firefighter - MODULE I; FRSC 1040 - Basic Firefighter - MODULE II

Co-requisites: None

FRSC 1060 - Fire Prevention, Preparedness and Maintenance

(3)

This course provides the student with the necessary skills of fire prevention, emergency scene preparedness, and tool and

equipment maintenance. Specifically addressed are the following topics: basic principles of building construction; knowledge of water supply systems to include pressurized systems, rural water supplies, and alternative water supplies; perform hydrant flow tests as part of water flow assessments for water supplies coming from pressurized hydrants; discuss fire detection, suppression, and suppression systems; consolidate all knowledge to perform a pre-incident plan of a facility; selection of proper tools and techniques of cleaning and proper maintenance of those tools; discuss hose lines, nozzles, and fire streams to perform hose line lays with proper nozzles attached and select the proper fire stream for the class of fire encountered on various types of fire scenes; and service testing of fire hoses. Finally, this course will conclude fire cause determination to gain necessary knowledge and skills to perform a fire investigation to determine the point of origin and the cause of a fire in a structure. To participate in this course the student must also attain national certification of Firefighter I status or successful completion of FRSC 1020, FRSC 1030, FRSC 1040 and FRSC 1141.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1070 - Introduction to Technical Rescue

(4)

This course provides an awareness of the principles of technical rescue through utilization of readings from the text, classroom discussion, practical skills, and practice. This course includes Extricating a victim entrapped in a Motor Vehicle, Assisting a Rescue Team in various technical rescue operations including but not limited to Trench and Excavation, Rope Rescue, Water Rescue, Confined Space Operations, Structural Collapse, Vehicle and Machinery Rescue, and Wilderness Search and Rescue. The student will learn the application of knots, rigging principles, anchor selection criteria, system safety check procedures, rope construction and rope rescue equipment applications and limitations. This course fulfills NFPA 1001, Standard for Firefighter Professional Qualifications, 2008 Edition Chapter 6 sections 6.4.1, 6.4.2 and NFPA 1006, Standard for Technical Rescuer Professional Qualifications, 2008 Edition Chapter 5 sections 5.2, 5.3, 5.4, 5.5.1, 5.5.2, 5.5.3, 5.5.4, 5.5.5, 5.5.8, 5.5.9, 5.5.11, 5.5.14 and NFPA 1670, Standard on operations and Training for Technical Search and Rescue Incidents, 2004 Edition sections 5.2.2, 6.2.2, 6.3.47.2.48.2.3, 9.2.3, 10.2.2, 11.2.3. To participate in this course, the student must also have attained national certification of Firefighter I status or successful completion of FRSC 1020, FRSC 1030, FRSC 1040 and FRSC 1141.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1080 - Fire Ground Operations

(3)

This course will provide the student basic knowledge of the roles and responsibilities of the Firefighter II; the standard operating procedures and guidelines of firefighters; fire service communications relative to obtaining information from occupants and owners to complete an incident report can be completed accurately; Incident Command principles and their application; practical fire ground hydraulics to supply proper nozzle pressures while participating in live fire scenarios. To participate in this course the student must also attain National certification of Firefighter I status or successful completion of FRSC 1020, FRSC 1030, FRSC 1040, FRSC

1141. Pre-requisites: Program Admission

Co-requisites: None

FRSC 1100 - Introduction to the Fire Service

(3)

This course is a survey of the philosophy and history of Fire Protection, loss of property and life by fire, review of municipal fire defenses and the organization and function of the federal, state, county, city and private fire protection. Includes introduction to: fire technology education and the firefighter selection process; fire protection career opportunities; public fire protection; chemistry and physics of fire; public and private support organizations; fire department resources, fire department administration; support functions; training, fire prevention; codes and ordinances; fire protection systems and equipment; emergency incident management; and emergency operations.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1110 - Fire Administration - Supervision and Leadership

(3)

This course provides the necessary knowledge and skills for an emergency responder to become a successful fire officer. The student will learn how to become a responsible leader and supervisor to a crew of firefighters, how to manage a budget for the fire station,

understand standard operating procedures, and be able to manage an incident. Also, an understanding of basic fire prevention methods, fire and building codes, and records systems will be covered throughout the course. Upon completion of this course the student emergency responder candidate/recruit will have the basic skills and knowledge to be able to qualify for a certificate of

completion or seek certification through the appropriate governing agency for the following: 1. NFA Leadership I 2. NFA Leadership II

3. NFA Leadership III - This course meets the requirements NFPA 1021 Standard for Fire Officer Professional Qualifications and all other state, local, and provincial occupational health and safety regulatory requirements.

Pre-requisites: Program

Admission Co-requisites: None

FRSC-1115 Fire Behavior & Combustion

(3)

This course provides an understanding of the basic principles of fire chemistry, the processes of fire/combustion, and fire behavior. It addresses theoretical concepts, explaining their importance, and illustrates how they can be applied in a practical manner when responding to emergency situations. An emphasis is placed on safety, with each explanation drawing a connection between how a fire behaves and how it affects the safety of the individual firefighters and their team.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1121 - Firefighting Strategy and Tactics

(3)

This course presents the principles of applying fire department resources to mitigate a fire or related emergency. General topics include: principles of firefighting, size up, engine company operations, hose line selection and placement, water supply, standpipe and sprinkler operations, ladder company operations, forcible entry, ventilation and search and rescue. Specific-fires reviewed will include private dwellings, multiple dwellings, commercial buildings, high-rise structures, buildings under construction, structural collapse, flammable liquid and gas fires and waterfront fires.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1132 - Fire Service Instructor

(4)

Students will learn to analyze jobs and information, then prepare and present related training. Emphasis is placed on planning, organizing, presenting, and testing, using methodologies appropriate to the subject. Topics include: orientation to emergency services instruction, communication, planning and analysis, objectives, learning, assessment, methods of instruction, instructor materials, media, training related group dynamics, classroom management, the legal environment, and NPQ Fire Instructor I. Students will have numerous hands-on opportunities to apply what they learn. Successful completers of FRSC 1132 are qualified to test for the National Professional Qualification (NPQ) Fire Instructor I Exam.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1141 - Hazardous Materials Operations

(4)

This course provides emergency responder personnel with the information to respond safely, limit possible exposure to all personnel, and to provide information to the proper authorities as being a primary goal while reacting in the defensive mode of operation. The first responder operations level responsibilities are recognition and identification of a hazardous material scene, the gathering of information, the notification of the proper authorities, the isolation of the area by setting perimeters/zones, possible evacuation, protection by initiating the incident management system, emergency decontamination, and performing defensive actions only. Even though the first responder is a member of an emergency response service, they are not trained in specialized protective clothing or specialized control equipment. Thus, the first responder is not a member of a hazardous materials response team. This course meets the requirements of NFPA 472 - Professional Competence of First Responders to HazMat Incidents at the Operations Level. This course also meets the requirements of OSHA 29 CFR 1910.120, EPA, USDOT, and all other appropriate state, local and provincial occupational health and safety regulatory requirements. Also required as prerequisite: NPQ FF I and NPQ Hazardous Materials Awareness Level.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1151 - Fire Prevention & Inspection

(4)

Emphasis is placed on the shared responsibility of all fire service personnel to prevent fires and fire losses by survey of fire prevention activities, conducting basic fire prevention inspections, practicing life safety codes, review of local and state laws regarding fire inspection, and review of applicable codes and standards. Topics include: code administration, inspection, use and occupancy,

building limitations and types of construction, fire resistive construction elements, installation of fire protection systems, mean of

egress, interior finish requirements, general fire safety provisions, maintenance of fire protection systems, means of egress maintenance for occupancies, hazardous materials, flammable liquids and aerosols, detonation and deflagration hazards, hazardous assembly occupancies, other storage and processing occupancies, compressed gases and cryogenic liquids, pesticides and other health hazards, and using referenced standards. Successful completion of FRSC 1151 qualifies individuals to test for the National Professional Qualification (NPQ) Inspector Level-I examination.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 1161 - Fire Service Safety and Loss Control

(3)

This course will provide the necessary knowledge and skills for the emergency responder to understand occupational safety and health and be able to develop safety programs. The course starts with an introduction to occupational safety and health and covers the history, national agencies that produce injury and fatality reports, and efforts that have been made to address safety and health problems in emergency service occupations. The course will review safety related regulations and standards and discuss how to implement them through risk management processes. There will be lectures and discussions on pre-incident safety, safety at fire emergencies, safety at medical and rescue emergencies, safety at specialized incidents, and post-incident safety management.

Personnel roles and responsibilities will be covered, so that knowledge can be gained on the relationship to the overall safety and health program by the different responding and administrative personnel at emergency scenes. Lectures and discussions on how to develop, manage, and evaluate safety programs will be covered to provide general knowledge and basic skills on occupational health and safety programs. Finally, information management and various other special topics will be covered to gain knowledge on the legal, ethical, and financial considerations that programs need to be aware of and how to collect the data and report it.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 2100 - Fire Administration Management

(3)

This course will provide the necessary knowledge and skills for the emergency responder to become a diverse leader and manager in their department. The course starts with the history of the fire service which focuses on the historical events that have forged the fire service today. Discussions on preparing for the future are designed to provide information to develop a game plan for personal success. Leadership and Management principles will be taught to blend the academics of leadership and management research into what occurs in the fire service organization on a daily basis. Leadership styles will be discussed to help understand how to lead and manage and, as important, why it's done. The course will take an insightful look into how people handle change personally and organizationally. Discussions on ethics will be focused on the elements critical to ethical leadership and management practices. The course will explore the elements of team building and provide a depth of understanding how to blend various styles and personalities to get the most from people. Discussions on managing emergency services will target budgeting and personnel management the support elements that are so vital to every organization. Quality of the fire service will also be looked at for methods of quality improvement and their applications to improve the services delivered to citizens every day. An in-depth overview of the changes in disaster planning and response since 9-11, and includes ways to help with community evaluation and preparedness processes. Finally, shaping the future will explore the possibilities of what may occur in the fire service and how you can play an important role in helping to shape the fire service of the future.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 2110 - Fire Service Hydraulics

(3)

This course begins with the history and theories of the use of water for fire extinguishment then moves to practical application of the principles of hydraulics in water systems and on the fire ground. Topics include: water at rest and in motion, velocity and discharge, water distribution systems, fire service pumps, friction loss, engine and nozzle pressures, fire streams, standpipe systems, automatic sprinkler systems, firefighting foams, and the clip board friction loss system.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 2120 - Fire Protection Systems

(3)

A review of fire detection and protection systems including: automatic sprinkler systems, portable fire extinguishers, restaurant/kitchen systems, special hazard systems, detection systems, and control systems. The applicable laws, codes and standards will be introduced along with regulatory and support agencies. Specific topics include: introduction to fire protection systems, water supply systems for fire protection systems, water-based suppression systems, non-water based suppression

systems, fire alarm systems, smoke management systems, and portable fire extinguishers.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 2130 - Fire Service Building Construction (3)

Presents building construction features from the perspective of the fire service with emphasis placed on the use of building construction information to prevent and reduce fire fighter and civilian deaths and injuries. Topics include: principles of building construction, building construction classification, building construction hazards and tactical considerations, structural loads and stresses, structural building components and functions, fire resistance and flame spread, building codes, structural failure and firefighter safety, and firefighter safety in structural and wildland firefighting.

Pre-requisites: Program

Admission Co-requisites: None

FRSC 2141 - Incident Command (4)

The Incident Command course is designed to illustrate the responsibilities to use, deploy, implement, and/or function within an Incident Command System (ICS) as well as functioning within multi-jurisdictions incident under the Incident Management System (IMS). The course emphasizes the need for incident management systems, an overview of the structure and expandable nature of ICS, an understanding of the command skills needed by departmental officers to use ICS guidelines effectively, and scenario practice on how to apply ICS and IMS. The National Incident Management System (NIMS) will illustrate and provide the consistent nationwide template to enable all government, private-sectors, and non-governmental organizations to work together during virtual all domestic incidents.

These course competencies will cover those objectives entailed in NIMS 100, 200, 700, and

800. Pre-requisites: Program Admission

Co-requisites: None

FRSC 2170 - Fire and Arson Investigation (4)

Presents an introduction to Fire Investigation. Emphasis is placed upon: fire behavior, combustion properties of various materials, sources of ignition, and investigative techniques for - structures, grassland, wildland, automobiles, vehicles, ships and other types of fire investigation, causes of electrical fires, chemical fires, explosive evaluations, laboratory operation, Technique used in fire deaths and injuries, arson as a crime, other techniques, State and Federal laws, and future trends in fire investigative technology.

Pre-requisites: Program

Admission Co-requisites: None

GRBT Green Building Technology

GRBT 101 - Introduction to Green Building (4)

This course covers the fundamentals of Green Building Technology in the construction field. Topics to include: Energy Star Ratings, Resource Efficient Design and Materials, Waste management, Air Quality and Site Planning.

Pre-requisites:

None Co-requisites: None

GRBT 103 - Energy Measures and Efficiency (4)

This course covers ways to make a home more energy efficient. Topics to include: Required air sealing measures, additional sealing measures, air leakage testing, required insulation and installation, windows, duct work and duct blower testing.

Pre-requisites:

None Co-requisites: None

GRBT 104 - Energy Efficient Mechanical Systems (4)

This course focuses on making the mechanical systems of a home energy efficient. Topics to include: Energy efficient appliances and lighting, heating and cooling equipment, water supply and fixtures, and outdoor water systems.

Pre-requisites:

None Co-requisites: None

GRBT 105 - Green Building Construction Techniques (4)

This course focuses on applying theoretical green building into residential construction. Topics to include: Site planning, Insulation of a foundation, using green building materials, special insulation techniques, replacing old windows and doors with energy efficient models and keeping a clean and environmentally friendly job site.

Pre-requisites:

None Co-

requisites: None

HIST History

HIST 1111 - World History I

(3)

Emphasizes the study of intellectual, cultural, scientific, political, and social contributions of the civilizations of the world and the evolution of these civilizations during the period from the prehistoric era to early modern times. Topics include the Prehistoric Era the Ancient Near East, Ancient India, Ancient China, Ancient Rome, Ancient Africa, Islam, the Americas, Japan, Ancient Greece, the Middle Ages, and the Renaissance.

Pre-requisites:

Appropriate Degree Level Writing (English) and Reading Placement Test

Scores Co-requisites: None

HIST 1112 – World History II

(3)

Emphasizes the study of the intellectual, cultural, scientific, political, and social contributions of the civilizations of the world and the evolution of these civilizations during the period from early modern times to the present. Topics include transitions to the Modern World, scientific revolution and the Enlightenment, political modernization, economic modernization, imperialism, and the Twentieth Century.

Pre-requisites

Appropriate Degree Level Writing (English) and Reading Placement Test

Scores Co-requisites: None

HIST 2111 - U.S. History I

(3)

Emphasizes the study of U. S. History to 1877 to include the post-Civil War period. The course focuses on the period from the Age of Discovery through the Civil War to include geographical, intellectual, political, economic and cultural development of the American people. It includes the history of Georgia and its constitutional development. Topics include colonization and expansion; the Revolutionary Era; the New Nation; nationalism, sectionalism, and reform; the Era of Expansion; and crisis, Civil War, and reconstruction.

Pre-requisites

Appropriate Degree Level Writing (English) and Reading Placement Test

Scores Co-requisites: None

HIST 2112 - U.S. History II

(3)

Emphasizes the study of the social, cultural, and political history of the United States from 1865 to the beginning of the twenty-first century and will equip the student to better understand the problems and challenges of the contemporary world in relation to events and trends in modern American history. The course also provides an overview of the history of Georgia and the development of its constitution. Topics include the Reconstruction Period; the great West, the new South, and the rise of the debtor; the Gilded Age; the progressive movement; the emergence of the U. S. in world affairs; the Roaring Twenties; the Great Depression; World War II; the Cold War and the 1950's; the 1960's and 1970's; and America since 1980.

Pre-requisites

Appropriate Degree Level Writing (English) and Reading Placement Test

Scores Co-requisites: None

HLST Historic Preservation and Restoration

HLST 1010 - Historical Research and Documentation

(2)

This course uses techniques commonly used by historians while examining historic buildings. The various systems used in the field will be explored including field measurements, field drawings, photography, and historic research techniques.

Pre-requisites: One

Required Program

Admission

Co-requisites: None

HLST 1020 – Introduction to Historic Preservation

(3)

This course provides a historical perspective of the preservation and restoration movement in the United States. An in-depth analysis of preservation and restoration theories, development of preservation and restoration associations, and the evolution of laws related to historic restoration and preservation.

Pre-requisites: One

Required Program

Admission

Co-requisites: None

HLST 1030 - Architectural Print reading

(2)

This course explains the standard methods of architectural drafting as it relates to the building trades. Materials to include: types of projections, page layout, reading plans, perspective drawing, freehand sketching and model making.

Pre-requisites:

None Co-

requisites: None

HLST 1050 - Structural Theory Pathology

(4)

This course covers the theories behind structural systems in historic structures. Engineering forces will be covered including: deflection and crack analysis, structural loads, shearing and bending forces. This course discusses and examines the processes of deterioration of historic buildings. Students will be able to methodically examine, analyze common problems, and develop solutions that will be structurally, historically and economically valid.

Pre-requisites:

None Co-

requisites: None

HLST 1060 - Carpentry of Buildings I

(3)

This course covers the essential aspects of home building. Topics included are: wall and roof framing, window and door installation, stair layout and construction. Students will replicate historic framing and construction using hand and power tools.

Pre-requisites:

None Co-

requisites: None

HLST 1070 - Project and Small Business Management

(3)

This course covers the essential skills involved in the management and administration of a small preservation trades oriented business. Topics include registering a business, obtaining a business license, payroll taxes, contracts, estimating, building codes, permitting, scheduling and billing.

Pre-requisites:

None Co-

requisites: None

HLST 1100 – Carpentry of Buildings II

(3)

This course covers the essential aspects of home building. Topics included are: wall and roof framing, window and door installation, stair layout, and construction. Students will replicate historic framing and construction using hand and power tools.

Pre-requisites:

None Co-

requisites: None

HLST 1220 - Traditional Building Styles

(3)

This course will focus on the traditional building styles found throughout the United States. Topics will include regions of construction and materials, time periods, prominent architects, as well as the theory and purpose behind various architectural styles.

Pre-requisites: All Required
HLST 1020 - Historic Preservation and Restoration History and
Theory HLST 1010 - Historical Research
HLST 1030 - Architectural Printreading
HLST 1040 - Field Techniques and
Documentation Co-requisites: None

HLST 1280 - Doors, Windows and (6)

This course is a study of door, window, and millwork installations in a historical restoration environment. Techniques for repair, restoration and maintenance of historical elements will be covered. Wooden and metal elements will be discussed, as well as, retrofitting historic doors and windows with double insulated glass for better thermal efficiency.

Pre-requisites: All Required
IDFC 1007 - Industrial Safety
Procedures Co-requisites: None

HLST 1320 – Historic and Cultural Landscapes (3)

This course covers the history of landscaping in America. We will emphasize time periods of US history and the development of landscaping as a profession. Issues faced while performing landscape preservation will also be discussed. Weathering, recording, interpretation and reconstruction of landscapes will also be addressed.

Pre-requisites:

None Co-

requisites: None

HLST 2000 - Advanced Material Sciences and Metals (5)

This course is a study of metals and their applications in a preservation setting. Topics include history of the medium, project characteristics and properties of metal, layout, material and cut list, metal failure, metal stabilization, as well as cleaning, repair and replication.

Pre-requisites:
None Co-
requisites: None

HLST 2010 - Historic Painting and Finishing (3)

This course covers both modern and historic techniques for the application of surface finishes. Topics include: history of historic finishes, recreation of historic finishes, surface preparation, selection of medium, and techniques used in the application of historic finishes.

Pre-requisites:
None Co-
requisites: None

HLST 2020 - Advanced Preservation Skills (4)

This course is an extension of the specific 200 level course. Topics include, advanced blacksmithing, advanced carpentry, advanced mold making and casting, painted stained glass, wall paper reproduction, decorative ironwork, material replication, as well as project managing and estimating. This class will prepare students for their final culmination project.

Pre-requisites: All Required
HLST 1020 - Historic Preservation and Restoration History and
Theory HLST 2000 - Advanced Material Sciences and Metals
HLST 2040 - Material Science: Marbling, Graining, and
Wood HLST 2060 - Material Science: Masonry and Plaster
HLST 2080 - Material Science: Wall Finishes and Gilding HLST 2100 - Material Science: Stained Glass and
Ceramics Co-requisites: None

HLST 2030 - Historic Roofing (3)

This course covers the essential aspects of repair, restoration and reconstruction of historic roof systems. Topics included are: ladder use, scaffolding assembly, PPE, historic roof construction, repair and restoration. Pre-requisites: None
Co-requisites: None

HLST 2060 - Material Science: Masonry and Plaster (4)

This course is a study of stone, brick, terracotta, cement, mortar and grout. The focus will be what causes these materials to fail, how to stabilize them, proper cleaning and repairs. Emphasis on how this is important to preservation and restoration will be covered. This course also studies plasters and gypsum wall board products. The focus will be on the common problems causing these materials to fail, and common installation techniques. Topics to include a typical plaster installation, and producing molded plaster architectural elements i.e. ceiling medallions.

Pre-requisites: One Required
IDFC 1007 - Industrial Safety
Procedures Co-requisites: None

HLST 2100 - Material Science: Stained Glass (5)

This course is a study of the history of glazing in America. Emphasis will be placed on leaded glass windows. Various techniques used to create and restore these windows will be covered. This course also studies the history of ceramics in American architecture. Emphasis will be placed on tiles used for floors, wall coverings etc. Various techniques used to create and restore tiles to be used in historic preservation and restoration will be covered.

Pre-requisites: All Required
IDFC 1007 - Industrial Safety Procedures
Co-requisites: None

HRTM Hotel/Restaurant/Travel Management

HRTM 1100 - Introduction to Hotel, Restaurant, and Tourism Management (3)

Provides the student with an overview of occupations in the hospitality industry. Emphasizes the various segments of each occupation and the interrelated responsibilities for customer service which exist across the hospitality industry. Topics include: development of the hospitality industry, food and beverage services, hotel services, meeting and convention services, management's role in the hospitality industry, and hospitality industry trends. Pre-requisites: All Required

Program Admission
Co-requisites: None

HRTM 1110 - Travel Industry and Travel Geography (3)

Introduces students to the importance of the travel agent in the hospitality industry and provides an understanding of international, national, state, major cities and their points of interest to the travel customer. Emphasis is placed on career options, industry trends, and travel documents, identifying why people travel and how geography is linked to their needs. Topics include: terminology, agency operations, travel reference guides, airline industry, other transportation modes, hotels and resorts, individual travel needs, travel and tourism careers, miscellaneous services, geographical and physical aspects of the Americas and Greenland, Europe, Middle East and Africa, Far East, Australia, New Zealand and Pacific Islands, and travel regulations and documents needed to travel internationally.

Pre-requisites: All
Required Program
Admission
Co-requisites: None

HRTM 1120 - Tour and Cruise Management (3)

Provides students with an orientation to the duties and responsibilities of the tour operator and an overview of the cruise industry. The course also gives students an opportunity to gain the technical knowledge and skills needed to utilize computerized reservation and information systems. Emphasis is placed on the operator's role in planning and conducting tours and cruises as well as accessing data bases and identifying options which satisfy customer's needs. Topics include: planning individual tours, planning

group tours, transportation arrangements, accommodation options, entertainment options, foreign country tours, and manager's on-tour responsibilities the ship, living quarters, amenities, shipboard activities, and marketing, selling of cruises, agency computer hardware, computer reservation systems, automated travel information, back-room accounting, and trends in automated travel data systems.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

HRTM 1130 - Business Etiquette and Communication

(3)

This course focuses on professionalism in a variety of business settings. Topics include professional image and conduct at work, telephone etiquette, table manners, oral and written communication skills, and diversity in the hospitality industry.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

HRTM 1140 - Hotel Operations Management

(3)

This course focuses on the organization and management of lodging operations. It covers day-to-day operations of each department in a hotel and helps students to understand what seasoned managers do. Emphasis is placed on the rooms division. Topics include corporate structures, departmental responsibilities, hotel services and staff, decision making, and industry trends.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

HRTM 1150 - Event Planning

(3)

This course introduces students to event planning requirements. Topics include fundamentals of event planning; selecting event dates and venues; developing agendas, time lines, budgets, and contracts; marketing events, and facilitating events. Pre-requisites: All Required

Program Admission

-requisites: None

HRTM 1160 - Food and Beverage Management

(3)

Provides students with a study of food and beverage operations and management. Emphasis is placed on the successful operation of a food and beverage establishment. Topics include restaurants, owners, locations, and concepts; business plans, financing, and legal and tax matters; menus, kitchens, and purchasing; restaurant operations and management.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

HRTM 1170 - Hospitality, Industry Accounting and Financial Analysis

(3)

This course provides students with the fundamental knowledge to interpret and analyze the key reports and financial statements used daily in the hospitality industry. Focusing on Profit and Loss statements, students learn to use numbers to assess the performance of individual departments and the overall operation. These numbers are the basis for managerial decisions that increase revenues and control costs.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

HRTM 1201 - Hospitality Marketing

(3)

Introduces students to marketing techniques associated with hotel/restaurant/tourism fields with emphasis on identifying and satisfying needs of customers. Topics include: marketing introduction, research and analysis, marketing strategies, marketing plans, social media marketing, branding, positioning, sales and advertising. Because of the constant change in marketing strategies in the hospitality industry, this course will also focus on new marketing techniques that are being used in the hospitality industry.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

HRTM 1210 - Hospitality Law

(3)

Introduces the student to local, state, federal, and international laws which govern the hospitality industry. Emphasis is placed on creating a workplace where compliance with the law, adherence to ethical standards, and stressing security and loss prevention are the basis for every decision. Topics include civil law, the structure of hospitality enterprises, government agencies that impact the hospitality industry, preventative legal management, contracts, employee selection and management, duties and obligations to employees and guests, and crisis management.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

HRTM 1220 - Supervision and Leadership in the Hospitality Industry

(3)

This course focuses on the principles of good supervision and leadership as they apply to day-to-day hospitality operations. Topics include recruiting, selection, orientation, compensation and benefits, motivation, teamwork, coaching, employee training and development, performance standards, discipline, employee assistance programs, health and safety, conflict management, communicating and delegating, and decision making and control.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

HRTM 1230 – Internship

(3)

This course introduces students to the application and reinforcement of hotel/restaurant/tourism operational principles, in an actual job placement. Students become acquainted with occupational responsibilities through realistic work situations and are provided with insights into management applications on the job. Topics include: problem solving, adaptability to the job setting, use of proper interpersonal skills, application of hotel/restaurant/tourism management techniques, and professional development. The occupation-based instruction includes written individualized training plans and written performance evaluations.

Pre-requisites: All Required

HRTM 1100 - Introduction to Hotel, Restaurant, and Tourism

Management Co-requisites: None

HUMN Humanities

HUMN 1101 - Introduction to Humanities

(3)

Explores the philosophic and artistic heritage of humanity expressed through a historical perspective on visual arts, music, and literature. The humanities provide insight into people and society. Topics include historical and cultural developments, contributions of the humanities, and research.

Pre-requisites: ENGL 1101 - Composition and Rhetoric with C or

better. Co-requisites: ENGL 1101 - Composition and Rhetoric with C or better.

ICET Instrumentation and Process Measurement

ICET 2010 - Electromechanical Devices

(3)

This course introduces electromechanical devices which are essential control elements in electrical systems. Topics include: fundamentals of electromechanical devices, control elements in electrical circuits, typical devices such as generators and alternators,

D.C. and A.C. motors and controls, and transformers. Quantitative analysis of power losses, power factors, and efficiencies in D.C., single-phase and three-phase dynamos are stressed. Laboratory work parallels class work.

Pre-requisites: ECET 2101 Circuit Analysis II Co-requisites: None

ICET 2020 - Instrumentation and Process Management

(4)

This course introduces control system components and theory as they relate to controlling industrial processes. Course covers identification, interpretation and design of loop and piping & instrumentation (P&ID) drawings. Mechanical, fluidic, temperature, and miscellaneous sensors are studied with emphasis on measuring techniques. Topics include: open and closed loop control theory, feedback, transducers, signal conditioning, P&IDs and control hardware and actuators. Laboratory work heavily emphasizes practical exercises and applications.

Pre-requisites:

None Co-

requisites: None

ICET 2030 - Programmable Logic Controllers

(4)

Emphasize an in-depth study of the programmable controller with programming applications involving control of industrial processes. Course explores SCADA system hardware. Topics include: input and output modules, logic units, memory units, power supplies, ladder diagrams, relay logic timers and counters, control strategy, programming, networks, user interface (HMI), communication equipment and software and troubleshooting. Lab work parallels class work with emphasis on program execution, effectiveness, efficiency and integration.

Pre-requisites: All Required

ICET 2010 – ICET 1110 Digital System I Co-requisites: None

ICET 2050 - Process Control

(4)

Provides a study of process control system design. Students explore system design and tuning, integration of sensors, transmitters, indicators, controllers and final control elements. Industrial electronics, control loop theory, PID (Proportional, Integral, Derivative) control theory, loop tuning, and control loop troubleshooting are emphasized.

Pre-requisites: All Required

ICET 2020 - Instrumentation and Process

Management ICET 2030 - Programmable Logic

Controllers

Co-requisites: None

IDFC Industrial Fundamental Courses

IDFC 1000 - Principles of Electricity I

(4)

Provides an in-depth study of the health and safety practices required for maintenance of industrial, commercial, and home electrically operated equipment. Topics include: introduction to OSHA regulations; safety tools, equipment, and procedures; and first aid and cardiopulmonary resuscitation.

Pre-requisites:

None Co-

requisites: None

IDFC 1007 - Industrial Safety Procedures

(2)

Provides an in-depth study of the health and safety practices required for maintenance of industrial, commercial, and home electrically operated equipment. Topics include: introduction to OSHA regulations; safety tools, equipment, and procedures; and first aid and cardiopulmonary resuscitation.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

IDFC 1011 - Direct Current I (3)

Introduces direct current (DC) concepts and applications. Topics include: electrical principles and laws; batteries; DC test equipment; series, parallel, and simple combination circuits; and laboratory procedures and safety practices.

Pre-requisites: None

Co-requisites: All Required

MATH 1012 - Foundations of Mathematics

IDFC 1012 - Alternating Current I (3)

Introduces the theory and application of varying sine wave voltages and current. Topics include: magnetism, AC wave generation, AC test equipment, inductance, capacitance, and basic transformers.

Pre-requisites: None

Co-requisites: All Required

IDFC 1011 - Direct Current

I

IDSY Industrial Systems Technology

IDSY 1101 – DC Circuit Analysis (3)

This course introduces direct current concepts and applications. Topics include: electrical principles and laws, batteries; DC test equipment; series, parallel and simple combination circuits; and laboratory procedures and safety practices.

Pre-requisites:

None Co-requisites:

None

IDSY 1105 – AC Circuit Analysis (3)

This course introduces alternating current concepts, theory, and application of varying sine wave voltages and current, and the physical characteristics and applications of solid state devices. Topics include, but are not limited to, electrical laws and principles, magnetism, inductance and capacitance.

Pre-requisites:

None Co-requisites:

None

IDSY 1110 - Industrial Motor Controls I (5)

This course introduces the fundamental concepts, principles, and devices involved in industrial motor controls theories and applications of single and three-phase motors, wiring motor control circuits, and magnetic starters and braking. Topics include, but are not limited to, motor theory and operating principles, control devices, symbols and schematic diagrams, NEMA standards, Article 430 NEC and preventative maintenance and troubleshooting.

Pre-requisites:

None Co-

requisites: None

IDSY 1120 - Basic Industrial PLC's (6)

This course introduces the operational theory, systems terminology, PLC installation, and programming procedures for Programmable Logic Controllers. Emphasis is placed on PLC programming, connections, installation, and start-up procedures. Other topics include timers and counters, relay logic instructions, and hardware and software applications.

Pre-requisites: None

Co-requisites: All Required

IDSY 1110 - Industrial Motor Controls I

IDSY 1130 - Industrial Wiring (4)

Teaches the fundamental concepts of industrial wiring with an emphasis on installation procedures. Topics include: grounding, raceways, three-phase systems, transformers (three-phase and single-phase), wire sizing, overcurrent protection, NEC requirements, industrial lighting systems, and switches, receptacles, and cord connectors.

Pre-requisites: None
Co-requisites: All Required
IDSY 1101 – DC Circuit
Analysis IDSY 1105 – AC
Circuit Analysis

IDSY 1150 - DC and AC Motors (3)

Introduces the fundamental theories and applications of single-phase and three-phase motors. Topics include: motor theory and operating principles, motor terminology, motor identification, NEMA standards, AC motors, DC motors, scheduled preventive maintenance, and troubleshooting and failure analysis.

Pre-requisites: All Required
IDFC 1011 - Direct Current I IDFC 1012 - Alternating Current I Co-requisites: None

IDSY 1170 - Industrial Mechanics (6)

This course introduces and emphasizes the basic skill necessary for mechanical maintenance personnel. Instruction is also provided in the basic physics concepts applicable to the mechanics of industrial production equipment, and the application of mechanical principles with additional emphasis on power transmission and specific mechanical components.

Pre-requisites:
None Co-
requisites: None

IDSY 1190 - Fluid Power and Piping Systems (6)

This course provides instruction in the fundamentals of safely operating hydraulic, pneumatic, and pump and piping systems. Theory and practical application concepts are discussed. Topics include hydraulic system principles and components, pneumatic system principles and components, and the installation, maintenance, and troubleshooting of pump and piping systems.

Pre-requisites:
None Co-
requisites: None

IDSY 1210 - Industrial Motor Controls II (5)

This course introduces the theory and practical application for two-wire control circuits, advanced motor controls, and variable speed motor controls. Emphasis is placed on circuit sequencing, switching, and installation, maintenance, and troubleshooting techniques.

Pre-requisites: None
Co-requisites: All Required
IDSY 1110 - Industrial Motor Controls I

IDSY 1220 - Intermediate Industrial PLC's (6)

This course provides for hands on development of operational skills in the maintenance and troubleshooting of industrial control systems and automated equipment. Topics include data manipulation, math instructions, introduction to HMI, analog control, and troubleshooting discrete IO devices.

Pre-requisites: None
Co-requisites: All Required
IDSY 1120 - Basic Industrial PLC's

IDSY 1230 - Industrial Instrumentation (6)

Provides instruction in the principles and practices of instrumentation for industrial process control systems with an emphasis on industrial maintenance techniques for production equipment. Topics include: instrument tags; process documentation; basic control theory; sensing pressure, flow, level, and temperature; instrument calibration; and loop tuning.

Pre-requisites:
None Co-requisites:
None

IDSY 1310 – Industrial Systems Review (3)

Provides an instructional review of the Industrial Maintenance Technology course of study with a comprehensive assessment of each area. The assessment will consist of a written, identification, and hands-on examination. Topics include: direct current, alternating

current, industrial wiring, AC-DC motors, motor controls, industrial hydraulics, industrial pneumatics, industrial mechanics, welding, safety, and programmable logic controllers.

LETA Law Enforcement Training Academy

LETA 1010 - Health & Life Safety for Basic Law Enforcement (2)

Introduces students of the Basic Law Enforcement Academy to emergency care or first aid, cardiopulmonary resuscitation, universal precautions, interpersonal communications, as well as concepts related to mental health, mental retardation and substance abuse. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: One Required

Program Admission

Co-requisites: None

LETA 1012 - Ethics and Liability for Basic Law Enforcement (2)

This course for students of the Basic Law Enforcement Academy examines the ethical issues and areas of liability confronted by law enforcement personnel. Included in this course are the following topics: ethics and professionalism, peace officer liability. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: One Required

LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement

Co-requisites: None

LETA 1014 - Firearms Training for Basic Law Enforcement (4)

This course provides the student of the Basic Law Enforcement Academy with an understanding of terminology, legal requirements, liability, safety considerations, tactics, procedures, firearms nomenclature, fundamentals of marksmanship, fundamental simulation in the use of deadly force and the opportunity to demonstrate proficiency in marksmanship. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: All Required

LETA 1010 - Health & Life Safety for Basic Law Enforcement; LETA 1012 - Ethics and Liability for Basic Law Enforcement; LETA 1018 - Defensive Tactics for Basic Law Enforcement; LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement; LETA 1026 - Criminal Procedure for Basic Law Enforcement; LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement

Co-requisites: None

LETA 1016 - Emergency Vehicle Operations for Basic Law Enforcement (4)

This course provides the student of the Basic Law Enforcement Academy with an understanding of appropriate driving actions, terminology, local responsibility, specific statutes, and safety considerations as well as demonstrate proficiency in the operation of an emergency vehicle. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: All Required

LETA 1010 - Health & Life Safety for Basic Law Enforcement; LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement; LETA 1026 - Criminal Procedure for Basic Law Enforcement; LETA 1030 - Principles of Law Enforcement for Basic Law Enforcement; LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement

Co-requisites: None

LETA 1018 - Defensive Tactics for Basic Law Enforcement (2)

This course provides students of the Basic Law Enforcement Academy with an understanding of terminology, human anatomy, legal requirements, liability, safety, tactics, and demonstrate proper procedures for specific techniques to search, control and restrain a person. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: All Required

LETA 1010 - Health & Life Safety for Basic Law Enforcement; LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement; LETA 1026 - Criminal Procedure for Basic Law Enforcement; LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement

Co-requisites: None

LETA 1020 - Police Patrol Operations for Basic Law Enforcement (4)

This course presents the knowledge and skills associated with police patrol operations. Emphasis is placed on patrol techniques, crimes in progress, crisis intervention, domestic disputes, Georgia Crime Information Center procedures, electronics communications and police reports. Topics include: foundations, policing skills and communication skills. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: All Required

LETA 1010 - Health & Life Safety for Basic Law Enforcement; LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement; LETA 1026 - Criminal Procedure for Basic Law Enforcement; LETA 1030 - Principles of Law Enforcement for Basic Law Enforcement LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement

Co-requisites: None

LETA 1022 - Methods of Criminal Investigation for Basic Law Enforcement (4)

Course Description This course presents the fundamentals of criminal investigation. The duties and responsibilities of the investigator both in field and in the courtroom are highlighted. Emphasis is placed on techniques commonly utilized by investigative personnel as well as the procedures used for investigating various crimes. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: All Required

LETA 1010 - Health & Life Safety for Basic Law Enforcement; LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement; LETA 1026 - Criminal Procedure for Basic Law Enforcement; LETA 1030 - Principles of Law Enforcement for Basic Law Enforcement; LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement

Co-requisites: None

LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement (4)

This course introduces criminal law in the United States, but emphasizes the current specific status of Georgia criminal law. The course will focus on the most current statutory contents of the Official Code of Georgia Annotated (O.C.G.A.) with primary emphasis on the criminal and traffic codes. Topics include: historic development of criminal law in the United States; statutory law, Georgia Code (O.C.G.A.) Title 16 - Crimes and Offenses; statutory law, Georgia Code (O.C.G.A.) Title 40 - Motor Vehicle and Traffic Offenses; and Supreme Court rulings that apply to criminal law. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: One Required

LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement Co-requisites: None

LETA 1026 - Criminal Procedure for Basic Law Enforcement (4)

Introduces the procedural law of the criminal justice system which governs the series of proceedings through which government enforces substantive criminal law. The course offers an emphasis on the laws of arrest and search and seizure; the rules of evidence, right to counsel, and the rights and duties of both citizens and officers. The course covers in depth appropriate Case Law and court rulings that dictate criminal procedure on the State and Federal Level. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: All Required

LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement; LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement

Co-requisites: None

LETA 1030 - Principles of Law Enforcement for Basic Law Enforcement (3)

This course examines the principles of the organization, administration, and duties of federal, state and local law enforcement agencies. Topics include: history and philosophy of law enforcement, evaluation of administrative practices, problems in American law enforcement agencies, emerging concepts, professionalism, and community crime prevention programs. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: All Required

LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement; LETA 1026 - Criminal Procedure for Basic Law Enforcement; LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement

Co-requisites: None

LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement (3)

Introduces the development and organization of the criminal justice system in the United States. Topics include: The American criminal justice system; constitutional limitations; organization of enforcement, adjudication, and corrections; and career opportunities

and requirements. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: One

Required Program

Admission

Co-requisites: None

LETA 1028 - Police Traffic Control and Investigation for basic law Enforcement

This course examines enforcement of traffic laws and procedures for traffic accident investigation. Emphasis is placed on Georgia traffic laws, traffic law enforcement, recognition of impaired driving, and traffic accident investigation. Topics include: regulations, impaired driving, and traffic accident investigation. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

Pre-requisites: All Required

LETA 1010 - Health & Life Safety for Basic Law Enforcement; LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement; LETA 1026 - Criminal Procedure for Basic Law Enforcement; LETA 1030 - Principles of Law Enforcement for Basic Law; Enforcement LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement

Co-requisites: None

LETA 1034 - Constitutional Law for Criminal Justice for Basic Law Enforcement (3)

This course emphasizes those provisions of the Bill of Rights which pertain to criminal justice. Topics include: characteristics and powers of the three branches of government; principles governing the operation of the U.S. Constitution, the Bill of Rights and the

Fourteenth Amendment. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit. Pre-requisites: All Required

LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement; LETA 1026 - Criminal Procedure for Basic Law Enforcement; LETA 1032 - Introduction to Criminal Justice for Basic Law

Enforcement Co-requisites: None

Logistics Management

SCMA 1000 Introduction to Supply Chain Management (3)

Provides a general knowledge of Supply Chain Management (SCM) and the associated functions necessary for delivery goods and services to customers. The course will focus on what employees and managers must do to ensure an effective Supply Chain exists in their organization. Topics include: Introduction to SCM, E-Commerce, Material Management, Information Technology, Measuring SCM performance, Purchasing and Distribution, and Research and Case Studies.

Pre-requisites: One

Required Program

Admission

Co-requisites: None

SCMA 1003 – Introduction to Transportation and Logistics Management (3)

Businesses today cannot be competitive without a good transportation and logistics network. This course introduces the five basic forms of transportation and provides an understanding of the economic fundamentals underlying each mode. Students then discuss ways in which today's supply chain manager can use these transportation modes to achieve efficiencies and cost effectiveness necessary for a company to survive in today's global markets.

Pre-requisites: All Required

MKTG 1100 - Principles of

Marketing Co-requisites: None

CWDS 1600 – Warehousing Technology Skills (2)

Provides an overview and study of the technology used in the warehousing environment. Topics include data applications, scanners and data entry machines, handling systems, automation, and inventory management. A warehousing simulation and comprehensive assessment is also a part of this course.

Pre-requisites:

None Co-

requisites: None

LOGI 1020 Materials Management

(3)

This course will introduce students to materials Management by learning the planning production process, master scheduling, material requirements, and forecasting material demands and inventory levels. This course is designed to build on the students' knowledge of supply chains and how effective material management improves supply chain performance.

Pre-requisites: All

Required Program

Admission

LOGI 1000 - Business

Logistics Co-requisites: None

BUSN 1320 Business Interaction Skills

(3)

This course equips participants with the tools to communicate and interact more effectively in person, in writing and on the telephone with both internal and external customers. Participants also learn how to work in teams to create a collaborative environment for accomplishing goals. This course consists of the following: language of business, communication skills, working with information, business writing, team and collaborative skills, and resolving interpersonal conflict.

Pre-requisites:

None Co-

requisites: None

LCC1 Luxury Craft Cabinet Making

CARP 1103 Luxury Craft Cabinet Materials and Fasteners

(2)

Identification of common materials and their applications used in the construction of interior arrangements for various luxury aircraft and boats. Topics include wood and manufactured products, finishing materials, and fasteners.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

CARP 1106 Print Reading for Luxury Craft Cabinetmaking

(3)

This course is designed to give students basic skills in reading and interpreting aircraft cabinet blueprints and drawings. Topics include identification of the various types of blueprints and drawings, meanings of blueprint notations and symbols, identifying the different views and lines, and blueprint and drawing specifications.

Pre-requisites: All Required

CARP 1103 Luxury Craft Cabinet Materials and Fasteners

Co-requisites: None

CARP 1107 Luxury Craft Cabinetmaking

(5)

This course provide instruction in the fundamental procedures used in luxury craft and aircraft cabinet design, construction, assembly, and installation. Topics include tool use safety, cabinet base unit, wall unit, face frame assembly, and door and drawer assembly.

Pre-requisites: None

Co-requisites: None

MAST Medical Assisting

MAST 1010 - Legal and Ethical Concerns in the Medical Office

(2)

Introduces the basic concept of medical assisting and its relationship to the other health fields. Emphasizes medical ethics, legal aspects of medicine, and the medical assistant's role as an agent of the physician. Provides the student with knowledge of medical jurisprudence and the essentials of professional behavior. Topics include: introduction to medical assisting; introduction to medical law; physician/patient/assistant relationship; medical office in litigation; as well as ethics, bioethical issues and HIPAA.

Pre-requisites: One Required

Program Admission

Co-requisites: None

MAST 1030 - Pharmacology in the Medical Office

(4)

Introduces medication therapy with emphasis on safety; classification of medications; their actions; side effects; medication and food

interactions and adverse reactions. Also introduces basic methods of arithmetic used in the administration of medications. Topics include: introductory pharmacology; dosage calculation; sources and forms of medications; medication classification; and medication effects on the body systems.

Pre-requisites: One Required

Program Admission

MATH 1012 - Foundations of Mathematics

Co-requisites: None

MAST 1060 - Medical Office Procedures

(4)

Emphasizes essential skills required for the medical practice. Topics include: office protocol, time management, appointment scheduling, medical office equipment, medical references, mail services, medical records, and professional communication.

Pre-requisites: One Required

Program Admission

Co-requisites: None

MAST 1080 - Medical Assisting Skills I

(4)

Introduces the skills necessary for assisting the physician with a complete history and physical in all types of medical practices. The course includes skills necessary for sterilizing instruments and equipment and setting up sterile trays. The student also explores the theory and practice of electrocardiography. Topics include: infection control and related OSHA guidelines; prepare patients/assist physician with age and gender-specific examinations and diagnostic procedures; vital signs/mensuration; medical office surgical procedures, respiratory evaluations, and electrocardiography.

Pre-requisites: One Required

Program Admission

ALHS 1011 - Structure and Function of the Human Body

ALHS 1090 - Medical Terminology for Allied Health

Sciences Co-requisites: None

MAST 1090 - Medical Assisting Skills II

(4)

Further student knowledge of the more complex activities in a physician's office. Topics include: collection/examination of specimens and CLIA regulations/risk management; urinalysis; venipuncture; hematology and chemistry evaluations; applied clinical microbiology; advanced reagent testing (Strep Test, HcG etc.); administration of medications; maintenance of medication and immunization records; medical office emergency procedures and emergency preparedness; rehabilitative therapy procedures; principles of radiology safety and nutrition.

Pre-requisites: All Required

Program Admission

ALHS 1011 - Structure and Function of the Human Body

ALHS 1090 - Medical Terminology for Allied Health Sciences

Co-requisites: None

MAST 1100 - Medical Insurance Management

(2)

Emphasizes essential skills required for the medical practice. Topics include: managed care, reimbursement, and coding.

Pre-requisites: All Required

Program Admission

ENGL 1010 - Fundamentals of English I

COMP 1000 - Introduction to Computers

ALHS 1011 - Structure and Function of the Human Body

ALHS 1090 - Medical Terminology for Allied Health

Sciences Co-requisites: None

MAST 1110 - Administrative Practice Management

(3)

Emphasizes essential skills required for the medical practice in the areas of computers and medical transcription. Topics include: medical transcription/electronic health records; application of computer skills; integration of medical terminology; accounting procedures; and application of software.

Pre-requisites: All Required

ENGL 1010 - Fundamentals of English I

COMP 1000 - Introduction to Computers

ALHS 1011 - Structure and Function of the Human Body

ALHS 1090 - Medical Terminology for Allied Health

Sciences Co-requisites: None

MAST 1120 – Human Disease (3)

Provides fundamental information concerning common diseases and disorders of each body system. For each system, the disease or disorder is highlighted including: description, etiology, signs and symptoms, diagnostic procedures, treatment, management, prognosis, and prevention. Topics include: introduction to disease and diseases of body systems.

Pre-requisites: All Required

ALHS 1011 – Structure and Function of the Human Body

ALHS 1090 – Medical Terminology for Allied Health

Sciences Program Admission

Co-requisites: None

MAST 1170 - Medical Assisting Externship (6)

Provides students with an opportunity for in-depth application and reinforcement of principles and techniques in a medical office job setting. This clinical practicum allows the student to become involved in a work setting at a professional level of technical application and requires concentration, practice, and follow-through. Topics include: application of classroom knowledge and skills and functioning in the work environment.

Pre-requisites: All Required

Program Admission

Co-requisites:

MAST1180 Medical Assisting Seminar

MAST 1180 - Medical Assisting Seminar (3)

Seminar focuses on job preparation and maintenance skills and review for the certification examination. Topics include: letters of application, resumes, completing a job application, job interviews, follow-up letter/call, letters of resignation and review of program competencies for employment and certification.

Pre-requisites: All Required

Program Admission

Co-requisites:

MAST 1170 Medical Assisting Externship

MATH Mathematics

MATH 1011 - Business Math (3)

Emphasizes mathematical concepts found in business situations. Topics include basic mathematical skills, mathematical skills in business-related problem solving, mathematical information for documents, graphs, and mathematical problems.

Pre-requisites: MATH 0097 - Math II OR Appropriate arithmetic placement test score. Co-requisites: None

MATH 1012 - Foundations of Mathematics (3)

Emphasizes the application of basic mathematical skills used in the solution of occupational and technical problems. Topics include fractions, decimals, percents, ratios and proportions, measurement and conversion, formula manipulation, technical applications, and basic statistics.

Pre-requisites: MATH 0097 - Math II OR Appropriate arithmetic placement test score. Co-requisites: None

MATH 1013 - Algebraic Concepts (3)

Emphasizes concepts and operations which are applied to the study of algebra. Topics include basic mathematical concepts, basic algebraic concepts, and intermediate algebraic concepts.

Pre-requisites: MATH 0098 - Elementary Algebra OR Appropriate algebra placement test score.

Co-requisites: None

MATH 1015 - Geometry and Trigonometry (3)

Emphasizes basic geometric and trigonometric concepts. Topics include measurement conversion, geometric terminology and measurements, and trigonometric terminology and functions.

Pre-requisites: MATH 1013 - Algebraic Concepts with a C or 524

better. Co-requisites: None

MATH 1017 – Trigonometry (3)

Emphasizes trigonometric concepts, logarithms, and exponential functions. Topics include trigonometric concepts, logarithms and exponentials.

Pre-requisites: MATH 1013 - Algebraic Concepts with a C or better. Co-requisites: None

MATH 1103 - Quantitative Skills and Reasoning (3)

Emphasizes algebra, statistics, and mathematics of finance. Topics include fundamental operations of algebra, sets and logic, probability and statistics, geometry, mathematics of voting and districting, and mathematics of finance.

Pre-requisites: Appropriate algebra placement test score. Co-requisites: None

MATH 1101 - Mathematical Modeling (3)

Emphasizes functions using real-world applications as models. Topics include fundamental concepts of algebra; functions and graphs; linear, quadratic, polynomial, exponential, and logarithmic functions and models; systems of equations; and optional topics in algebra. Pre-requisites: Appropriate algebra placement test score.

Co-requisites: None

MATH 1111 - College Algebra (3)

Emphasizes techniques of problem solving using algebraic concepts. Topics include fundamental concepts of algebra, equations and inequalities, functions and graphs, and systems of equations; optional topics include sequences, series, and probability or analytic geometry.

Pre-requisites: Appropriate Degree Level Math Placement Test Score AND Appropriate Degree Reading Placement Test Score Co-requisites: None

MATH 1112 - College Trigonometry (3)

Emphasizes techniques of problem solving using trigonometric concepts. Topics include trigonometric functions, properties of trigonometric functions, vectors and triangles, inverse of trigonometric functions and graphing of trigonometric functions, logarithmic and exponential functions, and complex numbers.

Pre-requisites: Regular Admission and MATH 1111 with C or better Co-requisites: None

MATH 1113 – Pre-calculus (3)

Prepares students for calculus. The topics discussed include an intensive study of polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs. Applications include simple maximum and minimum problems, exponential growth and decay.

Pre-requisites: Regular Admission and MATH 1111 with C or better Co-requisites: None

MATH 1131 - Calculus I (4)

Topics include the study of limits and continuity, derivatives, and integrals of functions of one variable. Applications are incorporated from a variety of disciplines. Algebraic, trigonometric, exponential, and logarithmic functions are studied.

Pre-requisites: Regular Admission and MATH 1113 with a C or better Co-requisites: None

MCHT Machine Tool Technology

MCHT 1011 - Introduction to Machine Tool (4)

Introduces the fundamental concepts and procedures necessary for the safe and efficient use of basic machine tools. Topics include: machine shop safety, terminology, use of hand and bench tools, analysis of measurements, part layout, horizontal and vertical band

saw setup and operation, drill press setup and operation, and quality control.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

MCHT 1012 - Blueprint for Machine Tool

(3)

Introduces the fundamental concepts necessary to develop blueprint reading competencies, interpret drawings, and produce sketches for machine tool applications. Topics include interpretation of blueprints, sketching, sectioning, geometric dimensioning and tolerancing, and assembly drawings.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

MCHT 1013 - Machine Tool Math

(3)

This course develops mathematical competencies as applied to machine tool technology. Emphasis is placed on the use of machining formulas by incorporating algebraic, geometric, and trigonometric functions. Topics include machining algebra and geometry, applied geometry, and applied trigonometry.

Pre-requisites: All

Required Provisional

Admission

MATH 1012 - Foundations of

Mathematics Co-requisites: None

MCHT 1020 – Heat Treatment and Surface Grinding

(3)

Provides instruction in the setup, operations, maintenance, and assembly operations of surface grinders. Introduces the properties of various metals, production methods, and identification of ferrous and non-ferrous metals. Topics include: heat treatment safety, metallurgy principles, heat treatment of metals, surface grinders, surface grinder maintenance, surface grinder operations, and safety. Pre-requisites: All Required

Program

Admission Co-

requisites: None

MCHT 1119 - Lathe Operations I

(4)

Provides opportunities for students to develop skill in the setup and operation of metal cutting lathes. Topics include: safety, lathes parts and controls, lathe tooling and tool bit grinding, lathe calculations, lathe setup and operations.

Pre-requisites: Requires Provisional Admission, MCHT 1011 and either MATH 1012, MATH 1111 or MCHT1013

MATH 1111 - College Algebra

MATH 1012 - Foundations of Mathematics

MCHT 1013 - Machine Tool Math

MCHT 1011 - Introduction to Machine Tool

Co-requisites: None

MCHT 1120 - Mill Operations I

(4)

Provides instruction in the setup and use of the milling machine. Topics include: safety, milling machines, milling machine setup, and milling machine operations.

Pre-requisites: Requires Provisional Admission, MCHT 1011 and either MATH 1012, MATH 1111 or MCHT 1013

MATH 1111 - College Algebra

MATH 1012 - Foundations of Mathematics

MCHT 1013 - Machine Tool Math

MCHT 1011 - Introduction to Machine Tool

Co-requisites: None

MCHT 1219 - Lathe Operations II

(4)

Provides further instruction for students to develop skill in the use of lathes. Topics include: lathes, lathe setup, lathe operations, and

safety.

Pre-requisites: All Required

Provisional Admission

MCHT 1119 - Lathe Operations I Co-requisites: None

MCHT 1220 - Mill Operations II

(3)

Provides further instruction for students to develop skills in the use of milling machines. Topics include: safety, advanced milling calculation, advanced milling machine setup and operations.

Pre-requisites: All Required

MCHT 1120 - Mill Operations I Co-requisites: None

MGMT Business Management

MGMT 1100 - Principles of Management

(3)

Develops skills and behaviors necessary for successful supervision of people and their job responsibilities. Emphasis will be placed on real life concepts, personal skill development, applied knowledge and managing human resources. Course content is intended to help managers and supervisors deal with a dramatically changing workplace being affected by technology changes, a more competitive and global market place, corporate restructuring and the changing nature of work and the workforce. Topics include: Understanding the Managers Job and Work Environment; Building an Effective Organizational Culture; Leading, Directing, and the Application of Authority; Planning, Decision-Making, and Problem-Solving; Human Resource Management, Administrative Management, Organizing, and Controlling.

Pre-requisites: All Required

Provisional Admission

Co-requisites: None

MGMT 1105 - Organizational Behavior

(3)

Provides a general knowledge of the human relations aspects of the senior-subordinate workplace environment. Topics include employee relations principles, problem solving and decision making, leadership techniques to develop employee morale, human values and attitudes, organizational communications, interpersonal communications, and employee conflict.

Pre-requisites: All Required

Provisional Admission

Co-requisites: None

MGMT 1110 - Employment Rules & Regulations

(3)

Develops a working knowledge of the laws of employment necessary for managers. Topics include: Employment Law, the Courts, Alternative Dispute Resolution (ADR), Discrimination Law, Selecting Applicants Under the Law, OSHA and Safety, Affirmative Action, At-Will Doctrine, Right to Privacy, Fair Labor Standards Act (FLSA), Family Medical Leave Act (FMLA), Workers Compensation, Unemployment Compensation, and National Labor Relations Act.

Pre-requisites: All Required

Provisional Admission

Co-requisites: None

MGMT 1115 – Leadership

(3)

This course familiarizes the student with the principles and techniques of sound leadership practices. Topics include: Characteristics of Effective Leadership Styles, History of Leadership, Leadership Models, The Relationship of Power and Leadership, Team Leadership, The Role of Leadership in Effecting Change.

Pre-requisites: All Required

Provisional Admission

Co-requisites: None

MGMT 1120 - Introduction to Business

(3)

This course is designed to provide the student with an overview of the functions of business in the market system. The student will gain an understanding of the numerous decisions that must be made by managers and owners of businesses. Topics include: the

market system, the role of supply and demand, financial management, legal issues in business, employee relations, ethics, and marketing.

Pre-requisites: All Required

Provisional Admission

Co-requisites: None

MGMT 1125 - Business Ethics

(3)

Provides students with an overview of business ethics and ethical management practices with emphasis on the process of ethical decision-making and working through contemporary ethical dilemmas faced by business organizations, managers and employees. The course is intended to demonstrate to the students how ethics can be integrated into strategic business decisions and can be applied to their own careers. The course uses a case study approach to encourage the student in developing analytical, problem-solving, critical thinking and decision-making skills. Topics include: An overview of business ethics; moral development and moral reasoning; personal values, rights, and responsibilities; frameworks for ethical decision-making in business; justice and economic distribution; corporations and social responsibility; corporate codes of ethics and effective ethics programs; business and society: consumers and the environment; ethical issues in the workplace; business ethics in a global and multicultural environment; business ethics in cyberspace; and business ethics and the rule of law.

Pre-requisites: All Required

Provisional Admission

Co-requisites: None

MGMT 1135 - Managerial Accounting and Finance

(3)

The focus of this course is to acquire the skills and concepts necessary to use accounting information in managerial decision making. Course is designed for those who will use, not necessarily prepare, accounting information. Those applications include the use of information for short and long term planning, operational control, investment decisions, cost and pricing products and services. An overview of financial accounting and basic concepts of finance provides an overview of financial statement analysis.

Pre-requisites: One

Required Program

Admission

Co-requisites: None

MGMT 2115 - Human Resource Management

(3)

This course is designed as an overview of the Human Resource Management (HRM) function and of the manager and supervisors role in managing the career cycle from organizational entry to exit. It acquaints the student with the authority, responsibility, functions, and problems of the human resource manager, with an emphasis on developing familiarity with the real world applications required of employers and managers who increasingly are in partnership with HRM generalists and specialists in their organizations. Topics include: strategic human resource management, contemporary issues in HRM: ethics, diversity and globalization; the human resource/supervisor partnership; human resource planning and productivity; job description analysis, development, and design: recruiting, interviewing, and selecting employees; performance management and appraisal systems; employee training and development: disciplinary action and employee rights; employee compensation and benefits; labor relations and employment law; and technology applications in HRM.

Pre-requisites: One

Required Provisional

Admission

Co-requisites: None

MGMT 2120 - Labor Management Relations

(3)

Provides a student with an overview of the relationship of rank and file employees to management in business organizations. The nature of the workplace, the economic foundations of work organizations, and the history of the relationship between management and labor is examined. The course acquaints the student with the principles of developing positive relationships between management and labor within the context of the legal environment governing labor relations. Topics include: the nature of the American workplace; the economic history of business organizations, the historical roots of labor-management relations; adversarial and cooperative approaches to labor relations; the legal framework of labor relations; employee-employer rights; collective bargaining and union organizing processes; union and nonunion grievance procedures; international labor relations; and the future of labor-management relations in a changing economy. Case studies, readings, and role-plays are used to simulate workplace applications in labor relations.

Pre-requisites: All

Required Provisional
Admission
Co-requisites: None

MGMT 2125 - Performance Management (3)

Develops an understanding of how fostering employer/employee relationships in the work setting improves work performance. Develops legal counseling and disciplinary techniques to use in various workplace situations.. Topics include: the definitions of coaching, counseling, and discipline; importance of the coaching relationship; implementation of an effective counseling strategy; techniques of effective discipline; and performance evaluation techniques.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

MGMT 2130 - Employee Training and Development (3)

Addresses the challenges of improving the performance and career potential of employees, while benefiting the student in their own preparation for success in the workplace. The focus is on both training and career and personal development. Shows the student how to recognize when training and development is needed and how to plan, design, and deliver an effective program of training for employees. Opportunities are provided for the student to develop their own career plans, assess their work-related skills, and practice a variety of skills desired by employers. Topics include: developing a philosophy of training; having systems approach to training and development; the context of training; conducting a needs analysis; critical success factors for employees: learning principles; designing and implementing training plans; conducting and evaluating training; human resource development and careers; personal career development planning; and applications in interpersonal relationships and communication.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

MGMT 2135 - Management Communication Techniques (3)

Emphasizes developing the full range of communication strategies required to become a successful manager and prepares managers for the skills required to communicate effectively in business today. Topics include: Organizational/Strategic Communication, Interpersonal Communication, Presentation Techniques, Presentation Technology & Applications, Team/Group Communication, Intercultural Communication, External Stakeholder Communication and Using Spreadsheet Applications for Business Problem Solving.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: All Required
COMP 1000 - Introduction to Computers

MGMT 2150 - Small Business Management (3)

This course introduces the essentials of starting, managing, and growing a small business. Topics include: the role of the entrepreneur, pricing, advertising, financing, and layout of facilities, inventory control, staffing, purchasing, vendor selection, and relevant laws affecting small business.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

MGMT 2155 - Quality Management Principles (3)

Familiarizes the student with the principles and methods of Quality Management (QM). Topics include: the history of quality control, quality control leaders, quality tools, QM implementation, team building for QM, and future quality trends.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

MGMT 2200 - Production/Operations Management

(3)

This course provides the student with an intensive study of the overall field of production/operations management. Topics include: role of production management/production managers, operational design, capacity planning, aggregate planning, inventory management, project management, and quality control/assurance.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

MGMT 2205 - Service Sector Management

(3)

This course focuses on supervision in the service sector with special emphasis on team building, quality management, and developing a customer focus. The challenge of providing world-class customer service is addressed through sections on principles of service industry supervision, career development, problem solving, stress management, and conflict resolution. Topics include: principles of service industry supervision, team building, customer service operations, TQM in a service environment, business software applications, communication in the service sector, introduction to information systems, selling principles and sales management, retail management, and legal issues in the service sector.

Pre-requisites:

None Co-

requisites: None

MGMT 2210 - Project Management

(3)

Provides a basic understanding of project management functions and processes. Topics include: team selection and management; project planning, definition and scheduling of tasks; resource negotiation, allocation, and leveling; project control, monitoring, and reporting; computer tools for project planning and scheduling; managing complex relationships between project team and other organizations; critical path methodology; and total quality management.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

MGMT 2215 - Team Project

(3)

This course utilizes team methodologies to study the field of management. It encourages students to program. Topics include: current issues and problems in management and supervision and state-of-the-art management and leadership techniques. Students will be put into teams, will work on team projects to demonstrate their understanding of the competencies of this course, and will do peer evaluation. Potential team projects could include authoring a management book covering the competencies, videos, web sites, bulletin boards, and slide presentations amongst others.

Pre-requisites: All

Required Program

Admission

Co-requisites: None

MKTG Marketing Management

MKTG 1100 - Principles of Marketing

(3)

This course emphasizes the trends and the dynamic forces that affect the marketing process and the coordination of the marketing functions. Topics include effective communication in a marketing environment, role of marketing, knowledge of marketing principles, marketing strategy, and marketing career paths.

Pre-requisites:

None Co-

requisites: None

MKTG 1130 - Business Regulations and Compliance

(3)

This course introduces the study of contracts and other legal issues and obligations for businesses. Topics include: creation and evolution of laws, court decision processes, legal business structures, sales contracts, commercial papers, Uniform Commercial

Code, and risk-bearing devices.

Pre-requisites:

None Co-requisites: None

MKTG 1160 - Professional Selling (3)

This course introduces professional selling skills and processes. Topics include: professional selling, product/sales knowledge, customer analysis/relations, selling process, sales presentations, and ethics of selling.

Pre-requisites:

None Co-requisites: None

MKTG 1190 - Integrated Marketing Communications (3)

This course introduces the fundamental principles and practices associated with promotion and communication. Topics include: purposes of promotion and IMC, principles of promotion and Integrated Marketing Communication (IMC), budgeting, regulations and controls, media evaluation and target market selection, integrated marketing plans, trends in promotion, and promotion and communication career paths.

Pre-requisites: None Co-requisites: None

MKTG 1210 - Services Marketing (3)

This course introduces the marketing skills required in a service business. Topics include: foundation of services marketing, managing service delivery/encounters, services marketing strategy, and aligning strategy service design, and standards.

Pre-requisites:

None Co-requisites: None

MKTG 1370 - Consumer Behavior (3)

This course analyzes consumer behavior and applicable marketing strategies. Topics include: the nature of consumer behavior, influences on consumer behavior, consumer decision-making process, role of research in understanding consumer behavior, and marketing strategies.

Pre-requisites:

None Co-requisites: None

MKTG 2000 - Global Marketing (3)

This course introduces opportunities and international strategies employed in the global marketplace. Topics include: the environment of international marketing, analyze international marketing opportunities, international market entries, design an international marketing strategy, and career paths in international marketing.

Pre-requisites: All Required

MKTG 1100 - Principles of Marketing Co-requisites: None

MKTG 2010 - Small Business Management (3)

This course introduces competencies required in managing a small business. Topics include: nature of small business management, business management and organizational change, marketing strategies, employee relations, financial planning, and business assessment and growth.

Pre-requisites:

None Co-requisites: None

MKTG 2030 – Digital Publishing and Design

(3)

This course covers the knowledge and skills required to use design and digital publishing software as well as design and create business publications, collaterals and digital presences. Course work will include course demonstrations, laboratory exercises and projects. Topics include: digital publishing concepts, basic graphic design, publication layout, web page design, and practical applications.

Pre-requisites:

COMP 1000 –

Introduction to

Computer Literacy

Co-requisites:

None

MKTG 2060 - Marketing Channels

(3)

Emphasizes the design and management of marketing channels. Topics include: role of marketing channels, channel design and planning, supply chain management, logistics, and managing marketing channels.

Pre-requisites:

None Co-

requisites: None

MKTG 2070 - Buying and Merchandising

(3)

Develops buying and merchandising skills required in retail or e-business. Topics include: principles of merchandising, inventory control, merchandise plan, assortment planning, buying merchandise, and pricing strategies. Pre-requisites: None

Co-requisites: None

MKTG 2090 - Marketing Research

(3)

This course conveys marketing research methodology. Topics include: role of marketing research, marketing research process, ethics in marketing research, research design, collection data analysis, reporting, application of marketing research, and marketing research career paths.

Pre-requisites: All Required

MKTG 1100 - Principles of

Marketing Co-requisites: None

MKTG 2210 – Entrepreneurship

(6)

This course provides an overview of the steps in establishing a business. A formal business will be created. Topics include planning, location analysis, financing, developing a business plan, and entrepreneurial ethics and social responsibility.

Pre-requisites: One

Required Program

Admission

Co-requisites: None

MKTG 2300 - Marketing Management

(3)

This course reiterates the program outcomes for marketing management through the development of a marketing plan. Topics include: the marketing framework, the marketing plan, and preparing a marketing plan for a new product.

Pre-requisites

Program Instructor Approval & MKTG 1100 - Principles of

Marketing Co-requisites: None

MKTG 2500 - Exploring Social Media

(3)

This course explores the environment and current trends of social media it relates to marketing functions. Topics include: history of the internet and social media, social media dashboards, legal

issues of social media, outsourcing vs. in-house administration, and the current social media ecosystem including applications in the following areas: communication, collaboration/authority building, multimedia, reviews and opinions, and entertainment.

Pre-requisites: Program Admission

Co-requisites: HRTM 1201 Hospitality Marketing or MKTG 1100 Principles of Marketing

MKTG 2550 – Analyzing Social Media (3)

This course analyzes the application of social media to an integrated marketing communication plan. Topics include technical writing for social media, social media auditing, Social Media ROI, trend analysis, social media analytics, and Customer Experience Management (CEM).

Pre-requisites: MKTG 1100 Principles of Marketing

Co-requisites: MKTG 2500 Exploring Social Media

MSNR Masonry

MSNR 1005 - Introduction to Masonry and Basic Bricklaying (4)

This course provides an orientation to the masonry field and places importance on practices necessary for general safety, use of tools, materials, and equipment. Basic bricklaying skills are emphasized and practiced to ensure competency. Topics include safety procedures, materials equipment needed, materials estimation, mortar mixing, butter brick and block, and cut masonry units.

Pre-requisites:

None Co-requisites: None

MSNR 1010 - Masonry Applications I (4)

This course provides competency in creating basic bonds and patterns, and developing additional skills in laying out corners, leads, and jambs. Topics include basic structural bonds and patterns, corner layout, lead development, and jamb construction.

Pre-requisites:

None Co-requisites: None

MSNR 1020 - Masonry Applications II (4)

This course is designed to present wall types, methods, and techniques for laying masonry units to the line and correct spacing. In addition, techniques for pointing, cleaning, and caulking will be discussed. Topics include wall types, methods, and techniques, pointing, cleaning, and caulking.

Pre-requisites:

None

Co-requisites:

None

MUSC Music

MUSC 1101 - Music Appreciation (3)

Explores the analysis of well-known works of music, their compositions, and the relationship to their periods. An introduction to locating, acquiring, and documenting information resources lays the foundation for research to include the creative and critical process, the themes of music, the formal elements of composition, and the placing of music in the historical context. Topics include historical and cultural development represented in musical arts.

Pre-requisites

Appropriate Degree Level Writing (English) and Reading Placement Test Scores.

PARA Paralegal Studies

PARA 1100 - Introduction to Law and Ethics (3)

Emphasizes the American legal system, the role of the lawyer and legal assistant within that system, and the ethical obligations imposed upon attorneys and legal assistants. Topics include: survey of American jurisprudence, code of professional

responsibility and ethics overview, and introduction to areas of law and legal vocabulary.

Pre-requisites: All

Required Provisional

Admission

Co-requisites: None

PARA 1105 - Legal Research and Legal Writing I (3)

Introduces the student to the process of locating statutory, judicial, administrative and secondary sources on both a state and federal level. The student will utilize both print and electronic research resources. Focuses on the application and reinforcement of basic writing skills, familiarizes the student with types of writing typically engaged in by lawyers and legal assistants, and prepares the student for legal writing tasks. The student learns to write business letters as well as advisory documents. Topics include: legal analysis and legal correspondence and composition.

Pre-requisites: All Required

ENGL 1101 - Composition and Rhetoric

PARA 1100 - Introduction to Law and

Ethics Co-requisites: None

PARA 1110 - Legal Research and Legal Writing II (3)

Builds on competencies acquired in PARA 1102 and continues the process of locating statutory, judicial, administrative and secondary sources on both a state and federal level. The student will conduct a wider range of research in both print and electronic research resources. Emphasis will be placed on preparation of legal documents. Criminal case documents will be examined, but most of the emphasis will be on civil matters. The student will be presented factual scenarios, and utilizing these facts, research and develop a case from intake to trial.

Pre-requisites: All Required

ENGL 1101 - Composition and Rhetoric

PARA 1100 - Introduction to Law and

Ethics

PARA 1105 - Legal Research and Legal

Writing I Co-requisites: None

PARA 1115 - Family Law (3)

Introduces the student to the issues which may arise in family law cases and to the role of the paralegal in assisting the attorney in the development and presentation of such cases. Topics include: issues associated with client and witness interviews, marriage validity and dissolution, litigation support in family law matters, issues concerning children, special matters in family law, and attorney and paralegal ethical obligations.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 - Introduction to Law and Ethics

PARA 1120 - Real Estate Law (3)

Introduces the student to the basic concepts of real property law as they pertain to common types of real estate transactions. Additionally, emphasis will be placed on practical skills such as document preparation and title examination. Topics include: real estate contracts, plat reading and legal descriptions, types and purposes of deeds, title searches, common real estate mortgages and documentation, real estate closing and closing statements, recordation statutes and requirements, and elements of the lease.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 - Introduction to Law and Ethics

PARA 1125 - Criminal Law and Criminal Procedure (3)

Introduces the student to the basic concepts of substantive criminal law and its procedural aspects with an emphasis on the constitutionally protected rights of the accused in the criminal justice system. Topics include: substantive criminal law and procedure and criminal litigation support.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 - Introduction to Law and Ethics

PARA 1130 - Civil Litigation (3)

Emphasizes competencies and concepts of civil litigation in both federal and state courts. Topics include: federal and state litigation; trial and pretrial proceedings; litigation ethics; and litigation documents, exhibits, investigations, and interviews.

Pre-requisites:

None Co-

requisites: None

PARA 1135 - Wills, Trusts, Probate, and Administration

(3)

Provides a general framework of the substantive theory of wills, trusts, and estates. Topics include: wills, trusts, and powers of attorney; probate of wills and administration of estates; document preparation for other probate proceedings; general jurisdiction of the probate court; terminology of wills and estate practice; client interviews; and document preparation.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 – Introduction to Law and Ethics

PARA 1140 - Tort Law

(3)

Introduces the student to the basic concepts of substantive tort law. Topics include: concepts of intentional torts, negligence and product liability; causation and liability concepts; damages and defenses; and special tort actions and immunities.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 - Introduction to Law and Ethics

PARA 1145 - Law Office Management

(3)

Introduces the student to common forms of law practice. The student will be exposed to methods of billing and time- keeping, automation in the law office, the law office library, the appropriate role of support staff in the law office, and ethical concerns relevant to law office management. Topics include: forms of law practice and insurance needs, support systems, support staff, and ethical responsibilities.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 - Introduction to Law and Ethics

PARA 1150 - Contracts, Commercial Law and Business Organizations

(3)

Introduces the student to the basic concepts of legal rules commonly applicable in commercial settings, to the basic concepts of substantive contract law and to the formulation and operation of sole proprietorships, general partnerships, limited partnerships, and corporations. Additionally, the course explores the basic concepts of agency law. Topics include Constitutional law and its impact on business, the essential elements of a contract and related legal principles and the Uniform Commercial Code, sole proprietorships, partnerships, professional associations, other business organizations, corporations and tax implications of different organizations.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 - Introduction to Law and Ethics

PARA 1200 - Bankruptcy/Debtor-Creditor Relations

(3)

Introduces the student to the purpose and application of the Federal Bankruptcy Code and Rules, as well as applicable state law related to bankruptcy and debtor-creditor issues. Topics include: The Bankruptcy Code and Rules, Bankruptcy Court procedures, the preparation of bankruptcy forms and documents, state law workouts and collection, and the role of the paralegal in a bankruptcy practice.

Pre-requisites

Completion of all 1100 numbered (i.e. PARA 1100-1150) Paralegal courses within one's program of study. Co-requisites: None

PARA 1205 - Constitutional Law

(3)

Explains the major legal principles and concepts of the U.S. Constitution including governmental powers and structure, and civil liberties. Additionally, this course includes an exploration of the history of the Constitution and case law interpreting it.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 - Introduction to Law and Ethics

PARA 1210 - Legal and Policy Issues in Healthcare

(3)

Provide an overview of the legal issues involved in the delivery of healthcare and the issues relating to Elder Law. Students will recognize the fundamentals of the healthcare treatment relationship, liability issues, patient care decisions and the human condition of sickness. They will explore the complexities of health care financing, health care access, governmental regulations and privacy issues. Topics will also include access to care, informed consent, patient care decisions, the doctor-patient relationship, end-of-life decision making, legal problems of the elderly, law and mental health, AIDS and the law and the privatization of health care facilities.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 - Introduction to Law and Ethics

PARA 1215 - Administrative Law

(3)

Introduces the student to the basic concepts of administrative law including the legislative process related to enabling the agency. The Administrative Procedure Act (federal and state) is covered. Topics also include agency discretion, due process, delegation, rule-making, investigation, information collection, informal proceeding, hearings, and judicial review. Because paralegals are permitted to represent individuals in some agency proceedings (e.g., social security, unemployment, etc.), the students are introduced to the various aspects of such representation.

Pre-requisites: None

Co-requisites: All Required

PARA 1100 - Introduction to Law and Ethics

PARA 2205 - Advanced Legal Research and Writing

(3)

Continues to develop writing skills developed in PARA 1105 and 1110 focusing on legal memoranda preparation. Additionally, students enhance legal research skill. Course competencies include research methodology, legal memoranda preparation, and substantive law research.

Pre-requisites: All Required

ENGL 1101 – Composition and Rhetoric

PARA 1100 – Introduction to Law and Ethics

PARA 1105 – Legal Research and Legal Writing I

PARA 1110 – Legal Research and Legal Writing II

Co-requisites: None

PARA 2210 - Paralegal Internship I

(6)

Focuses on the application and reinforcement of paralegal skills in an actual workplace environment, or at the discretion of the instructor, in a school practicum with simulated work experiences. Students are acquainted with occupational responsibilities through realistic work situations and are provided with insights into paralegal applications on the job. Topics include: problem solving, adaptability to the job setting, use of proper interpersonal skills, application of paralegal skills in a workplace setting, and professional development.

Pre-requisites: Must be in last semester of program. With advisor approval, may take concurrently with last semester courses.

ENGL 1101 – Composition and Rhetoric

PARA 1100 – Introduction to Law and Ethics

PARA 1105 – Legal Research and Legal Writing I

PARA 1110 – Legal Research and Legal Writing II

Co-requisites: None

PARA 2215 - Paralegal Internship II

(6)

This course continues the focus on the application and reinforcement of paralegal skills in an actual workplace environment, or at the discretion of the instructor, in a school practicum with simulated work experiences. Realistic work situations are used to provide students with insights into paralegal applications on the job. Topics include: problem solving, adaptability to the job setting, use of proper interpersonal skills, application of paralegal skills in a workplace setting, and professional development.

Pre-requisites: Must be in last semester of program. With advisor approval, may take concurrently with last semester courses.

Co-requisites: None

PHLT Phlebotomy Technician

PHLT 1030 - Introduction to Venipuncture

(3)

Provides an introduction to blood collecting techniques and processing specimens. Emphasis is placed on the knowledge and skills

needed to collect all types of blood samples from hospitalized patients. Topics include: venipuncture procedure, safety and quality assurance; isolation techniques, venipuncture problems, and definitions; lab test profiles and patient care areas; other specimen collections and specimen processing; test combinations, skin punctures and POCT; professional ethics and malpractice; and certification and licensure.

Pre-requisites: All Required

Program Admission

Co-requisites: None

PHLT 1050 - Clinical Practice

(5)

Provides work experiences in a clinical setting. Emphasis is placed on enhancing skills in venipuncture techniques. Topics include: introduction to clinical policies and procedures and work ethics; routine collections: adult, pediatric, and newborn; and special procedures.

Pre-requisites: All Required

PHLT 1030 - Introduction to Venipuncture

Co-requisites: All Required

PHLT 1030 - Introduction to Venipuncture

PHYS Physics

PHYS 1110 - Conceptual Physics

(3)

Introduces some of the basic laws of physics. Topics include systems of units and conversion of units, vector algebra, Newtonian mechanics, fluids and thermodynamics, heat, light, and optics, mechanical waves, electricity and magnetism, and modern physics.

Pre-requisites:

ENGL 1101 Composition and Rhetoric AND MATH 1101 Mathematical Modeling OR MATH 1111 College Algebra

Co-requisites: All Required

PHYS 1110L - Conceptual Physics Lab

PHYS 1111 - Introductory Physics I

(3)

The first course of two algebra and trigonometry based courses in the physics sequence. Topics include material from mechanics (kinematics, dynamics, work and energy, momentum and collisions, rotational motion, static equilibrium, elasticity theory, and simple harmonic motion), mechanical waves, theory of heat and heat transfer, and thermodynamics.

Pre-requisites:

ENGL 1101 Composition and Rhetoric AND MATH 1112 College Trigonometry OR MATH 1113 Pre-

calculus Co-requisites: All Required

PHYS 1111L - Introductory Physics Lab I

PHYS 1111L - Introductory Physics Lab I

(1)

Selected laboratory exercises paralleling the topics in PHYS 1111. The laboratory exercises for this course include units of measurement, Newton's laws, work energy and power, momentum and collisions, one- and two- dimensional motion, circular motion and law of gravity, rotational dynamics and static equilibrium, elasticity theory, harmonic motion, theory of heat and heat transfer, thermodynamics, wave motion, and sound.

Pre-requisites

ENGL 1101 Composition and Rhetoric AND MATH 1112 College Trigonometry OR MATH 1113 Pre-

calculus Co-requisites: All Required

PHYS 1111 - Introductory Physics I

PHYS 1112 - Introductory Physics II

(3)

The second of two algebra and trigonometry based courses in the physics sequence. Topics include material from electricity and magnetism (electric charge, electric forces and fields, electric potential energy, electric potential, capacitance, magnetism, electric current, resistance, basic electric circuits, alternating current circuits, and electromagnetic waves), geometric optics (reflection and refraction), and physical optics (interference and diffraction).

Pre-requisites: All Required

PHYS 1111 - Introductory Physics I PHYS 1111L - Introductory Physics Lab I

Co-requisites: All Required

PHYS 1112L - Introductory Physics Lab II

Selected laboratory exercises paralleling the topics in PHYS 1112. The laboratory exercises for this course include material from electricity and magnetism, geometric optics, and physical optics.

Pre-requisites: All Required

PHYS 1111 - Introductory Physics I

PHYS 1111L - Introductory Physics Lab I Co-requisites: All

Required PHYS 1112 - Introductory Physics II

PLBG Plumbing

PLBG 1160 - Plumbing Drawings

(3)

This course introduces the reading and interpretation of sets of building drawings. Topics include types of plans, scales, specifications, conventions, and schedules.

Pre-requisites: None

Co-requisites: All Required

PLBG 1000 - Introduction to Plumbing

PLBG 1210 - Pipes, Valves, and Fittings

(3)

This course introduces the student to the materials, pipes, valves, fittings, and joining methods used in the plumbing trade.

Topics include pipes, fittings, and valves, hangers and supports, and joining techniques.

Pre-requisites: None

Co-requisites: All Required

PLBG 1000 - Introduction to Plumbing

PLBG 1240 - Water Supply Systems

(3)

Provides an introduction to the sources, treatment, design, and materials used in residential cold and hot water distribution systems. Applicable plumbing codes are also discussed. Topics include: public and private water systems; materials and fittings; valves; water treatment; water mains and services; hot water supply; design and installation of water supply systems.

Pre-requisites: None

Co-requisites: All Required

PLBG 1160 - Plumbing

Drawings

PLBG 1260 - Plumbing Fixtures and Appliances

(3)

This course introduces the identification, theory, application and installation of residential plumbing fixtures, trim and appliances. Pre-requisites: None

Co-requisites: All Required

PLBG 1000 - Introduction to Plumbing

PLBG 1280 - Gas Piping, Venting, and Appliances

(3)

This course provides instruction in the materials and design of building gas supply systems and the installation of gas appliances. Emphasis is placed in conformance with applicable gas codes. Topics include types of gas, safety, materials and fittings, valves, design and size gas systems, gas appliances and controls, and gas venting.

Pre-requisites: None

Co-requisites: All Required

PLBG 1000 - Introduction to Plumbing

PNSG Practical Nursing

PNSG 2010 - Introduction to Pharmacology and Clinical Calculations

(2)

Applies fundamental mathematical concepts and includes basic drug administration. Emphasizes critical thinking skills. Topics include: systems of measurement, calculating drug problems, resource materials usage, fundamental pharmacology, administering medications in a simulated clinical environment, principles of IV therapy techniques, and client education.

Pre-requisites: All Required
Program admission
Co-requisites: None

PNSG 2030 - Nursing Fundamentals

(6)

An introduction to the nursing process. Topics include: nursing as a profession; ethics and law; client care which is defined as using the nursing process, using critical thinking, and providing client education and includes principles and skills of nursing practice, documentation, and an introduction to physical assessment; customer/client relationships; standard precautions; basic life support; infection control/blood-borne/airborne pathogens; and basic emergency care/first aid and triage.

Pre-requisites: All Required
Program admission
Co-requisites: None

PNSG 2035 - Nursing Fundamentals Clinical

(2)

An introduction to nursing practice in the clinical setting. Topics include but are not limited to: history taking; physical assessment; nursing process; critical thinking; activities of daily living; documentation; client education; standard precautions; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; and perioperative care.

Pre-requisites: All Required
Program admission
Co-requisites: None

PNSG 2210 - Medical-Surgical Nursing I

(4)

Focuses on client care including using the nursing process, performing assessments, using critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; immunology; as well as pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to the cardiovascular, respiratory, and hematological and immunological systems.

Pre-requisites: All Required
Program admission
Co-requisites: None

PNSG 2220 - Medical-Surgical Nursing II

(4)

This second course in a series of four focuses on client care including using the nursing process, performing assessments, using critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; as well as pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to the endocrine, gastrointestinal, and urinary system.

Pre-requisites: All Required
Program admission
Co-requisites: None

PNSG 2230 - Medical-Surgical Nursing III

(4)

This third course in a series of four focuses on client care including using the nursing process, performing assessments, using critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; mental health; as well as pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to the neurological, sensory, and musculoskeletal systems.

Pre-requisites: All Required
Program admission
Co-requisites: None

PNSG 2240 - Medical-Surgical Nursing IV

(4)

This fourth course in a series of four courses focuses on client care, including using the nursing process, performing

assessments, using critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole, oncology; as well as pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to the integumentary and reproductive systems.

Pre-requisites: All Required

Program admission

Co-requisites: None

PNSG 2310 - Medical-Surgical Nursing Clinical I

(2)

This first clinical course, in a series of four medical-surgical clinical courses, focuses on clinical client care including using the nursing process, performing assessments, applying critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. At the completion of the four-part sequence of these medical-surgical clinical courses students will have completed a minimum of 375 hours of clinical experience including 300 hours of comprehensive medical- surgical, 37.5 pediatric and 37.5 mental health experiences. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; perioperative care; immunology; mental health; and oncology. In addition, pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to cardiovascular, hematological, immunological, respiratory, neurological, sensory, musculoskeletal, endocrine, gastrointestinal, urinary, integumentary and reproductive systems.

Pre-requisites: All Required

Program admission

Co-requisites: None

PNSG 2320 - Medical-Surgical Nursing Clinical II

(2)

This second clinical course, in a series of four medical-surgical clinical courses, focuses on clinical client care including using the nursing process, performing assessments, applying critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. At the completion of the four-part sequence of these medical-surgical clinical courses students will have completed a minimum of 375 hours of clinical experience including 300 hours of comprehensive medical-surgical, 37.5 pediatric and 37.5 mental health experiences. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; perioperative care; immunology; mental health; and oncology. In addition, pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to cardiovascular, hematological, immunological, respiratory, neurological, sensory, musculoskeletal, endocrine, gastrointestinal, urinary, integumentary and reproductive systems.

Pre-requisites: All Required

Program admission

Co-requisites: None

PNSG 2330 - Medical-Surgical Nursing Clinical III

(2)

This third clinical course, in a series of four medical-surgical clinical courses, focuses on clinical client care including using the nursing process, performing assessments, applying critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. At the completion of the four-part sequence of these medical-surgical clinical courses students will have completed a minimum of 375 hours of clinical experience including 300 hours of comprehensive medical- surgical, 37.5 pediatric and 37.5 mental health experiences. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; perioperative care; immunology; mental health; and oncology. In addition, pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to cardiovascular, hematological, immunological, respiratory, neurological, sensory, musculoskeletal, endocrine, gastrointestinal, urinary, integumentary and reproductive systems.

Pre-requisites: All Required

Program admission

Co-requisites: None

PNSG 2340 - Medical-Surgical Nursing Clinical IV

(2)

This fourth clinical course, in a series of four medical-surgical clinical courses, focuses on clinical client care including using the nursing process, performing assessments, applying critical thinking, engaging in client education and displaying cultural competence

across the life span and with attention to special populations. At the completion of the four-part sequence of these medical-surgical clinical courses students will have completed a minimum of 375 hours of clinical experience including 300 hours of comprehensive medical-surgical, 37.5 pediatric and 37.5 mental health experiences. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; perioperative care; immunology; mental health; and oncology. In addition, pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to cardiovascular, hematological, immunological, respiratory, neurological, sensory, musculoskeletal, endocrine, gastrointestinal, urinary, integumentary and reproductive systems.

Pre-requisites: All Required

Program admission

Co-requisites: None

PNSG 2250 - Maternity Nursing

(3)

Focuses on health management and maintenance and the prevention of illness, care of the individual as a whole, and deviations from the normal state of health. The definition of client care includes using the nursing process, performing assessments, using critical thinking, providing client education, displaying cultural competence across the life span and with attention to special populations.

Topics include: health management and maintenance and prevention of illness, care of the individual as a whole, pathological and nonpathological concerns in obstetric clients and the newborn; client care, treatments, pharmacology, and diet therapy related to obstetric clients and the newborn; and standard precautions.

Pre-requisites: All Required

Program admission

Co-requisites: None

PNSG 2255 - Maternity Nursing Clinical

(1)

Focuses on clinical health management and maintenance and the prevention of illness, care of the individual as a whole, and deviations from the normal state of health. The definition of client care includes using the nursing process, performing assessments, using critical thinking, providing client education, displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance and prevention of illness, care of the individual as a whole, pathological and nonpathological concerns in obstetric clients and the newborn; client care, treatments, pharmacology, and diet therapy related to obstetric clients and the newborn; and standard precautions.

Pre-requisites: All Required

Program admission

Co-requisites: None

PNSG 2410 - Nursing Leadership

(1)

Builds on the concepts presented in prior nursing courses and develops the skills necessary for successful performance in the job market. Topics include: application of the nursing process, supervisory skills, client education methods, group dynamics and conflict resolution.

Pre-requisites: All Required

Program admission

Co-requisites: None

PNSG 2415 - Nursing Leadership Clinical

(2)

Builds on the concepts presented in prior nursing courses and develops the clinical skills necessary for successful performance in the job market, focusing on practical applications. Topics include: application of the nursing process, critical thinking, supervisory skills, client education methods, and group dynamics.

Pre-requisites: All Required

Program admission

Co-requisites: None

POLS Political Science

POLS 1101 - American Government

(3)

Emphasizes study of government and politics in the United States. The focus of the course will provide an overview of the Constitutional foundations of the American political processes with a focus on government institutions and political procedures. The course will examine the constitutional framework, federalism, civil liberties and civil rights, public opinion, the media, special interest groups, political parties, and the election process along with the three branches of government. In addition, this course will examine the processes of Georgia state government. Topics include foundations of government, political behavior, and governing institutions. Pre-requisites: Appropriate Degree Level Writing (English) and Reading Placement Test Scores
Co-requisites: None

PSYC Psychology

PSYC 1010 - Basic Psychology

(3)

Presents basic concepts within the field of psychology and their application to everyday human behavior, thinking, and emotion. Emphasis is placed on students understanding basic psychological principles and their application within the context of family, work and social interactions. Topics include an overview of psychology as a science, the nervous and sensory systems, learning and memory, motivation and emotion, intelligence, lifespan development, personality, psychological disorders and their treatment, stress and health, and social relations.

Pre-requisites: All
Required Provisional
Admission
Co-requisites: None

PSYC 1101 - Introductory Psychology

(3)

Introduces the major fields of contemporary psychology. Emphasis is on fundamental principles of psychology as a science. Topics include research design, the organization and operation of the nervous system, sensation and perception, learning and memory, motivation and emotion, thinking and intelligence, lifespan development, personality, psychopathology and interventions, stress and health, and social psychology.

Pre-requisites
Appropriate Degree Level Writing (English) and Reading Placement Test
Scores Co-requisites: None

PSYC 2103 - Human Development

(3)

Emphasizes changes that occur during the human life cycle beginning with conception and continuing through late adulthood and death and emphasizes the scientific basis of our knowledge of human growth and development and the interactive forces of nature and nurture. Topics include but are not limited to theoretical perspectives and research methods, prenatal development and child birth, stages of development from infancy through late adulthood, and death and dying.

Pre-requisites: All Required
PSYC 1101 - Introductory
Psychology Co-requisites: None

PSCY 2250- Abnormal Psychology

(3)

Emphasizes the nature and causes of various forms of abnormal behavior. Topics include historical and contemporary approaches to psychopathology; approaches to clinical assessment and diagnosis; understanding and defining classifications of psychological disorders; and etiology and treatment considerations.

Pre-requisites: All Required
PSYC 1101 - Introductory
Psychology Co-requisites: None

SOCI Sociology

SOCI 1101 - Introduction to Sociology

(3)

The sociological analysis of society, its culture, and structure. Sociology is presented as a science with emphasis placed on its methodology and theoretical foundations. Topics include basic sociological concepts, socialization, social interaction and culture, social groups and institutions, deviance and social control, social stratification, social change, and marriage and family.

Pre-requisites: Appropriate Degree Level Writing (English) and Reading Placement Test
Scores Co-requisites: None

SPCH Speech

SPCH 1101 - Public Speaking (3)

Introduces the student to the fundamentals of oral communication. Topics include selection and organization of materials, preparation and delivery of individual and group presentations, analysis of ideas presented by others, and professionalism.

Pre-requisites: Regular Admission OR ENGL 098 - English

III Co-requisites: None

SURG Surgical Technology

SURG 1010 - Introduction to Surgical Technology (8)

Provides an overview of the surgical technology profession and develops the fundamental concepts and principles necessary to successfully participate on a surgical team. Topics include: orientation to surgical technology; biomedical principles; asepsis and the surgical environment; basic instrumentation and equipment; principles of the sterilization process; application of sterilization principles; and minimally invasive surgery. (There are surgical procedures that are similar as far as procedural steps, instrumentation, supplies, patient position, etc. This is referred to as the "Co-Related Procedures Concept." The purpose of using the Co-Related Procedures Concept is to provide the instructor additional time to teach surgical procedures as well as avoid repetition.)

Pre-requisites: One

Required Program Admission

Co-requisites: None

SURG 1020 - Principles of Surgical Technology (7)

Provides continued study of surgical team participation by wound management and technological sciences for the operating room. Topics include: biophysical diversities and needs; pre-operative routine; intra-operative routine; wound management; post-operative patient care; and outpatient surgical procedures. (There are surgical procedures that are similar as far as procedural steps, instrumentation, supplies, patient position, etc. This is referred to as the "Co-Related Procedures Concept." The purpose of using the Co-Related Procedures Concept is to provide the instructor additional time to teach surgical procedures as well as avoid repetition.)

Pre-requisites: One Required

Program Admission

Co-requisites: None

SURG 1080 - Surgical Microbiology (2)

Introduces the fundamentals of surgical microbiology. Topics include: historical development of microbiology; microscopes; cell structure and theory; microbial function and classification; human and pathogen relationships, infectious processes and terminology; defense mechanisms; infection control and principles of microbial control and destruction.

Pre-requisites: One

Required Program Admission

Co-requisites: None

SURG 1100 - Surgical Pharmacology (2)

Introduces the fundamentals of intraoperative pharmacology, and emphasizes concepts of anesthesia administration. Topics include: weights and measurements, drug conversions, interpretation of drug orders, legal aspects of drug administration, intraoperative pharmacologic agents, and anesthesia fundamentals.

Pre-requisites: One

Required Program Admission

Co-requisites: None

SURG 2110 - Surgical Technology Clinical I (3)

Orients students to the clinical environment and provides experience with basic skills necessary to the surgical technologist. Topics include: scrubbing, gowning, gloving, and draping; assistance with patient care; processing of instruments and supplies; maintenance of a sterile field; and environmental sanitation. In addition, introduces the development of surgical team participation

through clinical experience. Emphasis is placed on observation/participation in routine procedures and procedures for core and specialty surgery.

Topics include: general surgery, gastrointestinal surgery, obstetrical and gynecological surgery, genitourinary surgery, otorhinolaryngology surgery, plastic and reconstructive surgery, orthopedic surgery, ophthalmic surgery, oral and maxillofacial surgery, cardiothoracic surgery, peripheral vascular surgery, and neurosurgical procedures. Utilization of minutes allotted to specialty areas are at the discretion of the program.

Pre-requisites: One

Required Program Admission

Co-requisites: None

SURG 2030 - Surgical Procedures I

(4)

Introduces the core general procedures, including the following: incisions; wound closure; operative pathology; and common complications as applied to general and specialty surgery. Topics include: introduction to surgical procedures; general surgery and special techniques; obstetrical and gynecological surgery; gastrointestinal surgery; genitourinary surgery; otorhinolaryngology surgery; and orthopedic surgery. ((There are surgical procedures that are similar as far as procedural steps, instrumentation, supplies, patient position, etc. This is referred to as the "Co- Related Procedures Concept." The purpose of using the Co-Related Procedures Concept is to provide the instructor additional time to teach surgical procedures as well as avoid repetition.))

Pre-requisites: All Required

SURG 1010 - Introduction to Surgical Technology

SURG 1020 - Principles of Surgical Technology

Co-requisites: None

SURG 2040 - Surgical Procedures II

(4)

Continues development of student knowledge and skills applicable to specialty surgery areas. Topics include: ophthalmic surgery; thoracic surgery; vascular surgery; cardiovascular surgery; neurosurgery; and plastic and reconstructive surgery. ((There are surgical procedures that are similar as far as procedural steps, instrumentation, supplies, patient position, etc. This is referred to as the "Co-Related Procedures Concept." The purpose of using the Co-Related Procedures Concept is to provide the instructor additional time to teach surgical procedures as well as avoid repetition.))

Pre-requisites: One Required

SURG 2030 - Surgical Procedures I

Co-requisites: None

SURG 2120 - Surgical Technology Clinical II

(3)

Orients students to the clinical environment and provides experience with basic skills necessary to the surgical technologist. Topics include: scrubbing, gowning, gloving, and draping; assistance with patient care; processing of instruments and supplies; maintenance of a sterile field; and environmental sanitation. In addition, introduces the development of surgical team participation through clinical experience. Emphasis is placed on observation/participation in routine procedures and procedures for core and specialty surgery.

Topics include: general surgery, gastrointestinal surgery, obstetrical and gynecological surgery, genitourinary surgery, otorhinolaryngology surgery, plastic and reconstructive surgery, orthopedic surgery, ophthalmic surgery, oral and maxillofacial surgery, cardiothoracic surgery, peripheral vascular surgery, and neurosurgical procedures. Utilization of minutes allotted to specialty areas are at the discretion of the program.

Pre-requisites: One Required

SURG 2110 - Surgical Technology Clinical I

Co-requisites: None

SURG 2130 - Surgical Technology Clinical III

(3)

Orients students to the clinical environment and provides experience with basic skills necessary to the surgical technologist. Topics include: scrubbing, gowning, gloving, and draping; assistance with patient care; processing of instruments and supplies; maintenance of a sterile field; and environmental sanitation. In addition, introduces the development of surgical team participation through clinical experience. Emphasis is placed on observation/participation in routine procedures and procedures for core and specialty surgery.

Topics include: general surgery, gastrointestinal surgery, obstetrical and gynecological surgery, genitourinary surgery, otorhinolaryngology surgery, plastic and reconstructive surgery, orthopedic surgery, ophthalmic surgery, oral and maxillofacial surgery, cardiothoracic surgery, peripheral vascular surgery, and neurosurgical procedures. Utilization of minutes allotted to specialty areas are at the discretion of the program.

Pre-requisites: One Required
SURG 2120 - Surgical Technology Clinical II
Co-requisites: None

SURG 2140 - Surgical Technology Clinical IV (3)

Orients students to the clinical environment and provides experience with basic skills necessary to the surgical technologist. Topics include: scrubbing, gowning, gloving, and draping; assistance with patient care; processing of instruments and supplies; maintenance of a sterile field; and environmental sanitation. In addition, introduces the development of surgical team participation through clinical experience. Emphasis is placed on observation/participation in routine procedures and procedures for core and specialty surgery.

Topics include: general surgery, gastrointestinal surgery, obstetrical and gynecological surgery, genitourinary surgery, otorhinolaryngology surgery, plastic and reconstructive surgery, orthopedic surgery, ophthalmic surgery, oral and maxillofacial surgery, cardiothoracic surgery, peripheral vascular surgery, and neurosurgical procedures. Utilization of minutes allotted to specialty areas are at the discretion of the program.

Pre-requisites: One Required
SURG 2130 - Surgical Technology Clinical III
Co-requisites: None

SURG 2240 - Seminar in Surgical Technology (2)

Prepares students for entry into careers as surgical technologists and enables them to effectively prepare for the national certification examination. Topics include: professional credentialing, certification review, and test-taking skills.

Pre-requisites: One
Required Program Admission
Co-requisites: None

THEA Theatre

THEA 1101 – Theater Appreciation (3)

Explores history, aesthetics, and craft of the theatrical experience on stage, emphasizing the role of the audience as well as that of the artist. Critical views of theatrical performances are examined alongside scripts. Emphasis is placed on the students' understanding of foundational elements, principles, and theories of dramatic art, including classical and contemporary varieties. The performance component of this course enables students to appreciate the process by which theatre is realized and the creative and cultural significance of theatre as a basic human endeavor.

Pre-requisites: Appropriate Degree Level Writing (English) and Reading Placement Test Scores. Co-requisites: None

WELD Welding

WELD 1000 - Introduction to Welding Technology (4)

Provides an introduction to welding technology with an emphasis on basic welding laboratory principles and operating procedures. Topics include: industrial safety and health practices, hand tool and power machine use, measurement, laboratory operating procedures, welding power sources, welding career potentials, and introduction to welding codes and standards.

Pre-requisites: None
Provisional
Admission Co-
requisites: None

WELD 1010 - Oxyfuel Cutting (4)

Introduces fundamental principles, safety practices, equipment, and techniques necessary for metal heating and oxyfuel cutting. Topics include: metal heating and cutting principles, safety procedures, use of cutting torches and apparatus, metal heating techniques, metal cutting techniques, manual and automatic oxyfuel cutting techniques, and oxyfuel pipe cutting. Practice in the laboratory is provided.

Pre-requisites: None
Co-requisites: All Required
WELD 1000 - Introduction to Welding Technology

WELD 1030 - Blueprint Reading for Welding Technology (4)

This course introduces the knowledge and skills necessary for reading welding and related blueprints and sketches. An emphasis is placed on identifying types of welds, and the associated abbreviations and symbols.

Pre-requisites: None

Co-requisites: All Required

WELD 1000 - Introduction to Welding Technology

WELD 1040 - Flat Shielded Metal Arc Welding (4)

This course introduces the major theory, safety practices, and techniques required for shielded metal arc welding (SMAW) in flat positions. Qualification tests, flat position, are used in the evaluation of student progress toward making industrial welds. Pre-requisites: None

Co-requisites: All Required

WELD 1000 - Introduction to Welding Technology

WELD 1050 - Horizontal Shielded Metal Arc Welding (4)

Introduces the major theory, safety practices, and techniques required for shielded metal arc welding (SMAW) in the horizontal position. Qualification tests, horizontal position, are used in the evaluation of student progress toward making industrial standard welds. Topics include: horizontal SMAW safety and health practices, selection and applications of electrodes, selection and applications for horizontal SMAW, horizontal SMAW joints, and horizontal SMAW to specification.

Pre-requisites: All Required

WELD 1000 - Introduction to Welding Technology

Co-requisites: None

WELD 1060 - Vertical Shielded Metal Arc Welding (4)

Introduces the major theory, safety practices, and techniques required for shielded metal arc welding (SMAW) in the vertical position. Qualification tests, vertical position, are used in the evaluation of student progress toward making industrial standard welds. Topics include: vertical SMAW safety and health practices, selection and applications of electrodes for vertical SMAW, vertical SMAW joints, and vertical SMAW to specification.

Pre-requisites: All Required

WELD 1000 – Introduction to Welding Technology

Co-requisites: None

WELD 1070 - Overhead Shielded Metal Arc Welding (4)

Introduces the major theory, safety practices, and techniques required for shielded metal arc welding (SMAW) in the overhead position. Qualification tests, overhead position, are used in the evaluation of student progress toward making industrial standard welds. Topics include: overhead SMAW safety and health practices, selection and applications of electrodes for overhead SMAW, overhead SMAW joints, and overhead SMAW to specification.

Pre-requisites: All Required

WELD 1000 – Introduction to Welding Technology

Co-requisites: None

WELD 1090 - Gas Metal Arc Welding (4)

Provides knowledge of theory, safety practices, equipment and techniques required for successful gas metal arc welding. Qualification tests, all positions, are used in the evaluation of student progress toward making industrial standard welds. Topics include: GMAW safety and health practices; GMAW theory, machines, and set up; transfer modes; wire selection; shielded gas selection; and GMAW joints in all positions.

Pre-requisites: All Required

WELD 1000 – Introduction to Welding Technology

Co-requisites:

WELD 1110 - Gas Tungsten Arc Welding (4)

Provides knowledge of theory, safety practices, inert gas, equipment, and techniques required for successful gas tungsten arc welding. Qualification tests, all positions, are used in the evaluating of student progress toward making industrial standard welds. Topics include: GTAW safety and health practices; shielding gases; metal cleaning procedures; GTAW machines and set up; selection of filler rods; GTAW weld positions; and production of GTAW beads, bead patterns, and joints.

Pre-requisites: None

Co-requisites: All Required

WELD 1000 - Introduction to Welding Technology

WELD 1120 - Preparation for Industrial Qualification

(4)

Introduces industrial qualification methods, procedures, and requirements. Students are prepared to meet the qualification criteria of selected national welding codes and standards. Topics include: test methods and procedures, national industrial codes and standards, fillet and groove weld specimens, and preparation for qualifications and job entry.

Pre-requisites: All Required

WELD 1000 – Introduction to Welding Technology

Co-requisites: None

WELD 1152 - Pipe Welding

(4)

Provides the opportunity to apply skills to pipe welding operations. Topics include: pipe welding safety and health practices, pipe welding nomenclature, pipe layout and preparation, pipe joint assembly, horizontal welds on pipe (2G), vertical welds on pipe (5G), and welds on 45-degree angle pipe (6G).

Pre-requisites: One Required

Program Admission

Co-requisites: None

WELD 1153 - Flux Cored Arc Welding

(4)

Provides knowledge of theory, safety practices, equipment, and techniques required for successful flux cored arc welding (FCAW). Qualification tests, all positions, are used in the evaluation of student progress toward making industrial standards welds. Topics include: FCAW safety and health practices, FCAW theory, machine set up and operation, shielded gas selection, and FCAW joints in all positions.

Pre-requisites: All Required

WELD 1000 - Introduction to Welding Technology

Co-requisites: None

Savannah Technical College Faculty and Staff

A

Aberson, Susan, Assistant Registrar

M.B.A., Georgia Southern; B.B.A. Management, Valdosta State University

Akins, Cynthia A., Technical Assistance Zone Manager, CCR&R

B.A. Early Childhood Education, Kendall College

Aldridge, Samuel T., Campus Dean for Student Affairs, Effingham Campus

Ph.D. Educational Leadership, Clemson University; M.Ed. Counselor Education, Clemson University; B.S. Christian Counseling and Psychology, Toccoa Falls College

Allen, Ashlee R., Instructor, Mathematics

M.A. Mathematics, University of Alabama; A.S. General Studies, Enterprise State Community College

Allen, Deanne B., Department Head/Instructor, Cosmetology

B.S. Human Services, Gordon State College; A.A. Core Curriculum General Studies, Gordon State College; Diploma, Cosmetology, Flint River Technical College; Georgia Master Cosmetologist

Amacher, Thomas, Department Head/Instructor, Commercial Truck Driving

Commercial Driver's License

Anderson, Faith M., Financial Aid Director

M.P.A. Public Administration, Savannah State University; B.S.W. Social Work, Savannah State University

Anderson, Lauralyn, Administrative Assistant, Industrial Technology

A.A.S. Business, Cleveland State Community College

Andrews, Richard C., Instructor, Industrial Systems Technology

B.S. Psychology, Georgia State University; A.A.S. Industrial Systems Technology, Savannah Technical College

Arrazola-Kinslow, Leticia M., Technical Assistance Coordinator, CCR&R

M.Ed. Adult Education & Community Leadership, Armstrong State University; B.S. Spanish, University of Maryland University College; A.S. Management, University of Maryland University College; A.A.S. Early Childhood Education, Savannah Technical College

B

Bacon, Velvelyn S., Financial Aid Technician

Banks, Melissa A., Executive Director for Human Resources

B.B.A. Marketing, Georgia Southern University; Professional Human Resources Certification, Human Resource Certification Institute; Certified Professional, Society for Human Resource Management

Banks, Mignon E., Financial Aid Technician

B.A. Interdisciplinary Studies, Wayne State University

Barlow, Jeneine, Technical Assistance Zone Manager, CCR&R

B.A. Child Development, Concordia University; A.S. Early Childhood Education, Technical College of the Lowcountry; Diploma Early Childhood Education, Albany Technical College

Beck, Tony, Instructor, Accounting

M.Acc. Accounting, Gardner-Webb University; B.S. Business Administration and Accounting, University of South Carolina; A.A. Art, Greenville Technical College

Beecher, Cynthia, Technical Assistance Coordinator, CCR&R

B.A. General Studies, Brewton-Parker College

Bellamy-Lovely, Monique N, Admissions Assistant

Berry, Zebulon E., Instructor, Culinary Arts

A.A.S. Culinary Arts, Savannah Technical College; A.A.S. Culinary Baking and Pastry Art, Savannah Technical College; Diploma Culinary Arts, Savannah Technical College; Certified Pastry Culinarian, American Culinary Federation

Betterson, Bridget M., Instructor, Surgical Technology

A.A.T. Surgical Technology, Savannah Technical College; Diploma, Surgical Technology, Savannah Technical College; Certified Surgical Technologist, National Board of Surgical Technology & Surgical Assisting

Bomberry, Kathleen ., Dean for Health Sciences

M.A. Health Education, Montclair State University; B.S. Professional Studies – Public Health, Richard Stockton College, A.A. Liberal Arts, Ocean County College

Booker, Shelia, Technical Assistance Coordinator, CCR&R

M.A. Early Childhood Education, Ashford University; B.A. General Studies, Brewton-Parker College; A.A. Arts, Brewton-Parker College

Bookhoop, Heidi M., Accounts Payable Technician

A.A.T. Accounting, Savannah Technical College

Boshuizen, Jessica, Technical Assistance Coordinator, CCR&R

Th.M. Divinity & Family Counseling, Hood Theological Seminary; B.S. Child Psychology, Child Development, Appalachian State University

Boyles, Patricia, Academic Advisor, Aviation

B.L.S. Liberal Studies, Armstrong Atlantic State University

Bradshaw, Alethia, Instructor, Adult Education

M.Ed. Adult Education Community Leadership, Armstrong Atlantic State University; B.B.A. Management, Savannah State University

Brannen, Tammy T., Director, Enterprise Technology Services

B.B.A. Marketing, Georgia Southern University

Brantley, Atina B., Administrative Assistant, Economic Development

B.S. Business Management, University of Phoenix

Brewer, Amanda M., Call Center/Switchboard Operator

A.A. Television-Video Production, Columbia College

Brow, Myrtle M., Accountant

A.A.T. Accounting, Savannah Technical College; A.A.T. Administrative Office Technology, Savannah Technical College; Diploma Accounting Records, Lively Technical Center; Diploma Accounting Operations, Lively Technical Center

Brown-Rhett, Stephanie, Instructor, Business Administrative Technology

M.A. Teaching and Learning with Technology, Ashford University; B.S. Computer Information Systems, St. Leo University; Diploma, Computer Operations, Savannah Technical College

Bullock, Thomas H., Dean of Adult Education

Ed.D. Higher Education Management, University of Pennsylvania; B.A. Physics, Xavier University of Louisiana

Burch, James C. H., Library Services Director

M.A. History, Georgia State University; M.L.I.S. Library & Information Science, University of South Carolina; B.A. Political Science, Armstrong Atlantic State University

Burns, William, Department Head/Instructor, Welding & Joining

Byrd, Tonya, Instructor, Mathematics

M.S. Mathematics, Georgia Southern University; B.S. Ed. Mathematics Education, Georgia Southern University;

C

Campbell, Veronica W., Evening Manager

A.A.T. Accounting, Savannah Technical College; A.A.T. Criminal Justice, Savannah Technical College; A.A.T. Administrative Office Technology, Savannah Technical College

Carrington, Jade L., Technology Support Specialist

B.A. Architecture, Southern Polytechnic State University; A.A.S. Networking Specialist, Savannah Technical College; Diploma, Network Specialist, Savannah Technical College

Carter, Cynthia M., Data Entry Specialist

Diploma, Accounting, Savannah Technical College

Caudell, Gearry, Instructor, Culinary Arts

A.S. Culinary Arts, Sullivan University

Chieves, Kevin L., Purchasing Manager

B.S. Commerce Business Administration, University of Alabama; Certificate, State Financial Management, University of Georgia; Certified Professional Public Buyer, Universal Public Purchasing Certification Council

Cisneros, Steven, Military Outreach Coordinator

B.S. Homeland Security, Troy University; A.A. General Education, Troy University

Clark, Connie A., Vice President for Administrative Services

M.B.A. Business, Georgia Southern University; B.B.A. Accounting/Public Accounting, Georgia Southern University

Clark, Jessica C., Campus Shop Manager

B.A. Theatre, Armstrong Atlantic State University; B.A. Art, Armstrong Atlantic State University

Cohen, Beverly A., Administrative Services Assistant

A.S. General Studies, Navarro College

Cole, Cynthia A., Academic Advisor, Health Sciences

M.A. Counseling, Marriage & Family Therapy, Liberty University; B.G.S. General Studies, Columbia College; A.A. General Office, American River College; A.A. Administrative Assistant, American River College

Cole, Mary M., Executive Director, CCR&R

M.Ed. Early Childhood Education, Armstrong Atlantic State University; B.A. Political Science, Armstrong Atlantic State University

Cook, Troy L., Librarian

M.L.I.S. Library & Information Science, Valdosta State University; B.A. Political Science, Valdosta State University

Correll, Allison M., Lead Instructor, Adult Education

M.A. English, Georgetown University; B.A. English Language and Literature, University of Virginia

Crider, Amanda M., Instructor, Biology

Ph.D. Neuroscience, Augusta University; B.A. Biology, Covenant College;

Cronsell, Elizabeth N., Instructor, EMT/Paramedic Technology

Diploma Paramedicine, Savannah Technical College; Certificate Advanced Emergency Medical Technician, Savannah Technical College; Georgia Advanced EMT;

Cullens, Doni A., Instructor, Practical Nursing

M.S.N. Nursing Education, Walden University; B.S. Nursing, Georgia Southern University; Georgia Registered Nurse

Curran, Benjamin R., Instructor, Historic Preservation

M.Ed. Heritage Studies/Historic Preservation, Plymouth State University; B.S. Biochemistry, University of New Hampshire

Cushman, Earnest, Instructor, Automotive Technology

A.G.S. General Studies, Central Texas College; Certified Master Automobile Technician, National Institute for Automotive Service Excellence

D

Daley, Amanda D., Instructor, History

M.A. History, Armstrong Atlantic State University; B.A. History, Armstrong Atlantic State University

Daly, Rachel, Department Head / Instructor, Drafting Technology

MUPDD, Levin College of Urban Affairs, Cleveland State University; B.A., College of Architectural and Environmental Design, Kent State University; A.A.S., Civil Engineering, Architectural Concentration, College of Engineering, Stark State College of Technology

Darnstaedt, Sherry, Accountant

B.B.A. Accounting, Brewton Parker College; A.A.T. Accounting, Savannah Technical College; A.A.T. Computer Science, Meadows Junior College; Certificate, State Financial Management, University of Georgia

Davis, Jr., James A., Director for Information Technology Services

A.A. General Studies, Middle Georgia State College; A.A. Early, Elementary, Middle, Special Education, Middle Georgia State College

Davis, Vicky J., Administrative Assistant to Vice President, Academic Affairs

Denham, Karen N., DFACS Conference Coordinator

A.A.T. CIS Microcomputer Specialist, Savannah Technical College; Certificate, MOUS Technician, Savannah Technical College; Certificate, Basic Computer Technician, Savannah Technical College

Derfus, Stephanie J., Department Head/Instructor, Dental Assisting

M.S. Career and Technical Education, University of Wisconsin – Stout; Certified Dental Assistant; B.S. Biology, University of Wisconsin- Stevens Point; Diploma Dental Assisting, Fox Valley Technical College

DeRoia, Dion R., Instructor, Criminal Justice

J.D. Law, Charlotte School of Law; M.S. Criminal Justice, Armstrong State University; B.S. Criminal Justice, Armstrong State University; Georgia Bar Admission

Dixon Jr., Claude, Maintenance Supervisor

Dorrier, Julia M., Campus Shop Assistant

B.S. Psychology & Christian Counseling, Liberty University

Dorsey, Secene, Academic Advisor, Industrial Technology

B.B.A. Business Marketing, Savannah State University

Douglas, Charles T., Instructor, English

M.A. English, University of North Carolina; B.A. English, Davidson College

Driggers, Dana M., Assistant Director, CCR&R
B.S. Child & Family Development, Georgia Southern University

Drinkard, Danielle K., Police Officer
Georgia Peace Officer, Georgia P.O.S.T.

Statement of Equal Opportunity Non-Discrimination Policy

The Technical College System of Georgia and its constituent Technical Colleges do not discriminate on the basis of race, color, creed, national or ethnic origin, sex, religion, disability, age, political affiliation or belief, genetic information, disabled veteran, veteran of the Vietnam Era, spouse of military member, or citizenship status (except in those special circumstances permitted or mandated by law). This nondiscrimination policy encompasses the operation of all technical college-administered programs, programs financed by the federal government including any Workforce Innovation and Opportunity Act (WIOA) Title I financed programs, educational programs and activities, including admissions, scholarships and loans, student life, and athletics. It also encompasses the recruitment and employment of personnel and contracting for goods and services.

The Technical College System and Technical Colleges shall promote the realization of equal opportunity through a positive continuing program of specific practices designed to ensure the full realization of equal opportunity. The following person has been designated to handle inquiries regarding the nondiscrimination policies:

EMPLOYEES:

Overseer Civil Rights Coordinator
